About Cooper Energy

Since listing on the ASX in 2002, Cooper Energy has built a portfolio of near term low risk development and appraisal projects as well as high impact exploration prospects. Cooper currently benefits from approximately 500,000 barrels of oil production per year from the Cooper Basin, South Australia, with approximately 160 barrels of oil per day production from its Sukananti KSO in Indonesia. Cooper Energy also has prospective exploration licenses in Australia (Cooper and Otway Basins), Tunisia and Indonesia. Cooper Energy enjoys a solid balance sheet, good production earnings, and has a clear strategy to enhance shareholder return. www.cooperenergy.com.au
