CEO Kerrie Mather said, "International passenger growth for July was very strong, increasing 5.5% on prior corresponding period (pcp). Foreign nationals were the primary driver of this pleasing result, with UK nationals the best performing group due to the final match of the British and Irish Lions Tour being held in Sydney at the start of the month. Other strong nationality performances came from New Zealand and Chinese passengers.

"Our international result also benefited from strong load factor increases and additional capacity. A number of carriers achieved load factors of above 90% reflecting materially improved performances against pcp. The largest incremental capacity increases came from both recently announced upgauges and increased frequencies.

"Domestic passengers grew by 3.5% during the month, reaching 14.2 million year to date. Domestic performance was supported by increasing load factors across all major carriers."

## **Key Points**

- Total passenger traffic for July is estimated to have increased 4.1% on pcp, with domestic traffic estimated to be up 3.5% on pcp and international traffic (excluding domestic on-carriage) up 5.5% on pcp.
- Key contributors to our strong capacity growth for the month were: Qantas Airways, Emirates (second A380 upgauge), AirAsia X (increased services to Kuala Lumpur to 10 per week), China Eastern Airlines (new Nanjing service), Virgin Australia (additional Auckland and Christchurch frequencies), Fiji Airways (frequency increase over school holidays), and Etihad Airways (upgauge to B773).
- For international traffic, the major nationality markets that grew included Australia (+3.2%), UK (44.5%), China (+22.1%), New Zealand (+7.3%), India (+6.0%), Korea (+4.2%), Malaysia (+3.4%) and Japan (+3.1%). While Singapore (-8.8%), Germany (-8.3%) and France (-7.7%) were the major nationality markets that declined during July.
