NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2013

NOTE 1: BASIS OF PREPARATION

These condensed consolidated interim financial statements for the half-year reporting period 31 December 2013 have been prepared in accordance with the requirements of the *Corporations Act 2001*, and Australian Accounting Standards including AASB 134: Interim Financial Reporting.

This condensed consolidated interim financial report is intended to provide users with an update on the latest annual financial statements of Energy One Limited and its subsidiaries (the Group). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 30 June 2013, together with any public announcements made during the half-year in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The Company has one subsidiary, Energy One Limited Employee Option Plan Managers Pty Limited, incorporated in Australia. Energy One Ltd is the sole shareholder owning 100% of the issued capital in the entity. As at 31 December 2013 the subsidiary does not have any significant assets or liabilities therefore the consolidated entity's financial statements represent the parent entity's financial statements.

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements and the corresponding interim reporting period.

These financial statements have been prepared on an accrual basis.

Accounting policies adopted since 1 July 2013

Changes in accounting policy

Energy One Limited had to change some of its accounting policies as the result of new or revised accounting standards which became effective for the annual reporting period commencing on 1 July 2013. The affected policy and standard is accounting for employee benefits – *revised AASB 119 Employee Benefits*.

Other new standards that are applicable for the first time for the December 2013 half-year report are AASB 13 Fair Value Measurement, AASB 2012-2 Amendments to Australian Accounting Standards – Disclosures – Offsetting Financial Assets and Financial Liabilities and AASB 2012-5 Amendments to Australian Accounting Standards arising from Annual Improvements 2009-2011 Cycle. These standards have introduced new disclosures for the interim report but did not affect the Company's accounting policies or any of the amounts recognised in the financial statements.

Employee benefits:

The adoption of the revised AASB 119 Employee Benefits has changed the accounting for the group's annual leave obligations. Annual leave that is expected to be taken after the 12 months period from the reporting date, the obligations are now measured on a discounted basis. However, the impact of this change was immaterial.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE HALF YEAR ENDED 31 DECEMBER 2013

New accounting policies not yet effective

Impact of standards issued but not yet applied by the entity

AASB 9 Financial Instruments addresses the classification, measurement and derecognition of financial assets and financial liabilities. The standard is not applicable until 1 January 2015 but is available for early adoption. When adopted, the standard will not have significant affect the group's accounting for its financial assets.

There will be no impact on the group's accounting for financial liabilities, as the new requirements only affect the accounting for financial liabilities that are designated at fair value through profit or loss and the group does not have any such liabilities. The derecognition rules have been transferred from *AASB 139 Financial Instruments: Recognition and Measurement* and have not been changed. The group has not yet decided when to adopt AASB 9.

(a) Going Concern

The Group has \$1,689,754 cash and cash equivalents as at 31 December 2013 and no significant liabilities. The sales pipeline for the 2014 financial year is promising. The Directors believe the cash reserve is sufficient to finance the operating costs and software development costs.

As a result of these activities and the available cash reserves, the Directors believe the Group to be a going concern.

These accumulated tax losses and deferred tax assets from other temporary differences have not been brought to account as the probability of their utilisation has not been substantiated. In addition, to obtain the benefit of the losses the continuity of ownership or same business test needs to be satisfied. The company is currently confirming whether these tests have been passed.

NOTE 5: OPERATING SEGMENTS

The Group is managed primarily on the basis of product and service offerings and operates in one segment, being the Energy software industry, and in one geographical segment, being Australia. During the period ended 31 December 2013 the Group derived 68% of revenue from three major customers to which it provided consulting and support and maintenance work. The Group's most significant external customer accounts for 36% of external revenue with the next largest customer contributing 17%. Management assesses the performance of the operating segment based on the accounting profit and loss.

NOTE 6: EVENTS SUBSEQUENT TO THE REPORTING DATE

The Company recognised the full amount of the R&D tax incentive as other income when there was a reasonable assurance that the money would be received (AASB 112: Income Taxes) in the financial statements for the period ended 31 December 2012.

In the 30 June 2013 financial statements the R&D tax incentive is recognised as other income only when the relevant costs that the grant is intended to compensate are expensed to the profit and loss (AASB 120: Government Grants).

As a consequence of the revised application of this policy, a portion of the government grant relating to the development costs is recognized in the profit and loss to match with the corresponding amortisation expense of the development cost (5 years). The remaining portion is carried on the Balance Sheet as either current or non-current deferred revenue and recognised in the Profit & Loss account over 5 years.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF ENERGY ONE LIMITED

Report on the Half-year Financial Report

We have reviewed the accompanying half-year financial report of Energy One Limited which comprises the consolidated statement of financial position as at 31 December 2013, the consolidated statement of comprehensive income, consolidated statement of changes in equity, consolidated statement of cash flows for the half-year ended on that date, selected explanatory notes and the directors' declaration for Energy One Limited and its controlled entity (the consolidated entity). The consolidated entity comprises both Energy One Limited (the company) and the entity it controlled during that half-year.

Directors' Responsibility for the Half-Year Financial Report

The directors of the company are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the Corporations Act 2001 and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410: Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the consolidated entity's financial position as at 31 December 2013 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of the company, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the Corporations Act 2001.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Energy One Limited is not in accordance with the Corporations Act 2001 including:

- (i) giving a true and fair view of the consolidated entity's financial position as at 31 December 2013 and of their performance for the half-year ended on that date; and
- (ii) complying with Accounting Standard AASB 134: Interim Financial Reporting and the Corporations Regulations 2001.
