About Virtus

Virtus Health Limited (ASX: VRT) brings together Australia's leading fertility specialists, scientists, researchers and support staff to provide the very best in fertility care and related services. Virtus provides patients with a model of healthcare that integrates high quality patient care with an extensive range of Assisted Reproductive Services, specialised diagnostics and day hospital services.

We have developed one of the most successful medical collaborations in the world. With more than 80 of the world's leading fertility specialists supported by over 800 professional staff, we are the largest network and provider of fertility services in Australia. Our combined expertise creates a unique and powerful body of knowledge which when combined with the collegial team approach of our specialists, scientists and support staff, means we are able to find new and advanced solutions for achieving success for our patients.

Virtus is responsible for approximately 4,000 couples and single women each year achieving their dream of conceiving and having a baby.

Virtus achieved ASX listing in June 2013, following one of the most successful initial public offerings of recent times in Australia, the first fertility organisation to do so internationally and has recently been admitted to the S&P/ASX 200 index.

Virtus continues to execute its strategy and vision of focusing on patient outcomes through leading minds and leading science; delivering integrated services across the ART value chain; and growing the Company through market penetration and development, and outstanding service development.

About SIMS IVF

SIMS IVF was founded in 1997 by Dr Anthony Walsh and Dr David Walsh. It has grown to become Ireland's leading provider of IVF services. The company is based in Dublin in a state-of-the-art facility and has 60 staff. SIMS IVF performed 924 IVF cycles in 2011, 150 more than its nearest competitor. It has an IVF clinical pregnancy rate of 41.5% on average across all age groups, higher than the average for Ireland of 31.8% and the European Union average of 30.3%.
