ASX Release**ASX Code: AGI****Ainsworth Game Technology Limited – Profit Guidance**

Ainsworth Game Technology Limited (AGT) today announced that, subject to finalisation of year end procedures, it expects to report a profit before tax for the financial year ended 30 June 2013 of approximately \$65 million, an increase of 41% on the corresponding period in 2012.

This expected result is based on unaudited results and represents a second half increase of 16% on the \$30.1 million reported for the six months ended 31 December 2012.

AGT advised that the improved result expected for FY13 is primarily attributable to:

- Foreign currency gains achieved in the second half of FY13 due to the fall in the Australian dollar compared to the US dollar which has offset losses of \$1.6 million in the first half (31/12/2012);
- Increased revenue within Victoria following the approval of the A560 and the transition to the new monitoring system provider within the second half of FY13; and
- Increased revenue in FY13 within the international markets of South America and Asia compared to the previous corresponding period in 2012. North American revenue for the second half is expected to be similar to the first half of FY13 as the Company continues to pursue its strategy of placing products on a participation basis.
