## **Jackson Retires From Broncos Board**

After nearly nine years in the position, Mr Don Jackson has announced that he will retire from the board of Brisbane Broncos Limited, effective 31 December, 2010.

Mr Jackson joined the Broncos board in November 2001 after already having a long association with the NRL club.

He was an employee in the liquor industry for 25 years before his appointment to the Broncos board, having just retired from the position of Business Development Manager for Castlemaine Perkins.

Mr Jackson was so heavily involved with the Broncos even before his board appointment that back in October, 2001, he became the first person other than a player or director to be honoured with life membership.

He is currently still Chairman and Managing Director of DCBT Holdings Pty Ltd and Chairman of the Sunshine Coast Turf Club.

He is a director of Brisbane Markets Limited, FOGs Limited and the Sunshine Coast Helicopter Rescue Service Limited.

Broncos' Chairman, Mr Darryl Somerville, paid tribute to Mr Jackson.

"Don has been a wonderful contributor to this club in many roles, including the past nine years as a member of the Broncos Board," said Mr Somerville.

"His knowledge of the history of the club together with his undoubted expertise in marketing and his enthusiasm for developing close sponsor relationships has proved invaluable around the Board table.

"We are indebted to him for his wonderful contribution over an extended period."
