2.6 EXPLANATION

A diversified product range, following the development of 'ISatDock' docking units in 2010 and fixed terminal products in 2011 (both to suit the Inmarsat network) greatly benefited sales in 2011. In addition significant sales to NEC Australia, a new customer, as well as 'bundled' handset and accessory sales to Telstra boosted the period's revenues. Gross margins for standard products exceeded budget leading to the profit result for the half year which included an unrealised loss of \$153,238 on a foreign currency loan. The negative effect of the high A\$ on export sales denominated in US\$ was partially countered by lower cost manufacture in China.

DIRECTORS' REPORT

The Directors of World Reach Limited submit herewith the Condensed Consolidated Financial Report of World Reach Limited and controlled entities for the half-year ended 31 December 2011. In order to comply with the provisions of the Corporations Act 2001, the Director's report as follows:

Directors:

The names of the directors of the company during or since the end of the half-year are:

Non-Executive Directors:

Mr Anthony Peter Bigum Mr John Gordon McCormack

Managing Director:

Mr Michael Ian Capocchi

Each of the above named Directors held office at all times during and since the end of the half-year.

Review of Operations

The consolidated group financial results for the half-year ended 31 December 2011 and comparative results for the half-year ended 31 December 2010 are as follows:

	1 July 2011 to 31 Dec 2011	1 July 2010 to 31 Dec 2010
Revenue Operating expenses	7,283,022 (6,901,217)	3,661,529 (3,988,257)
Operating profit / (loss) before interest and tax Interest	381,805 (164,062)	(326,728) (163,878)
Profit/(loss) for the period	217,743	(490,606)

The consolidated group's principal activity during half-year ended 31 December 2011 has been the development, manufacture and global distribution of satellite communication terminals, handheld phone accessories and tracking devices, specifically developed for the Iridium and Inmarsat satellite networks.

In the six month period Beam Communications Pty Ltd ("Beam"), a wholly owned subsidiary of World Reach Limited, continued to invest in new product development of accessory products suitable for the two major global satellite systems. In mid 2011 development of a range of fixed terminal products which utilize the Inmarsat network ('Terra' and 'Oceana'), was completed and sales began in July 2011. These 'fixed' products complement the 'mobile' 'ISatDock' docking units developed in 2010; docking unit sales continuing strongly throughout 2011. Work is nearing completion on a new docking unit for the recently released Iridium 9575 'Extreme' satellite phone handset. The diversified range greatly benefited sales in 2011.

Revenue for the half year to 31 December reached \$7.3m, up 99% on the same period in the prior year. Significant sales to NEC Australia, a new customer, as well as 'bundled' handset and accessory sales to Telstra boosted the period's result and further orders are expected, however exports still accounted for 61% of all revenue.

Gross margins for Beam's standard products exceeded budget and assisted the generation of a profit result for the half year of \$217,743 including an unrealised loss of \$153,238 on the foreign currency Inmars at Ioan. This follows a profit for the 6 months to 30 June 2011 of \$306,953 which included an unrealised gain of \$171,741 on the Ioan. New products released to the market and the outsourcing of a substantial portion of the Company's manufacturing to China has partially countered the negative effect of the high A\$ due to a significant portion of the group's sales being denominated in US\$.

The future growth of Beam's products in the world market requires an international presence. In September 2011 a consultant based in London was appointed to further Beam's marketing expansion in the European region, to complement a similar arrangement in North America. European marketing activity has increased as a result and the consultant is also examining potential opportunities for new products and services with Beam's distribution partners.

DIRECTORS' REPORT

Review of Operations (continued)

To assist in the provision of working capital funds to support the trading growth of the group's business, as well as new product development, share placements in August 2011 raised \$224,742 and December 2011 raised \$368,349 and a shareholder share purchase plan in September 2011 raised \$104,000.

The loan from Inmarsat of US\$3.18m which was used to fund the initial ISatDock developments and market implementation has been reduced to US\$2.38m following two bi-annual payments. Inmarsat allowed one of the payments to vary from the agreed percentage of sales in support of Beam's cash flow position. In February 2012 the basis for amendments to the loan contract was agreed such that the repayments will better coincide with Beam's cash position. It was also agreed to pay the arrears from the September 2011 payment, which the group intends to partly fund with a further capital raising of \$200,000 in April 2012.

Eleven convertible notes with a total face value of \$275,000 were converted to equity in November/December 2011. The remaining notes with a total face value of \$1,175,000 have a maturity date of 1 July 2013 but can be converted to equity at any time prior to that date. The conversion price per share of \$0.002 is now attractive when measured against the current share price.

The group's cash position remains tight, however the Directors believe the financial position is satisfactory. The achievement of profitable trading and positive cash flows from operations, the continuation of current banking facilities, the provision of short term loans from Directors and a shareholder and the continuing support of creditors and financiers will provide the Group with sufficient cash flows to continue as a going concern.

Significant changes in the state of affairs

There have been no significant changes in the consolidated group's state of affairs during the period.

Auditor's Declaration of Independence

The auditor's independence declaration is included in the half-year financial report.

Signed in accordance with a resolution of directors made pursuant to Section 306(3) of the Corporations Act 2001.

On behalf of the directors.

Mr Anthony Bigum

Chairman

Signed in Melbourne, 28 February 2012

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2011

1. Summary of significant accounting policies

(i) Statement of compliance

The condensed consolidated half-year financial report is a general purpose financial report that has been prepared in accordance with the Corporations Act 2001 and AASB 134 Interim Financial Reporting. Compliance with AASB 134 ensures compliance with International Financial Reporting Standards IAS34 Interim Financial Reporting. The half-year financial report does not include notes of the type typically included in an annual financial report and should be read in conjunction with the most recent annual financial report.

(ii) Basis of preparation

The condensed consolidated half-year financial report has been prepared on an accruals basis and is based on historical costs modified where applicable by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied. All amounts are presented in Australian Dollars.

(iii) Going concern

The Financial Report has been prepared on a going concern basis which assumes that the Group will be able to generate sufficient positive cash flows to meet its financial obligations, realise its assets and extinguish its liabilities in the normal course of business

The consolidated Group's trading results for the six months ended 31 December 2011 and the financial position of the Group at that date can be summarized as:

	31 December 2011	31 December 2010
	\$	\$
Profit / (Loss) for the half year	217,743	(490,606)
Cash provided by / (used in) operating activities	(97,202)	(792,243)
Net assets / (deficiency)	204,583	(1,306,832)
Net current assets / (deficiency)	744,753	(1,351,843)

The adoption of the going concern basis for the preparation of the Financial Report has been made after consideration of the following matters:

- 1. The Group has achieved profitable trading results in each financial quarter of the 2011 calendar year and positive cash flows from operations for the twelve months to 31 December 2011 and is forecasting a continuation of profitable trading and positive cash flows from operations for the twelve months ending 31 December 2012. The forecast trading profits and positive cash flows are based on a continuation of existing economic conditions and exchange rates similar to those at the date of this report. The forecast includes an increase in sales of existing products and additional sales of new products released in February 2012. Any material variation in economic conditions, exchange rates or the acceptance level for the new products will affect the timing and amount of sales and will have a consequential effect on future profits and cash flows.
- 2. Liabilities included an amount of \$2,351,418 payable to Inmarsat Global Ltd ('Inmarsat'). This loan was provided to the Group for the design, development, marketing and inventory build-up of new products specifically for satellite phones used in the Inmarsat satellite communications network. The agreement with Inmarsat provides for these loans to be repaid in six monthly instalments twice a year. The amount of each instalment is to be equal to a percentage of the sales of the developed products in the six month period ending 30 days prior to the due date of the instalment. Inmarsat had previously advised the Group that it presently anticipated showing flexibility around the timing of the payment of further instalments if insistence on payment on the due dates would cause significant financial difficulties for the Group. During February 2012 World Reach and Inmarsat entered into negotiations to amend the six monthly instalment terms at reduced percentages of the sales of Inmarsat products. At the time of this report both parties have agreed in principle to amend the loan agreement but the revision agreement has not yet been finalised. Inmarsat has confirmed that up until the revised loan contract is finalised it does not presently intend to place the Group in a situation of financial distress at any point.
- 3. The revised Inmarsat loan agreement provides for a one-off payment to cover the arrears from the September 2011 payment of approximately \$288,000 by 30 April 2012.
- 4. Two World Reach Directors and a shareholder have provided commitments to the Group to provide additional funds up to \$150,000 by way of unsecured loans for a period of up to six months if the Group requires.
- 5. The Group has current banking arrangements which provide for overdraft facilities of \$1,000,000 and guarantee facilities of \$100,000. Continuation of these arrangements is subject to the Group satisfying specific covenants which are reviewed by the bank quarterly, including lodgement with the bank of a deposit of \$500,000. The Group has satisfied these covenants for the four quarters to 31 December 2011 and anticipates continuing to satisfy these covenants in the future resulting in an expected continuation of the banking facilities.

The achievement of profitable trading and positive cash flows from operations, the continuation of current banking facilities, the provision of short term loans from Directors and a shareholder and the continuing support of creditors and financiers will provide the Group with sufficient cash flows to continue as a going concern.

NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF-YEAR ENDED 31 DECEMBER 2011

1. Summary of significant accounting policies (continued)

(iv) Accounting Policies

The accounting policies applied in preparing these condensed consolidated financial statements for the half-year ended 31 December 2011 are the same as those applied by the consolidated entity in its consolidated annual financial report as at and for the year ended 30 June 2011.

Bank Facilities

All bank facilities are secured by first ranking Registered Mortgage Debenture over the Consolidated Group's assets including uncalled capital and called but unpaid capital.

Secured convertible notes

At 31 December 2011, 47 convertible notes each with a total face value \$25,000, totalling \$1,175,000 were outstanding on the following terms:

Maturity date
Conversion price
Interest rate
Potential ordinary shares on conversion
July 2013
\$0.0020
\$8%
587,500,000

Note holders were issued with 91,406,250 options to subscribe for shares in the Company at various exercise prices.

During the half-year ended 31 December 2011, Note holdings valued at \$275,000 were converted to share capital.

Secured by a second ranking fixed and floating charge over all the assets of the parent company.

Secured advances under contract

During the half-year the Company made repayments of advances under a contract with Inmarsat Global Limited of \$304,940. The loan was subject to an unrealised foreign exchange loss to 31 December 2011 of \$153,238. The loan was made in order to develop and begin the manufacture of docking units compatible with the Inmarsat hand held satellite phone. These advances are secured by a fixed and floating charge over the assets of Beam Communications Pty Ltd a subsidiary of the parent company, are non-interest bearing and are to be repaid as a percentage of the sales proceeds of the docking units.

The Company entered into a Share Subscription Agreement dated 20 December 2011 whereupon subscription monies amounting to \$368,439 were received prior to 31 December 2011. The shares were registered on 5 January 2012. The monies received have been included in issued capital as unalloted share capital. The Consolidated Statement of Cash Flows includes this amount in Net Proceeds on Share Placements.

8 Segment reporting

Sole operating segment

The Consolidated Group has identified its sole operating segment based upon internal reports that are reviewed and used by the Directors in assessing performance and determining the allocation of resources in respect of its satellite communications products and services.

Revenue and results are fully disclosed in the Consolidated Statement of Comprehensive Income for the sole operating segment.

The Consolidated Statement of Financial Position discloses the sole operating segment assets and liabilities which are held within Australia.

DIRECTORS' DECLARATION

The directors' of the company declare that the financial statements and notes as set out in pages 5 to 13 are in accordance with the Corporations Act 2001:

- (a) Comply with Australian Accounting Standard AASB 134 "Interim Financial Reporting" and the Corporations Act 2001, and
- (b) Give a true and fair view of the financial position of the consolidated entity as at 31 December 2011 and of its performance as represented by the results of its operations and its cash flows, for the half-year ended on that date.

In the directors' opinion, there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

Signed in accordance with a resolution of directors made pursuant to Section 306(3) of the Corporations Act 2001.

On behalf of the directors.

Mr Anthony Bigum

Chairman

Signed in Melbourne, 28 February 2012

An independent Victorian Partnership ABN 27 975 255 196

WORLD REACH LIMITED ABN: 39 010 568 804 AND CONTROLLED ENTITIES

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF WORLD REACH LIMITED

Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of World Reach Limited and controlled entities, which comprises the condensed consolidated statement of financial position as at 31 December 2011, the condensed consolidated statement of comprehensive income, condensed consolidated statement of changes in equity and condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the period's end or from time to time during the half year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2011 and its performance for the half- year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of World Reach Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act* 2001.

An independent Victorian Partnership ABN 27 975 255 196

WORLD REACH LIMITED ABN: 39 010 568 804 AND CONTROLLED ENTITIES

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF WORLD REACH LIMITED

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of World Reach Limited and controlled entities is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2011 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 Interim Financial Reporting and Corporations Regulations 2001.

Emphasis of matter

Without qualification to the opinion expressed above, attention is drawn to the matters set out in Note 1 (iii) to the financial statements – Going Concern.

The adoption of the going concern basis has been made after consideration of profitable trading and positive cash flows from operations, the continuation of current banking facilities, the provision of short term loans from Directors and a shareholder and the continuing support of creditors and financiers. Achievement of all of these conditions indicates the existence of a material uncertainty that may cast doubt about the company's ability to continue as a going concern. If the going concern basis is found to no longer be appropriate the company may be unable to realise its assets and discharge its liabilities in the normal course of business.
