

CORRECTION

The Company has become aware that the column headings for drill results included as **Table 2** at the back of the following ASX Releases:

- Hera Project Update dated 29th May 2014,
- June Activities Report, and
- 2014 Annual Report – Review of Operations;

were incorrect for drill holes HRUD039 to HRUD052. The effect of this error is that results for lead and zinc were understated and the results for copper were overstated.

The correct results for these drill holes are shown in the Table below.

Intersection summary for Hera underground drill holes HRUD039–HRUD052.

Hole	From (m)	To (m)	Intercept (m)	Est true width (m)	Au (g/t)	Ag (g/t)	Cu (%)	Pb (%)	Zn (%)	Comments
HRUD039	54	59.1	5.1	4.9	0.03	7	-	1	1.3

Competent Persons Statement

The information in this report that relates to Exploration Results is based on information compiled by Rimas Kairaitis, who is a Member of the Australasian Institute of Mining and Metallurgy. Rimas Kairaitis is a full time employee of Aurelia Metals and has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves.' Mr Kairaitis consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.
