3. Commentary on Results

The results for the year to 30 June 2014, demonstrate the company's commitment to meeting and exceeding the forecast results for 2014.

Revenue

The revenue reported for the year to 30 June 2014 is ahead of forecast by \$2.7m compared to the Forecast FY2014 results as disclosed in the Prospectus. This is a result of strong Australian domestic sales in the final months of the FY2014 year and has been part of the revenue growth trend over the previous 12 months.

Australian Distribution

In Australia, Bellamy's has focused on growing the business through deep distribution across all supermarket and pharmacy channels. With the development of an in-house sales team in Melbourne, Sydney and Brisbane, Bellamy's has developed a diversified customer group across multiple retailing platforms. This focus has fuelled the growth in domestic revenue.

Expansion offshore

Bellamy's continues to expand its operations internationally, with a focus on developing the brand's opportunities in Asia, particularly China and South East Asia.

A key outcome of this focus in South East Asia has been the direct trading with major Singapore supermarket retailers, Cold Storage and Fairprice, which commenced in April 2014.

In China, the operations of the company continue to focus on expanding and deeper distribution of its formula range to continue the growth in this market. The brand awareness of Bellamy's in China is a key driver for the growth and this is the focus of branding and marketing activities undertaken in China.

Product Offerings

There were no new products launched in 2014, however in July 2014, the business launched a new UHT supplementary milk drink, *Ready to Go*, nationally through major supermarkets and pharmacy chains.

Gross Profit Margins

The gross profit margin for the period of 36.2% was in line with forecast expectations. Bellamy's operations team is focused on maintaining gross profit margins and works closely with suppliers and distribution channels to deliver sustainable pricing solutions for the entire supply chain.

Cost of Doing Business

The three key costs of doing business are marketing, employment and other administration expenses.

Bellamy's has a relatively fixed cost base that provides it with operating leverage and the ability to grow earnings faster than revenue.

As a percentage of sales, these costs are shown below for the year ended 30 June 2014 and 30 June 2013.

	Costs as a % of Sales		
Year Ending 30 June	2014	2013	
Employment Costs	6.0%*	7.4%	
Marketing Costs	1.6%	0.8%	
Other Administrative Costs	3.8%	6.4%	

*adjusted to remove one off executive bonus of \$1.4m as detailed in the Prospectus

Cash Flow

The Prospectus statutory forecast for FY2014 showed expected cash flow from operations to be negative \$2.5m. The final results indicated a positive cash flow from operations for the year of \$0.7m, this is due to the impact of the additional revenues generated over the forecast revenue and collecting revenues in line with expected debtor collection cycles.
