Operating Update

RENTAL | SALES | PARTS | ASSET MANAGEMENT

Favourable Operating Conditions & Growth Outlook

Sustained mining activity driving strong utilisation in 1Q12

- ◆ **Global fleet utilisation at 90%**
 - Australia unprecedented high utilisation averaging 94%
 - Low Q1 activity in Canadian oilsands, utilisation currently at 72%
 - Indonesian major fleet redeployment recently completed with utilisation up to 83%
- ◆ **FY12 growth capital of \$165m to contribute to earnings uplift in 2H12**
- ◆ **Investing \$30m into Indonesian business in FY13 to benefit from coal volume growth**
- ◆ **Undertaking due diligence on geographic step-out in Chile**
- ◆ **FY12 earnings skewed ~60% to 2H12**

Emeco Group: Global Equipment Utilisation

Note:

Utilisation defined as % of fleet rented to customers (measured by WDV)

Regional Performance – Australian Rental

High utilisation underpinning FY11 returns with further growth from investment in 2H12

- ◆ Current utilisation of 96%; YTD average utilisation of 94% (FY11 average: 89%)
- ◆ Positive outlook for bulk commodities, gold & low cost producers
- ◆ Some labour cost pressure in Western Australia & Queensland slightly impacting margins
- ◆ 2H12 earnings growth through \$93.0M investment in large mining fleet
- ◆ Incremental investment is value creating for shareholders

Regional Performance - Indonesia

Challenging year in FY11 however strong fundamentals support return to historical performance

- ◆ Current utilisation of 83%; YTD average utilisation of 72% (FY11 average: 77%)
- ◆ Successfully redeployed most of fleet off-hired in FY11 across 1Q12
- ◆ Improved customer profile starting FY12
- ◆ New management team in place
- ◆ Positive underlying fundamentals with growth opportunities in Coal & Gold markets
- ◆ \$30m committed to growth capital for delivery in 1H13

Regional Performance - Canada

Low activity in 1Q12 but recent return to higher utilisation

- ◆ Current utilisation of 72%; YTD average utilisation of 44% (FY11 average: 78%)
- ◆ Summer works program in oil sands slower than expected, however recovery taking hold
- ◆ Fleet reconfiguration towards large mining equipment complete
- ◆ Opportunities to improve returns including through direct supply to oil sand producers and project sites in other commodities
- ◆ 4Q12 investment in large mining fleet (\$72m) and consolidation of existing fleet will improve future returns

Return on capital

Resetting the base...

- ♦ **ROC of 11.3%** at Jun-11 (8.3% Jun-10)
- ♦ Higher earnings through better use of asset base
- ♦ Evolution of **fleet mix** towards large mining equipment
- ♦ **Liberated \$56.1M** of underperforming capital across FY11
- ♦ Opportunities to **improve returns** particularly in Indonesia & Canada
- ♦ FY12 **growth capex** to deliver higher earnings and ROC
- ♦ Scale to benefit ROC through fixed cost and goodwill leverage

...to deliver higher future returns

Gearing & Facilities Headroom

Funding certainty and capacity in place to support medium term growth

- ◆ Debt refinance completed in Nov-10 with existing banking syndicate
 - Extended maturities
 - Sized for medium term growth
- ◆ Free cash flow will contribute toward FY12 growth investment
- ◆ Conservative gearing provides flexibility to pursue growth opportunities

Strategy

Growth – in the context of Emeco's Strategy

Restructure activities complete in FY11 with focus on Growth in FY12

Earn the right to grow

- ◆ Global restructuring - *complete*
- ◆ Canada – reconfigure fleet and improve returns – *complete*
- ◆ Indonesia – optimise the fleet and customer mix – *in progress*
- ◆ Business Improvement – *in progress*

Grow from a solid foundation

- ◆ Organic growth in large mining equipment in Australia & Canada - *ongoing*
- ◆ Organic growth in mining equipment in Indonesia – *1H13*
- ◆ Geographical step-out to Chile – *Under consideration (FY13)*

Identify other value creation opportunities aligned to strategy

- ◆ Scan market for complementary acquisition opportunities
- ◆ Evaluate opportunities to expand geographic footprint

FY12 Growth Capital Investment

Global procurement capability essential to growth given tight equipment market

- ◆ Global procurement capability giving Emeco access to quality equipment
- ◆ Existing growth capital commitments of \$165M for FY12, with \$60M paid for by June-11
- ◆ Growth capital is accretive to earnings & ROC in FY12 with full benefits realised in FY13
 - Lag effect of used equipment purchases
 - ROC improvement as asset depreciates
- ◆ Estimated sustaining capex of \$100M - \$120M in FY12

Cumulative payment & deployment of FY12 growth investment

Fleet Strategy

Continuing to evolve the fleet toward large mining equipment

Advantages of Large Mining Fleet

Notes:

* Includes Victorian Rental (classified as assets held for sale) and excludes rental inventories;

Civil defined as <70 tn artic trucks and related small ancillary equipment;

Small mining defined as <150 tn trucks and related mining equipment;

Large mining defined as 190+ tn trucks and related mining equipment.

Geographic step-out - Chile

Mining volume growth supports initial \$50m investment opportunity

Emeco's strategic benefits of Chile step-out

- ♦ **Commodity diversification** – opportunity to diversify into low cost, established copper mines with growing earthmoving volumes
- ♦ **End market diversification** – Chile's copper exports balanced across US, Europe and Asia (<40% exported to Asia/ China)
- ♦ **Alternate redeployment market** – provides practical alternate redeployment market
- ♦ **Geographic leverage** – platform to enter into other South American markets
- ♦ **Low risk** – no goodwill and low infrastructure
- ♦ **Procurement** – large population of mining equipment in country

Forecast Volume of Earth Moved

Outlook

Market Outlook

Global economic volatility has re-emerged but leveraged to low-cost commodities with large earthmoving volume requirements

Emeco Outlook

Emeco well positioned to capitalise on strong mining fundamentals

- ◆ Strong demand for mining equipment in an environment of long lead times
- ◆ FY12 growth capex commitment largely contracted
- ◆ Rental model works particularly well for owner miners but also has application with contractors
- ◆ 1H12 to achieve historically high levels of utilisation in Australia
- ◆ Strong winter season expected in Canada following an industry wide pause in activity in 1Q12
- ◆ Strong demand in Indonesia. New management team in place to focus on high quality customers
- ◆ Emphasis now on executing the growth capital pipeline, maintaining focus on strong financial position and Chile opportunity

Earnings composition

Improving capital turnover and consolidation of margins

Rental Revenue

- ◆ Reconfigured Canadian mining fleet and full year of high utilisation in QLD & WA major drivers of revenue growth
- ◆ Fleet mix change and rationalisation of invested capital translating to higher capital turnover

Earnings & Margins

- ◆ Pricing improving, however partially reflecting pass through of cost increases
- ◆ Margin improvement due to higher mix of Rental vs Sales/Parts revenue in FY11

Cash Flow

Strong operating cashflow and capital release has enabled investment for growth while returning funds to shareholders
