For Immediate Release

Building Services Work in Hand grows to a record \$270M with the award of Fiona Stanley Hospital Buildings to Triple 'M' Group

BSA Limited (ASX Code: **BSA**) is very pleased to announce that its Building Services Division, Triple 'M', has secured from Brookfield Multiplex the contract for the provision of HVAC Services for Buildings B and Y at the \$2 billion Fiona Stanley Hospital (FSH) project at Murdoch in WA.

The construction of FSH is WA's biggest infrastructure project and in dollar terms it is the largest single HVAC subcontract for any type of project ever to be let in Australia with an end value for the Mechanical Services in excess of \$130M.

When it opens in 2014, the 643 bed Fiona Stanley Hospital will be the southern metropolitan area's major tertiary hospital, home to a major trauma centre and the State burns service. It will offer cancer; paediatric; radiology; renal transplant and dialysis; obstetric and neonatology services; and replace Fremantle Hospital as the primary emergency care hospital in the south.

Group Managing Director of Triple 'M', Mark Lowe, said "The senior management team made two important strategic decisions in 2007, the first being to expand our geographical footprint into WA and the second was to increase our focus in the Health, Medical Research, and Institutional Buildings markets. The award of FSH along with Orange and Liverpool Hospitals in NSW and the Queensland Institute of Medical Research in QLD with a combined HVAC & Fire Services value in excess of \$180M has justified the investment we have made in these growth sectors of the Australian Building Services market".

Mark Lowe continued to say, "Triple 'M' is excited to be working with Brookfield Multiplex, AECOM and WA State Health to deliver this landmark project which is scheduled for completion in late 2013 and opening in 2014".

BSA Managing Director, Mark Foley added, "The award of FSH and recent project wins by the Allstaff Group has resulted in the Building Services Division forward order book growing to a record \$270M which will provide a strong platform for consistent earnings into the future and further enhances BSA's Building Services Divisions reputation in large scale, complex HVAC and Fire services to the Australian construction sector".
