Perth, Western Australia – Digital media and technology commercialisation group, ipernica ltd (ASX:IPR) today announced that an additional action had been taken in the United States by its business associates against CDW Corporation and IBM Corporation for alleged patent infringement.

ipernica's business associates Financial Systems Technology (Intellectual Property) Pty Ltd and Financial Systems Technology Pty Ltd (together 'FST') have recently filed this new claim in the United States District Court for the Northern District of Illinois, Eastern Division. The claim alleges infringement of U.S. Patent No. RE40,520, entitled "Easily Expandable Data Processing System And Method," and RE40,063, entitled "Data Processing And Method For Maintaining Cardinality In A Relational Database".

U.S. Patent No. RE40,520 (fka U.S. Patent No. 5,826,259) was part of the recently settled patent infringement proceedings brought by FST against Oracle Corporation.

This new action is in addition to the action currently being taken against Microsoft and CDW Corporation that was announced on 19 October 2011.
