Review of Operations

Clover Corporation Limited ("Clover") has reported a profit after tax of \$1.70 million for the half year ended 31 January 2012 (31 Dec 2010: \$1.95 million). The result was affected by the Company recognising a loss of \$970,000 against the property and assets held in Future Food Ingredients Pty Limited (FFI) made up of \$220,000 for interest and holding costs and a provision of \$750,000 arising under the company's joint guarantee to FFI's banker.

The core business of Clover (excluding the FFI adjustment mentioned above) has recorded a net profit from ordinary activities after tax of \$2.67 million (31 Dec 2010: \$1.95 million), an increase of 36.6%.

Financial Highlights

- Clover's core business is the development, manufacture and sale of omega-3 oils and encapsulated bioactive ingredients for infant formula, children's foods, supplements and medical foods. This core business continued its strong growth during the half year under review. Sales revenue for the period increased by 27.8% to \$17.9 million (31 Dec 2010: \$14.0 million) with a significant expansion of sales in Asia and Oceania.
- Clover Corporation has changed its reporting year to the 12 months ended 31 July. A review of the company's performance on the basis of the same period rather than by reporting period would show a revenue increase of approximately 16.5% (6 months to 31 Jan 2011: \$15.39 million).

Operational Highlights

- A 3 year supply agreement was signed with a multi-national infant formula manufacturer to which the Clover Corporation subsidiary Nu-Mega Ingredients Pty Ltd (Nu-Mega) has been a supplier for more than a decade.
- The Distribution Agreement with Corn Products International for the sale of Nu-Mega's ingredients in functional foods in the America's and Europe has been terminated. Negotiations are underway for these territories with new distributors who have better access to the functional foods market. Nu-Mega will continue its successful program of in house marketing of its products for infant formula and related applications world wide.

- Capital expenditure has increased in association with a program to upgrade the Altona facility to support increasing manufacturing activity and product sales.
- Increased expenditure on Research and Development (+12.7%) to \$701,000 (31 Dec 2010: \$622,000) in support of the expanding innovation and product development pipeline.
- Customer trials are underway evaluating 5 new products released by Nu-Mega Ingredients from the product development pipeline in 2011. It is anticipated that sales of these products will progressively make a significant impact over the next two to three years.
- Clover Corporation is increasingly seeking patent protection for the novel value added products it develops. This strategy has allowed the company to begin exploring opportunities for licensing of technology for which there is a significant market but which the company is not in a position to manufacture itself.
- Clover Corporation Limited has commenced a \$1.2 million 3-year research program with the CSIRO under the auspices of the Australian Growth Partnership (AGP) Program. The AGP program assists in the delivery of research by high-potential small-to-medium size enterprises where this aligns with the CSIRO's Flagship programs. The AGP program is investigating how nutritional bioactives can be combined in formulas with essential omega-3 fatty acids to improve their stability in processing and to enhance their nutritional impact. The major target market for the products to be developed by this research program are in infant formula and children's food.
- Improvements continue to be made to the Company's operational and reporting systems. These improvements are leading to increased efficiencies and reduced costs.

FFI continues to negotiate the sale of its soy flour mill in Moree. As a result of indicative offers to date the company has recognised a \$970,000 loss against the property and assets held in FFI made up of \$220,000 for interest and holding costs and a provision of \$750,000 arising under the company's joint guarantee to FFI's banker.

The outlook for the company, based on the normal operations, continues to be positive for the second half of the year.

The amendments to various Standards provide clarification and guidance relating primarily to disclosures, including matters prescribed by AASB 134 Interim Financial Statements. Disclosures have been amended, as appropriate.

**INDEPENDENT REVIEW REPORT
TO THE MEMBERS OF CLOVER CORPORATION LIMITED
REPORT ON THE HALF YEAR FINANCIAL REPORT**

We have reviewed the accompanying half-year financial report of Clover Corporation Limited (the consolidated entity) which comprise the statement of financial position as at 31 January 2012, and the statement of comprehensive income, statement of changes in equity and cash flow statement for the half-year ended on that date, a statement of accounting policies, other selected explanatory notes and the director's declaration.

Directors' Responsibility for the Half-Year Financial Report

The directors of the consolidated entity are responsible for the preparation and fair presentation of the half-year financial report in accordance with Australian Auditing Standards (including the Australian Accounting Interpretations) and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation and fair presentation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 of a *Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, anything has come to our attention that causes us to believe that the financial report is not presented fairly, in all material respects, in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 January 2012 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Clover Corporation Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.

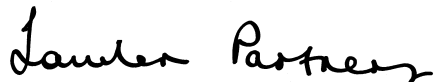

INDEPENDENT REVIEW REPORT

TO THE MEMBERS OF CLOVER CORPORATION LIMITED

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half-year report of Clover Corporation Limited does not present fairly, in all material respects, the financial position of the consolidated entity as at 31 January 2012, and of its financial performance and its cash flows for the half-year ended on that date, in accordance with the *Corporations Act 2001*, Accounting Standard AASB 134: *Interim Financial Reporting* and the *Corporations Regulations 2001*.
