# PRINCIPAL ACTIVITY

The principal activity of the Group during the financial year was exploration of uranium projects in Tanzania.

There were no significant changes in the nature of the Group's principal activities during the financial year.

#### **OPERATING AND FINANCIAL REVIEW**

#### **Operating Overview**

The primary focus of the Company during the year was exploration of the Group's uranium properties in Tanzania.

East Africa has five projects in Tanzania – Eastern Rift, Madaba, Hemedi, Mkuju and the Mkuju South Joint Venture (JV).

The major focus of work for the financial year was the Mkuju South JV, where a drilling program has been initiated.

#### Mkuju South JV

The Mkuju South JV is a joint venture between the Company and Korea Resources Corporation ("KORES"). It covers the Mkuju South project which comprises two tenements in the southern part of the Mkuju Uranium Project.

To date KORES has contributed US\$2 million for 28% of the Mkuju South Uranium Project. These funds have been used for a groundwork program and for a drilling program to test the targets identified. Depending on the results from the initial exploration program, KORES will contribute a further US\$1.5 million (for an additional 22% of the project). These funds will be used for further drilling in a second exploration program.

To date, 3,415m have been drilled to test targets at Foolscap, Crown, Demy and DW. No significant uranium mineralisation has been encountered however the highest ranked targets of Quarto and Post remain to be tested. The drilling program is currently on hold while environmental permission is obtained to drill Quarto and Post, which are located within the Selous Game Reserve.

# Eastern Rift

The Eastern Rift Project surrounds Lake Manyara in the north of Tanzania and is targeted at U-in-calcrete mineralisation.

East Africa has recently identified a gold project on the west of Lake Manyara. Initial rock chip samples show grades of up to 36g/tn and the Company is planning to conduct further exploration on this project.

The Company has reviewed all tenements in the Eastern Rift project and plans to reduce its landholdings to the south and northwest of Lake Manyara.

# Other Projects

The Company will continue to work on access to explore at Madaba and Mkuju and review joint venture options for the Hemedi Project.

# **Operating Results**

The net loss of the Group for the financial year after income tax was \$3,897,847 (2012: loss of \$1,170,038).

#### STATE OF AFFAIRS

In the opinion of the directors, there were no significant changes in the state of affairs of the Group that occurred during the financial year under review, other than those matters referred to in this report.

# **DIVIDENDS**

No dividends have been paid by the Company during the financial year ended 30 June 2013, nor have the directors recommended that any dividends be paid.

# EAST AFRICA RESOURCES LIMITED DIRECTORS' REPORT

# **EVENTS SUBSEQUENT TO REPORTING DATE**

On 17 May 2013 East Africa announced a non-renounceable one for one entitlement issue to raise \$785,719. The entitlement issue closed on 17 June 2013. As a result of the entitlement issue 64,519,871 ordinary shares were issued on 25 June 2013 and \$451,639 was raised. Subsequent to year end, the company has issued the shortfall of the entitlement issue, being 47,725,649 ordinary shares and has raised an additional \$334,080.

Other than the matters discussed above, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely in the opinion of the directors of the Company, to significantly affect the operations of the Group, the results of those operations or the state of the affairs of the Group in future financial years.

#### LIKELY DEVELOPMENTS

The Group will continue to focus on its uranium projects in Tanzania and will commence further exploration in to the gold discovery in the Eastern Rift Project area.

Further information about likely developments in the operations of the Group and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Group.

# **ENVIRONMENTAL ISSUES**

The Group's operations are not subject to any significant environmental regulations under either Commonwealth or State legislation. However, the Group's operations are subject to various environmental regulations in Tanzania. The directors believe that the Group has adequate systems in place for the management of its environmental requirements and is not aware of any breach of those environmental requirements as they apply to the Group.

#### **RISK MANAGEMENT**

The directors are responsible for ensuring that risks, and also opportunities, are identified on a timely basis and that activities are aligned with the risks and opportunities identified by the directors.

The Group believes that it is crucial for all directors to be a part of this process, and as such has not established a separate risk management committee.

The Group has a number of mechanisms in place to ensure that management's objectives and activities are aligned with the risks identified by the directors. These include the following:

- Board approval of a strategic plan, which encompasses strategy statements designed to meet stakeholders needs and manage business risk; and
- Implementation of Board approved operating plans and budgets and monitoring of progress against these budgets.

# INDEMNIFICATION AND INSURANCE OF OFFICERS

The Company has agreed to indemnify the directors of the Company, the directors of controlled entities and executive officers against all liabilities to other persons (other than the Company or a related body corporate) that may arise from their position as directors of the Company and its controlled entities, except where the liability arises out of conduct involving a lack of good faith. The agreement stipulates that the Company will meet the full amount of any such liabilities, including costs and expenses.

#### **NON-AUDIT SERVICES**

# **REMUNERATION REPORT (AUDITED)**

The Remuneration Report for the year ended 30 June 2013, is set out below:

#### Remuneration policies

Remuneration levels for the directors of the Company and senior executives of the Group are competitively set to attract and retain appropriately qualified and experienced directors and executives. The Board may obtain independent advice on the appropriateness of remuneration packages and remuneration strategies.

The remuneration policies explained below are designed to attract suitably qualified candidates, reward the achievement of strategic objectives, and achieve the broader outcome of creation of value for shareholders. The remuneration policies take into account:

- the capability and experience of the directors and senior executives;
- the directors and senior executives' ability to control the relevant segments' performance;
- the Group's performance including:
  - the Group's earnings;
  - the growth in share price and returns on shareholder wealth; and
  - the amount of incentives within each directors and senior executive's remuneration.

Remuneration packages for directors and senior executives are currently fixed and do not include variable remuneration or long-term performance-based incentives.

# Fixed remuneration

Fixed remuneration consists of base remuneration (which is calculated on a total cost basis and includes any FBT charges related to employee benefits including motor vehicles), as well as employer contributions to superannuation funds where applicable.

Remuneration levels are reviewed annually by the Board through a process that considers individual, segment and overall performance of the Group. In addition, external consultants may be used to provide analysis and advice to ensure the director's and senior executive's remuneration is competitive in the market place. A senior executive's remuneration is also reviewed on promotion.

# Performance-linked remuneration

Performance linked remuneration, where appropriate, can include both short-term and long-term incentives and is designed to reward executive directors and senior executives for meeting or exceeding their financial and personal objectives. The short-term incentive is an "at risk" bonus provided in the form of cash, while the long-term incentive is provided as options over ordinary shares of the Company, subject to shareholder approval.

# Long-term incentive

Options can be issued under an Employee Option Plan, subject to shareholder approval, which provides for executive directors and senior executives to receive options over ordinary shares for no consideration. The ability to exercise the options may be conditional on the Group achieving certain performance hurdles and/or the continuing service of the directors and employees. Options granted to directors and employees, which have not vested upon termination, are forfeited unless otherwise determined by the Board of the Company.

Performance hurdles may comprise a number of components, including share price hurdles and personal key performance indicators. Performance hurdles are set and assessed by the Board.

#### Non-executive directors

Total remuneration for all non-executive directors, is set with reference to fees paid to other non-executive directors of comparable companies.

Non-executive directors do not receive performance related remuneration other than incentive options, which must be approved by shareholders prior to them being granted. Directors' fees cover all main board activities.

# EAST AFRICA RESOURCES LIMITED DIRECTORS' REPORT

From time to time, the Board may ask non-executive directors with appropriate skills and experience to consult to the Company in order to carry out particular tasks.

# **Diversity**

# **Board Composition**

The Company aims to achieve a mix of skills in the membership of the Board that is as diverse as practicable, given the size and scope of the Company's operations. The Company has adopted a Diversity Policy which is available on the Company's website under the Corporate Governance section.

# Measurable Objectives

The Group's primary objectives with regard to diversity are as follows:

- the Company's composition of Board, executive, management and employees to be as diverse as practicable; and
- to provide equal opportunities for all positions within the Company and continue the Company's commitment to employment based on merit.

Primary objectives set by the Company with regard to diversity have been met, as described below:

- blend of skills wide range of backgrounds: geology, exploration, finance and corporate experience;
- cultural backgrounds Australian and African; and
- gender both male and female members.

# **Equal Opportunity Reporting**

The Group's percentage of females in the organisation is as follows:

	% Female
Employees	33%
Executives & Board Members	20%

The financial statements of East Africa Resources Limited and its controlled entities, and East Africa Resources Limited as an individual parent entity comply with all Australian equivalents to International Financial Reporting Standards (AIFRS) in their entirety.

The following is a summary of the material accounting policies adopted by the Group in the preparation of the financial statements. The accounting policies have been consistently applied, unless otherwise stated.

#### **Basis of Preparation**

The accounting policies set out below have been consistently applied to all years presented.

#### Reporting Basis and Conventions

The financial statements have been prepared on an accruals basis and are based on historical costs modified by the revaluation of selected non-current assets, financial assets and financial liabilities for which the fair value basis of accounting has been applied.

# **Accounting Policies**

#### (a) Principles of Consolidation

A controlled entity is any entity that East Africa Resources Limited has the power to control the financial and operating policies so as to obtain benefits from its activities.

A list of controlled entities is contained in Note 14 to the financial statements. All controlled entities have a June financial year-end.

All inter-company balances and transactions between entities in the Group, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistencies with those policies applied by the parent entity. Where controlled entities have entered or left the Group during the year, their operating results have been included/excluded from the date control was obtained or until the date control ceased.

# (b) Going Concern

The financial statements have been prepared on the basis of accounting principles applicable to a going concern, which assumes the commercial realisation of the future potential of the consolidated entity's assets and the discharge of their liabilities in the normal course of business.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 June 2013

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

## (c) Income Tax

Current income tax expense is based on the profit for the year adjusted for any non-assessable or disallowed items. It is calculated using the tax rates that have been enacted or are substantially enacted by the balance date.

Deferred tax is accounted for using the balance sheet liability method in respect of temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or liability is settled. Deferred tax is credited in the income statement except where it relates to items that may be credited directly to equity, in which case the deferred tax is adjusted directly against equity.

Deferred income tax assets are recognised to the extent that it is probable that future tax profits will be available against which deductible temporary differences can be utilised.

The amount of benefits brought to account or which may be realised in the future is based on the assumption that no adverse change will occur in income taxation legislation and the anticipation that the consolidated entity will derive sufficient future assessable income to enable the benefit to be realised and comply with the conditions of deductibility imposed by the law.

#### (d) Revenue recognition

Sale of goods is recognised when control has passed to the buyer.

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial asset.

All revenue is stated net of the amount of goods and services tax (GST).

# (e) Property, Plant and Equipment

Each class of property, plant and equipment is carried at cost less any accumulated depreciation and impairment losses.

Property: Freehold land and buildings are measured on the cost basis.

Plant and Equipment: Plant and equipment are measured on the cost basis.

The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount of these assets. The recoverable amount is assessed on the basis of the expected net cash flows that will be received from the assets employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the consolidated entity and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the income statement during the financial period in which they are incurred.

# Depreciation

The depreciable amount of all fixed assets including building and capitalised leased assets, but excluding freehold land, is depreciated on a diminishing value basis over their useful lives, commencing from the time the asset is held ready for use. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

The depreciation rates used for each class of depreciable assets are:

Class of Fixed AssetDepreciation RateBuildings2.5%Plant and equipment13-40%

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 June 2013

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

#### (e) Property, Plant and Equipment (Cont.)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains and losses are included in the income statement.

# (f) Exploration and Development Expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Costs of site restoration are provided over the life of the facility from when exploration commences and are included in the costs of that stage. Site restoration costs include the dismantling and removal of mining plant, equipment and building structures, waste removal, and rehabilitation of the site in accordance with clauses of the mining permits. Such costs have been determined using estimates of future costs, current legal requirements and technology on an undiscounted basis.

Any changes in the estimates for the costs are accounted on a prospective basis. In determining the costs of site restoration, there is uncertainty regarding the nature and extent of the restoration due to community expectations and future legislation. Accordingly, the costs have been determined on the basis that the restoration will be completed within one year of abandoning the site.

#### (g) Intangibles

Intangibles are recognised at cost of acquisition. Intangibles are carried at cost less any accumulated amortisation and any impairment losses. Intangibles are amortised, where there is a definitive life, on a straight line basis over the period of benefit.

#### (h) Share-based Payments

Share-based compensation benefits are provided to directors and executives.

The fair value of options granted to directors and executives is recognised as an employee benefit expense with a corresponding increase in contributed equity. The fair value is measured at grant date and recognised over the period during which the directors and/or executives becomes unconditionally entitled to the options.

The fair value at grant date is independently determined using an option pricing model that takes into account the exercise price, the term of the option, the vesting and performance criteria, the impact of dilution, the non-tradeable nature of the option, the share price at grant date and expected price volatility of the underlying share, the expected divided yield and the risk-free interest rate for the term of the option.

# (i) Cash and Cash Equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 June 2013

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

#### (j) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense. Receivables and payables in the balance sheet are shown inclusive of GST.

# (k) Leases

Lease payments for operating leases, where substantially all the risk and benefits remain with the lessor, are charged as expenses in the period in which they are incurred.

# (I) Impairment of assets

At each reporting date, the consolidated entity reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed to the income statement.

Impairment testing is performed annually for intangible assets with indefinite lives.

Where it is not possible to estimate the recoverable amount of an individual asset, the consolidated entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

#### (m) Financial instruments

#### Recognition

Financial instruments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition, these instruments are measured as set out below.

Financial assets at fair value through profit and loss

A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management and within the requirements of AASB 139: Recognition and Measurement of Financial Instruments. Realised and unrealised gains and losses arising from changes in the fair value of these assets are included in the income statement in the period in which they arise.

#### Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method.

#### Held-to-maturity investments

These investments have fixed maturities, and it is the Group's intention to hold these investments to maturity. Any held-to-maturity investments held by the Group are stated at amortised cost using the effective interest rate method.

# Available-for-sale financial assets

Available-for-sale financial assets include any financial assets not included in the above categories. Available-for-sale financial assets are reflected at fair value. Unrealised gains and losses arising from changes in fair value are taken to equity.

# Financial liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 June 2013

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

#### Impairment

At each reporting date, the consolidated entity assesses whether there is objective evidence that a financial instrument has been impaired. In the case of available-for-sale financial instruments, a prolonged decline in the value of the instrument is considered to determine whether an impairment has arisen. Impairment losses are recognised in the income statement.

# (n) Borrowing cost

All borrowing costs are recognised in the income statement in the period in which they are incurred.

#### (o) Employee Benefits

Wages, salaries, annual and long service leave

Provision is made for the consolidated entity's liability for employee benefits arising from services rendered by employees to balance date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled, plus related on-costs. Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. Related on-costs have also been included in the liability.

#### Superannuation plan

Contributions to employee superannuation funds are charged against income statement as they are made.

#### (p) Foreign Currency

#### Functional and presentation currency

The functional currency of each of the entities in the Group is measured using the currency of the primary economic environment in which that entity operates. The financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

# Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the income statement, except where deferred in equity as a qualifying cash flow or net investment hedge.

Exchange difference arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity, otherwise the exchange difference is recognised in the income statement.

# Subsidiary companies

The financial results and position of foreign operations whose functional currency is different from East Africa's presentation currency are translated as follows:

- Assets and liabilities are translated at year-end exchange rates prevailing at that reporting date.
- Income and expenses are translated at average exchange rates for the period.
- Retained profits are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the foreign currency reserve in the balance sheet. These differences are recognised in the income statement in the period in which the operation is disposed.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 June 2013

# 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont.)

#### (q) Contributed equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

#### (r) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the financial year but not distributed at balance date.

#### (s) Earnings per share

# (i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the company, excluding any costs of servicing equity other than ordinary shares, by the weighted average number of ordinary shares outstanding during the financial year.

# (iii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no consideration in relation to dilutive potential ordinary shares.

#### (t) Comparative figures

Where required by Accounting Standards, comparative figures have been adjusted to conform with changes in presentation for the current financial year

# (u) Critical Accounting Estimates and Judgements

The directors evaluate estimates and judgments incorporated into the financial statements based on historical knowledge and best available current information. Estimates assume a reasonable expectation of future events and are based on current trends and economic data, obtained both externally and within the consolidated entity.

# (v) Key estimates – Impairment

The consolidated entity assesses impairment at each reporting date by evaluating conditions specific to the consolidated entity that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Value in use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

The financial statements were authorised for issue on 27 September 2013 by the Board of Directors.

- (i) the relevant company derives future assessable income of a nature and an amount sufficient to enable the asset to be realised;
- (ii) the relevant company and/or the consolidated entity continues to comply with the conditions for deductibility imposed by the law; and
- (iii) no changes in tax legislation adversely affect the relevant company and/or the consolidated entity in realising the asset.

Given the various capital raisings that have taken place since 2007 the availability of tax losses will need to be determined by the ATO.

East Africa Resources Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidated group under the Tax Consolidation Regime. East Africa Resources Limited is responsible for recognising the current and deferred tax assets and liabilities for the tax consolidated group. The tax consolidated group has entered a tax sharing agreement whereby each company in the group contributes to the income tax payable in proportion to their contribution to the net profit before tax of the tax consolidated group.

#### 18. FINANCIAL RISK MANAGEMENT

# Overview:

The company and consolidated entity have exposure to the following risks from their use of financial instruments:

- (a) liquidity risk
- (b) credit risk
- (c) market risk

This note presents information about the Company's and consolidated entity's exposure to each of the above risks, their objectives, policies and processes for measuring and managing risk, and the management of capital.

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. Management monitors and manages the financial risks relating to the operations of the Company through regular review of risk.

# (a) Liquidity risk:

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Company manages liquidity risk by maintaining adequate reserves through continuously monitoring forecast and actual cash flows. The Company has no financing facilities available to it.

# (b) Credit risk exposures

Credit risk is the risk of financial loss to the consolidated entity if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the consolidated entity's receivables from customers and investment securities. For the Company it arises from receivables due from subsidiaries.

(i) Investments. The group limits its exposure to credit risk by only investing with counterparties that have an acceptable credit rating.

# (ii) Trade and other receivables:

The Company and consolidated entity have established an allowance for impairment that represents their estimate of incurred losses in respect of receivables and investments. The main components of this allowance are a specific loss component that relates to individually significant exposures. The management does not expect any counterparty to fail to meet its obligations.

Presently, the group undertakes exploration and evaluation activities in Australia and in Africa. At the balance sheet date there were no significant concentrations of credit risk.

# (iii) Exposure to credit risk:

The carrying amount of financial assets recorded in the financial statements and notes, net of any provisions for losses, represents the consolidated entity's maximum exposure to credit risk without taking account of the fair value of any collateral or other security obtained. The Company has no financial assets that are neither past due nor impaired therefore credit qualities have not been disclosed.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 June 2013

The Company's maximum exposure to credit risk at the reporting date was:

	Consolidat	ted Entity
	2013 \$	2012 \$
Cash and cash equivalents	739,277	323,532
Trade and other receivables	40,927	154,361
Total exposure	780,204	477,893

# Impairment losses

An impairment loss in respect of inter-group loans was recognised from a net asset analysis of the subsidiaries' positions. None of the company's other receivables are past due.

The movement in the allowance for impairment in respect of the inter-group loans on a non-consolidated basis during the year was as follows:

	Parent Entity	
	<b>2013</b> \$	2012 \$
Balance at 1 July	4,761,961	4,761,961
Impairment loss/ (write-back) recognised	1,957,792	-
Balance at 30 June	6,719,753	4,761,961

Whilst the loans were not payable as at 30 June 2013, a provision for impairment based on the subsidiaries financial position was made. The balance of this provision may vary due to the performance of a subsidiary in a given year.

# NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 June 2013

# 18. FINANCIAL RISK MANAGEMENT (Cont.)

# (c) Market Risk:

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the consolidated entity's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

# (i) Price risk:

The Company does not have investments in equity securities and is not exposed to price risk.

# (ii) Currency risk:

The Company is exposed to currency risk on investments in subsidiaries in a currency other than the respective functional currencies of group entities, primarily the Australian dollar (AUD).

The Company has not entered into any derivative financial instruments to hedge such investments and anticipated future receipts or payments that are denominated in a foreign currency.

The Company's investments in its subsidiaries are not hedged as those currency positions are considered to be long term in nature.

Other than the Company's investment in its subsidiaries, the consolidated entity did not have any Exposure to currency risk during the financial year.

The following significant exchange rates applied during the year:

# 21. COMMITMENTS

#### (a) Exploration

The parent entity and consolidated entity have certain obligations to perform minimum exploration work on mineral leases held; however the parent entity currently does not hold any tenements within Australia. These obligations may vary over time, depending on the parent entity's and the consolidated entity's exploration programs and priorities. As at balance date, total exploration work commitments on tenements held by the parent entity and the consolidated entity have not been provided for in the financial statements and have not been quantified as a monetary amount. These obligations are also subject to variations by farm-out arrangements and the purchase or sale of the relevant tenements.

# 22. EMPLOYEE ENTITLEMENTS

3,600,000 options were issued to the Chief Executive Officer, Ms Katina Law on 7 September 2012.

# INDEPENDENT AUDIT REPORT TO THE MEMBERS OF EAST AFRICA RESOURCES LIMITED

# Report on the financial report

We have audited the accompanying financial report of East Africa Resources Limited "(the Company") which comprises the balance sheet as at 30 June 2013 and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the year ended on that date, a summary of significant accounting policies, other explanatory notes and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the year.

# Directors' Responsibility for the Financial Report

The Directors of the Company are responsible for the preparation and true and fair presentation of the financial report in accordance with the Australian Accounting Standards (including the Australian Accounting Interpretations) and the *Corporations Act 2001*. This includes responsibility for the maintenance of adequate accounting records and internal controls that are designed to prevent and detect fraud and error, and for the accounting policies and accounting estimates inherent in the financial report. The Directors are also responsible for the remuneration disclosures contained in the directors' report.

# Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance as to whether the financial report is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the entity's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate to the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Independence

We are independent of the Company, and have met the independence requirements of Australian professional ethical requirements and the Corporations Act 2001.

# **Audit opinion**

In our opinion the financial report of East Africa Resources Limited is in accordance with the Corporations Act 2001, including:

- a) (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2013 and of their performance for the year ended on that date; and
  - (ii) complying with Australian Accounting Standards (including the Australian Accounting Interpretations) and the Corporations Regulations 2001; and
- the consolidated financial report also complies with International Financial Reporting Standards as b) issued by the International Accounting Standards Board.

# Report on the remuneration report

We have audited the remuneration report included in the directors' report for the year ended 30 June 2013. The directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

# **Audit opinion**

In our opinion the remuneration report of East Africa Resources Limited for the year ended 30 June 2013 complies with section 300A of the Corporations Act 2001.

#### Note 1:

During the year, only Mr Colless was considered to be independent. Messrs Kennedy and Munachen fail to meet the levels set for being an independent director because of their respective substantial shareholdings in the Company. Mr Zytkow fails to meet the test for independence as he has previously been employed in an executive capacity.

#### Note 2:

The Board of Directors of the Company does not have a formally appointed nomination committee. The Board is of the opinion that due to the nature and size of the Company, the functions performed by a nomination committee can be adequately handled by the full Board.

#### Note 3:

The Board of Directors of the Company does not have a formally appointed audit committee. The Board is of the opinion that due to the nature and size of the Company, the functions performed by an audit committee can be adequately handled by the full Board.

# Note 4:

The Board of Directors of the Company does not have a formally appointed remuneration committee. The Board is of the opinion that due to the nature and size of the Company, the functions performed by a remuneration committee can be adequately handled by the full Board.

#### Note 5:

The Board has not received a formal documented report from management on the effectiveness of their management of the company's material business risks other than verbal updates at Board meetings.

# **Explanation for Departure:**

Although a formal risk management system has not been implemented, the Board has encouraged an increased focus on risk management during the year. Frequent discussions and reviews of the various risks that the East Africa group may be exposed to are regularly carried out. The Company is committed to further developing and strengthening the Company's risk management policies.

# Note 6:

# Confirmation whether performance Evaluation of the Board and its members have taken place and how conducted

During the reporting period an evaluation of the Board, its members and company executives was not carried out. The Board and management's suitability, overall structure and composition to carry out the Company's objectives is however, discussed and reviewed on an as-required basis during regular meetings of the Board.
