ASX Release

EOL Releases Appendix 4E - Preliminary Final Report for the Year Ended 30 June 2012

Appendix 4E (listing rule 4.3A) - Preliminary Final Report for the Year Ended 30 June 2012 should be read in conjunction with the 2012 Annual Report.

Energy One Limited

Rminhas

Reena Minhas

Company Secretary

APPENDIX 4E – PRELIMINARY FINAL REPORT FOR THE FINANCIAL YEAR ENDED 30 JUNE 2012

ABN 37 076 583 018 ASX CODE: EOL

RESULTS FOR ANNOUNCEMENT TO THE MARKET

	June 2012 \$	June 2011 \$	Change \$	Change %
Sales Revenue and other Income	3,153,751	4,263,345	(1,109,594)	Down 26%
Total comprehensive income / (loss) after tax attributed to owners of the parent entity	(713,133)	(780,954)	67,821	Up 9%
Net tangible assets per security	\$0.18	\$0.25	(\$0.07)	Down 28%

Dividends Paid or Recommended

There were no dividends paid or declared for payment during the year. No dividends have been declared or paid since year end.

Review of Operations and Financial position

Total revenue and other income for the year was \$3,153,751. Of this revenue, \$118,020 was interest earned from cash held at banks and on term deposits and \$773,541 from Government Grants. All other income was from the software business, in which the direct project related costs were \$207,752.

After wages of \$2,405,643, depreciation and amortisation of \$320,863, other expenses of \$923,984 and an impairment loss and write offs on intangible assets of \$8,641 the company produced a net loss after tax of \$713,133 (2011: \$780,954 Net Profit After Tax).

As of 30 June 2012 the Group had \$1,844,568 cash on hand and no significant long-term liabilities.

Significant Changes in State of Affairs

There were no significant changes in the state of affairs for the company during the 2012 financial year, other than those that are described above

After Balance Date Events

There has been no other after balance date transactions that have significantly affected or may significantly affect the operations of the company, the result of those operations or the state of affairs of the company subsequent to the year ended 30 June 2012.

Details of entities over which control has been granted or lost

On 1 May 2012 the Company acquired the assets, business and existing customers of a Software business. Refer to Note 25 to the consolidated financial report.

Compliance Statement

This report is based on the consolidated financial report which has been subject to audit.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of the material accounting policies adopted by the consolidated entity in the preparation of the financial report. The accounting policies have been consistently applied, unless otherwise stated.

The separate financial statements of the parent entity, Energy One Limited have not been presented within this financial report as permitted by amendments made to the Corporations Act 2001 effective as at 28 June 2010.

(a) Basis of preparation

Energy One Limited is a for-profit entity for the purpose of preparing the financial statements.

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with all International Financial Reporting Standards (IFRS). Material accounting policies adopted in the preparation of this financial report are presented below and have been consistently applied unless otherwise stated.

These financial statements have been prepared on an accruals basis under the historical cost convention, as modified by the revaluation to fair value of financial assets and liabilities (including derivative instruments).

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed at note 1(r).

The financial statements are presented in Australian dollars, which is Energy One Limited's functional and presentation currency.

(b) Principles of consolidation

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of Energy One Limited ("company" or "parent entity") as at 30 June 2012 and the results of all subsidiaries for the year then ended. Energy One Limited and its subsidiary together are referred to in this financial report as the group or the consolidated entity.

Subsidiaries are all entities (including special purpose entities) over which the group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are de-consolidated from the date that control ceases.

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries are consistent with policies adopted by the Group.

(c) Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the strategic steering committee.

The group operates in a single aggregate business segment, being the supply of software and services to the electricity sector. The company operates in a single geographic segment, being Australia.

There has been no impact on the measurement of the company's assets and liabilities.

(d) Revenue recognition

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of allowances, duties and taxes paid.

Software Licence Fee Revenue

Revenue from licence fees due to software sales is recognised on the transferring of significant risks and rewards of ownership of the licenced software under an agreement between the Company and the customer.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

(d) Revenue recognition (cont.)

Project and Implementation Services Revenue for Licence

Revenue is determined with reference to the stage of completion of the transaction at reporting date and where outcome of the contract can be estimated reliably. Stage of completion is determined with reference to the services performed to date as a percentage of total anticipated services to be performed. Where the outcome cannot be estimated reliably, revenue is recognised only to the extent that related expenditure is recoverable. Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets. All revenue is stated net of the amount of goods and services tax (GST).

Unearned Support and Maintenance Services Revenue

Amounts received from customers in advance of provision of services are accounted for as unearned revenue.

Unbilled Revenue

Amounts recorded as unbilled revenue represents revenues recorded on projects not yet invoiced to customers. These amounts have met the revenue recognition criteria but have not reached the payment milestones contracted with customers.

(e) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred tax assets and liabilities are recognised for temporary differences at the tax rates expected to apply when the assets are recovered or liabilities are settled, based on those tax rates which are enacted or substantially enacted. The relevant tax rates are applied to the cumulative amounts of deductible and taxable temporary differences to measure the deferred tax asset or liability. An exception is made for certain temporary differences arising from the initial recognition of an asset or a liability. No deferred tax asset or liability is recognised in relation to these temporary differences if they arose in a transaction, other than a business combination, that at the time of the transaction did not affect either accounting profit or taxable profit or loss.

Deferred tax assets are recognised for deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Current and deferred tax balances attributable to amounts recognised directly in other comprehensive income or directly in equity are also recognised directly in other comprehensive income or directly in equity, respectively.

(i) Investment allowances

Companies within the group may be entitled to claim special tax deductions for investments in qualifying assets (investment allowances). The group accounts for such allowances as tax credits, which means that the allowance reduces income tax payable and current tax expense. A deferred tax asset is recognised for unclaimed tax credits that are carried forward as deferred tax assets.

(f) Impairment of assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units).

(g) Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

(h) Leases

Leases of fixed assets, where substantially all the risks and benefits incidental to the ownership of the asset, but not the legal ownership, are transferred to the Group are classified as finance leases. Finance leases are capitalised by recording an asset and a liability equal to the present value of the minimum lease payments, including any guaranteed residual values. Leased assets are depreciated on a straight line basis over their estimated useful lives where it is likely that the Company will obtain ownership of the asset, or over the term of the lease. Lease payments are allocated between the reduction of the lease liability and the lease interest expense for the period.

Lease payments for operating leases, where substantially all the risks and benefits remain with the lessor, are charged as expenses in the periods in which they are incurred. Lease incentives received under operating leases are recognised as a liability and amortised on a straight line basis over the life of the lease term.

(i) Plant and equipment

Plant and equipment is stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs, maintenance and minor renewals are charged to the income statement during the financial period in which they are incurred.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Depreciation of assets is calculated using the straight line method to allocate their cost, net of their residual values, over their estimated useful lives, at the following rates:

Plant and equipment 25%-40%

The cost of improvements to or on leasehold properties is amortised over the unexpired period of the lease or the estimated useful life of the improvement to the Group, whichever is shorter. The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. Gains and losses are included in the consolidated statement of comprehensive income.

(j) Intangible assets

Goodwill

Goodwill represents the excess of the cost of the acquisition of the net assets of an acquired company or business over the fair value of the Group's share of its net identifiable assets at the date of acquisition. Goodwill is included in intangible assets. Goodwill is not amortised. Instead, goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired. Goodwill is carried at cost less accumulated impairment losses. Goodwill has been tested and, as at 30 June 2012, there has been no impairment.

Software

Costs incurred in the development of software are capitalised only when technical feasibility studies identify that the project will deliver future economic benefits and these benefits can be reliably measured. Development costs have a finite estimated life of five years and are amortised on a systematic basis matched to the future economic benefits over the useful life of the project. Costs capitalised include external direct costs of materials and services, direct payroll and payroll related costs of employees time spent on the project. The amortisation period is 60 months.

Licences and Trademarks

Licences and trademarks represent the cost of registering trademarks and licence fees. The amortisation is reflected over the life of the asset.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

(k) Trade and other payables

Trade and other payables represent liabilities for goods and services provided to the Group prior to the end of financial year which had not been settled at balance date. The amounts are unsecured and are usually paid within 60 days of recognition.

(I) Financial Instruments

Recognition and Initial Measurement

Financial assets and financial liabilities are recognised when the entity becomes a party to the contractual provisions to the instrument. For financial assets, this is equivalent to the date that the company commits itself to either the purchase or sale of the asset (i.e. trade date accounting is adopted).

Financial instruments are initially measured at fair value plus transaction costs, except where the instrument is classified 'at fair value through profit or loss', in which case transaction costs are expensed to profit or loss immediately.

Classification and subsequent measurement

Finance instruments are subsequently measured at either of fair value, amortised cost using the effective interest rate method, or cost. Fair value represents the amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties. Where available, quoted prices in an active market are used to determine fair value. In other circumstances, valuation techniques are adopted. The effective interest rate is the interest rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate a shorter period of the net carrying amount of the financial asset or liability.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are subsequently measured at amortised cost.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are either not suitable to be classified into other categories of financial assets due to their nature, or they are designated as such by management. They comprise investments in the equity of other entities where there is neither a fixed maturity nor fixed or determinable payments.

Derecognition

Financial assets are derecognised where the contractual rights to receipt of cash flows expires or the asset is transferred to another party whereby the entity no longer has any significant continuing involvement in the risks and benefits associated with the asset. Financial liabilities are derecognised where the related obligations are either discharged, cancelled or expired. The difference between the carrying value of the financial liability extinguished or transferred to another party and the fair value of consideration paid, including the transfer of non-cash assets or liabilities assumed, is recognised in profit or loss.

Financial liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

Derivative instruments

Derivative instruments are measured at fair value. Gains and losses arising from changes in fair value (mark to market) are taken to the income statement unless they are designated as cash flow hedges. There were none held in the 2012 financial year.

Fair value

Fair value is determined based on current bid prices for all quoted investments. Valuation techniques are applied to determine the fair value for all unlisted securities, including recent arm's length transactions, reference to similar instruments and option pricing models.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

(I) Financial Instruments (cont.)

Impairment

The group assesses at the end of each reporting period whether there is objective evidence that a financial asset or group of financial assets is impaired. If there is evidence of impairment for any of the group's financial assets carried at amortised cost, the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows, excluding future credit losses that have not been incurred. The cash flows are discounted at the financial asset's original effective interest rate. The loss is recognised in the statement of comprehensive income.

(m) Employee benefits

Wages and salaries, annual leave and sick leave

Liabilities for wages, salaries and superannuation benefits including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in other payables and provision for employee benefits in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled, including appropriate on-costs. Liabilities for non-accumulating sick leave are recognised when the leave is taken and measured at the rates paid or payable. Employee benefits payable later than 12 months have been measured at the present value of the estimated future cash outflows to be made for those benefits.

Long service leave

A provision for long service leave is taken up for all employees. In calculating the present value of future cash flows in respect of long service leave, the probability of long service leave being taken is based on historical data.

Equity-settled compensation

The Company operates a number of share-based compensation plans. These include a share option arrangement and an employee share scheme. The bonus element over the exercise price of the employee services rendered in exchange for the grant of shares and options is recognised as an expense in the income statement. The total amount to be expensed over the vesting period is determined the fair value of the shares of the options granted.

Employee option plan

The establishment of the Energy One Employee Option Plan (EOP) was approved by shareholders at the extraordinary general meeting held on 2 April 2007. The EOP was designed to provide long term incentives for directors to deliver long term shareholder returns.

The Tax Paid Option Plan (TPOP) was established on 31st December 2009. The TPOP allows the Company to grant options or rights to acquire ordinary shares in Energy One to selected key employees and selected Directors, subject to satisfying performance and service conditions set down at the time of offer.

The fair value of options granted under both plans is recognised as an employee benefit expense with corresponding increase in equity. The fair value is measured at grant date. The fair value at grant date is measured using a Black-Scholes option pricing model that takes into consideration the exercise price, the term of the option, the impact of dilution, and the share price at grant date.

The fair value of options granted is recognised as an employee benefit expense with a corresponding increase in equity (share-based payments reserve). The fair value is measured at grant date and recognised over the period during which the employees become unconditionally entitled to the options.

Upon the exercise of options, the exercise proceeds received are allocated to share capital and the balance of the share-based payments reserve relating to those options is transferred to share capital.

Employee share plans

The establishment of the Energy One Exempt Employee Share Plan (EESP) was approved by shareholders at the extraordinary general meeting held on 2 April 2007. The EESP was designed to encourage employees to own shares in the Company. All employees with more than 12 months service may enter the plan whereby each year they can purchase \$500 worth of shares in the Company and the Company will purchase \$500 worth of shares on their behalf. Employees may elect not to participate in the scheme.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

(m) Employee benefits (cont.)

The establishment of the Energy One Deferred Employee Share Plan (DESP) was approved by shareholders at the extraordinary general meeting held on 2 April 2007. The DESP was designed to encourage employees to own shares in the Company. Invited employees may acquire shares in the Company via salary sacrifice. Employees may elect not to participate in the scheme.

(n) Issued capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options, are shown in equity as a deduction, net of tax, from the proceeds.

If the Company reacquires its own equity instruments, (e.g. as the result of a share buy-back), those instruments are deducted from equity and the associated shares are cancelled. No gain or loss is recognised in the profit or loss and the consideration paid including any directly attributable incremental costs (net of income taxes) is recognised directly in equity.

(o) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office. In these circumstances, the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from or payable to the Australian Taxation Office, are classified as operating cash flows.

(p) Earnings per share

Basic earnings per share is determined by dividing the operating profit/(loss) after income tax attributable to members of the Company by the weighted average number of ordinary shares outstanding during the financial year.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share by taking into account any change in earnings per share that may arise from the conversion of options or convertible notes or other quasi equity instruments on issue at financial year end, into shares in the Company at a subsequent date.

(q) Comparative figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(r) Critical accounting estimates and judgements

The directors evaluate estimates and judgments incorporated into the financial report based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

(r) Critical accounting estimates and judgements (cont.)

Key Estimates — Impairment

The Group assesses impairment at each reporting date by evaluating conditions specific to the Group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates. Any impairment is advised in note 12.

Key Estimates — Research & Development Tax Incentive

The Group recognises R&D Tax Incentive based on guidelines from the ATO and AusIndustry. Eligible overheads are apportioned to Research and Development based on R&D hours as a percentage of total hours.

Key Judgments — Provision for impairment of receivables

The directors have not made a provision for impairment of receivables as at 30 June 2012. Refer to note (t) and Note 9.

(s) Going concern

The Group has \$1,844,568 cash and cash equivalents as at 30 June 2012 and no significant liabilities. The sales pipeline for the 2012 financial year is promising. The Directors believe the cash reserve is sufficient to finance the operating costs and software development costs.

As a result of these activities and the available cash reserves, the Directors believe the Group to be a going concern.

(t) Trade receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. An allowance account (provision for impairment of trade receivables) is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 90 days overdue) are considered indicators that the trade receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

The amount of the impairment loss is recognised in the income statement within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

(u) Government Grants & Rebates

The Group, through the continued development of its Software has invested funds in research and development. Under the Research & Development Tax Incentive scheme jointly administered by AusIndustry and the ATO, the Australian Government offers rebates for funds invested in research and development. Rebates and any offsets from the scheme are recognised at their fair value where there is a reasonable assurance that an offset will be received and the Group will comply with all attached conditions.

The Group, has also invested funds in export activities. Under the Export Market Development Grant scheme administered by Austrade, the Australian Government offers grants for funds invested in export activities. Grants from the scheme are recognised at their fair value where there is a reasonable assurance that a payment will be received and the Group will comply with all attached conditions. Any additional amount above the initial payment will be recorded when the money is received.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 1: STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES (cont.)

(v) Business Combinations

Business combinations occur where control over another business is obtained and results in the consolidation of its assets and liabilities. All business combinations, including those involving entities under common control, are accounted for by applying the purchase method.

The purchase method requires an acquirer of the business to be identified and for the cost of the acquisition and fair values of identifiable assets, liabilities and contingent liabilities to be determined as at acquisition date, being the date that control is obtained. Cost is determined as the aggregate of fair values of assets given, equity issued and liabilities assumed in exchange for control together with costs directly attributable to the business combination. Any deferred consideration payable is discounted to present value using the entity's incremental borrowing rate.

Goodwill is recognised initially at the excess of cost over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised. If the fair value of the acquirer's interest is greater than cost, the surplus is immediately recognised in statement of comprehensive income.

(w) Parent entity financial information

The financial information for the parent entity, Energy One Limited, disclosed in Note 28 has been prepared on the same basis as the consolidated financial statements.

(x) New and amended standards adopted by the Company

None of the new standards and amendments to standards that are mandatory for the first time for the financial year beginning 1 July 2011 affected any of the amounts recognised in the current period or any prior period and are not likely to affect future periods.

The Company has not elected to apply any pronouncements before their operative date in the annual reporting beginning 1 July 2011.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 2: REVENUE AND OTHER INCOME

	Note	2012 \$	2011 \$
Sales revenue			
Sale of licence & related services		2,262,190	3,296,454
Other Revenue			
Interest received from other persons		118,020	105,090

(d) Tax

The company has unrecognised accrued tax losses of \$2,236,573 to 30 June 2012 (2011: \$2,382,826). If those tax losses could be offset against taxable income they could be valued at \$670,972 (2011: \$714,848). These accumulated tax losses have not been brought to account as the probability of their utilisation has not been substantiated. In addition, to obtain the benefit of the losses the continuity of ownership or same business test needs to be satisfied. The Group is currently confirming whether these tests have been passed.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 5: KEY MANAGEMENT PERSONNEL COMPENSATION

The names and positions held by key management personnel in office at any time during the financial year are:

(a) Key Management Person	Position
Shaun Ankers	Director and Chief Executive Officer
Andrew Bonwick	Director - Non-Executive & Independent
Vaughan Busby	Director – Non-Executive
lan Douglas Ferrier	Director – Non-Executive
Ottmar Weiss	Director and Chairman – Non-Executive
Reena Minhas	Chief Financial Officer and Company Secretary
Vincent Ten Krooden	Operations Manager

Total key management personnel compensation of \$841,422 (2011: \$1,028,695) consists of short-term benefits of \$783,204 (2011: \$961,741), post-employment benefits of \$55,282 (2011: \$65,900), long-term benefits of \$2,893 (2011: \$1,013) and a share based payment of \$43 (2011: \$41).

Key management personnel remuneration has been included in the Remuneration Report section of the Directors Report.

(b) Options and Rights Holdings

The number of options over ordinary shares in the company held during the financial year by each director and other key management personnel of the company, including their personally related parties, are set out below

(d)	Weighted average number of ordinary shares used in calculating diluted earnings per share:	17,793,229	17,793,229
(e)	Information concerning the classification of securities		

(a) Options

Options granted to employees under the Energy One Employee Option Plan are considered to be potential ordinary shares and have been included in the determination of diluted earnings per share to the extent to which they are dilutive. The options outstanding at 30 June 2012 are not included in the calculation of diluted earnings per share because they are anti dilutive for the year end 30 June 2012. These options could potentially dilute basic earnings per share in the future. The options have not been included in the determination of basic earnings per share. Details relating to the options are set out in note 24.

NOTE 8: CASH AND CASH EQUIVALENTS	2012 \$	2011 \$
Cash at bank and in hand	307,526	724,959
Short-term bank deposits	1,537,042	2,003,869
	1,844,568	2,728,828

At the reporting date, the consolidated Group has deposits with banks that are used for restricted bank guarantees of \$103,758. These deposits have a term of more than 1 year. The balance is included as other non-current assets.

The effective interest rate on short-term bank deposits for the year was 5.90% (2011: 5.70%); these deposits have an average maturity of 101 days.

Reconciliation of Cash

Cash at the end of the financial year as shown in the statement of cash flow reconciled to items in the balance sheet as follows:

Note	s 2012 \$	2011 \$
Cash and cash equivalents	1,844,568	2,728,828
Deposit with bank for bank guarantees:		
- Other current assets	-	42,481
- Other non-current assets	103,758	_
Balance per statement of cash flows	1,948,326	2,771,309

The Group's exposure to interest rate risk is discussed in note 23.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 9: TRADE AND OTHER RECEIVABLES		2012 \$	2011 \$
Current			
Trade receivables		56,912	55,142
Accrued income	9(a)	157,483	762,009
R&D Tax Incentive	9(b)	695,623	723,784
Other receivables		49,774	66,415
		959,792	1,607,350

(a) Accrued Income

As at 30 June 2012 the Group accrued income based on work completed and not yet invoiced.

Dact due

(b) R&D Tax Incentive

As at 30 June 2012 the Group expects an R&D Tax incentive claim from the Australian Tax Office for Research and Development relating to software development in the current year.

(c) Fair Value, Credit and Interest Rate Risk

Due to the short-term nature of these receivables, their carrying amount is assumed to approximate their fair value. The maximum exposure to credit risk at the reporting date is the carrying amount of each class of receivables mentioned above. Refer to note 23 for more information on the risk management policy of the Group and the credit quality of the entity's trade receivables, along with interest risk.

The following table details the Group's trade and other receivables exposed to credit risk (prior to collateral and other credit enhancements) with ageing analysis and impairment provided for thereon. Amounts are considered as 'past due' when the debt has not been settled, with the terms and conditions agreed between the Group and the customer or counter party to the transaction. Receivables that are past due are assessed for impairment by ascertaining solvency of the debtors and are provided for where there are specific circumstances indicating that the debt may not be fully repaid to the Group.

The balances of receivables that remain within initial trade terms (as detailed in the table) are considered to be of high credit quality.

	Gross amount \$000	-	Past due but not impaired (days overdue)				Within initial trade terms \$000
			< 30 \$000	31–60 \$000	61–90 \$000	> 90 \$000

	217,621	98,910

(a) Movements in Carrying Amounts

Movements in the carrying amounts for each class of plant and equipment between the beginning and the end of the current financial year are reconciled as follows:

	Total Plant and Equipment \$
Balance as at 30 June 2010	85,751
Additions	50,290
Disposals	-
Depreciation expense	(37,131)
Balance as at 30 June 2011	98,910
Additions	205,958
Disposals / transfers	(20,036)
Depreciation expense	(67,211)
Balance as at 30 June 2012	217,621

During the period, the company capitalised \$205,958 to plant and equipment which mainly related to furniture and fit outs for the new office.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 12: INTANGIBLE ASSETS

	Notes	2012 \$	2011 \$
Software costs	12(a)	3,184,559	2,504,727
Software accumulated amortisation	12(b)	(2,294,719)	(1,528,199)
Impairment loss and write offs	12(d)	-	(512,869)
Reclassification		5,549	-
Total software development costs	_	895,389	463,659
Goodwill at cost	12(c)	625,748	447,107
Trademarks, licences and contracts at cost		-	12,099
Impairment loss and write offs	12(d)	(8,641)	(3,458)
Total other intangible assets	_	617,107	455,748
Total Intangible Assets	_	1,512,496	919,407

(a) Software Development Costs

Software development costs are a combination of acquired software and internally generated intangible assets. From total additions of \$603,352, \$48,628 represents capitalised superannuation benefits and \$554,724 represents other employee benefits.

(b) Accumulated Amortisation

Amortisation of \$253,652 (2011: \$427,300) is included in depreciation and amortisation expense in the statement of comprehensive income.

(c) Goodwill and Contracts

Goodwill and contracts relate to the purchase of software businesses in 2008 and 2012.

Intangible assets, other than goodwill, have finite useful lives. The current amortisation charges for intangible assets are included under depreciation and amortisation expense per the statement of comprehensive income. Goodwill has an infinite life, subject to impairment testing. The acquired software is treated as having an indefinite useful life because the technology used is not expected to be replaced by another technology at any time in the foreseeable and the product is expected to contribute to the entity's net cash inflows indefinitely.

Goodwill and software are allocated to the cash generating unit based on the acquired businesses. The recoverable amount of each cash-generating unit above is determined based on value-in-use calculations. Value-in-use is calculated based on the present value of cash flow. The cash flows are prepared applying a discount rate of 21.75% (2011: 21.75%) over a 5 year period.

Management has based the value-in-use calculations on budgets. These budgets use estimated and actual sales to project revenue. Costs are calculated taking into account historical gross margins. Discount rates are pre-tax.

Management have performed an impairment test of the goodwill at the balance sheet date and have concluded that no impairment write-down is required.

(d) Impairment loss and write offs

Management have performed an impairment test of software, contracts and goodwill at the balance sheet date and have concluded that the contracts with a value of \$8,641 should be written off (2011: Retail software was impaired with a value of \$516,327).

Trade payables	31,747	105,652	
Sundry payables and accrued expenses	141,186	165,754	
Total financial liabilities at amortised cost	172,933	271,406	

Trade and other creditors are unsecured, non-interest bearing and are normally settled within 60 day terms.

NOTE 14: PROVISIONS	Notes	2012 \$	2011 \$
Current Employee benefits (Annual leave provisions)	14(a)	99,912	76,138
Non Current Employee benefits (Long service leave provisions)	14(b)	17,740	26,037

- (a) The entire obligation is presented as current since the Group does not have an unconditional right to defer settlement.
- (b) A provision has been recognised for employee entitlements relating to Long Service Leave. In calculating the present value of future cash flows in respect of long service leave, the probability of long service leave being taken is based on historical data. The measurement and recognition criteria relating to employee benefits has been included in Note 1 to this report.

30 June 2012	Closing Balance	8,246,064	17,793,229

(a) Ordinary Shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on winding up of the Company in proportion to the number of and amounts paid on the shares held. On a show of hands every holder of ordinary shares present at a meeting in person or by proxy, is entitled to one vote, and upon a poll each share is entitled to one vote.

Ordinary shares have no par value and the company does not have a limited amount of authorised capital.

(b) Capital Management

The Group's objectives when managing capital is to safeguard the ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. Management effectively manages the Group's capital by assessing the Company's financial risks and adjusting its capital structure in response to changes in these risks and in the market. The Group has an externally imposed capital requirement to maintain \$50,000 surplus cash, a requirement of holding an Australian Financial Services Licence. There have been no breaches during the year.

(c) Employee Share plan

Information relating to the employee share plan, including details of shares issued under the scheme is set out in note 24.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENT FOR THE YEAR ENDED 30 JUNE 2012

NOTE 16: RESERVES

Share based payment reserve

The share based payment reserve is used to recognise the fair value of options issued to employees and directors and the fair value of shares issued to employees.

Expenses arising from share based payment transactions

Total expense arising from share-based payment transactions recognised during the period as part of employee benefit expense were as follows:

	2012	2011 \$
Options issued to directors during the year	\$ -	4 1
Options issued to directors during the year	43	-
Options cancelled during the year	(3,765)	
Options cancelled during the year	(3,722)	41
The movements in reserves comprises:

 Not later than 12 months 	184,612	33,373
 Between 12 months and 5 years 	452,191	
	636,803	33,373

At the reporting date the Group leases one office, which is under a non-cancellable operating lease which expires in October 2015.

(b) Capital Expenditure Commitments

There are no capital expenditure commitments contracted for at the reporting date but not recognised as liabilities payable.

NOTE 18: CONTINGENT LIABILITIES AND CONTINGENT ASSETS

The Group had no contingent liabilities or contingent assets as at 30 June 2012.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 19: SEGMENT REPORTING

The Group is managed primarily on the basis of product and service offerings and operates in one segment, being the Energy software industry, and in one geographical segment, being Australia.

During the year ended 30 June 2012 the Group derived 79% of revenue from three major customers to which it provided both licences and services. The Company's most significant external customer accounts for 51% of external revenue with the next largest customer contributing 14%. Management assess the performance of the operating segment based on the accounting profit and loss.

NOT	NOTE 20: CASH FLOW INFORMATION		2011 \$

NOTE 21: EVENTS AFTER THE BALANCE SHEET DATE

There have been no after balance date transactions that have significantly affected or may significantly affect the operations of the Group, the result of those operations or the state of affairs of the Group's subsequent to the year ended 30 June 2012.

This financial report was authorised for issue by the Directors on 22 August 2012. The Company has the power to amend and reissue this report.

NOTE 22: RELATED PARTY TRANSACTIONS

(a) Parent entity

The parent entity within the group is Energy One Limited.

(b) Subsidiaries

Interests in subsidiaries are set out in note 27.

(c) Key management personnel

Disclosures relating to key management personnel are set out in note 5.

(d) Transactions with related parties

Revenue for IT Infrastructure Refresh Project and consulting revenue amounted to \$220,678 provided to a company in which one of the directors has an ownership interest.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 23: FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks: market risk (including interest rate risk and price risk), credit risk and liquidity risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise adverse effects on the financial performance of the Group. The Group uses different methods to measure different types of risk to which it is exposed. These methods include sensitivity analysis in the case of interest rate and other price risks and aging analysis for credit risk.

Risk management is carried out by the chief financial officer under policies approved by the Board of Directors. The CFO identifies, evaluates the risks in close cooperation with the Company's management and board.

The Group holds the following financial instruments measured in accordance with AASB 139 as detailed in the accounting policies to these financial statements:

		Consolidated Group		
Financial assets	Note	2012 \$	2011 \$	
Cash and cash equivalents	8	1,844,568	2,728,828	
Trade and other receivables	9	959,792	1,607,350	
Deposit with bank for bank guarantee	8	-	42,481	
Due within 12 months		2,804,360	4,378,659	
Deposit with bank for bank guarantee – due after 12 months	8	103,758	-	
Financial liabilities				
Trade and other payables - due within 12 months	<u>-</u>	(172,933)	(271,406)	
Net inflows	_	2,735,185	4,107,253	

(a) Market Risk

(i) Foreign exchange risk

The Group does not have any significant exposure to foreign exchange risk.

(ii) Cash flow and fair value interest rate risk

Exposure to interest rate risk arises on financial assets and liabilities recognised at reporting date whereby a future change in interest rates will affect future cash flows. The Group's main interest rate risk at year end arises from short-term deposits. The Group is exposed to earnings volatility on floating rate instruments.

The interest rate risk is managed using a mix of fixed and floating short-term deposits. At 30 June 2012 approximately 83% of short term deposits were fixed. Short-term deposits are used to ensure that the best interest rate is received. Interest rates are reviewed prior to deposits maturing and re-invested at the best rate, which is why the Group uses a number of banking institutions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 23: FINANCIAL RISK MANAGEMENT

(a) (iii) Cash flow and fair value interest rate risk (cont.)

The interest rate risk is detailed in the below table.

iv. Sensitivity Analysis

Interest Rate Risk

The Group has performed sensitivity analysis relating to its exposure to interest rate risk at reporting date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in this risk.

At 30 June 2012, the effect on profit and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

		2012 \$	2011 \$
Change i	in profit		
_	Increase in interest rate by 1%	3,055	8,174
_	Decrease in interest rate by 1%	(3,055)	(8,174)
Change i	in Equity		
_	Increase in interest rate by 1%	3,055	8,174
_	Decrease in interest rate by 1%	(3,055)	(8,174)

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 23: FINANCIAL RISK MANAGEMENT (cont.)

The above interest rate risk sensitivity analysis has been performed on the assumption that all other variables remain unchanged.

(b) Credit risk

Credit risk arises from cash and cash equivalents, deposits with banks and financial institutions, as well as credit exposure to trading customers, including outstanding receivables and committed transactions. For banks and financial institutions, only independently rated parties with a minimum rating of 'A' are accepted. Banks without a rating of 'A', but included in the government guarantee will be considered with a maximum \$1M deposit. If there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal and external ratings in accordance with limits set by the CFO. The compliance with credit limits is monitored by the CFO.

The maximum exposure to credit risk by class of recognised financial assets at reporting date is equivalent to the carrying value and classification of those financial assets as presented in the balance sheet. Details with respect to credit risk of trade and other receivables are provided in Note 9. No one deposit was larger than \$1,000,000. The Group does not hold any security or guarantees for the financial assets.

(c) Liquidity Risk

Liquidity risk arises from the possibility that the Group might encounter difficulty in settling its debts or otherwise meeting its obligations related to financial liabilities. Prudent liquidity risk management implies maintaining sufficient cash and marketable securities, the availability of funding through adequate amounts of committed credit facilities and the ability to close out market positions. The Group manages liquidity risk by continuously monitoring forecast and actual cash flows and matching maturity profiles of financial assets and liabilities. Surplus funds are generally only invested in instruments that are tradable in highly liquid markets, for instance cash.

The Group at 30 June 2012 had deposits which mature within two months and cash at bank. Due to the cash available to the Group there is no use of any credit facilities at reporting date.

All financial assets and liabilities are due within 12 months.

(d) Fair Value estimation

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes. At reporting date, the Group's financial assets consist of cash and cash equivalents and receivables.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 24: SHARE BASED PAYMENTS

The following share-based payment arrangements existed at 30 June 2012:

The Company established the Energy One Deferred Employee Share Plan on 10th January 2007. Invited employees are entitled to participate in the Plan. Employees are entitled to acquire vested ordinary shares at market price. When issued, the shares carry full dividend and voting rights. This plan was approved by shareholders at the extraordinary general meeting held on 2nd April 2007. 5,000 shares are currently held in this plan.

The Company established the Energy One Exempt Employee Share Plan on 10th January 2007. All employees are entitled to participate in the scheme upon completion of 12 months employment with the Company. Employees are entitled to acquire vested ordinary shares to the value of \$500 at market prices at which point the Company will also acquire the same value of shares. When issued, the shares carry full dividend and voting rights. This plan was formally approved by shareholders at the extraordinary general meeting held on 2nd April 2007. 7,024 shares are currently held in this plan.

The Tax Paid Option Plan (TPOP) was established on 31st December 2009. The TPOP allows the Company to grant options or rights to acquire ordinary Shares in Energy One to selected key employees and selected Directors, subject to satisfying performance and service conditions set down at the time of offer.

On 31 July 2011, 500,000 options that were issued in 2010, lapsed and were cancelled. 500,000 options are currently held in the plan.

	201	2	2011	
	Number of	Weighted Average	Number of	Weighted Average
	Options	Exercise Price	Options	Exercise Price
Balance at the start of the year	1,000,000	\$0.37	4,400,000	\$0.24
Granted during the year	-		500,000	\$0.37
Lapsed during the year	(500,000)	\$0.37	(3,900,000)	\$0.22
Balance at end of the year	500,000	\$0.37	1,000,000	\$0.37
Exercisable at year-end				
Outstanding at year-end	500,000		1,000,000	

The average remaining contractual life of the 500,000 options outstanding was 3.40 years. The exercise price of these outstanding options was \$0.37.

Fair Value of Options granted during the year

The fair value at grant date of options granted during the year ended 30 June 2012 was \$0.000210 cents per option. The fair value of options at grant date is independently determined using a Black - Scholes option pricing model that takes into account the exercise price of \$0.37, 5 year term of the option, the impact of the dilution, the share price at grant date of \$0.13 and expected price volatility of the underlying share of 15%, the expected dividend yield of nil and the risk free interest rate of 5.35% for the term of the option.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 25: BUSINESS COMBINATIONS

On 1 May 2012 the Company acquired a Software business for a cash consideration of \$200,309. The acquisition is part of Energy One's strategy of growth through targeted acquisition.

The assets and liabilities recognised as a result of the acquisition are as follows:

	Fair Value \$
Intangible assets: Software	50,000
Acquired deferred revenue	(19,691)
Net identifiable assets acquired	30,309
Add: goodwill	170,000
Net assets acquired	200,309

Based on the agreement, the cash consideration consisted of a lump sum payment that was payable in full on the completion date of 25 May 2012.

The goodwill is attributable to the profitability of the acquired business. It will not be deductible for tax purposes.

On 26 November 2010, the Company acquired Energy One Option Plan Managers Pty Limited. The Company has a sole purpose of obtaining Tax Paid Options and Shares acquired on exercise of Tax Paid Options in the Company for the benefit of participants. The two ordinary class shares were acquired at nil consideration.

.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 26: NEW ACCOUNTING POLICIES FOR APPLICATION IN FUTURE PERIODS

The AASB has issued new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods and which the Group has decided not to early adopt. A discussion of those future requirements and their impact on the Group is as follows:

AASB 9: Financial Instruments (December 2010) (applicable for annual reporting periods commencing on or after 1 January 2013).

This Standard is applicable retrospectively and includes revised requirements for the classification and measurement of financial instruments, as well as recognition and derecognition requirements for financial instruments. The Group has not yet determined any potential impact on the financial statements.

The key changes made to accounting requirements include:

- simplifying the classifications of financial assets into those carried at amortised cost and those carried at fair value;
- simplifying the requirements for embedded derivatives;
- removing the tainting rules associated with held-to-maturity assets;
- removing the requirements to separate and fair value embedded derivatives for financial assets carried at amortised cost;
- allowing an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Dividends in respect of these investments that are a return on investment can be recognised in profit or loss and there is no impairment or recycling on disposal of the instrument;
- requiring financial assets to be reclassified where there is a change in an entity's business model as they are initially classified based on: (a) the objective of the entity's business model for managing the financial assets; and (b) the characteristics of the contractual cash flows; and
- requiring an entity that chooses to measure a financial liability at fair value to present the portion of the change in its fair value due to changes in the entity's own credit risk in other comprehensive income, except when that would create an accounting mismatch. If such a mismatch would be created or enlarged, the entity is required to present all changes in fair value (including the effects of changes in the credit risk of the liability) in profit or loss.

AASB 10 Consolidated Financial Statements, AASB 11 Joint Arrangements, AASB 12 Disclosure of Interests in Other Entities, revised AASB 127 Separate Financial Statements and AASB 128 Investments in Associates and Joint Ventures and AASB 2011-7 Amendments to Australian Accounting Standards arising from the Consolidation and Joint Arrangements Standards (effective 1 January 2013)

In August 2011, the AASB issued a suite of five new and amended standards which address the accounting for joint arrangements, consolidated financial statements and associated disclosures.

AASB 10 replaces all of the guidance on control and consolidation in AASB 127 Consolidated and Separate Financial Statements, and Interpretation 12 Consolidation – Special Purpose Entities. The core principle that a consolidated entity presents a parent and its subsidiaries as if they are a single economic entity remains unchanged, as do the mechanics of consolidation. However, the standard introduces a single definition of control that applies to all entities. It focuses on the need to have both power and rights or exposure to variable returns. Power is the current ability to direct the activities that significantly influence returns. Returns must vary and can be positive, negative or both. Control exists when the investor can use its power to affect the amount of its returns. There is also new guidance on participating and protective rights and on agent/principal relationships. While the Company does not expect the new standard to have a significant impact on its composition, it has yet to perform a detailed analysis of the new guidance in the context of its various investees that may or may not be controlled under the new rules.

AASB 11 introduces a principles based approach to accounting for joint arrangements. The focus is no longer on the legal structure of joint arrangements, but rather on how rights and obligations are shared by the parties to the joint arrangement. Based on the assessment of rights and obligations, a joint arrangement will be classified as either a joint operation or a joint venture. Joint ventures are accounted for using the equity method, and the choice to proportionately consolidate will no longer be permitted.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 26: NEW ACCOUNTING POLICIES FOR APPLICATION IN FUTURE PERIODS (cont.)

Parties to a joint operation will account their share of revenues, expenses, assets and liabilities in much the same way as under the previous standard. AASB 11 also provides guidance for parties that participate in joint arrangements but do not share joint control. The Company does not expect the new standard to have a significant impact on its financial reporting.

AASB 12 sets out the required disclosures for entities reporting under the two new standards, AASB 10 and AASB 11, and replaces the disclosure requirements currently found in AASB 127 and AASB 128. Application of this standard by the Company will not affect any of the amounts recognised in the financial statements, but will impact the type of information disclosed in relation to the Company's investments.

Amendments to AASB 128 provide clarification that an entity continues to apply the equity method and does not remeasure its retained interest as part of ownership changes where a joint venture becomes an associate, and vice versa. The amendments also introduce a "partial disposal" concept. The Company does not expect the new standard to have a significant impact on its financial reporting. The standard would therefore be first applied in the financial statements for the annual reporting period ending 30 June 2014.

AASB 13 Fair Value Measurement and AASB 2011-8 Amendments to Australian Accounting Standards arising from AASB 13 (effective 1 January 2013)

AASB 13 was released in September 2011. It explains how to measure fair value and aims to enhance fair value disclosures. The Company has yet to determine which, if any, of its current measurement techniques will have to change as a result of the new guidance. It is therefore not possible to state the impact, if any, of the new rules on any of the amounts recognised in the financial statements. However, application of the new standard will impact the type of information disclosed in the notes to the financial statements. The Company does not intend to adopt the new standard before its operative date, which means that it would be first applied in the annual reporting period ending 30 June 2014.

Revised AASB 119 Employee Benefits, AASB 2011-10 Amendments to Australian Accounting Standards arising from AASB 119 (September 2011) and AASB 2011-11 Amendments to AASB 119 (September 2011) arising from Reduced Disclosure Requirements (effective 1 January 2013)

In September 2011, the AASB released a revised standard on accounting for employee benefits. It requires the recognition of all remeasurements of defined benefit liabilities/assets immediately in other comprehensive income (removal of the so-called 'corridor' method) and the calculation of a net interest expense or income by applying the discount rate to the net defined benefit liability or asset. This replaces the expected return on plan assets that is currently included in profit or loss. The standard also introduces a number of additional disclosures for defined benefit liabilities/assets and could affect the timing of the recognition of termination benefits. The amendments will have to be implemented retrospectively. The Company does not expect the new standard to have a significant impact on its financial reporting.

There are no other standards that are not yet effective and that are expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 27: SUBSIDIARY

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in note 1(b)

	Country of incorporation	Equity holding	
Name of entity		2012 %	2011 %
Advanced Interval Metering Pty Ltd	Australia	100	100
Energy One Limited Employee Option Plan Managers Pty Ltd	Australia	100	100

NOTE 28: PARENT ENTITY FINANCIAL INFORMATION

(a) Summary financial information

The individual financial statements for the parent entity show the following aggregate amount amounts:

	2012	2011
Balance Sheet		
Current assets	2,829,481	4,406,403
Total assets	4,663,458	5,424,720
Current liabilities	784,123	820,335
Total liabilities	801,863	846,372
Shareholder equity		
Issued capital	8,246,064	8,246,064
Reserves	77,561	81,283
Accumulated losses	(4,462,030)	(3,748,999)
Total Equity	3,861,595	4,578,348
Profit and loss for the year	(713,133)	(780,954)
Total comprehensive income	(713,133)	(780,954)

(a) Guarantees entered into by the parent entity

(b) Contingent liabilities of the parent entity

(c) Contractual commitments for the acquisition of property, plant or equipment Nil

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

NOTE 29: COMPANY DETAILS

Energy One Limited is a company limited by shares, incorporated and domiciled in Australia.

The registered office of the Company is:

C/O Crowe Horwath Pty Limited

Level 15, 1 O'Connell Street

Sydney NSW 2000

The principal place of business is:

Level 14, 71 Macquarie St

Sydney NSW 2000

The principal activity of the Company is the supply and development of software and services to energy companies and utilities.
