ARAFURA JOINS REE WORLD ADVISORY BOARD

Australian rare earths company **Arafura Resources Limited (ASX: ARU)** (**Arafura or the Company**) is pleased to advise that it has accepted an invitation to join the Advisory Board of the REE World organisation.

[REE World](#) is an international organisation dedicated to providing industry executives and investors with market intelligence, news highlights and media updates for the rare earths, rare metals and critical metals sector. It is committed to providing industry executives and investors with an organised voice on issues and events of importance in the sector, and to provide commentary for members on relevant global policies. REE World's primary conduit to disseminate informed commentary is [RareMetalBlog](#).

Arafura will be represented on REE World's Advisory Board by its General Manager Exploration and Development, Richard Brescianini. The Company's involvement with REE World follows its decision in December 2010 to join the Rare Earth Industry and Technology Association (REITA).

Arafura's Managing Director & CEO, Dr Steve Ward, commented, "We are very pleased to be part of both REE World and REITA. Both these organisations will have an increasingly important role to play as the Rare Earth industry becomes less Chinese-centric. Arafura's membership gives us the opportunity to contribute to key industry matters via these organisations as the Rare Earth industry evolves and Arafura advances its Nolans Project to production."
