Business & Operating Overview

Rental in the Mining Production Phase

Customer requirements vary but Emeco's solution is used at all stages of mine life

Emeco's Mining cycle leverage:

Mine Development 7%

Overburden 20%

Production 73%

Customers Needs:

Flexibility

Equipment Availability

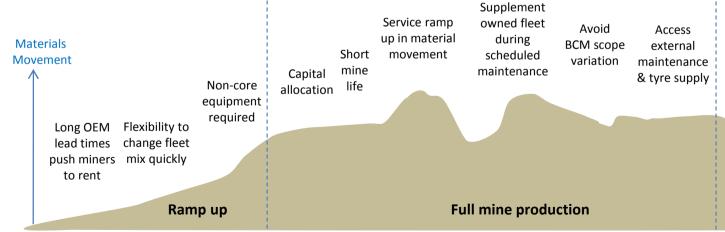

Mechanical Availability Capital Management

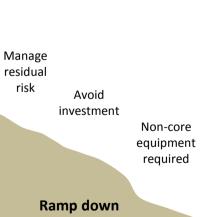

Avoid Residual Risk

Ramp-up:

Full Mine Production:

Ramp-down:

Geographic & Commodity Diversification

Well diversified revenue streams from multiple regions and commodities with fleet redeployment opportunities

Canada

- Oil sands
- Coal
- Gold

Australia

- Thermal Coal
- ◆ Gold
- Metallurgical Coal
- Iron Ore

Indonesia

- Thermal Coal
- Gold

Chile

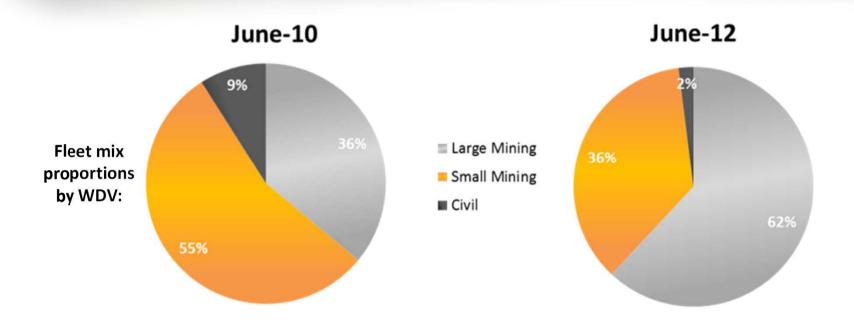

- Copper
- Gold

Global Fleet Profile

Production focused fleet, suitable for variety of customers across markets

- Fleet reconfiguration complete with incremental fleet growth driven by mining customer needs
- Emeco's large and small mining fleets commonly used across Emeco's markets
- Historical profit on sale of sale of mining rental assets

Customer Strategy

Targeting customers in each market which align with Emeco's strategic objectives

Customer objectives by region:

Australia	Canada	Indonesia
 Targeting customers requiring fleets on long-term fully maintained basis (project sites) Achieve mix of mid-tier & large miners and contractors across bulks and gold 	 Direct relationship with oil sands companies to improve utilization visibility Grow on-site maintenance services creating additional rental opportunities 	 Focus on miners with advanced mining practices to ensure high monthly hours Bring Emeco's maintenance expertise to enhance mine productivity

Revenue by customer type:

Miner Contractor 80% 20%	Miner	Contractor	Miner	Contractor
	40%	60%	61%	39%

Managing the Business Through the Cycle

Range of business levers available to ensure Emeco's financial health across mining cycles

Growth Capital:	 No capital commitment outside FY13 growth capex announced Flexibility to change investment plans according to outlook
Sustaining Capital:	 High correlation between utilisation and sustaining capex Disciplined approach to maintain integrity of assets Optionality to "right size" an asset class by not replacing
Working Capital:	 Continued internal focus on efficient working capital levels Further working capital release expected to be moderate
Operating Costs:	 Parts & labour costs variable, with immediate focus on contractors Taking prudent and disciplined approach to overheads

Global Business Snapshot

Australia:

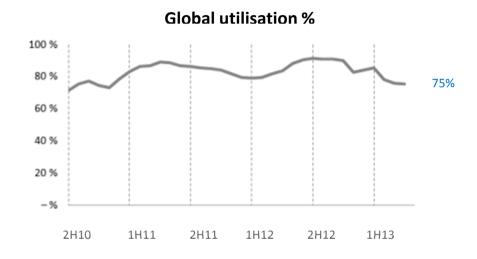

- Customers focused on improving cost & productivity
 - ✓ Shorter contract tenure
 - ✓ Rate structure & maintenance responsibilities
- Increasingly competitive environment
- Emeco very active in pursuing new projects in cautious environment

Canada:

- Significant improvement on Q1 utilization on expanded asset base
- Customer strategy improving visibility

Indonesia:

- Coal producers well placed on cost curve, but monitoring global trends
- \$30m growth capital deployed in Q1 with long term contracts in place

Chile:

- Copper fundamentals intact, volume growth expected
- \$55m of FY13 growth capital now under contract

Financial Overview

Financial summary

Strong performance in Australia with offshore businesses picking up steam

	FY12	FY11		Var %
REVENUE	565.2	502.5		12.5%
EBITDA	261.7	223.3		17.2%
EBIT	126.0	101.2		24.5%
NPAT	71.1	56.0		27.0%
ROC %	13.2%	11.3%		16.7%
OP. CASHFLOW	214.3	159.7		34.2%
GEARING	1.47	1.38	-	6.5%
DIVIDENDS	6.0	5.0		20.0%

Cash Flow & Capital Expenditure

Strong operating cash flow provides flexibility

- EBITDA performance delivered 34.2% growth in operating cash flow in FY12
- Working capital efficiency remains a focus
- +\$100M available cash flow after net sustaining capex
- FY13 SIB capex expected to be lower than previous guidance of \$110m - \$120m
- Targeting positive free cash flow despite \$80M¹ payment for growth investment in **FY13**

Free Cash Flow Generation (ex Growth Capex & Dividends)

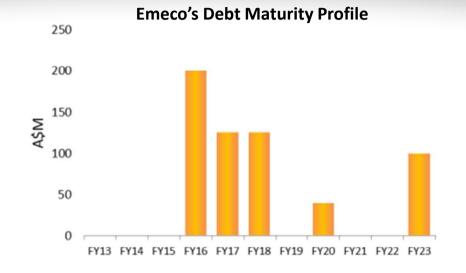

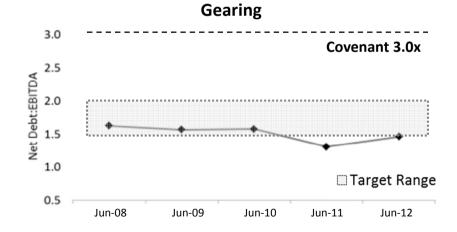

Balance Sheet & Capital Management

Balance sheet provides certainty and flexibility

- Strong balance sheet with quality assets and secure debt portfolio
- ◆ Bank debt refinancing and USPP provides average maturity profile of ~5 years
- Gearing towards bottom of target range
- Cash flow levers ensures gearing can be comfortably managed across the cycle
- Ongoing consideration of capital management:
 - Special dividend (5.0cps) in 1H11
 - FY12 ordinary dividends up 20% yoy
 - Executing share buy-back program

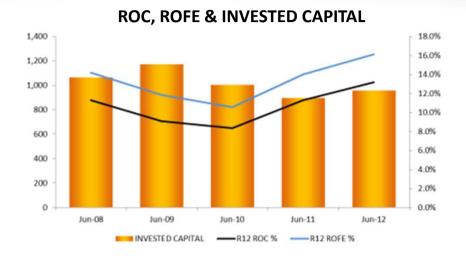

Return on Capital

Quality in the earnings growth

- Strategy has focused on:
 - ✓ Exiting low returning assets/businesses
 - ✓ Invest in production focused fleet
 - ✓ Target highly productive customers
 - ✓ Leverage fixed cost and goodwill
- Australia incremental investments to generate acceptable long term returns
- Canada & Indonesia Foundations in place for further improvements in returns
- Chile Organic growth entry expected to benefit ROC in the near term

EBIT PERFORMANCE

Strategy & Outlook

How has the business changed?

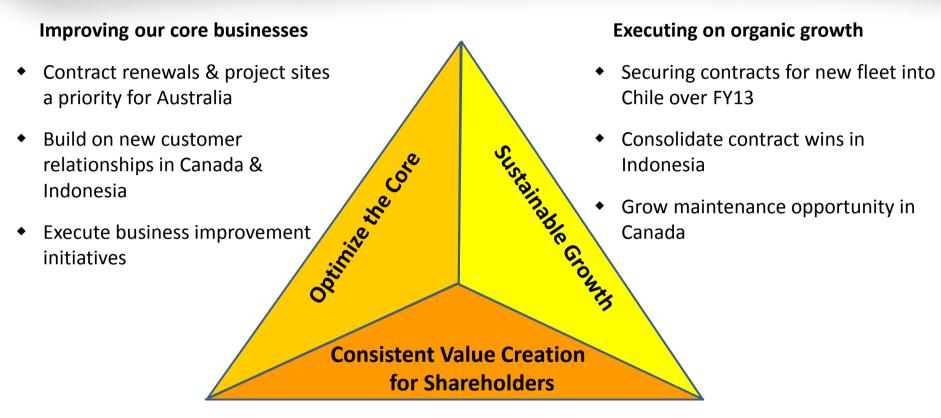

Business now fitter, more sustainable and well positioned for the future

Financial performance:	Strategy translating to improved earnings and returns
Non-core businesses:	Exited non-core businesses releasing underperforming capital & earnings drag
Fleet mix:	Large mining fleet investment and civil earthmoving divestment positions business to withstand volatility
Customers & Contracts:	Targeting quality miners with high productivity Improved contractual tenure and minimum hours
Offshore markets & commodity diversification:	Building foundation of value adding businesses offshore Each offshore business including Chile provides diversified exposure to growing mining markets
Investment grade debt facilities	Diversified sources of funding in place with balanced maturity profile
Culture:	Focussing on building a positively engaged workforce

Strategic focus

Identify value creating opportunities aligned with strategy

- Maintain strong balance sheet including ongoing funding strategy
- Capital allocation continually reviewed based on shareholder returns

Emeco Outlook

A diversified portfolio to provide benefits in the year ahead

- Changing environment in Australian market with focus on operating costs by customers
 - Recent contract wins in **gold** and **iron ore**
 - Renewed large contracts with coal customers late in 2H12
 - Number of contracts with some coal customers concluding mid FY13 as expected, but visibility on extension limited
- Expected to build on solid summer with strong winter in **Canadian oil sands**
- Low cost producers expected to provide further opportunities in Indonesian coal
- Copper expansion projects in Chile supportive of market entry strategy
- Emeco's cost and capital continually being reviewed to ensure the business remains in shape to manage volatility and capture opportunities
