LARGE GLOBAL COMPANIES EXPAND 1-PAGE'S CLIENT BASE

1-Page Limited ("1-Page" or "the Company") (ASX: 1PG) the enterprise cloud-based hiring platform, renowned for revolutionizing talent acquisition, is pleased to announce it has entered into agreements with four major global clients to use the 1-Page solution to enhance their recruitment and engagement of their respective workforces.

Pandora (NYSE:P, market capitalization US\$5b), Splunk (NASDAQ:SPLK, US\$6b) and Coupons.com (NYSE:COUP, US\$960m) have all entered into agreements to become revenue generating clients of the 1-Page platform. These companies join 1-Page's existing client base which includes First Republic Bank (NYSE:FRC, US\$6b), Orange Silicon Valley, UST Global, BevMo! and Alex Lee, Inc.

1-Page Managing Director Joanna Weidenmiller said: *"We are excited to have leading global companies leveraging the 1-Page platform to scale their workforce as well as concentrating on employee engagement."*

"The endorsement of major technology corporations such as Splunk, Pandora, Coupons.com joining as clients provides an enormous amount of confidence and satisfaction to 1-Page as leaders such as this are influential to the pipeline of potential clients."

1-Page's Enterprise Challenge-based Assessment and Engagement Platform is a disruptive, patented, HR tool, which enables companies to individually rank and prioritize candidates for employment positions based on their ability to solve real-time business challenges and achieve strategic objectives. 1-Page changes the dynamics of hiring: companies using the platform have the ability to access new predictive data and leverage candidate's unique one-page job proposals for enhanced decision-making on talent.

About Pandora Media

Pandora Media (NYSE: P) is a world leader in Internet radio in the United States estimated to command more than a 70% share of internet radio among the Top 20 stations and networks. Since launching its free, advertising-supported radio service in 2005, Pandora listeners have created over 5 billion stations. Accordingly, Pandora has largely been credited for pioneering a new form of radio – one that uses intrinsic qualities of music to initially create stations and then adapts playlists in real time based on the individual feedback of each listener.

With more than 200 million registered users streaming more than 15.31 billion hours of radio. Pandora's 2013 revenue exceeded US\$600m. Currently the company employs more than 1,300 employees and plans to hire additional employees in order to support anticipated growth and future product development initiatives.

About Splunk

Splunk (NASDAQ: SPLK) provides innovative software products which allow organizations to access real-time operational intelligence by harnessing the value of their data. Its products enable users to collect, index, search, explore, monitor and analyze data regardless of format or source. Splunk's products address large and diverse data sets commonly referred to as big data and are specifically tailored for machine-generated data.

In the fiscal year ending 31 January 2014, Splunk reported revenues of US\$302m, a 52% year-on-year increase and at the same time grew its workforce to exceed 1000 employees. To grow its business successfully in this dynamic environment, Splunk must continually develop and enhance its products and services to stay ahead of customer needs and challenges. To achieve these objectives, the company recognizes the need for a highly talented and seasoned team of technical, sales, marketing, operations, and other business professionals.

About the Company

1-Page provides a revolutionary cloud-based human resources Software-as-a-Service platform, currently employed by leading global and US companies. The Enterprise Challenge-based Assessment and Engagement Platform is a disruptive, patented, HR tool which enables companies to individually rank and prioritize candidates for employment positions based on their ability to solve real-time business challenges and achieve strategic objectives. Ranked as one of the top 3 HR technologies in the US, 1-Page changes the dynamics of hiring: leveraging candidates solutions, sent in the format of one page job proposals. The platform applies new predictive data to rank the most suitable candidates for the interview. By streamlining the recruiting process and identifying candidates while displaying the greatest desire and capability for the role, 1-Page greatly reduces talent acquisition costs and significantly increases employment retention rates for enterprises, especially those with large staffing requirements.
