

ORION MANUFACTURING FACILITY, FINLAND

Acrux (ASX: ACR) today reported that production at Orion Corporation's manufacturing facility in Turku, Finland, has temporarily been suspended following a fire in the basement area of the facility.

The current supply of Axiron in inventory and in distribution has not been affected by the fire and at this time Acrux does not expect market supply to be interrupted.

Ventilation and cleaning of areas of the facility that suffered smoke damage is in progress. Orion has not yet estimated when it will resume production.

About Acrux

www.acrux.com.au

- Acrux is an Australian drug delivery company, developing and commercialising a range of patient-preferred, patented pharmaceutical products for global markets, using its innovative technology to administer drugs through the skin.
- Fast-drying, invisible sprays or liquids provide a delivery platform with low or no skin irritation, superior cosmetic acceptability and simple, accurate and flexible dosing. The technology platform is covered by broad and well-differentiated, issued patents.
- Acrux has two products marketed by licensees in the USA, two products approved in Europe, one product in registration in the USA and further products at earlier stages of development.
- Acrux received two 2010 Governor of Victoria Export Awards, including the Victorian Export Award for Innovation Excellence.
