Review of Trading Results

Financial Overview

Conditions in the group's key markets were weaker during the first half, which impacted the results.

- Revenue down 24% to \$148.6m
- EBIT down 68% to \$13.2m
 - excludes \$5.4m loss from a discontinued operation
- Net debt of \$11.7m at 31 December 2012

During the period a number of actions were taken to increase revenue and reduce costs including entering into a new accommodation agreement for Searipple village, an early start on the Osprey project, and consolidating the group's caravan manufacturing businesses.

^{*}Retired as Non-executive Director on 23 November 2012.

Manufactured Accommodation

\$ million	Dec 2012	Dec 2011
Revenue	94.4	125.2
EBIT	14.9	37.3

Demand for accommodation in the Karratha region declined at the start of the year following the completion of major projects by Rio Tinto and Woodside. Occupancy at Searipple was reduced to 40-50% of village capacity, and was lower leading up to and during the Christmas break period.

In December Fleetwood entered into a new agreement with Rio Tinto to accommodate its operational workforce of up to 660 people at Searipple for a period of one year with four options to extend, each of six months. Rio Tinto also retains first right of refusal for accommodation above the 660 rooms. The agreement involves an upgrade to the village, which is on schedule to be completed in March.

Low levels of manufacturing activity in WA were experienced during the period following the fall in commodity prices.

In July Fleetwood was selected by the WA Department of Housing to build and operate the Osprey village in South Hedland, which will be comprised of approximately 300 transportable homes to accommodate key workers in the region. Fleetwood and the Department agreed an early start on the project, which resulted in increased activity during December as work commenced on both the Osprey and Searipple upgrade projects.

Demand for manufactured accommodation in Victoria and NSW remained relatively low for the period, however this was partly offset by the classroom transfer program contract with the Victorian Department of Education.

Manufacturing activity on education and resources projects in Queensland was strong during the period.

Phase one of the Gladstone project is expected to commence in April 2013.

Recreational Vehicles

\$ million	Dec 2012*	Dec 2011
Revenue	53.8	68.7
EBIT*	0.1	5.1

^{*}Excludes \$5.4m loss from discontinued operation.

The recreational vehicles division experienced continued weak trading conditions.

Initiatives to significantly reduce overheads were applied across the group resulting in some one off restructuring costs, the impact of which was most significant in the recreational vehicles division. Most notably, caravan production was scaled back and the group's caravan manufacturing activities were consolidated at the main facility in WA.

A process was commenced to reposition the Coromal and Windsor brands, the Asian built camper was fully developed, and a new range of caravans at a lower price point was released, which resulted in the division now having a healthy order book for caravans.

Demand for canopies and trays for commercial vehicles returned to normal levels following the natural disasters in Asia that affected the supply of vehicles the previous year. Good progress was made streamlining the business and advancing Asian sourcing initiatives.

Outlook

Fleetwood expects an improved result in the second half of the financial year.

Manufacturing activity is expected to be strong, underpinned by the Osprey and Searipple upgrade projects in WA and the Gladstone project in Queensland. The Gladstone and Searipple upgrade projects will be capitalised and therefore will not be recognised as revenue.

Demand for manufactured accommodation in Victoria and NSW is expected to improve over time reflecting higher levels of infrastructure investment by Government and others. The classroom transfer program contract has been extended by the Victorian Department of Education until July 2015.

Higher occupancy is expected at Searipple village, more so from March after the new accommodation units become available.

Revenue for the recreational vehicles division will continue to be affected by consumer sentiment. However, with caravan manufacturing now consolidated in WA the division has a more competitive business structure and cost base, which will improve financial results and facilitate profitable growth.

The 2014 financial year will benefit from the operational phases of the Gladstone and Osprey villages, improved occupancy at Searipple village and the consolidation of operations in the recreational vehicles division.

Dividends

A fully franked interim dividend of 30 cents per share will be paid on 28 March 2013.

The company's dividend re-investment plan will be available for the interim dividend at a re-investment discount of 2.5%.

1. Significant accounting policies

Statement of compliance

The half-year financial report is a general purpose financial report prepared in accordance with the Corporations Act 2001 and AASB 134 *Interim Financial Reporting*. Basis of preparation

The condensed financial statements have been prepared on the basis of historical cost, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets. All amounts are presented in Australian dollars.

The Company is a Company of the kind referred to in ASIC Class Order 98/0100, dated 10 July 1998, and in accordance with that Class Order amounts in the directors' report and the half-year financial report are rounded to the nearest thousand dollars, unless otherwise indicated

The Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the AASB) that are relevant to their operations and effective for the current reporting period.

New and revised standards and amendments thereof and interpretations effective for the current half-year that are relevant to the Company include Amendments to AASB 1, 5, 7, 101, 112, 120, 121, 132, 133 and 134 as a consequence of AASB 2011-9 'Amendments to Australian Accounting Standards - Presentation of Other Comprehensive Income'.

The adoption of new and revised standards and interpretations has affected the amounts reported for the current or prior corresponding period. However the application of AASB 2011-9 has resulted in a change to the Company's presentation of, or disclosure in, its half year financial report.

Reporting period

The reporting period is the six months to 31 December 2012 and the previous corresponding period is the six months to 31 December 2011 except for the Consolidated Statement of Financial Position and its related notes which have a previous corresponding period of 30 lune 2012

5. Segment information

AASB 8 requires operating segments to be identified on the basis of internal reports about components of the Group that are regularly reviewed by the chief operating decision maker in order to allocate resources to the segment and to assess its performance.

The following is an analysis of the Group's revenue and results by reportable operating segment:

			Segment Depre	ciation and

Loss from discontinued operations					(3,768)	(797)
Net profit attributable to members of the pa	arent entity				5,122	26,887

Segment result represents the earnings before interest and tax of each segment without the allocation of corporate overheads. This is the measure reported to the chief operating decision maker for the purposes of resource allocation and assessment of segment performance.

Following a review of the organisational structure and related restructuring undertaken in July 2012, it was no longer appropriate to classify the Victorian and Western Australian caravan manufacturing operations as a single cash generating unit within the Recreational Vehicle operating segment. As a consequence, effective from the date of this restructure both caravan manufacturing operations became separate cash generating units.

Independent Auditor's Review Report to the members of Fleetwood Corporation Limited

We have reviewed the accompanying half-year financial report of Fleetwood Corporation Limited, which comprises the condensed statement of financial position as at 31 December 2012, and the condensed statement of profit or loss and other comprehensive income, the condensed statement of cash flows and the condensed statement of changes in equity for the half-year ended on that date, selected explanatory notes and, the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the end of the half-year or from time to time during the half-year as set out on pages 8 to 15.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2012 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Fleetwood Corporation Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Deloitte.

Auditor's Independence Declaration

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Fleetwood Corporation Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Fleetwood Corporation Limited is not in accordance with the *Corporations Act 2001*, including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2012 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.
