"There is a strong complementarity of knowledge and we look forward to building on an already strong relationship" he stated.

As part of the transaction, carsales will subscribe for a 30 per cent stake in WebMotors on a post-dilution basis for consideration of BRL180 million (approximately A\$89 million), with the proceeds remaining to fund the growth of WebMotors.

carsales' investment will be funded by existing cash reserves and bank debt. WebMotors generates positive EBITDA and carsales expects the acquisition to be EPS accretive in FY14.

Although exclusive negotiations continue, both parties are very confident that a final transaction will be completed. The transaction remains subject to negotiation of definitive agreements which both parties expect to be executed in the coming months.
