Perth, Western Australia – Diversified technology and intellectual property group, ipernica Ltd (ASX:IPR), today announced that the District Court for the Eastern District of Texas had ruled 100% in ipernica's favour following the Markman hearing which took place on Friday 25 March 2011, in respect of the Company's patent litigation against Ericsson (relating to ipernica's Statistical Multiplexing ("Stat Mux") patent).

At the Claim Construction (Markman) hearing, seven terms were in dispute. On the 28 March 2011, the Court issued its ruling, agreeing with ipernica's interpretation on all seven terms.

Markman hearings are pre-trial hearings at which each side presents their arguments to a judge, as to how the claims of the particular patent being asserted should be interpreted. This interpretation of the patent claims is applied by the jury at trial to determine infringement and validity of the patent.

The trial will commence on or soon after 6 September 2011.

ipernica Managing Director, Graham Griffiths, who attended the hearing, said "we are very pleased with this ruling and we look forward to the trial later this year".
