FY2014 RESULT DETAIL

PATIENT TREATMENT GROWTH

Strong patient treatment growth reflecting continued steady organic growth and initial contribution of acquisitions

Year-on-Year Analysis

- Australian business up 9.5%
 - Organic growth of 4.2% (ex acquisitions)
 - Strong result against market growth of 1%⁽¹⁾
 - Monash clinics in Vic and Qld performing strongly whilst SA experienced increased competition in a market that contracted and was exposed adverse local economic conditions
 - Focused on attracting patients and growing patient treatments – mix shift towards frozen embryo transfers expected to continue
 - FY2014 included 11 month initial contribution from Albury acquisition (completed July 2013), initial contribution from Next Generation Fertility acquisition (completed May 2014), and initial contribution from lower intervention clinic
 - International business up 156.1%
 - Reflects first full year contribution and strong organic growth
- Pro forma Actual to Prospectus FY2014
- Continued strong growth in patient treatments underpinned by FETs domestically and international contribution

SUMMARY INCOME STATEMENT

Continued revenue and earnings growth

Year-on-Year Analysis

- Revenue up 18.4% driven by:
 - 13.6% growth in Patient Treatments (combination of organic growth, acquisitions and new clinics)
 - >40% growth in diagnostics
 - Increase in price of services (average ~3%)
- Expenses up 20.8% driven by:
 - Strong demand for diagnostics and donor services (with higher external provider costs)
 - Impact of acquired clinics
 - Clinic openings and lower intervention service start-up (~\$1.3M)
- Depreciation and amortisation reduced following upgrade of proprietary patient management system extending the useful life
- NPAT up 23.5%

Pro forma Actual to Prospectus FY2014

- Revenue increases due to higher patient treatments including acquisitions
- Fixed costs increases due to re-allocation of variable costs for start-up clinics and the impact of acquisitions

Continued strong cash flow generation

Year on Year analysis

- Positive cash flow contribution from working capital as business continues to grow
- Increase in capex as a result of roll-out of propriety clinical information system across the Group and start up of low intervention models
- Acquisition of businesses reflects cash payments made for:
 - Reproductive Medicine Albury
 - Next Generation Fertility
 - Deferred payment for KL Fertility

Pro forma Actual to Prospectus

- Capex lower than Prospectus due to timing of spend for start-up Sydney low intervention clinic but clinic remains on schedule to open 1HFY2015

STRATEGY AND OUTLOOK

STRATEGY AND OUTLOOK

Science, technology & patient success

- Continue to develop industry leading science and technology
- Deliver patients with clinically superior services and increase market penetration
- Promote Monash Group's scientific and clinical excellence with potential patients

Lower intervention

- MyIVF clinic in Brisbane opened in February 2014 continues to build volume
- New clinic in Sydney to open in 1HFY2015
- Monash Group will consider other suitable locations

Clinic expansion & acquisitions

- Review opportunities to increase Monash's scale and market position in IVF and ultrasound services in Australia (both organic and acquisitive)
- Consider investment opportunities to expand Asian business

Based on current information, Monash Group is on track to deliver its FY2015 statutory forecasts as outlined in the Prospectus

FY2013 Statutory profit / (loss) incl. public company costs		(13.3)	35.1
IPO transaction costs expensed	(1)	-	-
Pre-IPO restructure costs expensed	(2)	-	-
Effect of discontinued operations	(3)	0.2	0.2
Net interest expense adjustment	(4)	29.2	-
Tax effect	(5)	2.6	-
Total pro forma adjustments		31.1	0.2
FY2013 Pro forma profit / (loss)		18.3	34.9

- (1) IPO transaction costs expensed. Total IPO transaction costs were \$19.2m, of which \$12.3m (\$8.6m net of tax) is expensed in the Statutory result. The remaining \$6.9m (\$4.9m net of tax) is directly attributable to the issue of capital and is offset against equity in the Balance Sheet.
- (2) Pre-IPO restructure costs expensed. An adjustment has been raised to remove one-off advisor fees relating to the restructure of minority interests in subsidiary companies into interests in the pre-IPO holding company (Healthbridge Enterprises Pty Ltd), and refinancing of the existing debt facilities in 2013 which were expensed in FY2014.
- (3) Effect of discontinued operations. An adjustment has been raised to remove the impact of certain discontinued businesses considered non-core, in relation to the hospital, pathology and property businesses disposed in FY2013.
- (4) Net interest expense is adjusted to reflect the anticipated net debt and margins applicable to the Group under the terms of the new banking facilities following the IPO, using prevailing base interest rates (BBSY) during FY2014. In addition, an adjustment has been made to remove \$3.4m of one-off costs associated with the write off of unamortised capitalised borrowing costs.
- (5) Tax effect reflects the expected income tax rate applicable to the Group (30%). The tax impact of the above adjustments has been reflected as part of this adjustment.
