we're here for you

Put your *Projector* to work ...
onsite, at work or at home

Digistyle's pocket Projectors, literally fit in the palm of your hand, and make business presentations possible anywhere, anytime. Whether you choose the Digishow® or miniPRO® projector, you'll always be ready to make your pitch and will gain you a unique differentiation in one on one or small group presentations.

miniPRO® mini USB Projector

Digishow® Projector

Wesii® Projector
Wesii® audio dock

If you're a laptop user, miniPRO® is the product for you.

miniPRO®, the mini USB Projector, is the perfect companion for the serious professional. Anyone with a Notebook or Notebook needs a miniPRO®.

Great for small group professional presentations or entertaining at home, miniPRO® is simple to use. Two USB connectors draw the power and the content from the laptop, notebook or netbook. Plug it in your pocket or purse and you can display big screen images anywhere, anytime.

Digishow® will interface with your iPod®, iPhone® through an inexpensive Apple connector. It will interface with any smart phone with TV out capability enabling you to make your presentation on the run.

Digishow® will also interface with a digital camera, DVD or MP4 player, and with an AV connector, you can also project from a laptop, notebook or netbook, using this product. Simply save your corporate powerpoint, take presentations or building plans onto your smart phone, iPod® or laptop and you're ready to present. What could be simpler?

The Wesii® projector is technically the same product as the Digishow®. It's capable of doing the same work, but it's dressed for fun.

Wesii® has the same functionalities as the Digishow® but is aesthetically designed as a companion to the Nintendo Wii®.

When you get home tired from work, simply relax - pull out the Nintendo Wii® games console, dock your Wesii®, project into the Wesii® audio system and play with the kids. The Wesii® or the Digishow® will dock into the Wesii® audio system and can interface with any games console, DVD player or digital camera, giving you a Home Theatre in your hand.
