4.8 Allow all or part of your Entitlement to lapse

Returning a completed Entitlement and Acceptance Form or paying any Application Monies by BPAY® will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® payment instruction is given in relation to any Application Monies, the application may not be varied or withdrawn except as required by law.

4.11 Minimum subscription

There is no minimum subscription.

4.12 Payment by cheque/bank draft

All cheques must be drawn on an Australian bank or bank draft made payable in Australian currency to "Tamaska Oil and Gas Ltd – Entitlement Issue Account" and crossed "Not Negotiable".

Your completed Entitlement and Acceptance Form and cheque must be lodged and received at any time after the issue of this Prospectus, but no later than 5:00 pm WST on the Closing Date, at the Company's share registry (by post):

The Company shall not be responsible for any postal or delivery delays.

4.13 Payment by BPAY®

For payment by BPAY®, please follow the personalised instructions in your Entitlement and Acceptance Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your application monies.

Make sure that you use the specific Biller Code and unique Customer Reference Number (CRN) on your personalised Entitlement and Acceptance Form. You do not need to return a completed Entitlement and Acceptance Form but are taken to have made the declarations in the Entitlement and Acceptance Form

and the representations outlined in section 4.9. If you have more than one shareholding of Shares and consequently receive more than one Entitlement and Acceptance Form, when taking up your Entitlement in respect of one of those Shareholdings, only use the CRN specific to that Shareholding as set out in the applicable Entitlement and Acceptance Form. Do not use the same CRN for more than one of your Shareholdings. This can result in your Application Monies being applied to your Entitlement in respect of only one of your Shareholdings (with the result that any application in respect of your remaining Shareholdings will not be valid).

It is your responsibility to ensure that your BPAY® payment is received by the share registry by no later than 5:00 pm (WST) on the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment. Any application monies received for more than your final allocation of Shares (only where the amount is \$1.00 or greater) will be refunded. No interest will be paid on any application monies received or refunded.

4.16 Effect on control of the Company

Craig Ian Burton and Mr Charles Waite Morgan are both currently substantial shareholders in the Company (through various entities they control) but are not associates of each other. Their current voting power is detailed in Section 4.14.

Mr Burton has advised the Company that:

- a) he will not apply under his Entitlement or the Shortfall Offer, to take up more than 30% of the total amount raised via this Prospectus; and
- b) subject to the above, it is his current intention to take up all of his Entitlement (being \$1,200,000).

Mr Morgan has advised the Company that:

- a) he will not apply under his Entitlement or the Shortfall Offer, to take up more than 20% of the total amount raised via this Prospectus, and

b) it is his current intention to take up a minimum of \$500,000 of his Entitlement.

The Table below shows the possible voting power of Mr Burton and Mr Morgan assuming they both take up their full Entitlement (subject to the above limitations) and the amounts specified below are raised by the Offer.

	Number of TMK Shares on Issue	Craig Burton and controlled entities		Charles Morgan and controlled entities	
		Shares held	Voting power	Shares held	Voting power
Current holdings	63,960,249	12,000,000	18.76%	12,735,725	19.91%
Entitlement		120,000,000		127,357,250	
Total Possible Shareholding		132,000,000		140,092,975	
If Fully Subscribed/ 100% Shortfall Placed	703,562,739	132,000,000	18.76%	140,092,975	19.91%
If \$5 million raised placing 500million shares	563,960,249	132,000,000	23.41%	112,735,725	19.99%
If \$4 million raised placing 400million shares	463,960,249	132,000,000	28.45%	92,735,725	19.99%
If \$3 million raised placing 300million shares	363,960,249	102,000,000	28.03%	72,735,725	19.98%

Following completion of the Offer and placement under the Shortfall Offer, Craig Burton (and controlled entities) will have a relevant interest in Shares representing not more than 28.45% of the Shares then on issue. If the relevant interest of Craig Burton (and controlled entities) is greater than 20% post the completion of the Offer, Craig Burton (and controlled entities) intend to rely on the exception in item 10 of section 611 of the Corporations Act to increase their voting power above 20%.

Following completion of the Offer and placement under the Shortfall Offer, Charles Morgan (and controlled entities) will have a relevant interest in Shares representing not more than 19.99% of the Shares then on issue.

Neither Mr Morgan, Mr Burton or their respective related parties currently propose to make any changes to the Company's management or Board or alter the business of the Company or its activities.

4.17 Potential dilution to Shareholders

In addition, Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 90.91% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution may impact Shareholders is set out in the table below:

Holder	Holding as at Record date	% at Record Date	Entitlements under the Offer	Holdings if Offer not taken Up	% post Offer
Shareholder 1	1,500,000	2.35%	15,000,000	1,500,000	0.21%
Shareholder 2	400,000	0.63%	4,000,000	400,000	0.06%
Shareholder 3	50,000	0.08%	500,000	50,000	0.01%

Notes:

1. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted by Eligible Shareholders are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall was not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage.

4.18 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form part of the Shortfall Offer.

The Shortfall Offer is a separate offer made pursuant to this Prospectus and will remain open for up to three months following the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be 1 cent, being the price at which Shares have been offered under the Offer.

The Directors reserve the right to issue Shortfall Shares at their absolute discretion however Shortfall Shares will be allocated in priority to Eligible Shareholders who apply for Shortfall Shares under the Shortfall Offer in accordance with the below.

In the event that not all Eligible Shareholders accept their full Entitlement pursuant to the Offer, the Company is offering the Shortfall to Eligible Shareholders on the terms and conditions below.

The Offer of any Shortfall Shares is a separate offer made pursuant to this Prospectus and will remain open until the Closing Date or such other date as the Directors determine in their absolute discretion subject to the requirements of the Listing Rules. Eligible Shareholders who take up their Entitlement in full may apply for Shortfall Shares on the Shortfall Application Form enclosed with this Prospectus.

The Company reserves the right to issue to an applicant for Shortfall Shares a lesser number of Shortfall Shares than the number applied for. If the number of Shortfall Shares issued is less than the number applied for, surplus Application Monies will be refunded in full. Interest will not be paid on any Application Monies refunded.

If Shareholders wish to apply for Shortfall Shares they should complete the relevant section of the Entitlement and Acceptance Form. Refer to Section 4.9 for instructions as to how to apply for Shortfall Shares.

The Directors reserve the right to place the Shortfall via an agent or broker, and to pay applicable capital raising or handling fees to Australian financial services licencees at market rates.

4.19 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus has been made. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all Application Monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

4.20 Issue

Shares issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus.

Shares issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Shares issued is less than the number applied for, or where no issue is made, surplus Application Monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Shares or payment of refunds pursuant to this Prospectus, all Application Monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Shares issued under the Offer will be mailed in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus and for Shortfall Shares issued under the Shortfall Offer as soon as practicable after their issue.

4.21 Overseas Shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Shares will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

The Offer is being made in New Zealand pursuant to the Securities Act (Overseas Companies) Exemption Notice 2013.

However, pursuant to ASX Listing Rule 7.7, the Company has appointed a nominee, Argonaut Securities Pty Limited, to sell the Entitlements to which Ineligible Shareholders are entitled. The Company has applied to the ASIC to approve the appointment of Argonaut Securities Pty Limited as nominee for the purposes of section 615 of the Corporations Act. At the date of this Prospectus ASIC has not yet approved the appointment. The nominee must sell the Entitlements, and will have the absolute and sole discretion to determine the timing and price at which the Entitlements are sold and the manner of any such sale. In consideration for its services as nominee, Argonaut Securities Pty Limited will be paid a fee of \$2,500 (exclusive of GST) and 1% brokerage on the Entitlements that it sells.

Any interest earned on the proceeds of the sale of these Entitlements will firstly be applied against expenses of such sale, including brokerage, and any balance will accrue to the relevant Ineligible Shareholders as described below.

The net proceeds of the sale of these Entitlements will then be forwarded by the Company as soon as practicable to the Ineligible Shareholders, in proportion to their share of such Entitlements (after deducting brokerage commission and other expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company.

Notwithstanding that the nominee may sell Entitlements, Ineligible Shareholders may, nevertheless, receive no net proceeds if the costs of the sale are greater than the sale proceeds.

Neither the Company nor the nominee will be subject to any liability for failure to sell the Entitlements or to sell them at a particular price. If, in the reasonable opinion of the nominee, there is no viable market for the Entitlements of the Ineligible Shareholders, or a surplus over the expenses of the sale cannot be obtained in relation to the Entitlements that would have been offered to the Ineligible Shareholders, then those Entitlements will be allowed to lapse. The Shares not taken up will form part of the Shortfall Shares to be offered under the Shortfall Offer.

Shareholders resident in Australia or New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up an Entitlement under the Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

4.22 Enquiries

Any questions concerning the Offer should be directed to Sylvia Moss, Company Secretary, on (08) 9389 2000 (within Australia or +61 8 9389 2000 (outside Australia)).

5. PURPOSE AND EFFECT OF THE OFFER

5.1 Purpose of the Offer

The purpose of the Offer is to raise up to \$6,396,025 (before costs).

The funds raised from the Offer are planned to be used in accordance with the table set out below:

Proceeds of the Offer	Full Subscription (\$)
Facilities construction and commissioning of West Klondike Field	350,000
Payment of current creditors	630,000
Repayment of convertible notes	600,000
Expenses of the Offer	98,000
Working Capital for the identification, evaluation and securing of new projects (see Note 2 below)	4,718,025
	6,396,025

Notes:

1. The Company currently holds an 8% interest 105 Sections of Duvernay Shale acreage and a 16% interest in 113 sections of Rock Creek Oil acreage. As announced by the Company it has been involved in a sale process in respect of the Alberta Shale projects (Duvernay and Rock Creek acreage) with Canadian Pan Ocean (CPO). The Board has resolved that the proposed sale with CPO as previously announced is unlikely to occur and Tamaska is pursuing alternate sale and commercialisation options for this acreage. Proceeds of such sale will be added to working capital and used to evaluate and secure new ventures.
2. The Company is actively pursuing potential oil and gas investment opportunities. In this mode of operation, the Company is conscious of maintaining a low level of outgoings and as a result is currently operating with a small management team. Working capital is required to evaluate and progress the opportunities and secure the assets. Evaluation work will primarily be completed by the current small management team and principally the Managing Director. When reviewing significant asset acquisitions the Company will be required to increase its project consultants to adequately complete due diligence. Many opportunities also require a financial deposit to obtain exclusivity for dealings whilst the terms of the transaction are negotiated and finalised. The Company requires a level of financial capacity in order to make such a deposit in an efficient time frame. The Company is evaluating new release acreage opportunities. When bidding for new release acreage opportunities, in order for a bid to be acceptable, adequate funds must be available on account, prior to the bid closing date. The Company is also evaluating a number of potential exploration drilling projects with imminent wells. Adequate working capital will be required to fund participation in such wells. The Company has participated in four exploration wells in the last two years, with two discoveries.

Proceeds of the Offer will provide the Company with up to \$4.7m net cash available (assuming placement of entire Shortfall) and the adequate financial capacity to pursue oil and gas investment opportunities in the manner set out above. In light of those matters, the level of funds subscribed for under the Offer will determine the extent of the Company's ability to pursue potential opportunities.

3. Refer to section 8.7 of this Prospectus for further details relating to the estimated expenses of the Offer.

4. If less than the full subscription is raised, the Company will apply the funds raised first towards expenses of the Offer. Then (subject to retaining a sufficient level of working capital to cover administrative overheads), the funds raised will be applied in the following order of priority, first to payment of current creditors, then to facilities construction and commissioning of West Klondike Field, then to the repayment of convertible notes, and finally to general working capital.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

5.2 Effect of the Offer

The principal effect of the Offer, assuming all Entitlements are accepted or placed and no Options are exercised prior to the Record Date, will be to:

- (a) Fund existing project expenses of \$350,000;
- (b) Extinguish \$1,230,000 of current creditors and debt to leave the Company debt free;
- (c) Increase the cash reserves to approximately \$4.7 million (after deducting the estimated expenses of the Offer of \$98,000) immediately after completion of the Offer; and
- (d) Increase the number of Shares on issue from 63,960,203 as at the date of this Prospectus to 703,562,739 Shares.

5.3 Pro-forma balance sheet

The unaudited balance sheet as at 28 February 2014 and the unaudited pro-forma balance sheet as at 28 February 2014 shown below have been prepared on the basis of the accounting policies normally adopted by the Company and reflect the changes to its financial position.

The pro-forma balance sheet has been prepared assuming all Entitlements are accepted and any Shortfall is placed. It is assumed no Options are exercised prior to the Record Date and including expenses of the Offer.

The pro-forma balance sheet has been prepared to provide investors with information on the assets and liabilities of the Company and pro-forma assets and liabilities of the Company as noted below. The historical and pro-forma financial information is presented in an abbreviated form, insofar as it does not include all of the disclosures required by Australian Accounting Standards applicable to annual financial statements.

6. RIGHTS AND LIABILITIES ATTACHING TO SHARES

The following is a summary of the more significant rights and liabilities attaching to Shares being offered pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

6.1 General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

6.2 Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of Shareholders or classes of shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

6.3 Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any Shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit.

6.4 Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

6.5 Shareholder liability

As the Shares issued will be fully paid Shares, they will not be subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

6.6 Transfer of Shares

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

6.7 Future increase in capital

The issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of Securities contained in the ASX Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing Share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

6.8 Variation of rights

Under section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the Share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class) may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

6.9 Alteration of constitution

In accordance with the Corporations Act, the Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting. In addition, at least 28 days written notice specifying the intention to propose the resolution as a special resolution must be given.

7. RISK FACTORS

7.1 Introduction

- (a) The Shares offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.
- (b) There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.
- (c) The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Company specific risks

(a) Business opportunities

The Company currently has one revenue generating asset (Fusselman), with the West Klondike project expected to provide a second income stream from mid- 2014. The income from the two projects is likely to be sufficient to meet basic administration costs and Directors fees under normal conditions and assuming no significant interruption to production.

The Company is active in pursuing potential oil and gas investment opportunities to add to the portfolio. The Company's business strategy and business model depends in part on the successful completion of acquiring business opportunities and on the effective and successful running of the Company or project acquired. There can be no guarantee that the Directors will be able to identify suitable business targets to acquire, that any acquisition will be successfully completed, or that the company or project acquired will be profitable.

If any new business opportunity is acquired by the Company, it will carry with it specific risks in relation to the location and nature of the opportunity.

(b) Additional requirements for capital

The Company's capital requirements depend on numerous factors. Depending on the Company's ability to generate income from its operations, the Company may require further financing in addition to amounts raised under the Offer. Any additional equity financing will dilute shareholdings, and debt financing, if available, may involve restrictions on financing and operating activities. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations and scale back its exploration programmes as the case may be. There is however no guarantee that the Company will be able to secure any additional funding or be able to secure funding on terms favourable to the Company.

(c) **Potential for significant dilution**

Upon implementation of the Offer, assuming all Entitlements are accepted and no Options are exercised prior to the Record Date the number of Shares in the Company will increase from 63,960,249 currently on issue to 703,562,739. This means that each Share will represent a significantly lower proportion of the ownership of the Company.

It is not possible to predict what the value of the Company or a Share will be following the completion of the Offer being implemented and the Directors do not make any representation as to such matters.

The last trading price of Shares on ASX prior to the Prospectus being lodged of 2.2 cents is not a reliable indicator as to the potential trading price of Shares after completion of the Offer.

7.3 Industry specific risks

(a) **Hydrocarbon Product Price and Volatility**

The demand for, and price of, oil and natural gas is dependent on a variety of factors, including supply and demand, the level of consumer product demand, weather conditions, the price and availability of alternative fuels, actions taken by governments and international cartels, and global economic and political developments.

The market price of hydrocarbon products is volatile and cannot be controlled. Oil and gas prices have fluctuated widely in recent years. If the price of hydrocarbons should drop significantly and remain depressed, the economic prospects of the projects which the Company has an interest in could be significantly reduced or rendered uneconomic. There is no assurance that, even if significant quantities of hydrocarbon products are discovered, a profitable market may exist for their sale.

The marketability of hydrocarbons is also affected by numerous other factors beyond the control of the Company, including government regulations relating to royalties, allowable production and importing and exporting of oil and gas and petroleum products, the effect of which cannot be accurately predicted.

(b) **Resource Exploration and Development Risk**

Hydrocarbon exploration by its nature contains elements of significant risk. The success of the Company depends on the discovery and delineation of economically viable energy reserves and resources, access to required development capital, movement in the price of commodities, securing and maintaining title to the Company's exploration and production tenements and obtaining all consents and approvals necessary for the conduct of its exploration and production activities.

(c) **Commercialisation of Discoveries**

It may not always be possible for the Company to participate in the exploitation of successful discoveries made in any areas in which the Company has an interest. Such exploitation will involve the need to obtain the necessary licences or clearances from the relevant

authorities, which may require conditions to be satisfied and/or the exercise of discretions by such authorities. It may or may not be possible for such conditions to be satisfied. Further the decision to proceed to further exploitation may require the participation of other companies whose interests and objectives may not be the same as the Company. Such further work may require the Company to meet or commit to financing obligations for which it may not have planned.

(d) **Other incidents beyond the control of the Company**

The operations of the Company may be disrupted by a variety of risks and hazards which are beyond the control of the Company, including geological conditions, environmental hazards, technical and equipment failures and extended interruptions due to inclement or hazardous weather or other physical conditions, unavailability of drilling equipment, unexpected shortages of key personnel, labour, consumables or parts and equipment, fire, explosions and other incidents beyond the control of the Company.

Although the Company believes that it will carry adequate insurance with respect to its operations in accordance with industry practice, in certain circumstances the Company's insurance may not cover, or be adequate to cover, the consequence of such events. In addition, the Company may be subject to liability for pollution, blow-outs or other hazards against which the Company does not insure or against which it may elect not to insure because of high premium costs or other reasons.

(e) **Hydrocarbon Reserve Estimates**

Hydrocarbon reserve estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates that were valid when made may change significantly when new information becomes available.

In addition, reserve estimates are necessarily imprecise and depend to some extent on interpretations, which may prove inaccurate. Should the Company encounter oil and/or gas deposits or formations different from those predicted by past drilling, sampling and similar examinations, then reserve estimates may have to be adjusted and production plans may have to be altered in a way which could adversely affect the Company's operations.

(f) **Competition**

The Company will compete with other companies, including major oil and gas companies. Some of these companies have greater financial and other resources than the Company and, as a result, may be in a better position to compete for future business opportunities. Many of the Company's competitors not only explore for and produce oil and gas, but also carry out refining operations and market petroleum and other products on a worldwide basis. There can be no assurance that the Company will compete effectively with these companies and other industry participants and thereby be successful in acquiring additional oil and gas properties on reasonable commercial terms.

(g) **Regulation – General**

The oil and gas industry in the countries in which the Company operates is extensively regulated. Federal, state, local and foreign laws and regulations relating to the exploration for and development, production, gathering and, in some jurisdictions, marketing of oil and gas will affect the Company's operations with respect to its projects. Numerous environmental laws impact and influence the Company's operations. As with the industry in general, compliance with existing and anticipated regulations increases the overall cost of business. If the Company fails to comply with environmental laws it may be subject to liabilities to the government and third parties, including civil and criminal penalties. New laws or regulations, or modifications of or new interpretations of existing laws and regulations, may increase substantially the cost of compliance or adversely affect oil and gas operations and financial conditions.

(h) **Regulation– Exploration and Production**

Oil and natural gas exploration, production and related operations are subject to extensive rules and regulations promulgated by federal, state and local agencies. Failure to comply with such rules and regulations can result in substantial penalties. The regulatory burden on the oil and gas industry increases the cost of doing business and affects profitability. Because such rules and regulations are frequently amended or reinterpreted, the Company is unable to predict the future cost or impact of complying with such laws.

Permits are required in some of the areas in which the Company operates for drilling operations, drilling bonds and the filing of reports concerning operations and they impose other requirements relating to the exploration and production of oil and gas. The Company is required to comply with various federal and state regulations regarding plugging and abandonment of oil and natural gas wells, which impose a substantial rehabilitation obligation on the Company, which may have a material adverse effect on the Company's financial performance.

7.4 General risks

(a) **Economic**

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(b) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;

- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) **Dividends**

Any future determination as to the payment of dividends by the Company will be at the discretion of the Directors and will depend on the financial condition of the Company, future capital requirements and general business and other factors considered relevant by the Directors. No assurance in relation to the payment of dividends or franking credits attaching to dividends can be given by the Company.

(c) **Taxation**

The acquisition and disposal of Shares will have tax consequences, which will differ depending on the individual financial affairs of each investor. All potential investors in the Company are urged to obtain independent financial advice about the consequences of acquiring Shares from a taxation viewpoint and generally.

To the maximum extent permitted by law, the Company, its officers and each of their respective advisors accept no liability and responsibility with respect to the taxation consequences of subscribing for Shares under this Prospectus.

(d) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

7.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Shares offered under this Prospectus.

Therefore, the Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Shares.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

8. ADDITIONAL INFORMATION

As at the date of this Prospectus, the Company is not involved in any legal proceedings of a material nature and the Directors are not aware of any legal proceedings pending or threatened against the Company that are of a material nature.

8.2 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and

The remuneration of an executive Director is decided by the Board, without the affected executive Director participating in that decision-making process.

Non-Executive Directors receive fees which are determined by the Board within the aggregate limit set by the shareholders at a General Meeting. The total maximum remuneration of non-executive Directors is initially set by the Constitution and subsequent variation is by ordinary resolution of Shareholders in general meeting in accordance with the Constitution, the Corporations Act and the ASX Listing Rules, as applicable. The determination of non-executive Directors' remuneration within that maximum will be made by the Board having regard to the inputs and value to the Company of the respective contributions by each non-executive Director.

All Non-Executive Directors will receive remuneration by way of fees and receive no retirement benefits. Non-Executive Directors may receive options. The issue of options to Non-Executive Directors is considered an appropriate method of providing sufficient incentive and reward whilst maintaining cash reserves.

Pursuant to Class Order 00/44, the ASIC has exempted compliance with certain provisions of the Corporations Act to allow distribution of an electronic prospectus and electronic application form on the basis of a paper prospectus lodged with the ASIC, and the publication of notices referring to an electronic prospectus or electronic application form, subject to compliance with certain conditions.

If you have received this Prospectus as an electronic Prospectus, please ensure that you have received the entire Prospectus accompanied by the Application Forms. If you have not, please phone the Company on +61 9389 2000 and the Company will send you, for free, either a hard copy or a further electronic copy of the Prospectus, or both. Alternatively, you may obtain a copy of this Prospectus from the Company's website at www.tamaska.com.au

The Company reserves the right not to accept an Application Form from a person if it has reason to believe that when that person was given access to the electronic Application Form, it was not provided together with the electronic Prospectus and any relevant supplementary or replacement prospectus or any of those documents were incomplete or altered.

8.9 Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

8.10 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will not be issuing option certificates. The Company is a participant in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

8.11 Privacy Act

If you complete an application for Shares, you will be providing personal information to the Company (directly or by the Company's share registry). The Company collects, holds and will use that information to assess your application, service your needs as a holder of equity securities in the Company, facilitate distribution payments and corporate communications to you as a Shareholder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's share registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company or its share registry if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for Shares, the Company may not be able to accept or process your application.
