	The negative operating cash flow for the quarter was driven by various one off restructuring and acquisition costs during the period. These included IPO costs (\$325K), MAP acquisition costs (\$83K), SMSF acquisition costs (\$58K) and redundancy costs (\$237k). These factors were offset by a reduction in trade debtors by \$935K. The main driver of the negative cash flow from investing activities was the acquisition of the SMSF business and the interest free loan provided to SMA.
