

APA Group

# **Financial Results**

## **Year ended 30 June 2013**

**21 August 2013**

## Result overview and strategic highlights

**Mick McCormack**  
**Managing Director and CEO**

# Consistent strategy, core business growth

Focus on long term, low-risk and sustainable growth of our core business – gas pipelines and distribution infrastructure

## ■ Expanding our core business

... achieving appropriate commercial returns for our investment

### FY 2013 activities

- HDF acquisition
- Pipeline and storage expansions

## ■ Optimising operations and services

... driving greater performance and returns from our assets, services and industry skills

- Diamantina power station development

- Pipeline developments and extensions

- Envestra merger proposal

- East coast grid services

## ■ Building flexibility and resilience

... capitalising on opportunities and maintaining position strength

- Strong balance sheet and funding position

- Contract and regulatory positions

*... delivering growth, security and value*

# Result overview

| \$ million                               | 2013  | 2012  | Change |       |
|------------------------------------------|-------|-------|--------|-------|
| <b>Normalised results <sup>(1)</sup></b> |       |       |        |       |
| EBITDA                                   | 667   | 535   | up     | 25 %  |
| Profit                                   | 179   | 140   | up     | 27 %  |
| Operating cash flow                      | 433   | 336   | up     | 29 %  |
| Operating cash flow per security (cents) | 56.0  | 52.5  | up     | 7 %   |
| <b>Statutory results</b>                 |       |       |        |       |
| EBITDA                                   | 769   | 526   | up     | 46 %  |
| Profit                                   | 299   | 131   | up     | 129 % |
| Operating cash flow                      | 374   | 336   | up     | 12 %  |
| Operating cash flow per security (cents) | 48.5  | 52.5  | down   | 8 %   |
| <b>Distributions</b>                     |       |       |        |       |
| Distribution per security (cents)        | 35.5  | 35.0  | up     | 1.4 % |
| Distribution payout ratio <sup>(2)</sup> | 68.2% | 67.0% |        |       |

(1) Normalised results exclude significant items. Significant items includes payment of fees made by HDF, costs in relation to the acquisition of HDF, gain on APA's previously held interest in HDF and reversal of some costs booked in relation to the sale of the Allgas business in 2011.

(2) Based on normalised operating cash flow.

# Successful HDF acquisition

- Value accretive acquisition
  - Quality assets with secure long-term revenue contracts and growth potential
  - Acquisition model exceeded
- Surprised on the upside
  - Growth projects underway on the SWQP – Wallumbilla and Moomba compression projects
  - Recontracted Pilbara Pipeline System revenues
- Sale of MAPS and integration of SWQP and PPS completed within the year
  - No disruption to business and pipeline operations
- Establish grid infrastructure and services in the east and west
  - Value creation for APA and customers
  - Incremental revenue synergies as services are developed across the APA network

Wallumbilla compressor station on the SWQP

# Growth capital projects across the portfolio

- Continued and/or completed \$1.5 billion<sup>(1)</sup> expansion projects across the country
  - appropriate commercial returns and secure, long-term revenue

|                               | FY 2013                                                                                                      | FY 2014                                                                         | FY 2015 |
|-------------------------------|--------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|---------|
| Roma Brisbane Pipeline        | Completed 10% increase in pipeline capacity                                                                  |                                                                                 |         |
| Moomba Sydney Pipeline        | Completed 5-year mainline expansion project                                                                  |                                                                                 |         |
| Victorian Transmission System | Completed northern augmentation project and Sunbury looping                                                  | Capacity expansion of southern and northern sections of the transmission system |         |
| Goldfields Gas Pipeline       | Two projects delivering 28% increase in pipeline capacity                                                    |                                                                                 |         |
| Moomba compression            | Compression capacity increase at Moomba, facilitating eastern gas flow on the South West Queensland Pipeline |                                                                                 |         |
| Wallumbilla compression       | Compression capacity increase at Wallumbilla hub                                                             |                                                                                 |         |
| Mondarra Gas Storage Facility | Completed 5-fold increase in storage capacity,                                                               |                                                                                 |         |
| Diamantina Power Station      | Construction of gas fired 242 MW power station and 60 MW back up generation                                  |                                                                                 |         |

(1) Total cost of all projects, including the full Diamantina and Leichhardt power stations construction costs.

# Strategic development of pipeline grids

## APA's WA infrastructure:

Servicing north west mining region  
Gas transport and storage for Perth

## APA's east coast grid:

> 7,000 km of pipelines  
5 major pipelines  
5 states and territories

## East coast grid

- Physical interface of pipelines – operating as one system
- Seamless service capability across 30 receipt points and 100 delivery points
- Trans-pipeline transportation agreements in place
- New service options – storage and flexibility

## West Australian infrastructure

- Interconnected gas storage and transportation to Perth
- Only pipeline infrastructure in north west mining region – optimise service

*Transformational change in service provision*

# Safety and sustainability reporting

## ■ Health and safety

- Long-term safety goal of Zero Harm - program of continuous improvement
- Decrease of LTIFR<sup>(1)</sup> to 2.1, down from 2.2

## ■ Natural gas and carbon reduction

- Carbon tax – direct cost impact immaterial due to cost recovery mechanisms
- Promoting the use of natural gas in reducing carbon emissions

## ■ Community investment program

- Supporting local and national community initiatives through “Building Brighter Futures” community partnership program

(1) Lost time injury frequency rate (LTIFR) is measured as the number of lost time injuries per million hours worked.

APA Group

## Financial performance

**Peter Fredricson**  
**Chief Financial Officer**

# Solid and consistent result

(1) Includes the South West Queensland Pipeline revenue and EBITDA contributions from 9 October 2012 and excludes the Allgas business contribution in 2012.

(2) Includes the Pilbara Pipeline System revenue and EBITDA contributions from 9 October 2012.

(3) 2013: MAPS consolidation on 9 October 2012 to sale of the business on 1 May 2013. 2012: Allgas sold to GDI in December 2011.

**FY13 EBITDA by business segment**  
(continuing business)

**APA's portfolio diversity provides stability**

# EBITDA contributions

# Energy Infrastructure

## Queensland

### Roma Brisbane Pipeline

- 10% increase in capacity
- Commissioned September 2012

### South West Queensland Pipeline

- Integration completed
- 9 months earnings contribution

### Moomba compression

- Services available second half CY2014

### Wallumbilla compression:

- Long-term agreement for compression services
- Procurement of major capital equipment
- Service available from early CY2015

Moomba compression facility

# Energy Infrastructure

## New South Wales

### Moomba Sydney Pipeline

- Completed 5 year expansion program
- Spare capacity recontracted January 2013
- Commenced gas transportation services between Victoria and Sydney
- Focused recontracting program

Young compressor station and control centre

# Energy Infrastructure

## Victoria & South Australia

### Victorian Transmission System

- Gas volume increase of 5% due to cooler weather and gas exports to NSW
- Commissioned Euroa compressor station, part of Northern Augmentation Project, and Sunbury lateral
- Completed upgrade of Longford meter station

### VTS access arrangement

- New access arrangement commenced
- Merits review process underway

### Moomba Adelaide Pipeline System

- Sale completed in May 2013, for \$401 million

Longford meter station upgrade

# Energy Infrastructure

## Western Australia & Northern Territory

### Goldfields Gas Pipeline

- Construction progressing on compression and off-take facilities

### Mondarra Gas Storage Facility

- Expansion completed and operating commercially since July 2013

### Pilbara Pipeline System

- Integration completed
- 9 months earnings contribution

### New developments

- Gas supply to Gove – discussions commenced with Pacific Aluminium and NT Government
- Heads of Agreement with Armour Energy

Mondarra Gas Storage Facility

# Asset Management and Energy Investments

## Asset Management

- Increased operator fees from Envestra due to Envestra revenue increases
- Full year contribution of asset management revenue – GDI (EII)
- Customer contributions of \$10.2 million

## Energy Investments

- Increased investment returns – Envestra
- Additional investment returns – GDI (EII)
- Removal of HDF from the Energy Investment segment following takeover and consolidation
- Increase in Envestra equity interest – participation in DRP and equity placement

# Distribution payout metrics

# Fully covered distributions

Distributions in line with guidance for FY 2013

(1) Distribution payout ratio: distribution payments as a percentage of operating cash flow

(2) Based on normalised operating cash flow

# Capital expenditure

| \$ million                         | 2013         | Major projects in FY13                                      | 2012         |

# Capital management

- Cash and committed undrawn facilities of \$972 million at 30 June 2013

| Metrics                                                     | 30 Jun 2013 | 30 Jun 2012 |
|-------------------------------------------------------------|-------------|-------------|
| Gearing <sup>(1)</sup>                                      | 62.8 %      | 65.0 %      |
| Interest cover ratio                                        | 2.30 times  | 2.48 times  |
| Average interest rate applying to drawn debt <sup>(2)</sup> | 7.35 %      | 7.39 %      |
| Interest rate exposure fixed or hedged                      | 83.2 %      | 80.9 %      |
| Average maturity of drawn senior facilities                 | 6.2 years   | 4.8 years   |

- Equity: \$83 million raised via Distribution Reinvestment Plan in September 2012 and March 2013  
176 million new securities issued at average \$5.035 per security for HDF consideration
- Debt: \$515 million Subordinated Notes issued in September 2012  
A\$735 million 10-year US144a/Reg S Notes issued in October 2012  
A\$536 million 12-year GBP Medium Term Notes issued in November 2012  
Repayment of HDF debt totalling \$1,325 million and termination of associated facilities

(1) Ratio of net debt to net debt plus book equity.

(2) Includes subordinated debt of \$515 million Notes.

# Capital management

- Maintain strong BBB/Baa2 investment grade ratings
- Maintain funding flexibility – internal cash flows plus additional equity and/or debt

**Debt maturity profile**  
(30 June 2013)

APA Group

## Outlook and guidance

**Mick McCormack**  
**Managing Director and CEO**

# Growth across the portfolio

## ■ Continued east coast grid development

- Demand for trans-pipeline and other services
- Moomba Sydney Pipeline recontracting
- FEED for Vic to NSW infrastructure

## ■ Continued expansions projects

- Goldfields Gas Pipeline and Diamantina Power Station
- New capacity for mining areas and gas supply for east coast LNG

## ■ New pipeline developments

- Northern Territory pipelines
- Connecting new gas sources

## ■ Core business investments

- Strategic fit with appropriate commercial returns

# Envestra rationale and update

- Core business – gas distribution
  - Core competencies – operation and ownership of gas infrastructure
  - Operator since 2007
- Largest shareholder and service provider
  - Align ownership with full operational control and
  - retain value created by industry skills within APA
- Revenue certainty and appropriate commercial returns
  - More than 3 years of revenue certainty with current access arrangements
  - Price reflects appropriate return for low-risk asset
- Significant growth
  - Appropriate return for APA's operational and engineering expertise

# Outlook and guidance for FY 2014

## Outlook

- Continue development of expansion projects
- East coast gas grid development

## Guidance

- EBITDA – expected within a range of \$715 million to \$730 million
  - 11% to 13% increase on 2013 EBITDA<sup>(1)</sup>
- Net interest cost – expected within a range of \$330 million to \$340 million
- Distribution – at least equal to FY 2013 total distributions per security of 35.5 cents

(1) Excluding significant items and MAPS contribution.

(1) Australian dollars. Any foreign notes issued have been hedged into fixed-rate Australian dollar obligations

(2) Comprises four facilities of \$75 million each

(3) Comprises two facilities of \$483.3 million each

(4) Totals differ from summations due to rounding

# Regulatory update

## APA's major price regulated assets

### ■ Regulatory resets over the next five years

### ■ Roma Brisbane Pipeline access arrangement

- AER's final decision (10 August 2012) includes 8.75% tariff increase
- Minimal impact to APA's revenue – the majority of the pipeline's revenue is derived from haulage contracts with set terms, including pricing

### ■ Victorian Transmission System access arrangement

- AER issued its final decision in March 2013 and the new access arrangement commenced on 1 July 2013
- The final decision provided for an initial tariff reduction of 21.5% followed by a further 14% in 2014
- APA has undertaken merit review proceedings before the Australian Competition Tribunal – a decision is expected within the next two months

### ■ Regulatory framework

- AER is developing its first rate of return guidelines pursuant to the revised National Gas Rules – draft expected at the end of August

## APA profile

- APA is Australia's largest natural gas infrastructure business
  - **Energy Infrastructure:** natural gas pipelines and interconnected gas storage facilities across Australia, and the Emu Downs wind farm in Western Australia
  - **Asset Management:** provision of asset management, operating and maintenance services to the majority of APA's investments and other third parties
  - **Energy Investments:** minority interests in energy infrastructure investments, including Envestra, GDI (EII), SEA Gas Pipeline, Energy Infrastructure Investments, EII2 and Ethane Pipeline Income Fund
- APA generates secure cash flows from contractual and regulatory arrangements on its assets
  - with more than 90% of revenue from regulated (natural monopoly) assets and long term contracts
- APA has direct management and operational control over its assets and investments
  - employing over 1,500 skilled and experienced people who perform all commercial, engineering and operational functions for APA's assets and investments

***APA transports half of Australia's domestic gas usage***

# APA asset and investment portfolio
