NEC AUSTRALIA PLACES \$1.2M+ ORDER FOR BEAM IRIDIUM EQUIPMENT

World Reach Limited announced today that its wholly owned subsidiary Beam Communications Pty Ltd has received orders from NEC Australia in excess of \$1M for the supply of Iridium based voice and data transceivers.

The transceiver modules will be delivered before the end of the 2011 calendar year.

These modules are being deployed as part of a solution developed by NEC to provide satellite back up for in-vehicle all in one tracking, monitoring and voice communications that integrates various forms of 3G two-way radio and satellite communications for utility management vehicles.

Beam has had several orders from NEC over the last 12 months, this one being the most substantial, and values the ongoing relationship in supporting NEC to develop satellite based solution using Beam supplied equipment of strategic importance.

Yours faithfully

Michael Capocchi
Managing Director
