■ Chairman's Letter

Dear Shareholder

In the 2014 financial year, Freedom Foods Group Limited ("FFG") achieved Operating EBDITA of \$16.6 million, an increase of 43.2% against the prior corresponding period, reflecting increased sales and profitability in the Freedom Foods business, consolidation of Pactum Australia for 12 months and a contribution from Specialty Seafood.

Operating Pre-tax Profit was \$13.1 million for the 12 months ended 30 June 2014, reflecting a 73.6% increase on the previous corresponding 12 month period.

The Reported Net Profit of \$12.1 million included non-operating employee share option expense of \$252k (after tax).

With improving profitability, the Board has recommended payment of a final fully franked dividend of 1.5 cents per ordinary share in November 2014. The total dividend for the year of 3 cents (last year 2 cents) represents a dividend payout ratio of 29% of operating net profit in FY 2014.

The result included strong sales growth in the Freedom Foods business unit reflecting growth in Cereals and Non Dairy beverages, with a significant business unit EBDITA increase reflecting sales growth and improved operating efficiencies at Leeton.

In the Specialty Seafood business unit, the Brunswick Sardine brand maintained its No 1 brand leadership position in Australia and New Zealand.

The Pactum business unit provided a strong sales and business EBDITA contribution, reflecting increasing non-dairy production volumes, in support of Freedom branded and Private Label products in the fast growing almond beverage category.

The Board is pleased with these results and the Company has continued the positive trend in the development of its unique business platforms in specialised areas of the food market, with two key growth opportunities in Freedom Foods and Pactum Australia, a stable business base in Specialty Seafood and a strategic opportunity in The a2 Milk Company.

The Managing Director's report provides further commentary on operations and future plans.

The Company completed a capital raising of \$30 million (gross proceeds) from a placement and entitlements offer in September 2013. The capital raising was significantly oversubscribed with strong demand from a broad range of high quality institutional investors and existing shareholders. The proceeds of the Placement and Entitlement Offer are being used to fund the Company's growth strategy including acceleration of new capital projects within Freedom Foods, Pactum Australia, new product initiatives, acceleration of international sales activities and additional working capital requirements.

The a2 Milk Company (a2MC) (formerly A2 Corporation) (17.9% FNP shareholding) reported continued strong growth in the Australian fresh milk business with sales up 24% over the prior year. a2MC current market capitalisation implies a value for the Company's 17.9% post sale shareholding of approximately A\$70 million, materially above the book value of A\$10.6 million. The Company did not recognise any equity accounted profit from a2MC during the year, compared to \$819k in the prior year period.

On behalf of the Board, I would like to thank my fellow directors and all employees for their dedication and hard work throughout the year. There is much to be done and a great deal of confidence about Freedom Foods Group long-term prospects.

Perry Gunner
Chairman

Notes:

- (1) Gross Sales Revenues includes revenues from the group associate entity The a2 Milk Company. It also includes intercompany revenue which is eliminated from the reported Net Sales Revenue figure.
- (2) Operating EBDITA and EBITA, excludes abnormal or non-operating charges with an add back of non cash employee share option expense of \$352k, bad debts written off expense of \$293k and employee claim settlement expense of \$200k.

The company achieved an Operating EBDITA of \$16.6 million, an increase of 43.20%, reflecting increased sales and profitability in the Freedom Foods business, consolidation of Pactum Australia for 12 months and a contribution from Specialty Seafood.

Operating Pre-tax Profit was \$13.1 million for the 12 months ended 30 June 2014, reflecting a 73.6% increase on the previous corresponding 12 month period.

The Reported Net Profit of \$12.1 million included non-operating employee share option expense of \$252k (after tax).

Net Operating Profit was \$12.5 million, an increase of 97.1%, including a decrease in operating income tax expense to \$0.5 million, against a \$4.8 million tax expense for the prior year period.

The prior year period reported net profit included non-operating pre-tax profit of \$11.8 million from the sale of 40 million shares in The a2 Milk Company (formerly A2 Corporation) in December 2012. After a detailed review, the Company has written back an amount of \$3.1 million relating to over accrual of tax on the disposal, which has had the effect of reducing the income tax expense for this period. Going forward, the Company expects a low effective tax rate relating to any capital gain on a sale of shares in a2 Milk Company.

Net assets per share at \$0.81 and net tangible assets of \$0.67 per share, with The a2 Milk Company investment recorded at a book value of \$10.6 million.

HIGHLIGHTS

Highlights for the year included :

- Group Operating EBDITA of \$16.6 million, a 43.20% increase on the previous corresponding period.
- Operating Net Profit was \$12.5 million for the 12 months ended 30 June 2014, reflecting a 97.1% increase on the previous corresponding 12 month period.
- Successful year building on the Company's capability and capacities for profitable growth, investing in our brands and establishing key customer relationships in Asia and North America.
- Strong sales growth in the Freedom Foods business unit reflecting growth in Cereals and Non Dairy beverages, with a significant business unit EBDITA increase reflecting sales growth and improved operating efficiencies at Leeton.
- Pactum Australia provided a strong sales and business EBDITA contribution, reflecting increasing non-dairy production volumes, in support of Freedom branded and Private Label products in the fast growing almond beverage category.
- Commencement of commercial operations at Pactum Dairy Group (PDG) in Shepparton in April 2014, with initial volumes ahead of its 3 year business plan, reflecting strong demand from customers from China, SE Asia and Australia.
- Specialty Seafood business made a steady profit contribution, with the Brunswick Sardine brand maintaining its number 1 brand leadership position in Australia and New Zealand.
- The a2 Milk Company (a2MC) (17.9% FNP shareholding) reported continued strong growth in the Australian fresh milk business with sales up 24% over the prior year period. a2MC's current market capitalisation implies a value for the Company's 17.9% shareholding of approximately A\$70 million, materially above the book value of A\$10.6 million.

BUSINESS UNITS - WHOLLY OWNED

Freedom Foods

The Freedom Foods business unit continued to build momentum, investing significantly in capability and capacities for future growth including capital expenditure at Leeton and increase in brand marketing.

The business delivered overall gross sales growth of 15% compared to the previous corresponding period. With a focus on its core product portfolio of Cereal, Snacks and Non Dairy Beverage for future growth, the business is progressively reducing its presence in non-core categories including biscuits. The reduction in non-core products impacted sales in the period by approximately \$2.6 million, with some resulting impact on manufacturing recoveries.

Growth in Cereal volumes contributed to increased efficiencies at the Leeton manufacturing facility, with further benefits arising from a focus on improving efficiencies in labour, supply chain and distribution. To our knowledge, the Leeton facility is the only integrated large scale manufacturing capability in Australia and overseas producing cereals and snacks "free from" gluten, nuts and dairy to the lowest detectable standards.

Dairy alternative beverage sales continued the strong upward trend from the half year with volume growth of 44% compared to the previous corresponding period, reflecting increased market share of Australia's Own Organic and Blue Diamond Almond Breeze brands, within a category which is itself growing significantly. As at 30 June 2014, the Almond Milk category accounted for 30% of the retail non dairy category, compared to 16% at 30 June 2013.

The business invested in senior sales & marketing expertise during the year in order to drive growth in retail and other channels in the medium term, as well as marketing investment in building awareness of the brand and products across a broader consumer market.

In North America, our new 80% owned subsidiary Freedom Foods North America, invested in building sales and distribution capabilities, including establishing key relationships with distributors, brokers and retailers within the Specialty and Natural Product Retailer markets. While an operating loss was incurred in this business, this investment now provides a strong base of retail distribution coming on stream into calendar year 2015, building on Freedom Foods unique allergen free and non GMO capabilities.

During the second half of FY 2014, the business invested \$6 million in incremental capital expenditure at Leeton, including an upgrade of cereal packaging capabilities to improve efficiencies and provide increased capacity in range and format and additional Cereal extrusion capacity to meet growth requirements in Cereals and other Cereal based products. The investment will significantly increase Freedom Foods production capability, with no material increase in cash overheads and lower cost per case. The commissioning was completed in August 2014.

The impact of sales and efficiency improvements, against increased sales and marketing investment during the period resulted in an increased business unit EBDITA to \$7.1 million. The North American operations reported an EBDITA loss of \$684k from start up operations during the period.

The focus for the business into 2015 remains on increasing sales in Australia through building on its category leadership in the health channel and further growth in distribution channels, while establishing key products, channels and distribution for expansion of product into export markets in North America and Asia.

An exciting innovation pipeline has been developed which will be launched into 2015, through new products in Cereals, Non Dairy Beverages, Nutritional Snacks and new formats for convenience and food service channels.

The additional \$9 million upgrade to Freedom Foods nutritional snack capabilities at Leeton will materially improve efficiencies on current business and provide the ability to meet demand for nutritious allergen free snacks in a range of formats in Australia and internationally. The new capabilities will come on line in 2 stages between November 2014 and March 2015.

Our capital investment at Leeton has been made to improve operating efficiencies, increase production capability and improve quality. This investment, aligned with ongoing marketing investment in building awareness of the brand and products across a broader consumer market open to healthier digestive and nutritional products, provides a strong base for growth.

In North America, the business is focused on building sales within a core base of retail distribution that has been established in 2014. The business has obtained ranging in excess of 3,000 Stores that is either on shelf or due to be ranged over the next few months in retailers such as Sprouts, Whole Foods, PCCC, Raleys, Wegmans, HEB and Kroger's, reflecting Freedom Foods unique proposition in Allergen Free and Non GMO. The business remains focused on delivering its medium term sales target of up to 1 million cases of Freedom Foods branded Cereals and Cereal snacks per annum.

With the launch of the Australia's Own brand in China in late 2014, via our licensing agreement with Shenzhen JLL Group (JLL), Freedom Foods will be looking to develop and grow a range of high quality and safe food products relevant to the Asian consumer. The initial launch will comprise Dairy products, manufactured through Pactum. The existing and new capabilities with Freedom Foods and Pactum's manufacturing facilities will provide superior capabilities to customise food and beverage products for these markets.

Specialty Seafood

The Specialty Seafood business performed broadly in line with the previous corresponding period, with business unit EBDITA of \$2.4 million.

Brunswick sardines maintained its No 1 brand leadership position in Australia and New Zealand.

In salmon, the Paramount brands full year sales result was impacted by SKU ranging reductions implemented during 2nd half FY 2013, although the effect on profitability of these reductions was reduced in the FY 2014 year through management of promotional spend and improved cost of goods

against plan. The impact of this SKU reduction impacted sales in the full year by approximately \$2.5m.

The business remains focused on driving growth into 2015 through category leadership of the specialty seafood channel, including new product opportunities aligned to consumer demand for convenience and superior health benefits.

As part of this the business is introducing revitalized packaging for the Brunswick brand in 1st half FY 2015 and for Paramount during 2015.

The business continued to utilise the procurement power of Bumble Bee Foods of North America, with Bumble Bee securing 2014/15 inventory requirements through priority access to salmon and sardine catch volumes.

Pactum Group Business

Pactum Food and Beverage

The Pactum business unit continued to build momentum investing significantly in capability and capacities for future growth including the new Pactum Dairy Group (PDG) facility at Shepparton and investment in additional value added format capability.

Pactum provides innovative solutions in long life (UHT) food beverages for private label and proprietary customers and delivered a business EBDITA contribution of \$9.7 million.

Pactum's non-dairy production volumes increased during the period to support the growth of the Australia's Own and Blue Diamond brands, as well as external private label requirements in the fast growing almond beverage category.

The business continued to see the benefit of increasing its mix of value added UHT products to a range of private label and proprietary customers. Dairy milk production has been transferred to the PDG facilities in Shepparton.

During the 2nd half 2014, Pactum expanded its capabilities with the installation of 250ml Prisma Format and 330ml Prisma Dreamcap formats. The packaging capability is currently owned by Pactum and operated at PDG's Shepparton facility. Both capabilities will be for domestic customers, with a significant proportion of capacity being allocated to PDG dairy based export customers into 2015. The total investment of approximately \$15 million will provide an initial earnings contribution in FY 2015.

With increasing demand from its private label and proprietary customer base for increased capacity and product format capability across dairy and non dairy categories, Pactum invested significantly in capability and capacities for future growth including additional capacity at the Shepparton facility and planned expansion at a new site in South West Sydney.

Pactum's planned new facility in Ingleburn in South West Sydney will provide for significant expansion in capacity and efficiency improvements

compared to current operations, including providing more efficient and lower cost warehousing and logistics compared to current arrangements. Pactum will acquire approximately 66,000 sq. metres of land in Ingleburn for an acquisition price subject to final adjustments, of approximately \$16.6 million. Settlement is expected on or around February 2015, once final sub divisions and other approvals have been obtained.

The new facility will provide superior capabilities to customise food and beverage products for local and export markets with efficiency and speed to meet the growing demand for high quality safe foods from Australia marketed under the Company's brands "Australia's Own" and "Freedom Foods" and leading brands of key customers in Australia and internationally.

Construction of the facility is expected to commence in 2nd half FY 2015, with production commencing from 2nd half FY 2016. The acquisition of land, associated building and capital requirements is expected to be funded from Freedom Foods Group existing finance facilities and other assets.

Pactum Dairy Group (PDG)

PDG was established in 2013 to operate UHT dairy milk operations for supply into both the domestic and export markets. PDG is a joint venture between Pactum and Australian Consolidated Milk (ACM), a major Australian dairy milk supply group.

Pactum manages PDG on behalf of the joint venture partners, with sales to key customers undertaken as an integrated contract packaging offer.

The facility was established in the northern Victorian city of Shepparton, for a total investment of approximately \$45 million, with initial capacity for 100 million litres of dairy milk production, with capability to be increased up to 300 million litres in the longer term. The facility was completed over a construction period of approximately 9 months, with the project largely on budget.

The plant commenced operations in April 2014, with commencing volumes ahead of its 3 year business plan, with strong demand from customers for 1 Litre and Portion pack volume from South East Asia and China. These customers are expected to grow beyond their initial volumes as demand for milk increases, with Australian milk products providing highest quality and safety at a comparative cost advantage compared to locally sourced milk.

To date, key relationships include Bright Dairy (Shanghai), New Hope Dairy (Chengdu), Shenzhen JLL (Guangzhou) and online retailer Yihaodian. Each of these relationships is complementary with significant diversification in local market distribution, product range and capability.

PDG has also developed other relationships for China and SE Asia including A2 Milk Company (for exclusive UHT supply into Australia, China and SE Asia) and selected retailers and distributors in China, SE Asia and Australia.

Total dairy milk volume processed in 2015 is expected to be over 100 million litres, with the site total capacity estimated at 300 million litres, based on current planning configuration.

To meet expected expansion in milk volumes over the medium term, PDG is evaluating additional processing and filling capacity expansion, including expansion of warehousing and logistics capability.

Opportunities to vertically integrate into other value added dairy products streams are also being reviewed, consistent with our customer's long term requirements.

With the commencement of operations and significant resourcing to meet the expected ramp up in volumes, the business recorded a loss in FY 2014. FNP equity accounted 1% of the loss in line with the current ownership structure. The Company has the capacity to obtain a 50% interest in PDG by converting convertible notes issued to it as part of its original investment. This is expected to occur in FY 2015.

STRATEGIC EQUITY ASSOCIATES

The a2 Milk Company Limited (a2MC), 17.9% Equity Interest

The Company is the largest single shareholder in The a2 Milk Company Limited (a2MC). a2MC owns and commercialises unique and comprehensive intellectual property rights relating to a2™ brand milk and related dairy products in international markets.

a2™ branded milk is the fastest growing milk brand in the Australian market and the major driver of category growth nationally, accounting for approximately 9% of grocery channel market share by value. a2MC also markets a2™ Platinum™ infant formula to consumers in Australia and China. a2MC's plan to enter the North American fresh milk market is progressing, with a launch expected to commence during calendar year 2015.

The Company is the largest single shareholder in a2MC with a fully diluted shareholding of 17.9%. a2MC is listed on the main board of the New Zealand Stock Exchange (NZX: ATM), with a current market capitalisation of approximately NZ\$429million (A\$391 million) implying a value for the Company's 17.9% investment of around A\$70 million, materially above the book value of A\$10.6 million. The Company did not recognise any equity accounted profit from a2MC during the year, compared to \$819k in the prior year period.

While the Company intends to maintain a strategic shareholding in the medium term, it will retain the option to realise capital from the investment to support growth opportunities.

Capital Management

The Company held cash of \$4.8m at the full year, with total borrowings of \$9.8 million, comprising mainly equipment finance leases. Net debt at 30th June 2014 was \$4.9m. Net debt excludes financial assets and loans to Associate entities. At 30th June 2014, the Company had lent \$12.8 million to Pactum Dairy Group to support further capital investment and working capital requirements. The loan attracts interest at a rate of 8.0% per annum.

Net cash flow from operations was \$7.2m, reflecting improved operating performance and increased working capital from change in product mix and inventory build for capital installation. During the period, the Company invested \$19.9m in capital expenditure, \$4.5m in equity associates and repaid debt of \$12.5m. The capital expenditure of \$19.9 million comprised normal operating expenditures, commitments to expansion at Freedom's Leeton facility and expansion of Pactum's packaging capabilities at Shepparton.

The Company completed a capital raising of \$30m (gross proceeds) from a placement and entitlements offer in September 2013. The capital raising was significantly oversubscribed with strong demand from a broad range of high quality institutional investors and existing shareholders. The proceeds of the Placement and Entitlement Offer is being used to fund the Company's growth strategy including acceleration of new capital projects within Freedom Foods, Pactum Australia, new product initiatives, acceleration of international sales activities and additional working capital requirements.

The Company has approximately 152,127 convertible redeemable preference shares (CRPS) on issue, which are convertible 1 for 1 into ordinary shares at election of the holder at any time.

Dividends

Consistent with the continued improvement in group performance, the Company will pay a final fully franked dividend of 1.5 cents per ordinary share, an increase of 0.5 cents on the final dividend paid in November 2013. The record date for determining entitlements is 3 October 2014 and the payment date is 3 November 2014.

The Company's dividend reinvestment plan (DRP) remains open.

The Company will pay a fully franked converting preference share dividend to be paid in accordance with the terms of the converting preference shares. The record date for determining entitlements is 3 October 2014 and the payment date is 15 October 2014. There are 152,127 converting preference shares on issue.

Outlook

The Company will continue to build on its capability and capacities for growth, investing in our brands and establishing key customer relationships in Asia and North America through its Freedom Foods and Pactum businesses.

Freedom Foods is expected to continue to deliver improved results from growth through innovation in new products, expansion of distribution channels in Australia and international markets, aligned with increasing manufacturing efficiencies from volume and cost efficiencies arising from the capital investment program at the Leeton facility. This, aligned with investment in building awareness of the brand across a broader consumer market open to healthier products, provides a strong base for growth into future years.

The expansion of capabilities in Pactum will result in an increase in sales and profitability, with further growth opportunities through meeting the increasing demands of its private label and proprietary customer base, including under the Company's brands "Australia's Own" and "Freedom Foods" and leading brands of key customers in Australia and internationally.

The investment in Pactum Dairy Group provides a material opportunity to increase exposure to the growing demand for high quality and safe dairy products from South East Asia, including China aligned with our key strategic customers. PDG is expected to provide a material profit contribution in FY 2015.

The strategic investment in a2 Milk Company provides the Company and its shareholders a potentially significant value creation opportunity through a2 Milk Company's growth in Australia and international markets.

Overall the Company anticipates growth in sales, operating profitability and improving return on funds employed in FY 2015.

The Company has not, during or since the financial year, in respect of any person who is or has been an officer or auditor of the Company or a related body corporate:

- indemnified or made any relevant agreement for indemnifying against liability incurred as an officer, including costs and expenses in successfully defending legal proceedings; or
- paid or agreed to pay, a premium in respect of a contract insuring against a liability incurred as an officer for the costs or expenses to defend legal proceedings; with the exception of the following matter.

During the financial year the Company paid premiums to insure each of the Directors against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of an officer of the Company. The contract of insurance prohibits disclosure of the nature of the liability and the amount of the premium.

Rounding off of amounts

The Company is an entity to which ASIC Class Order 98/0100 applies. Accordingly amounts in the financial report have been rounded off to the nearest thousand dollars, unless otherwise stated.

Meetings of Directors

During the financial year there were 13 meetings of Directors (including committees).

The following persons acted as Directors of the company during or since the end of the financial year with attendances to meetings of Directors as follows:

Remuneration report - audited

This report details the nature and amount of remuneration for each Director and the Executives.

Key management personnel include:

P.R. Gunner	Chairman and Non-Executive Director
R.J.F. Macleod	Managing Director
A.M. Perich	Non-Executive Director
R. Perich	Non-Executive Director
M. Miles	Non-Executive Director
T.J. Allen	Non-Executive Director
A. Haddad	CEO Pactum Australia
M. Bracka	CEO Freedom Foods North America

Remuneration policy

Remuneration arrangements for key management personnel of the Company and Group ("the Directors and Executives") are set competitively to attract and retain appropriately qualified and experienced Directors and Executives. As part of its agreed mandate, the Remuneration and Nomination Committee obtains independent advice when required on the appropriateness of remuneration packages given trends in comparable companies and the objectives of the consolidated entity's remuneration strategy.

The remuneration structures explained below are designed to attract suitably qualified candidates. The remuneration structures take into account:

- The capability and experience of the Directors and Executives;
- The Directors and Executives' ability to control the relevant operational performance; and
- The amount of incentives within each Director and Executive's remuneration.

Managing Director and Executives

Fixed remuneration consists of base remuneration (which is calculated on a total cost basis and includes any FBT charges related to employee benefits including motor vehicles), as well as employer contributions to superannuation funds.

The Managing Director and Executives remuneration levels are reviewed annually by the Remuneration and Nomination Committee through a process that considers the overall performance of the Group.

Performance based remuneration

Performance based remuneration is at the discretion of the Remuneration and Nomination Committee. These can take the form of share options or cash bonuses, although the Company's preference is to link performance and service to a long term incentive arrangement through the Company's Employee Share Option Plan (ESOP).

The ESOP allows the Company to grant options over shares to all directors (excluding Ron and Anthony Perich) and permanent full time or part time employees, or their respective nominees, of a company in the group (Group Companies), which includes related bodies corporate of the Company and a body corporate in which the Company has voting power of 20% or more, whom the Board determines to be eligible to participate. The Board believes that Options granted are appropriate to aligning key executive performance with long term performance and growth of the Company.

Options are valued using the binomial method.

Non-Executive Directors

The maximum aggregate amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at an Annual or Extraordinary General Meeting. Total fees for all Non-Executive Directors, last voted upon by shareholders in June 2013, was not to exceed \$500,000 in total. Total fees paid to Non-Executive Directors for 2014 was \$334,129 (2013: \$223,179). To align director interests with shareholder interests, the Directors are encouraged to hold shares in the Company.

The Chairman receives approximately twice the base fee of Non-Executive Directors. Non-Executive Directors do not receive performance related remuneration. Directors' fees cover all main Board activities including Committee Fees. There are no termination or retirement benefits for Non-Executive Directors.

Service agreements

Neither the Managing Director or any other Executive has a fixed term contract. All senior executive management are employed under contract. The agreements outline the components of the remuneration paid to executives including annual review. The agreements do not obligate the business to increase fixed remuneration, pay a short term incentive, make termination benefits or offer a long term incentive in any given year. The Company may terminate the contract at any time without notice if serious misconduct has occurred. Where termination with cause occurs, the executive is only entitled to that portion of remuneration that is fixed, and only up to the date of termination. The agreements may be terminated by written notice from either party or by the employing entity within the Group making a payment in lieu of notice. The notice periods are 9 months for the Managing Director, 6 months for the CEO of Pactum Australia and 12 months for the CEO of Freedom Foods North America. Other notice periods for other executives are between 1 and 2 months.

Company performance, shareholder wealth and directors and senior management remuneration

The remuneration policy of the company and group is at the discretion of the Remuneration and Nomination Committee.

The following table shows the revenue, profits, dividends and earnings per share for the past five years for the consolidated entity.

	2014	2013	2012	2011	2010

Non-audit services

During the year Deloitte Touche Tohmatsu, the auditors have performed certain other services in addition to their statutory duties. With respect to the non-audit services provided during the year by the auditor, the Board has considered written advice provided and a recommendation of the Audit, Risk and Compliance Committee. The Board is satisfied that the provision of those non-audit services

during the year by the auditor is compatible with, and did not compromise, the auditor independence requirements of the Corporation Act 2001 for the following reasons:

- all non-audit services were subject to the corporate governance procedures adopted by the Company and have been reviewed by the Audit, Risk and Compliance Committee to ensure they do not impact the integrity and objectivity of the auditor; and
- the non-audit services provided do not undermine the general principles relating to auditor independence as set out in the Code of Conduct APES 110 Code of Ethics for Professional Accountants issued by The Accounting Professional & Ethical Standards Board, including reviewing or auditing the auditor's own work, acting in a management or decision-making capacity for the company, acting as advocate for the company or jointly sharing economic risks and rewards.

Dear Board Members

Freedom Foods Group Limited

In accordance with section 307C of the Corporations Act 2001, I am pleased to provide the following declaration of independence to the directors of Freedom Foods Group Limited.

As lead audit partner for the audit of the financial statements of Freedom Foods Group Limited for the financial year ended 30 June 2014, I declare that to the best of my knowledge and belief, there have been no contraventions of:

- (i) the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- (ii) any applicable code of professional conduct in relation to the audit.

Yours sincerely

■ Corporate Governance Statement

Freedom Foods Group Limited (the Company) is committed to implementing the highest possible standards of corporate governance and ensures, wherever possible, that its practices are consistent with the Second Edition of the Australian Securities Exchange (ASX) Corporate Governance Council's Principles and Recommendations (ASX Principles).

Each of the eight principles is listed in turn. In certain circumstances, due to the size and stage of development of the Company and its operations, it may not be practicable or necessary to implement the ASX Principles in their entirety. In such instances, the Company will identify the areas of divergence and the reasons for such divergence. The Corporate Governance Statement, policies and Charters are published on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section.

Principle 1

Lay solid foundations for management and oversight by the Board

The Board's responsibilities are encompassed in a charter which is published on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section. The Board is responsible for, and has the authority to determine, all matters relating to the strategic direction, policies, practices, establishing goals for management and the operation of the Company. Without intending to limit this general role of the Board, the specific functions and responsibilities of the Board include:

- (1) oversight of the Company, including its control and accountability systems;
- (2) appointing and removing the Managing Director (or equivalent) for the ongoing management task of developing and implementing suitable strategies consistent with the Company's policies and strategic direction, including approving remuneration of the Managing Director and remuneration policy and succession plans for the Managing Director;
- (3) ratifying the appointment and, where appropriate, the removal of the CFO (or equivalent) and the Company Secretary;
- (4) reviewing and determining the strategic direction and policies of the Company, the allocation of resources, planning for the future and succession planning;
- (5) reviewing and ratifying systems of risk management and internal compliance and control, codes of conduct and legal compliance;
- (6) monitoring executive management performance and implementation of strategy and ensuring appropriate resources are available;
- (7) approving and monitoring the progress of major capital expenditure, capital management and acquisitions and divestitures;
- (8) continuously monitoring and overseeing the Company's financial position; and

- (9) approving and monitoring financial and other reporting.

Key responsibilities of the Board include the overseeing of the strategic direction of the Company, determining its policies and objectives and monitoring executive management performance. The Board adopts a three-year strategic plan and a 12 month operating plan for the Company. Financial results and general performance are closely monitored against the operating plan objectives.

To assist in carrying out its responsibilities, the Board has established the following committees of its members.

They are:

- (1) Audit, Risk and Compliance Committee; and
- (2) Remuneration and Nomination Committee.

The responsibilities delegated by the Board to the Company's management, as set out in the Company's Statement of Delegated Authority, include managing the day-to-day operations of the Company and consolidated entities. The Statement of Delegated Authority is available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section.

The Managing Director and Senior Executive management have service contracts and position descriptions respectively setting out their duties, responsibilities, and conditions of service and termination entitlements. Any new Directors appointed will receive formal letters of appointment setting out the key terms, conditions and expectations of their appointment.

The Managing Director and Senior Executive management are subject to a formal performance review process on an annual basis. The Remuneration and Nomination Committee reviews the performance of the Managing Director and Senior Executive management against clear performance objectives. Principal and secondary objectives for the financial year have been established which are evaluated against and includes monthly monitoring of performance. A performance evaluation was undertaken in August 2014 in accordance with the process disclosed.

Principle 2

Structure of the Board to add value

The Board determines the Board's size and composition, subject to limits imposed by the Company's Constitution. The Constitution provides for a minimum of three Directors and a maximum of ten. At this time the Board comprises of six Directors (excluding alternate Director), three of whom are non-executive independent Directors including the Chairman. A Director is deemed to be independent if he or she is a Non-Executive Director and:

- (1) is not a substantial shareholder or an associate of a substantial shareholder;
- (2) has not been employed in an executive capacity in the Company in the last three years;
- (3) has not acted as a material consultant or provided material professional services to the Company in the last three years;
- (4) is not a material supplier or customer of the Company;
- (5) has no material contractual relationship with the Company;
- (6) has not served on the Board for a period which could materially interfere with his or her ability to act in the best interests of the Company; and
- (7) is free from any interest which could materially interfere with his or her ability to act in the best interests of the Company.

The test of independence for Directors is set out in detail under section 4 of the Board Charter, which is available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section. Materiality thresholds referred to above are assessed on a case-by-case basis.

Whilst the Board is not structured with a majority of independent directors in terms of the ASX Corporate Governance Council's discussion of independent status, the Board believes that the Directors are able, and do make, quality and independent decisions in the best interests of the Company on all relevant issues before the Board. The Board considers that the Company is not currently of a size, nor are its affairs of such complexity to justify the expense of the appointment of a majority of independent Directors.

The Board aims to attract and maintain a Board which has an appropriate mix of skills, experience, expertise and diversity.

The names and particulars of the Directors of the Company during or since the end of the financial year are:

Interest in shares in the Company is 86,000,000 ordinary shares. Being a substantial shareholder of the Company, Mr M. Perich is not considered an independent Director.

In order to facilitate independent judgement in decision making, each Director may seek independent professional advice at the Company's expense. If advice is sought by the Chairman, he must obtain board approval if the fees for such advice exceeds \$50,000 (exclusive of GST), such approval is not to be unreasonably withheld. Where advice is sought by the other Directors, prior written approval by the Chairman is required but approval will not be unreasonably withheld. If the Chairman refuses to give approval, the matter must be referred to the Board. All Directors are made aware of the professional advice sought and obtained.

There is a clear division of responsibility between the Chairman and Managing Director.

The Remuneration and Nomination Committee of the Board comprises of three Non-Executive Directors-Messrs. P.R. Gunner, R. Perich and T.J. Allen. Two out of three committee members are independent. Mr Gunner, who is an independent Director, is the Committee Chairman. The Committee Charter which is available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section, details the process and timing for re-election of directors. The Board's policy for nomination and appointment of Directors also forms part of the Charter.

The Company Constitution states that at each Annual General Meeting (AGM) one-third of the Directors for the time being, or if their number is not three or a multiple of three, then the nearest number greater than one-third, shall retire from office. A retiring Director shall be eligible for re-election. No Director (other than a Managing Director) may hold office without re-election past the third annual general meeting following their appointment or three years, whichever is longer or, in the case of a Director appointed by the Directors as an additional Director or to fill a casual vacancy, past the next annual general meeting of the company. Any Director appointed by the Board since the last AGM must stand for election at the next AGM after his or her appointment.

The Remuneration and Nomination Committee is responsible for ensuring that the Board is of a size and composition that allows for:

- (1) decisions to be made expediently;
- (2) a range of different perspectives to be put forward regarding issues before the Board;
- (3) a range of different skills to be brought to Board deliberations; and
- (4) Board decisions to be made in the best interests of the Company as a whole rather than of individual shareholders or interest groups.

The Committee's functions are to review and report to the Board on:

- remuneration policy for the entire consolidated entity (including Managing Director, Senior Executives and Non-Executive Directors);
- identifying nominees for Directorships and other key Executive appointments;
- appointment and re-election of Directors;
- assessing Director competencies;
- evaluating the performance of the Board, its committees and the directors, annually; and
- remuneration policies and practices.

The Remuneration and Nomination Committee is responsible for the:

- (1) evaluation and review of the performance of the Board (excluding the Chairman);
- (2) evaluation and review of the performance of individual Directors;
- (3) review of and making of recommendations on the size and structure of the Board; and
- (4) review of the effectiveness and programme of Board meetings.

A review of the performance of the individual Directors occurs each year. The Board undertook a performance

evaluation of itself and its committees in August 2014 in accordance with the process disclosed, with all Directors providing input as to the effectiveness of the board processes, meetings, board composition and reporting with Directors having an opportunity to discuss and comment on such matters with the Chairman. The Board reviews its performance and composition on an annual basis to ensure that it has the appropriate mix of expertise and experience. The Board also reviews the performance and composition of its committees on an annual basis.

The Remuneration and Nomination Committee meets as frequently as required and at least twice a year. The quorum for such meetings is two members, at least one of whom shall be independent. Details of the Committee members' attendance at Committee meetings are set out in the Directors' Report which is included in this Annual Report.

Subject to normal privacy requirements, each Director has the right of access to all of the Company's records, information and senior Executives. They receive regular detailed reports on financial and operational aspects of the Company's business and may request elaboration or explanation of these reports at any time. New Directors undergo an induction process in which they are given a full briefing of the operations of the Company. Where possible, this includes meetings with key Executives, tours of the operating sites (if practicable), provision of an induction package containing key corporate information and presentations. Directors and Executives are encouraged to broaden their knowledge of the Company's business and to keep abreast of developments in business more generally by attendance at relevant courses, seminars, conferences, etc. The Company meets expenses involved in such activities.

Principle 3

Promote ethical and responsible decision-making

The Directors acknowledge the need for, and continued maintenance of, a high standard of corporate governance practices and ethical conduct by all Directors and

employees. In maintaining its ethical standards, the Company will:

- (1) behave with integrity in all its dealings with customers, shareholders, employees, suppliers, business partners and the community;
- (2) ensure its actions comply with applicable laws and regulations;
- (3) not engage in any activity that could be construed to involve an improper inducement;
- (4) achieve a working environment where:
 - (i) equal opportunity is rigorously practised;
 - (ii) harassment and other offensive forms of behaviour are not tolerated;
 - (iii) confidentiality of commercially sensitive information is protected; and
 - (iv) employees are encouraged to discuss concerns and ethical behaviour with Directors and senior Executives.

The Board, senior Executives and all employees of the Company are committed to implementing this Code of Ethics and each individual is accountable for such compliance. A copy of the Code of Ethics is made available to Directors, employees, contractors and relevant personnel and is available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section.

Senior Executive management is responsible for establishing, implementing and reviewing the effectiveness of the Code of Ethics as well as for overseeing that all of the Company's employees and contractors understand, and act in accordance with the Code of Ethics.

The Board has implemented a range of procedures designed to oversee that the Company complies with the law and achieves high ethical standards in identifying and resolving or managing conflicts of interest. All Directors must advise the Chairman of all business dealings with the Company.

As a part of active promotion of ethical behaviour, any behaviour that does not comply with the Code must be duly reported. Protection will be provided for those who report violations in good faith.

The Company's Securities Trading Policies for Directors and senior executives generally allow Directors and senior executives to deal in the Company's securities other than the following:

- a. from the end of the half year or full year financial period to the release of the half year or full year accounts;
- b. within the period of 1 month prior to the issue of a prospectus;

- c. where there is price sensitive information that has not been disclosed because of an ASX Listing Rule exemption; and
- d. any additional period arising from time to time that the Board imposes a prohibition on trading by Key Management Personnel as an 'ad-hoc' prohibition on trading of securities.

Further details of the Company's Securities Trading Policies are available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section.

Diversity Policy

In accordance with the ASX Corporate Governance Recommendations on diversity, the Board adopted a diversity policy in the financial year ended 30 June 2012 which includes:

- a. a requirement that the Board establish measurable objectives for achieving gender diversity; and
- b. a requirement for the Board to assess annually both the gender objectives and the progress in achieving them.

This policy is available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section. The Company acknowledges the positive outcome that can be achieved through a diverse workforce and is committed to actively managing diversity as a means of enhancing the Company's performance.

The Board will establish measurable objectives for achieving gender diversity in the upcoming financial year and will report on those measurable objectives and the progress in achieving them in the following year's annual report.

As at 30 June 2014, the proportion of women employed by the Company was as follows:

- Board of Directors: 0%
- Senior Executive positions (Managing Director and two Chief Executive Officers): 0%
- Senior Management positions: 24%
- Total Company workforce: 30%

Workplace Gender Equality

The Workplace Gender Equality Act 2012 (WGE Act) puts a focus on promoting and improving gender equality and outcomes for both women and men in the workplace. All non-public sector employers with 100 or more employees are required to report annually under the WGE Act.

The Company has submitted its 2014 report to the Workplace Gender Equality Agency. A copy of this report is available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section.

Principle 4

Safeguard integrity in financial reporting

The Board has established an Audit, Risk and Compliance Committee comprising three Non-Executive Directors, with appropriate experience. Every member of the Committee must be able to read and understand financial statements with experience in financial and accounting matters. Currently, the Committee comprises of Mr T Allen (Chairman), Mr R Perich and Mr M Miles. Two out of the three Committee members are independent. The Chairman of the Committee is an independent Director and is not Chairman of the Board.

The Managing Director, other senior management and external audit partner attend Committee meetings at the discretion of the Committee.

The external auditors have a direct line of communication at any time to either the Chairman of the Audit, Risk and Compliance Committee or the Chairman of the Board.

The Audit, Risk and Compliance Committee is responsible for:

- (1) reviewing and reporting to the Board on the half yearly and annual reports and financial statements of the Company and consolidated entities;
- (2) nominating, appointing and removing the external auditor and reviewing the adequacy, scope and quality of the annual statutory audit and half yearly statutory review;
- (3) reviewing the effectiveness of the Company's internal control systems;
- (4) monitoring and reviewing the reliability of financial reporting;
- (5) monitoring and reviewing the compliance of the Company with applicable laws and regulations;
- (6) monitoring the Australian Accounting Standards and Interpretations;
- (7) monitoring financial risks and exposure of the Company's assets;
- (8) monitoring the risk management policy and plans;
- (9) reviewing the Company's Occupational Health and Safety obligations and the Company's compliance;
- (10) reviewing the Company's insurance policies and coverage; and
- (11) overseeing the independence of external auditors and annually reviewing the Company's policy on maintaining the independence of external auditor.

The Committee has a formal Charter which is available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section. The Committee meets as frequently as required and at least twice a year. The

quorum for such meetings is two members, at least one of whom shall be independent. Details of the Committee members' attendance at Committee meetings and the number of times the Committee met throughout the financial year are set out in the Directors' Report which is included in this Annual Report. The minutes of each Committee meeting are reviewed at the subsequent Board meeting and signed as an accurate record of proceedings. At the subsequent Board meeting the Chairman of the Committee reports to the Board on the Committee's conclusions and recommendations.

The candidates for the position of external auditor must be able to demonstrate complete independence from the Company and an ability to maintain independence throughout the engagement period. The external auditors have advised, after consultation with the Company, that the audit engagement partner shall be rotated every five years. The Board may select an external auditor based on the criteria relevant to the business of the Company such as experience in the industry in which the Company operates, references, costs, and any other matters deemed relevant by the Board.

Principle 5

Make timely and balanced disclosure

The purpose of the Continuous Disclosure Policy is to ensure that there are mechanisms in place to provide all investors with equal and timely access to material information concerning the Company. Such information must be presented in a clear and balanced way so as not to omit any material information

This Policy is designed to ensure that the Company meets its continuous disclosure obligations under the ASX Listing Rules and is available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section.

Type of information that needs to be disclosed

ASX Listing Rule 3.1 states that any information that a reasonable person would expect to have a material effect on the price or value of the Company's securities must be immediately disclosed to the ASX. Examples of such information include a change in revenue, asset values or significant transactions.

Directors receive copies of all announcements immediately after notification to the ASX. Since the Company's website went live on 25 September 2014, all announcements made since that date are posted to the Company's website: <http://www.ffgl.com.au> in the "Investor Information" section. A report is submitted at each Board meeting of disclosures to the ASX since last meeting with the Disclosure File available for review.

Disclosure Officer

The Board has appointed the Company Secretary to act as the Disclosure Officer, responsible for communications with the ASX. The Company Secretary in discussion with the Chairman (as required) decides what information must be disclosed. The Disclosure Officer holds the primary responsibility for ensuring that the Company complies with its disclosure obligations. In addition, Directors, employees or consultants are all responsible for reporting price sensitive information that is not generally available to the Disclosure Officer.

To enhance clarity and balance of reporting and to enable investors to make an informed assessment of the Company's performance, financial results are accompanied by commentary.

Principle 6

Respect the rights of shareholders

The Company aims to keep shareholders informed of the Company's performance in an ongoing manner. Apart from information provided pursuant to the Company's legal and ASX Listing Rules obligations regarding continuous disclosure of information, the Company also communicates information about itself and its performance with shareholders through the:

- (1) Annual Report which is available to all shareholders. The Annual Report includes relevant information about the Company's operations and performance;
- (2) Invitation to the annual general meeting and all accompanying papers;
- (3) The Company's website at <http://www.ffgl.com>;
- (4) Reports to the ASX and the press;
- (5) Half year and full year profit announcements; and
- (6) Information and presentations to analysts (which are released to the ASX).

The Annual General Meeting provides an important opportunity for shareholders to express their views and respond to initiatives being proposed by the Board.

The Company also requests that the external auditor attend the Annual General Meeting and be available to answer shareholder questions about the audit and the preparation and content of the audit reports.

In accordance with Principle 6 of the ASX Principles, the Company will establish a Communications with Shareholder Policy, incorporating matters disclosed above. The policy once adopted will be available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section.

Principle 7

Recognise and manage risk.

Risk oversight and management policies

The Company's Risk Management Policy is available on the Company's website: <http://www.ffgl.com.au> in the 'Corporate Governance' section. The Policy covers the areas of oversight, risk management, risk profile, compliance and control and assessment of effectiveness. The Audit, Risk and Compliance Committee (details and composition of which have been set out earlier) is responsible for providing the Board with advice and recommendations regarding the ongoing development of the Policy.

Risk management and risk profile

The Committee is responsible for:

- (1) providing the Board with advice and recommendations regarding the Company's:
 - (i) risk management system; and
 - (ii) risk profile that describes the material risks (including financial and non-financial risks)
- (2) reviewing the effectiveness of the Company's implementation of the risk management system at least once a year;
- (3) regularly reviewing and updating the Company's risk profile; and
- (4) ensuring that the appropriate Executives have established and implemented a system for identifying, assessing, monitoring and managing risk throughout the organisation. The system is to include the Company's internal compliance and control systems.

Executive management provide the Committee and Board with regular reports on operational, financial, regulatory and commercial matters within their business divisions. This ensures Management accountability. Executive management is responsible for designing and implementing a risk management and internal control system to manage the Company's material business risks. Executive management identifies and reviews the major risks impacting each area of the business and develops strategies to effectively mitigate these risks.

As required by the ASX Principles, Executive management has reported to the Board on the effectiveness of the management of its material business risks. The ultimate responsibility for risk oversight and management rests with the Board.

Due to the size and scale of operations of the Company, there is no separate internal audit function.

Executive Management Assurances

As part of the structure of financial review and authorisation, the Managing Director and Senior Executive management are required to provide written assurances that the financial reports present a true and fair view of the Company's and consolidated entity's financial position in all material aspects and that the integrity of the financial statements is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board and is operating efficiently and effectively in all material aspects in relation to financial reporting risks. As part of internal management reporting policy relevant senior personnel provide written assurances regarding the integrity of the financial reports to support the Managing Director and Senior Executive management assurances to the Board. The Board received the written assurances with respect to the financial year ended on 30 June 2014.

Principle 8

Remunerate fairly and responsibly.

The Board has established a Remuneration and Nomination Committee to consider and report on, among other matters, remuneration policies and packages applicable to Board members and to senior executives of the Company. The Committee is responsible for ensuring that any equity-based Executive or Non-Executive Director remuneration is made in accordance with any thresholds approved by shareholders. The composition and details of the Committee have been detailed earlier in this Statement.

In respect of remuneration issues, the responsibilities of the Committee include determining, evaluating and reporting to the Board with respect to:

- (1) executive remuneration and incentive policies, including ensuring that the remuneration policies and practices of the Company are consistent with its strategic goals and human resource objectives;
- (2) the Company's recruitment, retention and termination policies and procedures for executives;
- (3) incentive schemes;
- (4) superannuation arrangements; and
- (5) the remuneration framework for Directors.

The Committee operates independently of the senior management of the Company in its recommendations to the Board in relation to:

- (1) reviewing on an annual basis the performance and salary of the Executive management group including Executive and Employee Share Option Plan participation;

- (2) the remuneration packages and other terms and conditions of appointment and continuing employment of senior Executives; and
- (3) reviewing Non-Executive Directors' remuneration within the maximum amount approved by shareholders.

The Board believes that Directors are properly rewarded through payment of a fee which is reviewed annually in the light of market conditions and has regard to the responsibilities placed on the Directors by the legal and financial framework within which they act.

The Committee's main functions include:

- (1) Conditions of service and remuneration of Executive management and their direct reports;
- (2) Performance of the Executive management;
- (3) Ensure that the remuneration policy achieves both a level and composition of remuneration that is both competitive and reasonable. Remuneration policies are designed to attract and maintain talented and motivated Directors and employees as well as raising the level of performance of the Company.
- (4) Recommendation to the Board, which has the discretion to reward eligible employees with the payment of bonuses, share options and other incentive payments. These incentive payments are designed to link reward to performance and are determined by both financial and non-financial imperatives.

Executive management attend meetings of the Remuneration and Nomination Committee by invitation when required to report on, and discuss, senior management performance, remuneration matters, etc.

Non-Executive Directors receive fees determined by the Board, but within the aggregate limit approved by Shareholders at a General Meeting.

The structure of remuneration for Non-Executive Directors and Managing Director is different. As explained in the Remuneration Report, the Managing Director and key management personnel receive fixed remuneration, employer contributions to superannuation funds and options. The current options on issue are valued using the binomial method and are linked to both the performance of the Company and to the personnel's employment. The Securities Trading Policy for Directors and senior executives prohibits them entering into transactions in associated products which operate to limit the economic risk of any unvested entitlements under any equity based remuneration scheme offered by the Company. Remuneration packages of Non-Executive Directors are fee based. Non-Executive Directors do not participate in bonus payments or any retirement benefits other than statutory superannuation.

■ Notes to the Financial Statements

For the financial year ended 30 June 2014

1. General Information

The financial report of Freedom Foods Group Limited ("Group" or "Company") for the year ended 30 June 2014 was authorised for issue in accordance with resolution of Directors on 26 September 2014.

Freedom Foods Group Limited is a company incorporated in Australia whose shares are publicly traded on the Australian securities exchange. The company is trading under the symbol 'FNP'.

The nature of the operations and principal activities of the Group are described in note 4.

2. Adoption of New and Revised Accounting Standards

2.1 Standards and Interpretations affecting amounts reported in the current period (and/or prior periods)

In the current year, the Group has adopted all of the new and revised Standards and Interpretations issued by the Australian Accounting Standards Board (the 'AASB') that are relevant to its operations and effective for annual reporting periods beginning on or after 1 July 2013. The following amendments to Australian Accounting Standards have been adopted during the period but do not have a material impact on the Group. Where there has been a significant change in accounting policy, an explanation of the change has been provided below:

- AASB 10 'Consolidated Financial Statements';
AASB 10 changes the definition of control such that an investor controls an investee when a) it has power over an investee, b) it is exposed, or has rights to variable returns from its involvement with the investee, and c) had the ability to use its power to affect its returns. All three criteria must be met for an investor to have control over an investee. Previously, control was defined as the power to govern the financial and operating policies of an entity so as to obtain benefit from its activities.
- AASB 11 'Joint Arrangements';
AASB 11 has revised the definition types of joint arrangements, focusing on the rights and obligations of the arrangement, rather than its legal form. The definition types have been consolidated into joint ventures (previously referred to as jointly controlled entities) and joint operations (previously referred to as jointly controlled assets and jointly controlled operations). Joint operations give the parties a right to the underlying assets and obligations of the arrangement and are accounted for by recognising the Group's share of those assets and obligations. Joint ventures give the parties a right to the net assets of the arrangement and are accounted for using the equity method.
- AASB 12 'Disclosure of Interests in Other Entities';
AASB 12 is a new standard on disclosure requirements for all forms of interests in investments, including subsidiaries, associates, joint arrangements and consolidated and unconsolidated structured entities. There are no measurement impacts from the adoption of this standard.
- AASB 13 'Fair Value Measurement';
AASB 13 is a new standard providing a single source of guidance for all fair value measurements and a precise definition of fair value. AASB 13 replaces all fair value measurement guidance in Australian Accounting Standards and Interpretations (excluding share based payments under AASB 2 'Share-based Payment' and leasing transactions within the scope of AASB 117 'Lease') but does not replace existing standard requirements on when fair values should be used. The adoption of this standard did not result in a change to how the Group measures fair value.
- AASB 119 'Employee Benefits';
The revised standard has changed the accounting for the Group's annual leave obligations. As the Group do not expect all annual leave to be taken within 12 months of the respective service being provided, a portion of

2. Adoption of New and Revised Accounting Standards

annual leave obligations is now classified as long term employee benefits and needs to be measured on a discounted basis. The Group have assessed the financial effect of discounting the long term annual leave balances to be immaterial to the financial results.

- AASB 2012-2 'Disclosures - Offsetting Financial Assets and Financial Liabilities';
The Group has applied the amendments to AASB 7 'Disclosures - Offsetting Financial Assets and Financial Liabilities' for the first time in the current year. The amendments to AASB 7 require entities to disclose information about rights of offset and related arrangements for financial instruments under an enforceable master netting agreement or similar arrangement.
- AASB 127 'Separate Financial Statements (2011)'
- AASB 128 'Investments in Associates and Joint Ventures (2011)'

IFRS 9 'Financial Instruments'	1 January 2018	20 June 2019

3. Significant Accounting Policies

The following significant accounting policies have been adopted in the preparation and presentation of the financial report:

(a) Statement of compliance

These financial statements are general purpose financial statements which have been prepared in accordance with the Corporations Act 2001, Accounting Standards and Interpretations, and comply with other requirements of the law. The financial statements comprise the consolidated financial statements of the Group. For the purposes of preparing the consolidated financial statements, the Company is a for-profit entity. Accounting Standards include Australian Accounting Standards. Compliance with Australian Accounting Standards ensures that the financial statements and notes of the company and the Group comply with International Financial Reporting Standards ('IFRS').

(b) Basis of preparation

The financial report has been prepared on the historical cost basis, except for the revaluation of certain non-current assets and financial instruments. Cost is based on the fair values of the consideration given in exchange for assets.

The financial report is presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$000) unless otherwise stated under the option available to the Parent under ASIC Class Order 98/0100, dated 26 June 2014. The Parent is an entity to which the class order applies.

(c) Critical accounting judgments and key sources of estimation uncertainty

In the application of the Group's accounting policies, management is required to make judgments, estimates and assumptions about carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty:

Impairment of goodwill and other intangible assets

Determining whether goodwill or other intangible assets are impaired requires an estimation of the value in use of the cash generating units to which the goodwill or other intangible assets have been allocated. The value in use calculation requires the directors to estimate the future cash flows expected to arise from the cash generating unit and a suitable discount rate in order to calculate the present value.

The value of the goodwill as at the end of the financial year was \$5,214,000, with no impairment loss charged against goodwill.

The value of other intangible assets as at the end of the financial year was \$16,274,000, with no impairment loss charged against the other intangible assets.

Further details in relation to the goodwill and other intangible assets of the consolidated entity are set out in note 15.

(d) Basis of consolidation

The consolidated financial statements incorporate the financial statements of Freedom Foods Group Limited and its subsidiaries as at 30 June each year ('the Group'). Control is achieved where the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The results of subsidiaries acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the effective date of acquisition or up to the effective date of disposal, as appropriate.

Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by other members of the Group.

All intra-group transactions, balances, income and expenses are eliminated in full on consolidation.

(e) Business combinations

Acquisitions of subsidiaries and businesses are accounted for using the acquisition method. The cost of the business combination is measured as the aggregate of

3. Significant Accounting Policies

(continued...)

the fair values (at the date of exchange) of assets given, liabilities incurred or assumed, and equity instruments issued by the group in exchange for control of the acquiree. Acquisition related costs are recognised in profit and loss as incurred. The acquiree's identifiable assets, liabilities and contingent liabilities that meet the conditions for recognition under AASB 3 'Business Combinations' are recognised at their fair values at the acquisition date, except for non-current assets (or disposal groups) that are classified as held for sale in accordance with AASB 5 'Non-current Assets Held for Sale and Discontinued Operations', which are recognised and measured at fair value less costs to sell.

Goodwill arising on acquisition is recognised as an asset and initially measured at cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised. If, after reassessment, the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities exceeds the cost of the business combination, the excess is recognised immediately in profit or loss.

The interest of minority shareholders in the acquiree is initially measured at the minority's proportion of the net fair value of the assets, liabilities and contingent liabilities recognised.

(f) Interests in joint ventures

The Group's interest in joint ventures represent jointly controlled entities which have been measured by applying the equity method of accounting. Under the equity method of accounting the carrying amounts of interests in joint venture entities are increased or decreased to recognise the Group's share of the post acquisition profits or losses and other changes in net assets of the joint ventures.

Pactum Dairy Group (PDG) Joint Venture

PDG was established in 2013 to operate UHT dairy milk operations for supply into both domestic and export markets. PDG is a joint venture between Pactum Australia Pty Limited, a wholly owned subsidiary of the Company and Australian

Consolidated Milk Pty Limited (ACM), a major Australian dairy milk supply group. The facility was established in the northern Victorian city of Shepparton, for a total investment of approximately \$45 million, with initial capacity for 100 million litres of dairy milk production, with capability to be increased up to 300 million litres in the longer term. The facility was completed over a construction period of approximately 9 months, with the project largely on budget. With the commencement of operations and significant resourcing to meet the expected ramp up in volumes, the business recorded a loss in FY 2014. FNP equity accounted 1% of the loss in line with the current ownership structure. The Company has the capacity to obtain a 50% interest in PDG by converting convertible notes issued to it as part of its original investment.

(g) Foreign currency translation

Both the functional and presentation currency of Freedom Foods Group Limited and its Australian subsidiaries is Australian dollars (AUD). Transactions in foreign currencies are recorded initially in the functional currency at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are restated at the rate of exchange ruling at the end of each reporting period. Exchange differences are recognised in the profit or loss in the period in which they arise.

(h) Property, plant and equipment

Plant and equipment, motor vehicles and equipment under finance lease are stated at cost less accumulated depreciation and impairment.

Land and Buildings held for use in the production of goods, are carried in the statement of financial position at fair value, less any subsequent accumulated depreciation. Fair value is determined on the basis of an independent valuation prepared by external valuation experts, based on discounted cash flows or capitalisation of net income, as appropriate. Revaluations are performed with sufficient regularity such that the carrying amounts do not differ materially from those that would be determined using fair values at the end of each reporting period. Any revaluation increase arising on the revaluation of land and buildings is credited to a

3. Significant Accounting Policies

(continued...)

revaluation reserve, except to the extent that it reverses a revaluation decrease for the same asset previously recognised as an expense in the profit or loss, in which case the increase is credited to the profit or loss to the extent of the decrease previously charged. A decrease in carrying amount arising on the revaluation of land and buildings is charged as an expense in profit or loss to the extent that it exceeds the balance, if any, held in the revaluation reserve relating to a previous revaluation of that asset.

Construction in progress is stated at cost. Cost includes expenditure that is directly attributable to the acquisition or construction of the item. In the event that settlement of all or part of the purchase consideration is deferred, cost is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

Depreciation is provided on property, plant and equipment, including freehold buildings but excluding land. Depreciation is calculated on a straight line basis so as to write off the net cost of each asset over its expected useful life to its estimated residual value. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period, with the effect of any changes recognised on a prospective basis. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets or, where shorter, the term of the relevant lease.

The gain or loss arising on disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The following depreciation rates are used in the calculation of depreciation:

Class of Fixed Assets	Depreciation Rate
Buildings	2-6%
Plant and equipment	4-20%
Leased plant and equipment	4-20%
Motor vehicles	15-33%

(i) Non-current assets classified as held for sale

Non-current assets and disposal groups classified as held for sale are measured at the lower of carrying amount and fair value less costs to sell.

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for such a sale and the sale is highly probable. The sale of the asset (or disposal group) must be expected to be completed within one year from the date of classification, except in the circumstances where sale is delayed by events or circumstances outside the Group's control and the Group remains committed to a sale.

(j) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(k) Goodwill

Goodwill acquired in a business combination is initially measured at its cost, being the excess of the cost of the business combination over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised at the date of acquisition. Goodwill is subsequently measured at its cost less any impairment losses.

For the purpose of impairment testing, goodwill is allocated to each of the Group's cash-generating units (CGUs) or groups of CGUs, expected to benefit from the synergies of the business combination.

3. Significant Accounting Policies

(continued...)

CGUs (or groups of CGUs) to which goodwill has been allocated are tested for impairment annually, or more frequently if events or changes in circumstances indicate that goodwill might be impaired. If the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or groups of CGUs), the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the CGU (or groups of CGUs) and then to the other assets of the cash-generating units pro-rata on the basis of the carrying amount of each asset in the CGU (or groups of CGUs). An impairment loss recognised for goodwill is recognised immediately in profit or loss and is not reversed in a subsequent period. On disposal of an operation within a CGU, the attributable amount of goodwill is included in the determination of the profit or loss on disposal of the operation.

(l) Intangible assets

Brand names

Brand names recognised by the group have an indefinite useful life and are not amortised. Each period, the useful life of this asset is reviewed to determine whether events and circumstances continue to support an indefinite useful life assessment for the asset. Such assets are tested for impairment in accordance with the policy in note 3(m).

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are identified and recognised separately from goodwill where they satisfy the definition of an intangible asset. Subsequent to initial recognition, intangible assets acquired in a business combination are reported at cost less accumulated amortisation and accumulated impairment losses, on the same basis as intangible assets acquired separately.

(m) Impairment of long-lived assets excluding goodwill

At each reporting date the Group reviews the carrying amounts of its assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the

recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the Group estimates the recoverable amount of the CGU to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment annually and whenever there is an indication that the asset may be impaired. Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a post-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted. If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (CGU) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (CGU) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (CGU) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

(n) Inventories

Inventories are measured at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials: purchase cost on a first-in, first-out basis;

Manufactured finished goods: cost of direct materials, direct labour and an appropriate portion of manufacturing variable and fixed overheads based

3. Significant Accounting Policies

(continued...)

on normal operating capacity but excluding borrowing costs;

Purchased finished goods: purchase cost on a weighted average cost basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(o) Cash and cash equivalents

Cash and short-term deposits in the statement of financial position comprise cash at bank and in hand and cash equivalents, which are short-term deposits with an original maturity of three months or less.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are shown within borrowings in current liabilities in the statement of financial position.

(p) Other financial liabilities

Other financial liabilities, including borrowings, are initially measured at fair value, net of transaction costs. Other financial liabilities are subsequently measured at amortised cost using the effective interest method, with interest expense recognised on an effective yield basis.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments through the expected life of the financial liability, or, where appropriate, a shorter period.

(q) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the

obligation. The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of those cash flows. When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the recoverable amount is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

(r) Employee benefits

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave when it is probable that settlement will be required and they are capable of being measured reliably. Liabilities recognised in respect of short term employee benefits are measured at their nominal values using the remuneration rate expected to apply at the time of settlement. Liabilities recognised in respect of long term employee benefits are measured at the present value of the estimated future cash outflows to be made by the Group in respect of services provided by employees up to reporting date.

Defined contribution plans

Contributions to defined contribution superannuation plans are expensed when incurred.

(s) Share-based payments

Equity-settled payments with employees and others providing similar services are measured at the fair value of the equity instrument at the grant date. Fair value is measured by use of a binomial model. The expected life used in the model has been adjusted, based on management's best estimate, for the effects of non-transferability, exercise restrictions, and behavioural considerations.

Further details on how the fair value of equity-settled share-based transactions has been determined can be found in note 31.

3. Significant Accounting Policies

(continued...)

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of shares that will eventually vest.

At each reporting date, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss over the remaining vesting period, with corresponding adjustment to the equity-settled employee benefits reserve.

(t) Leased Assets

Group as lessee

Assets held under finance leases are initially recognised at their fair value or, if lower, at amounts equal to the present value of the minimum lease payments, each determined at the inception of the lease. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income, unless they are directly attributable to the qualifying assets, in which case they are capitalised in accordance with the Group's general policy on borrowing costs. Refer to note 3(j). Contingent rentals are recognised as expenses in the periods in which they are incurred. Finance leased assets are amortised on a straight line basis over the estimated useful life of the asset.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

Lease incentives

In the event that lease incentives are received to enter into operating leases, such incentives are

recognised as a liability. The aggregate benefits of incentives are recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

(u) Revenue

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for terms, rebates and other similar allowances.

Sale of goods

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- the Group has transferred to the buyer the significant risks and rewards of ownership of the goods;
- the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will flow to the entity; and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

Interest revenue

Interest is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount.

(v) Government grants

Government grants are assistance by the government in the form of transfers of resources to the Group in return for past or future compliance with certain conditions relating to the operating activities of the entity. Government grants include government assistance where there are no conditions specifically relating to the operating activities of the group other than the requirement to operate in certain regions or industry sectors.

3. Significant Accounting Policies

(continued...)

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and the grants will be received. Government grants whose primary condition is that the Group should purchase, construct or otherwise acquire long-term assets are recognised as deferred income in the statement of financial position and recognised as income on a systematic and rational basis over the useful lives of the related assets.

Other government grants are recognised as income over the periods necessary to match them with the related costs which they are intended to compensate, on a systematic basis.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised as income of the period in which it becomes receivable.

(w) Income tax

Current tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax is accounted for on the basis of temporary differences between the tax base of an asset or liability and its carrying amount in the statement of financial position. The tax base of an asset or liability is the amount attributed to that asset or liability for tax purposes.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against

which deductible temporary differences or unused tax losses and tax offsets can be utilised. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit. Furthermore, a deferred tax liability is not recognised in relation to taxable temporary differences arising from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in branches and associates and interests in joint ventures except where the Group is able to control the reversal of the temporary differences and its probable that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with these investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realised or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the company/Group intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period

Current and deferred tax is recognised as an expense or income in profit or loss, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from the initial accounting

3. Significant Accounting Policies

(continued...)

for a business combination, in which case it is taken into account in the determination of goodwill or excess.

(x) Goods and services tax

Revenues, expenses and assets are recognised net of the amount of goods and services tax ('GST') except:

- where the amount of GST incurred is not recoverable from the taxation authority, in which case the GST is recognised as part of acquisition of the asset or as part of the expense item as applicable; or
- for receivables and payables which are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified within operating cash flows.

(y) Financial instruments

Recognition of investments

Investments are initially measured at fair value, net of transaction costs, except for those financial assets carried at fair value through profit and loss, which are initially measured at fair value when the related contractual rights or obligations exist. Subsequent to initial recognition these investments are measured as set out below.

Financial assets at fair value through profit and loss

A financial asset is classified in this category if acquired principally for the purpose of selling in the short term if so designated by management and within the requirements of AASB 139 Financial Instruments: Recognition and Measurement. Derivatives are also categorised as held for trading unless they are designated as hedges. Realised and unrealised gains and losses arising from changes in fair value of these assets are included in the statement

of comprehensive income in the period in which they arise.

Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial asset and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial asset, or, where appropriate, a shorter period.

Income is recognised on an effective interest rate basis for debt instruments other than those financial assets 'at fair value through profit or loss'.

Loans and receivables

Loans and receivables have fixed or determinable payments that are not quoted in an active market and are stated at amortised cost using the effective interest rate method less impairment. Interest income is recognised by applying the effective interest rate.

Held-to-maturity investments

These investments have fixed maturities, and it is the group's intention to hold these investments to maturity. Any held-to-maturity investments held by the group are stated at amortised cost using the effective interest rate method less impairment.

Available-for-sale financial assets

Available-for-sale financial assets include any financial assets not included in the above categories. Available-for-sale financial assets are reflected at fair value. Unrealised gains and losses arising from changes in fair value are taken directly to equity.

Derecognition of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and

3. Significant Accounting Policies (continued...)

rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

Impairment of financial assets

Financial assets, other than those at fair value through profit or loss, are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence that as a result of one or more events that occurred after the initial recognition of the financial asset the estimated future cash flows of the investment have been impacted.

Financial liabilities

Non-derivative financial liabilities are recognised at amortised cost, comprising original debt less principal payments and amortisation.

(z) Derivative financial instruments

The Group enters into a variety of derivative financial instruments to manage its exposure to foreign exchange rate risk, including foreign exchange forward contracts. Further details of derivative financial instruments are disclosed in note 27 to the financial statements. Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event, the timing of the recognition in profit or loss depends on the nature of the hedge relationship. The Group has not adopted hedge accounting during the financial year or previous corresponding period.

Embedded derivatives

Derivatives embedded in other financial instruments or other host contracts are treated as separate

derivatives when their risks and characteristics are not closely related to those of host contracts and the host contracts are not measured at their fair value with changes in fair value recognised in profit or loss.

4. Operating Segments

The Group is organised into four segments which is the basis on which the Group reports. The principal products and services of these segments are as follows:

Freedom Foods: A range of products for consumers requiring a solution to specific dietary or medical conditions including allergen free, (ie gluten free, wheat free, nut free) low sugar or salt or highly fortified. The product range covers breakfast cereals, biscuits, snack bars, soy, almond and rice beverages and other complimentary products. These products are manufactured and sold in Australia and overseas.

Freedom Foods North America: A range of products for consumers requiring a solution to specific dietary or medical conditions including allergen free, (ie gluten free, wheat free, nut free) low sugar or salt or highly fortified. The product range covers breakfast cereals and other complimentary products. These products are manufactured in Australia and sold in North America.

Seafood: A range of canned seafood covering sardines, salmon and specialty seafood. These products are manufactured overseas and sold in Australia and overseas.

Pactum Australia: A range of UHT (long life) food and beverage products including liquid stocks, soy, rice, almond and dairy milk beverages. These products are manufactured and sold in Australia and overseas.

Operating segments are identified on the basis of internal reports about components of the Group that are regularly reviewed by the Board of Directors in their capacity as the chief operating decision maker of the group in order to allocate resources to the segments and assess their performance.

4. Operating Segments

(continued...)

Information regarding these segments is presented below. The following is an analysis of the Group's revenue and results by reportable operating segment for the periods under review:

6. Profit for the year before tax

(continued...)

The Group uses derivative financial instruments to hedge its exposure to foreign exchange risks arising from operational, financing and investment activities. Refer to Note 27.

In accordance with its treasury policy, the Group does not hold or issue derivative financial instruments for trading purposes.

During the financial year the Group utilised foreign exchange contracts for the purchase of inventory and capital equipment. The foreign exchange contracts were denominated in USD, CAD and EUR. As at 30 June 2014 the Group held foreign exchange contracts totalling USD 3,282,620, CAD 624,201 and EUR 2,745,500.

The contracts related to highly probable forecasted transactions for the purchase of inventory for the Specialty Seafood business (Salmon and Sardines) and the Freedom Foods business (Spreads and Almond paste) and authorised capital project expenditure for the Leeton site with the purchase consideration being settled in the above currencies. The Group's objective in entering into foreign exchange contracts is to provide certainty to the income and cash flow implications for the designated foreign currency purchase, relating to purchase of inventory.

As the Group does not adopt hedge accounting, derivative financial instruments held by the Group are required under the Australian Accounting Standards to be valued at fair value as at balance date. A valuation at fair value assumes that the Group would settle the contracts at a specific date and recognise a gain or loss depending on the prevailing spot rate at value date, even though the intention of the Group is to settle the contract at contract expiry in relation to the purchase of inventory or an asset required for manufacturing.

The company and its wholly-owned Australian subsidiaries have formed a tax-consolidated group and are therefore taxed as a single entity. The head entity within the tax consolidated group is Freedom Foods Group Limited. Tax expense/income, deferred tax liabilities and deferred tax assets arising from temporary differences of the members of the tax-consolidated group are recognised in the separate financial statements of the members of the tax-consolidated group using the 'separate taxpayer within group' approach by reference to the carrying amounts in the separate financial statements of each entity and the tax values applying under tax consolidation. Current tax liabilities and assets and deferred tax assets arising from unused tax losses and relevant tax credits of the members of the tax-consolidated group are recognised by the company (as head entity in the tax-consolidated group).

Entities within the tax-consolidated group have entered into a tax funding arrangement and a tax sharing agreement with the head entity. Under the terms of the tax funding arrangement, Freedom Foods Group Limited and each of the entities in the tax-consolidated group has agreed to pay a tax equivalent payment to or from the head entity, based on the current tax liability or current tax asset of the entity.

The tax sharing agreement entered into between members of the tax-consolidated group provides for the determination of the allocation of income tax liabilities between the entities should the head entity default on its tax payment obligations or if an entity should leave the tax-consolidated group. The effect of the tax sharing agreement is that each member's liability for tax payable by the tax consolidated group is limited to the amount payable to the head entity under the tax funding arrangement.

The average credit period on sales of goods is 36 days (2013: 32 days). No interest is charged on trade receivables. An allowance has been made for estimated irrecoverable trade receivable amounts arising from past sale of goods, determined by reference to past default experience. During the current financial year, the allowance for doubtful debts increased by \$30,000 (2013: \$29,000) in the Group. The allowance for doubtful debts/impaired trade receivables as at 30 June 2014 is \$59,000 (2013: \$29,000). The Group does not hold any collateral over these balances.

10. Trade and other receivables

(continued...)

- (i) The current receivables for the Group are with a weighted average of 31 days (2013: 26 days). Management considers that there are no indications as of the reporting date that the debtors will not meet their payment obligations.
- (ii) The past due but not impaired receivables for the Group are with a weighted average of 56 days (2013: 69 days). These relate to a number of customers for whom there is no recent history of default and other indicators of impairment. Management considers that no provision is required on these balances.

The Group does not have significant risk exposure to any one debtor, however 63% (2013: 72%) of sales and 64% (2013: 63%) of year end receivables are concentrated in major supermarkets throughout Australia.

Allocation of goodwill to cash-generating units

Goodwill has been allocated for impairment testing purposes to the following cash-generating units:

Seafood
Freedom Foods

The consolidated entity carries an amount of \$16,274,000 of brand names with indefinite useful lives allocated between the Seafood and Freedom Foods cash generating units. The brand names relate to major brands purchased as part of business combinations that have long establishment and are considered to be market leaders within their market segment. The brand names operate in a stable industry with a strong positioning in the consumer functional foods market. There wasn't any goodwill associated to the Group's acquisition of Pactum Australia Pty Limited.

15. Intangibles

(continued...)

The carrying amount of goodwill has been allocated to the identified cash-generating units as follows:

	Consolidated \$000	
	2014	2013
Seafood	1,982	1,982
Freedom Foods	3,232	3,232
	5,214	5,214

The recoverable amounts of the cash generating units are determined based on a value in use calculation which uses cash flow projections based on financial budgets approved by management covering a five-year period, and a discount rate range between 7.0% and 10.0% pa post tax and between 9.1% and 13.0% pa pre tax (2013: 10.1% pa post tax and 13.1% pa pre tax). Cash flow projections during the budget period for the cash-generating units are also based on the same expected gross margins during the budget period.

Key assumptions

Cash-generating units

Budgeted market share

Average market share in the period immediately before the budget period plus a growth of up to 1% of market share per year. Management believes that the planned market share growth per year for the next four years is reasonable.

Budgeted gross margin

Average gross margins achieved in the period immediately before the budget period is consistent with that used by management.

Balance at 30 June 2014	150,645,371	94,378	113,754,106	58,008

- (i) During the year a total of 408,322 employee share options were exercised at \$0.60 and 2,483,333 at \$0.40. In the prior year there were no employee share options exercised.
- (ii) During the year there were a total of 20,126 ordinary shares issued in accordance with the Dividend Reinvestment Plan at \$2.4564 and 149,234 at \$2.7635. In the prior year a total of 59,749 ordinary shares were issued at \$0.72 and 27,174 at \$1.42.

Fully paid ordinary shares carry one vote per share and carry the right to dividends. Changes to the then Corporations Law abolished the authorised capital and par value concept in relation to share capital from 1 July 1998. Therefore, the company does not have a limited amount of authorised capital and issued shares do not have a par value.

The Dividend Reinvestment Plan provides shareholders with the opportunity to receive ordinary shares, in lieu of cash dividends, at a discount (set by the directors) from the market price at the time of issue.

Convertible Redeemable Preference Shares

The CRPS are perpetual with no maturity, but redeemable after 3 years at the option of the Company. The CRPS are transferable and are convertible at the option of the CRPS holder. The dividend rate is 9.0% p.a. on the issue price of \$0.30. It is a preferred, discretionary and non cumulative dividend and CRPS holders have no claim or entitlement in respect of a non payment.

Dividends are to be payable half-yearly in arrears. CRPS holders who convert their CRPS prior to a dividend payment date will not be entitled to any dividend for that part period in respect of that CRPS. However upon conversion to ordinary shares a holder who is on the register on the record date for a dividend payable in respect of ordinary shares will be entitled to the full ordinary dividend for that period. Dividends on the CRPS will be payable in April and October each year until converted or redeemed. CRPS holders are entitled to receive dividends in priority to holders of ordinary shares and equally with the holders of other CRPS that may be issued by Company on these terms.

CRPS are convertible into fully paid ordinary shares in the Company on the basis that each CRPS is convertible at the election of the CRPS holder into one ordinary share, subject to any restrictions imposed by the Corporations Act and ASX Listing Rules. There is no time limit within which CRPS must be converted. No additional consideration is payable on conversion.

Notwithstanding the right of holders of CRPS to convert at any time, all CRPS will convert into ordinary shares automatically on the occurrence of certain trigger events including certain transactions involving a change in control of Company, such as a takeover of Company or a scheme or merger between Company and another body.

The Company may redeem the CRPS, 3 years from the date of issue of the CRPS, being 16 December 2013, at its option for the payment per CRPS of the higher of:

- the issue price of \$0.30; and
- an amount determined by the Board of the Company with reference to the value of a CRPS as determined by an independent expert appointed by the Board.

19. Issued capital

(continued...)

The Company at this time has no plans to redeem the remaining CRPS still on issue due to the expense of the process of redemption being significantly more than the current value of the CRPS on issue.

The bank facilities are arranged with HSBC Bank Australia Limited with general terms and conditions and certain facility components that are subject to annual review. The bank facilities of the Group are secured by a first equitable mortgage over the whole of the Group's assets and undertakings (including uncalled capital), (except items specifically discharged under the Freedom Foods and Pactum Australia equipment finance arrangements), and a first registered mortgage over the Group's Leeton property.

The equipment finance facilities relate to specific equipment operating at the Freedom Foods Leeton facility and Pactum Taren Point facility, arranged with National Australia Bank and Westpac. These facilities are secured over the assets financed under the facility, which have been specifically discharged from the first registered mortgage held over all the Group's property. The leases are over a period of 3 to 7 years and the final residual on the current leases will be due in 2018.

Interest rates are variable and subject to adjustment.

27. Financial instruments

(a) Capital risk management

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to stakeholders through the optimisation of debt and equity balances.

The Group's overall strategy remains unchanged from 2013. The capital structure of the Group consists of debt, which includes the borrowings disclosed in note 17, cash and cash equivalents and equity attributable to equity holders of the parent comprising issued capital, reserves and retained earnings as disclosed in notes 19, 20 and 21 respectively.

Operating cash flows are used to maintain and expand the group's manufacturing and distribution assets, as well as to make the routine outflows of tax, dividends and repayment of maturing debt. The Group's policy is to borrow centrally, using a variety of capital market issues and borrowing facilities, to meet anticipated funding requirements.

Gearing ratio

The Group's financial management team reviews the capital structure on a regular basis. As a part of this review management considers the cost of capital and the risks associated with each class of capital.

27. Financial instruments

(continued...)

- (i) Debt is defined as long and short-term borrowings, as detailed in note 17.
- (ii) Equity includes all capital and reserves.

(b) Financial risk management objectives

The Group's financial management team provides services to each of the group businesses, co-ordinates access to domestic and international financial markets, monitors and manages the financial risks relating to the operations of the Group through internal risk reports which analyse exposures by degree and magnitude of risks. These risks include market risk (including currency risk and price risk), credit risk and liquidity risk.

The Group seeks to minimise the effects of these risks, by using derivative financial instruments to hedge these risk exposures. The use of financial derivatives is governed by the Group's policies approved by the board of directors, which provide written principles on foreign exchange risk, credit risk and the investment of excess liquidity. The Group does not enter into or trade financial instruments, including derivative financial instruments, for speculative purposes.

(c) Market Risk

The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Group enters into foreign exchange forward contracts to manage exposure to foreign currency risk for its imports. There has been no change to the Group's exposure to market risks or the manner in which it manages and measures the risk.

The Corporate Treasury function reports monthly to the board which monitors risks and policies implemented to mitigate risk exposure.

(d) Significant accounting policies

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in note 3 to the financial statements.

(e) Foreign currency risk management

The Group undertakes certain transactions denominated in foreign currencies, hence exposures to exchange rate fluctuations arise. Exchange rate exposures are managed within approved policy parameters utilising forward foreign exchange contracts.

The carrying amount of the Group's foreign currency denominated financial assets and financial liabilities at the reporting date is as follows:

	Financial assets \$000		Financial liabilities \$000	
	2014	2013	2014	2013
Consolidated

There have been no changes to the group's exposure to foreign currency risks or the manner in which it manages and measures the risks from the previous period.

27. Financial instruments

(continued...)

Forward Exchange Contracts

The Group enters into forward exchange contracts to buy specified amounts of foreign currencies in the future at stipulated exchange rates. The objective of entering into the forward exchange contracts is to protect the Group against unfavourable exchange rate movements for the contracted purchases undertaken in foreign currencies.

The Group had entered into contracts (for terms not exceeding 12 months) to purchase finished goods from suppliers in the United States and Canada and equipment from Europe. The contracts related to highly probable forecasted transactions for the purchase of inventory for the Specialty Seafood business (Salmon and Sardines) and the Freedom Foods business (Spreads and Almond paste) with the purchase consideration being settled in the above currencies. The Group's objective in entering into foreign exchange contracts is to provide certainty to the income and cash flow implications for the designated foreign currency purchase, relating to purchase of inventory or other capital assets. The Group had USD 3,282,620, CAD 624,201 and EUR 2,745,500 outstanding foreign exchange contracts as at 30 June 2014.

The Group does not adopt hedge accounting. The following table details the forward foreign currency contracts outstanding as at reporting date:

Foreign currency sensitivity analysis

The following table details the sensitivity to an increase / decrease in the Australian dollar against the relevant currencies in relation to foreign exchange exposures. Sensitivity rates of 10% (USD), 5% (CAD), 7% (NZD), 6% (EUR) and 4% (CNH/RMB) have been used as these represent management's assessment of a likely maximum change in foreign exchange rates.

A positive number indicates an increase in profit where the Australia Dollar strengthens against the respective currency. For a weakening of the Australia Dollar against the respective currency there would be an equal and opposite impact on the profit and the balances below would be negative.

(f) Interest rate risk management

The Group is exposed to interest rate risk as it borrows funds at both fixed and floating interest rates. The Group manages this risk by maintaining an appropriate mix between fixed and floating rate borrowings.

Exposures to interest rate risk, which is the risk that a financial instrument's value, its borrowing costs and interest income will fluctuate as a result of changes in market interest rates and the effective weighted average interest rates on those financial instruments are set out below:

Group				
Financial Instrument	Note	Weighted average effective interest rate	Amount	
			2014	2013
			\$000	\$000

During the financial year there has been no change to the group's interest rate risk exposure or the manner in which it manages and measures these risks.

27. Financial instruments

(continued...)

Interest rate sensitivity analysis

The sensitivity analysis below has been determined based on the impact of 150 basis point increase in interest rates on the exposure to interest rates as detailed in the above table.

The impact of a 150 basis point interest rate movement during the year with all other variables being held constant will be:

- an increase on the consolidated entity's net profit of \$30,000 (2013: increase of \$29,000).

This is attributable to the consolidated entity's exposure to interest rates on its variable rate borrowings.

A 150 basis point movement represents management's assessment of the possible change in interest rates.

(g) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. The Group has adopted the policy of only dealing with credit worthy counterparties as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded are spread amongst approved counterparties.

Quality of Trade and Other Receivables and Other Financial Assets have been disclosed in notes 10 and 11 respectively.

Credit risk from balances with banks and financial institutions is managed by Group Treasury in accordance with a Board approved policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty.

Counterparty credit limits are reviewed by the Board on an annual basis and may be updated throughout the year subject to approval of the Board. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through potential counterparty failure. The credit risk on liquid funds is limited because the counterparties are banks with high credit ratings assigned by international credit rating agencies.

The maximum exposure to credit risk, excluding the value of any collateral or other security, at statement of financial position date, to recognised financial assets of the Group which have been recognised on the statement of financial position is the carrying amount, net of any allowance for doubtful debts.

(h) Liquidity risk management

Liquidity risk arises from the possibility that the Group may be unable to settle a transaction on the due date. The ultimate responsibility for liquidity risk management rests with the Board of Directors, who has built an appropriate liquidity risk management framework for the management of the Group's short, medium and long-term funding and liquidity management requirements. The Group manages risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecasts and actual cash flows and matching the maturity profiles of financial assets and liabilities.

The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities by continuously monitoring forecast and actual cash flows and matching profiles of financial assets and liabilities. Included in Note 24 is a listing of additional undrawn facilities that the company and the consolidated entity has at their disposal to further reduce liquidity risk.

Liquidity risk tables

The following table details the consolidated entity's remaining contractual maturity for its financial liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the consolidated entity can be required to pay. The table includes both interest and principal cash flows.

(i) Fair value of financial instruments

The carrying amount of financial assets and financial liabilities recorded in the financial statements approximates their fair values. The fair values of financial assets and financial liabilities are determined as follows:

- the fair value of financial assets and financial liabilities with standard terms and conditions and traded on active liquid markets are determined with reference to quoted market prices; and
- the fair value of other financial assets and financial liabilities (excluding derivative instruments) are determined in accordance with generally accepted pricing models based on discounted cash flow analysis; and
- the fair value of derivative instruments are calculated using quoted prices. Where such prices are not available use is made of discounted cash flow analysis using the applicable yield curve for the duration of the instruments for non-optional derivatives, and option pricing models for optional derivatives.

28. Subsequent Events

The following subsequent events occurred post 30 June 2014.

- A further 2,200,000 employee share options granted in September 2014.
- The Company also entered into an agreement on 21 August 2014 to acquire land for a new integrated Aseptic (UHT) production and logistics facility in south west Sydney. It will acquire approximately 66,000 sq. metres of land at Ingleburn in South West Sydney. The acquisition price subject to final adjustments is approximately \$16.6 million. Settlement is expected on or around February 2015, once final sub divisions and other approvals have been obtained.
- The Company increased their shareholding in The a2 Milk Company to 17.9% on 3 September 2014. A total of 942,500 shares were acquired for a total consideration of NZ\$ 589,000. This transaction took our shareholding to 117,878,629 ordinary shares.

The Parent entity of the Group is Freedom Foods Group Limited and the ultimate parent entity is Arrovest Pty Ltd which is incorporated in Australia.

31. Share based payments - Employee Share Option Plan

Senior employees are eligible to participate in the share scheme under which executives are issued options to acquire shares in the Parent. Each employee share option converts into one ordinary share of the Parent on exercise. No amounts are paid or payable by the recipient on receipt of the option. The options carry neither rights to dividends nor voting rights. Options may be exercised at any time from the date of vesting to the date of their expiry. There are no vesting conditions attached to these options other than continuing employment within the Group.

The options granted expire within five years of their issue, or one year of the resignation of the senior employee, whichever is the earlier. In relation to options issued during the financial year ended 30 June 2014, the options vest in three equal tranches over a period of 3 years.

The following share-based payment arrangements were in existence during the current and comparative reporting periods:

	Number	Grant date	Expiry date	Exercise price	Fair value at grant
Option series				\$	\$
Senior Executive Grant	6,250,000	1/02/12	1/02/17	0.40	0.122
Senior Executive and Management Grant	2,200,000	30/08/12	30/08/17	0.60	0.066

The weighted average fair value of the share options granted during the prior financial year is \$0.066. Options were priced using a binomial option pricing model. Where relevant, the expected life used in the model has been adjusted on management's best estimate for the effects of non-transferability, exercise restrictions and behavioural considerations.

Expected volatility is based on historical share price volatility over the past 2 years. It is expected that options will be exercised only in the event of market price exceeding exercise price.

37. Assets pledged as security

In accordance with the security arrangements of liabilities, as disclosed in note 17 to the financial statements, all non-current assets of the Group, have been pledged as security. The holder of the security does not have the right to sell or repledge the assets. The Group does not hold title to the equipment under finance lease pledged as security.

Freedom Foods Pty Limited has equipment leases in place with National Australia Bank to assist in financing equipment requirements for the Freedom manufacturing site at Leeton. The maximum facility limit is for financing amounts of up to \$12 million with lease terms of up to 5 years and residuals in the range of 20% to 55%. The facility is secured by the financed equipment and Freedom Foods obligations under the leases are guaranteed by Freedom Foods Group Limited. In June 2013, Pactum Australia Pty Limited entered into an equipment lease with National Australia Bank to assist in financing equipment requirements for its 3rd line at the Taren Point site. The lease term is 5 years with a 35% residual. The facility is secured by the financed equipment and Pactum Australia's obligations under the lease are guaranteed by Freedom Foods Group Limited.

The Group also holds equipment leases with Westpac relating to its acquisition of Pactum Australia Pty Limited. These leases have a maximum lease term of 5 years with residual payments of between 20% and 50%. The facility is secured by the financed equipment at our Taren Point site.

■ Directors' Declaration

FREEDOM FOODS GROUP LIMITED DIRECTORS' DECLARATION FOR THE YEAR ENDED 30 JUNE 2014

The director's declare that:

- (a) in the Directors' opinion, there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable;
- (b) the attached financial statements are in compliance with International Financial Reporting Standards, as stated in note 3 to the financial statements;
- (c) in the Directors' opinion, the attached financial statements and notes thereto are in accordance with the Corporations Act 2001, including compliance with accounting standards and giving a true and fair view of the financial position and performance of the consolidated entity; and
- (d) the Directors have been given the declarations required by s.295A of the Corporations Act 2001.

At the date of this declaration, the company is within the class of companies affected by ASIC Class Order 98/1418. Independent Auditor's Report to the Members of Freedom Foods Group Limited

Report on the Financial Report

We have audited the accompanying financial report of Freedom Foods Group Limited, which comprises the consolidated statement of financial position as at 30 June 2014, the consolidated statement of profit and loss and other comprehensive income, the consolidated statement of cash flows and the consolidated statement of changes in equity for the year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity, comprising the company and the entities it controlled at the year's end or from time to time during the financial year as set out on pages 29 to 76.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 3 (a), the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the consolidated financial statements comply with International Financial Reporting Standards.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control, relevant to the company's preparation of the financial report that gives a true and fair view, in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Liability limited by a scheme approved under Professional Standards Legislation.
A member of Deloitte Touche Tohmatsu Limited.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Independence Declaration

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Freedom Foods Group Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

In our opinion:

- (a) the financial report of Freedom Foods Group Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2014 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the consolidated financial statements also comply with International Financial Reporting Standards as disclosed in Note 3 (a).

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 15 to 19 of the directors' report for the year ended 30 June 2014. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion the Remuneration Report of Freedom Foods Group Limited for the year ended 30 June 2014, complies with section 300A of the *Corporations Act 2001*.
