The contracts are with major customers in the oil and gas, iron ore and coal sectors.

Yours sincerely,

Philip Trueman
Company Secretary

ASX RELEASE

2 April 2012

Monadelphous Contracts Update

Leading engineering group Monadelphous Group Limited (ASX:MND) ("Monadelphous" or "the company") today announced it has been awarded construction and maintenance contracts in Western Australia (WA) and Queensland with a combined value of approximately \$220 million. The contracts are with major customers in the oil and gas, iron ore and coal sectors.

The new construction work secured comprises:

- A variation to an existing contract with Rio Tinto at its Cape Lambert Port B Project in WA for the supply and installation of the new iron ore car dumper at the port. Work will commence immediately and is scheduled to be completed in the first half of calendar year 2013.
- An additional contract secured by the Monadelphous Muhibbah Marine Joint Venture (MMM) for the construction and commissioning of a shiploader associated with Wiggins Island Coal Export Terminal Pty Ltd's (WICET) Project at Gladstone in Queensland. This contract follows the previously announced contract for the construction of the approach jetty and ship berth for the WICET Project currently under way through MMM. The work is scheduled for completion in the first quarter of calendar year 2014.
- A contract for the supply of fabricated steelwork and mechanical components for the stacker bridges and runway support gantries associated with the coal stockyard for WICET. Completion is scheduled for the first quarter of calendar year 2013.

The maintenance work secured comprises:

- A new three-year maintenance services contract for Woodside on the Pluto LNG Project ("Pluto") at Karratha in WA. The contract includes work associated with its onshore and offshore facilities and has the option for two one-year extensions. It follows Monadelphous's delivery of major construction services and commissioning support at Pluto through its Engineering Construction division since 2009.
- A 12-month extension to the general maintenance services and projects contract with Chevron at its Barrow Island and Thevenard Island (WA) LNG operations.

The latest contracts take the total value of work secured by Monadelphous in the 2012 financial year to approximately \$1.8 billion.

"We are pleased to be involved with these significant projects, which extend our valued relationships with key resources and energy customers," Monadelphous Managing Director Rob Velletri said.
