

MARKET ANNOUNCEMENT

Continuous Disclosure

Sydney, January 7, 2013 – Integrated Research (“IR”) is in the early stages of preparing its financial statements for the half year ending 31 December 2012. Based on internal management accounts and subject to audit review, the Company anticipates profit after tax to be in the range of \$2.5 million to \$2.9 million. The first half results were impacted by the delay of a few major license sales. As a consequence, first half revenue is down 3% compared to the previous corresponding period.

The Company’s sales pipeline is very strong and the fundamentals of its key markets are sound. The Company anticipates that it will make up the shortfall in license sales in the second half to enable growth for the full financial year.

The Company continues to invest for growth with headcount up 16% on last year with most staff additions in research & development and sales.

This statement is made for market guidance, but IR does not expect to make any further comment until the accounts have been finalised and approved for release to the ASX (anticipated announcement date: 21 February 2013).
