Overview of the Cromwell Property Group

The Cromwell Property Group is an internally managed Australian Real Estate Investment Trust ("A-REIT") comprising the Company and the Trust, and is one of Australia's leading property investment and funds management groups. The Cromwell Property Group is part of the S&P/ASX 200, with over \$3.5 billion in assets under management (including unlisted funds), and manages 33, predominantly office, properties.

In 2014, the Cromwell Property Group had total revenues of \$333.1 million and profit of \$182.5 million. Profit from operations was \$146.7 million, approximately 95% of which was derived from its property portfolio, with the balance from its funds management activities.

Profit from operations is considered by the Directors to reflect the underlying earnings of the Cromwell Property Group. It is a key metric taken into account in determining distributions for the Cromwell Property Group but is a measure which is not calculated in accordance with International Financial Reporting Standards and has not been audited or reviewed by the Cromwell Property Group's auditor.

The property portfolio is underpinned by a very strong tenant profile with Government tenants contributing 50.8% of rental income and listed companies or their subsidiaries a further 29.8% of rental income. The portfolio has a Weighted Average Lease Expiry ("WALE") of 5.9 years and vacancy of 2.4%, which compares favourably with the national CBD office average of 12.2%.

Through its wholly owned subsidiaries, the Responsible Entity and Cromwell Funds Management Limited, the Cromwell Property Group is licensed to manage direct property, mortgage and equities funds. Since the involvement of current management in 1998, the Cromwell Property Group has managed unlisted direct property funds, raising over \$1 billion and acquiring property assets valued in excess of \$1.9 billion.

Additionally, the Cromwell Property Group manages over \$300 million in listed property securities through its 45% ownership in Phoenix Portfolios Pty Ltd, an investment manager specialising in managing property securities for wholesale investors.

Recent corporate activity

Investment portfolio

The Cromwell Property Group continually seeks to realign its portfolio to maximise value and recently undertook a number of major acquisitions as well as the sale of some non-core properties.

In June 2013, the Cromwell Property Group purchased a \$405 million portfolio of seven office assets from the New South Wales ("NSW") State Government with an attractive initial portfolio yield of 9%. Nearly 70% of the portfolio is leased to the Government with an overall WALE of 9.4 years, increasing the Cromwell Property Group's overall portfolio WALE and its exposure to Government tenants.

The portfolio includes three Sydney CBD assets, providing the Cromwell Property Group's portfolio with additional weighting to the Sydney office market. There are also four regional NSW assets leased to the NSW State Government for approximately 14 years.

The Cromwell Property Group undertook a \$250 million equity raising to partly fund the acquisition. Shortly before, the Cromwell Property Group also bought two Brisbane CBD buildings leased to the Queensland State Government. The acquisitions and equity raising increased both operating earnings per security and distributions per security guidance for the 2014 financial year.

In December 2013, the Cromwell Property Group acquired a North Sydney office building Northpoint Tower for \$278 million. Northpoint Tower is one of North Sydney's most recognisable office towers, holding a prime corner position in an area that the Cromwell Property Group believes has significant potential in the coming years. It's held by Cromwell Partners Trust, the units in which are owned equally by Cromwell Property Group and Redefine Properties Limited ("**Redefine**").

In late 2013, the Cromwell Property Group took the opportunity to sell six non-core properties with a combined value of more than \$250 million.

Post 2014 year end, in August 2014, the Cromwell Property Group sold its investment property located at 321 Exhibition Street, Melbourne for \$208 million, a 10% premium to its most recent valuation. Proceeds from the sale reduced gearing and provided the Cromwell Property Group with the capital and flexibility to acquire larger, higher potential assets like Northpoint Tower.

Funds management

The Cromwell Property Group has continued to raise capital through its fund management operations through raising 7 retail funds since 2009. In addition, in 2011 the Cromwell Property Group established Cromwell Real Estate Partners Pty Ltd ("**CREP**") to enable institutional investors to co-invest with the Cromwell Property Group into property in Australia. Northpoint Tower in North Sydney, an asset that was rundown and in need of repositioning, was acquired at a price of A\$278 million by CREP as trustee of the Cromwell Partners Trust (established in 2013). 50% of the units in Cromwell Partners Trust are held by Redefine. There are no other co-investments in CREP or Cromwell Partners Trust.

In addition to the organic growth of the funds management business, the Cromwell Property Group has made several acquisitions in order to supplement organic growth and supplement existing offerings to the market.

In 2009, the Cromwell Property Group bought a 50% interest in Phoenix Portfolios (now reduced to 45%), a property securities investment manager. Through the provision of some initial financial support and guidance on funds strategy, Phoenix Portfolios has managed the Cromwell Phoenix Property Securities Fund to outperform its peers and win accolades from across the industry.

In 2014, the Cromwell Property Group acquired a 50% stake in the New Zealand fund manager Oyster Property Group. Oyster Property Group has total assets under management of NZ\$693 million as at 30 December 2014 through a combination of retail funds management, via property syndicates and an institutional property management business. The acquisition occurred after Oyster Property Group sought a partner to assist Oyster Property Group grow the business faster.

The Cromwell Property Group will look to grow the Oyster Property Group business through selected loans to assist the business to warehouse assets before raising capital, and through advice on how to improve distribution. There is also potential to distribute the Cromwell Property Group products into New Zealand.

Future acquisitions

The Cromwell Property Group actively looks for asset opportunities for both its investment portfolio and its funds management business. Each opportunity is closely reviewed against a set of investment criteria developed specifically for the direct portfolio or for the funds management product being constructed/managed.

Any acquisition or other transaction opportunity, is conditional on a number of items, including due diligence, negotiation of transaction documents and the Cromwell Property Group Board approval.

Acquisition of Valad Europe

Valad Europe is a pan European property funds management business with assets under management (including investment capacity) at 31 December 2014 of approximately €5.3 billion across 24 mandates and funds and 13 geographies.

Valad Europe was originally part of the Australian listed Valad Property Group until Valad Property Group was acquired by Blackstone Real Estate Partners VI ("**Blackstone**") in 2011. Subsequently, Blackstone and the Valad Europe management team separated the Valad Europe business from the rest of the group and rebranded as Valad Europe.

Since the acquisition, Valad Europe has gone on to stabilise its management platform independently of both the remainder of the Valad Property Group and Blackstone and has developed strong relationships with its 37 wholesale investors, 50% of which are invested in more than one Valad Europe fund.

The Cromwell Property Group's proposed acquisition of Valad Europe

Through a United Kingdom domiciled subsidiary, the Cromwell Property Group has entered into a conditional sale and purchase agreement to acquire Valad Europe for €145 million, including co-investment stakes of approximately €23 million ("**Valad Acquisition**").

The acquisition is intended to be funded through the issue of convertible bonds the subject of this Cleansing Notice.

The acquisition will significantly increase the Cromwell Property Group's earnings contribution from funds management to approximately 14%¹ from approximately 4.6%, consistent with the Cromwell Property Group's stated strategy, and will be earnings neutral in FY15 and greater than 5% earnings accretive in FY16.

RISK FACTORS

There are numerous wide spread risks associated with investing in any form of business and with investing in bonds and the security market generally. There are also a range of risks associated with the Cromwell Property Group's business and its involvement in the property sector. Many of these risk factors are largely beyond the control of the Issuer, the Cromwell Property Group, or directors of the Issuer, the Company or the Responsible Entity.

Prospective purchasers of the Bonds should consider carefully the risks described below before making a decision to invest in the Bonds. The risks described below do not necessarily comprise all those faced by the Cromwell Property Group and are not intended to be presented in any assumed order of priority.

Risks relating to the Bonds

The following summary, which is not exhaustive, outlines some of the major risk factors in respect of an investment in the Bonds.

There is a lack of public market for the Bonds

Approval in-principle has been given for the listing of the Bonds on the SGX-ST on 14 January 2015. However, there is currently no formal trading market for the Bonds and there can be no assurance that an active trading market will develop for the Bonds after the Offering, or that, if developed, such a market will sustain a price level at the issue price.

Market price of the Bonds

The market price of the Bonds will be based on a number of factors, including:

- (a) the prevailing interest rates being paid by companies similar to the Issuer;
- (b) the overall condition of the financial and credit markets;
- (c) prevailing interest rates and interest rate volatility;
- (d) the markets for similar securities;
- (e) the financial condition, results of operations and prospects of the Cromwell Property Group;
- (f) the publication of earnings estimates or other research reports and speculation in the press or investment community;
- (g) the market price and volatility of the Stapled Securities;
- (h) changes in the industry and competition affecting the Issuer and the Cromwell Property Group; and
- (i) general market and economic conditions.

The condition of the financial and credit markets and prevailing interest rates have fluctuated in the past and are likely to fluctuate in the future. Fluctuations in these factors could have an adverse effect on the market price of the Bonds.

There is an absence of covenant protection for the Bonds

The Trust Deed will not limit the Issuer's or the Cromwell Property Group's ability to incur additional debt or liabilities (including secured indebtedness). The Trust Deed will not contain any provision specifically intended to protect holders of the Bonds ("**Bondholders**") in the event of a future leveraged transaction by the Issuer or the Cromwell Property Group (other than a restriction on granting security to secure certain capital markets transactions in the circumstances described in the Conditions).

The Issuer or the Cromwell Property Group may in the future incur further indebtedness and other liabilities. The subsidiaries of the Issuer and the Guarantors may not in the future provide guarantees and/or indemnities in respect of such indebtedness and liabilities except in certain circumstances such as under its existing loan note facilities or any new project or assets acquired under the closing date.

The Bonds are unsecured obligations

The Bonds are unsecured obligations of the Issuer, a special purpose vehicle established specifically to act as issuer of the Bonds. The Bonds will rank *pari passu* in right of payment with all other existing and future unsecured and unsubordinated obligations of the Issuer, save for such obligations that may be preferred by provisions of law that are mandatory and of general application.

Although Cromwell Property Group is providing a guarantee, it will be effectively subordinated to the Cromwell Property Group's existing and future secured indebtedness, to the extent of the value of the assets securing such indebtedness. As a result, the repayment of the Bonds may be compromised if:

- (a) the Cromwell Property Group enters into bankruptcy, liquidation, rehabilitation or other winding-up proceedings;
- (b) there is a default in payment under the Cromwell Property Group's future secured indebtedness or other unsecured indebtedness; or
- (c) there is an acceleration of any of the Cromwell Property Group's indebtedness. If any of these events occurs, the Cromwell Property Group's assets may not be sufficient to pay amounts due on the Bonds.

If any of these events occur, the Cromwell Property Group's assets may not be sufficient to pay amounts due on the Bonds.

The Company may be unable to redeem the Bonds

The Issuer must redeem the Bonds on the Maturity Date, on the request of the Bondholder if a Change of Control or a Delisting (each as defined in the Conditions) occurs or on the occurrence of an Event of Default in relation to which the Trustee has given notice to the

Issuer that the Bonds are immediately due and repayable. The Issuer cannot assure Bondholders that, if required, it or the Guarantors would have sufficient cash or other financial resources at the time such a redemption obligation arises or would be able to arrange financing to redeem the Bonds in cash.

Offer

The underwriting of the Offer under the subscription agreement is subject to customary conditions and termination events. Most of the termination events, and to a lesser extent the conditions, are beyond the control of the Issuer or the Cromwell Property Group. Therefore, there is a risk that the Offer will not be underwritten. If the subscription agreement between the Issuer, the Guarantors and the Sole Lead Manager dated 27 January 2015 ("**Subscription Agreement**") (pursuant to which the Offer is underwritten) is terminated, the Cromwell Property Group may look to fund the Valad Acquisition from alternative sources including a combination of debt and existing cash reserves.

Volatility of market price of Stapled Securities

The market price of the Stapled Securities may be volatile. The volatility of the market price of the Stapled Securities may affect the ability of Bondholders to sell the Bonds at an advantageous price. Additionally, this may result in greater volatility in the market price of the Bonds than would be expected for non convertible debt securities. The market price of a publicly traded stock is affected by many variables not directly related to the success of the the Cromwell Property Group.

In recent years, the securities markets have experienced a high level of price and volume volatility, and the market price of securities of many companies has experienced wide fluctuations which have not necessarily been related to the operating performance, underlying asset values or prospects of such companies. Market price fluctuations in the Stapled Securities may also arise due to the operating results of the Cromwell Property Group failing to meet the expectations of securities analysts or investors in any quarter, downward revision in securities analysts' estimates, governmental regulatory action, adverse change in general market conditions or economic trends, acquisitions, dispositions or other material public announcements by the Cromwell Property Group or its competitors.

In addition, stock markets, including the ASX and the SGX ST from time to time suffer significant price and volume fluctuations that affect the market price for securities and which may be unrelated to the operating performance of the Cromwell Property Group. Any of these events could result in a decline in the market price of the Bonds or the Stapled Securities.

No rights as Bondholders of Stapled Securities until conversion of the Bonds

Unless and until the Bondholders acquire the Stapled Securities upon conversion of the Bonds into Stapled Securities (if any), the Bondholders will have no rights with respect to the Stapled Securities, including any right to acquire the Stapled Securities, voting rights, any participating rights in the event of a takeover offer for the Cromwell Property Group or rights to receive any dividends or other distributions with respect to the Stapled Securities. Upon conversion of the Bonds, the Issuer may elect to deliver cash rather than Stapled Securities, in accordance with the terms of the Bonds. Even if Stapled Securities are delivered, the holders

will be entitled to exercise the rights of holders of the Stapled Securities only as to actions for which the applicable record date occurs after the date of the conversion.

Holders have limited anti-dilution protection

The conversion price of the Bonds will be adjusted in the event that there is a consolidation, sub-division, or reclassification, capitalisation of profits or reserves, rights issue, capital distribution or other adjustment, but only in the circumstances and only to the extent provided in the Conditions. There is no requirement that there should be an adjustment for every corporate or other event that may affect the value of the Stapled Securities. Events in respect of which no adjustment is made may adversely affect the value of the Stapled Securities and, therefore, adversely affect the value of the Bonds.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Bonds in Euros. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than Euros. These include the risk that exchange rates may significantly change (including the changes due to devaluation of the Euro or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Euro would decrease (1) the Investor's Currency-equivalent yield on the Bonds, (2) the Investor's Currency-equivalent value of the principal payable on the Bonds and (3) the Investor's Currency-equivalent market value of the Bonds.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Change of law

The Conditions are based on English law. No assurance can be given as to the impact of any possible judicial decision or change to English law or administrative practice after the date of the Bond issue.

The Issuer and the Cromwell Property Group must also comply with various legal requirements including requirements imposed by securities laws and company laws in Australia. Should any of those laws change over time, the legal requirements to which the Issuer and the Cromwell Property Group may be subject could differ materially from current requirements.

Modifications and waivers

The Conditions contain provisions for calling meetings of Bondholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Bondholders including holders who did not attend and vote at the relevant meeting and holders who voted in a manner contrary to the majority.

The Conditions also provide that the Trustee may (but is not obliged to), without the consent of Bondholders, agree to (i) any modification of the Trust Deed, the Bonds, the Conditions or the agency agreement between the Issuer, the Guarantors, the Trustee, the Principal Paying, Transfer and Conversion Agent and the Registrar dated the Closing Date (as defined in the Conditions) (the "**Agency Agreement**") which in the Trustee's opinion is of a formal, minor or technical nature or is made to correct a manifest error or to comply with a mandatory provision of law and (ii) any other modification or any waiver or authorisation of any breach in respect of the Trust Deed, the Agency Agreement, the Bonds or the Conditions, which is in the opinion of the Trustee not materially prejudicial to the interests of Bondholders.

In addition, the Trustee may, without the consent of the Bondholders, determine that any Event of Default or Potential Event of Default should not be treated as such if, in the opinion of the Trustee, the interests of the Bondholders will not be materially prejudiced thereby.

The Trustee may request Bondholders to provide an indemnity and/or security and/or prefunding to its satisfaction

In certain circumstances (including without limitation giving of notice to the Issuer pursuant to Condition 10 of the Conditions and taking enforcement steps as contemplated in Condition 15 of the Conditions), the Trustee may (at its discretion) request an indemnity and/or security and/or prefunding to its satisfaction before it takes actions on behalf of Bondholders. The Trustee shall not be obliged to take any such actions if it is not indemnified and/or secured and/or prefunded to its satisfaction.

Negotiating and agreeing to an indemnity and/or security and/or prefunding can be a lengthy process and may impact on when such actions can be taken. The Trustee may not be able to take action, notwithstanding the provision of an indemnity or security or prefunding to it, in breach of the terms of the Trust Deed and in such circumstances, or where there is uncertainty or dispute as to the applicable laws or regulations, to the extent permitted by the agreements and the applicable law, it may be for the Bondholders to take such actions directly.

Legal risk

The Bonds, and this Cleansing Notice, are governed by a complex series of legal documents and contracts. As a result, the risk of dispute or litigation over interpretation or enforceability of the documentation and contracts for such investments may be higher than for other types of investments. The Stapled Entities' investments also involve complex legal documents and contracts, with associated risks of dispute or litigation.

Risks specific to the Valad Acquisition

Due diligence on Valad Europe

The Cromwell Property Group and its advisers have performed certain pre-acquisition due diligence on the Valad Europe companies to be acquired and their activities.

As is usual in the conduct of acquisitions, the due diligence process identified a number of risks associated with the Valad Acquisition which the Cromwell Property Group needed to evaluate and manage. The mechanisms used by the Cromwell Property Group to manage these risks included specific warranties, contractual commitments or exclusions, or the

acceptance of the risk as tolerable commercial grounds, such as materiality. There is a risk that the approach taken by the Cromwell Property Group may be insufficient to mitigate the risk, or that the materiality may be higher than expected, and result in loss to the Cromwell Property Group.

While Cromwell Property Group has obtained certain warranties and indemnities from the vendors of the Valad Acquisition under the Sale and Purchase Agreement (as defined below) with respect to information provided, there is a risk that the due diligence process has not identified issues that would have been material to the decision by the Cromwell Property Group undertake the Valad Acquisition and / or which have an adverse impact on the financial performance or operations of Valad Europe and therefore the expected benefits to the Cromwell Property Group of the Valad Acquisition.

Foreign currency risk

The acquisition of Valad Europe introduces additional foreign currency exposure to the Cromwell Property Group. This exposure may from time to time be over or under hedged due to currency movements or not hedged at all. Hedging will not necessarily respond promptly to currency movements. Foreign exchange fluctuations may have a positive or adverse impact on the investment returns of Valad Europe and therefore the expected benefits of the Valad Acquisition to the Cromwell Property Group.

Key Personnel

The Cromwell Property Group may be unable to retain the services of any senior management or key personnel of Valad Europe. The loss of the services of any senior management or key personnel of Valad Europe, or the inability to attract new qualified personnel, could adversely affect the Valad Europe's operations and the expected benefits of the Valad Acquisition to the Cromwell Property Group.

Risk that the Valad Acquisition will not complete

There is a risk that the vendors may not comply with their obligations under, or may not comply within the timeframes outlined in, the Sale and Purchase Agreement between Valad Capital Limited, Valad Nominee Limited, 10 Valad Europe management holders, BX Aus-V Holdings LLP and Valad Commercial Management Limited, Cromwell European Holdings Limited and Cromwell Corporation Limited dated 23 January 2015 ("**Sale and Purchase Agreement**"). Further, other issues may be identified or occur that prevent completion of the Valad Acquisition from occurring.

The Bonds will be issued prior to the completion date of the Valad Acquisition. If the Valad Acquisition does not complete, the Bondholders have no right to put their Bonds back to the Issuer, nor is there any obligation to redeem the Bonds early.

In the event that completion of the Valad Acquisition does not occur, there is a risk that the Cromwell Property Group may raise excess cash but will not have the full uplift in earnings anticipated from the income generated by the Valad Acquisition. This may result in dilution of the Cromwell Property Group's earnings per Stapled Security, which may reduce the value of an investment in the Stapled Securities.

Sale and Purchase Agreement

There are due diligence, execution and liability risks with any acquisition. Although the Cromwell Property Group has, or will have the benefit of the warranties and indemnities in the Sale and Purchase Agreement, those warranties and indemnities are subject to limitations and may not be sufficient to cover or provide recourse in relation to all possible losses that the Cromwell Property Group may incur in its capacity as purchaser of the Valad businesses. Furthermore, even where the warranties and indemnities would apply, the Cromwell Property Group may not be successful in making a full recovery on these protections in particular, if the vendors of the Valad Acquisition have limited or inaccessible financial resources.

Management and integration of the Valad Acquisition

Following completion of the Valad Acquisition, the Cromwell Property Group will have management oversight of financial, operational and risk reporting of the businesses of Valad Europe. This will involve a significant expansion of the Cromwell Property Group's current management responsibilities and its financial, operational and risk reporting and functions. An inability to implement this oversight and reporting, a delay in receiving or reporting or non-identification of issues or areas which require oversight may result in errors or deficiencies in the Cromwell Property Group's management of the Valad Acquisition and its businesses as a whole. This may result in misreporting of the Cromwell Property Group's financial results or delayed identification of issues, which may have a material impact on the Cromwell Property Group's earnings or financial position.

Risks associated with the integration of acquired businesses could result in a reduction in the Cromwell Property Group's earnings (for example if integration costs are higher than expected or the performance of the Valad Europe businesses is weaker than expected).

Ability of Valad Europe Management to replace current investment mandates and funds as and when they expire

Real estate investment mandates and property funds managed by Valad Europe are generally close ended with pre-determined maturity dates. When mandates and funds expire, and are not renewed, the assets may be sold and the Cromwell Property Group would no longer receive the associated fees. In order for Valad Europe to maintain and grow earnings, it must roll over existing funds and/or initiate new funds with similar or better fees. If this does not occur, earnings from Valad Europe may be lower than anticipated.

Risks specific to the Cromwell Property Group

Future acquisitions

The Cromwell Property Group proposes to acquire further properties or other assets in the future. However, it expects only to do so to the extent that such acquisitions are in accordance with its investment strategy and complement its existing portfolio. There can be no guarantee that the Cromwell Property Group will identify any future acquisition opportunities or be able to complete future acquisition opportunities on acceptable terms.

Although the Cromwell Property Group intends to undertake comprehensive due diligence before completing any future acquisition, such due diligence may not reveal issues that later

impact on the returns from that acquisition or the extent to which the acquisition meets the Cromwell Property Group's investment strategy.

The Cromwell Property Group actively looks for opportunities for both its investment portfolio and its funds management business with each potential opportunity being assessed against agreed investment criteria before progressing to any due diligence phase. A rigorous due diligence investigation is undertaken covering all aspects of the opportunity, including technical, legal, taxation and financial whilst progressing through the investment process, ultimately being reviewed and approved by the Investment Committee comprising a majority independent subset of the Board and, if necessary, the Board.

Competition

The value of property held by the Cromwell Property Group may be negatively affected by oversupply or overdevelopment in surrounding areas. Further, property assets come under competitive pressure from time to time and a change in the competitive environment can impact on the performance of the relevant property(s) and therefore the income of the Cromwell Property Group. The Cromwell Property Group may also be adversely affected if the price for a property it is considering for acquisition becomes inflated via competing bids by other prospective purchasers.

Change in value and income of investment properties

Returns from investment properties largely depend on the rental income generated from the property and the expenses incurred in its operation, including the management and maintenance of the property as well as the changes in the market value of the property. Rental income and/or the market value of properties may be adversely affected by a number of factors, including:

- the escalation of development costs beyond those originally expected;
- the overall conditions in the national and local economy, including risk appetite and business and consumer confidence;
- local real estate conditions, including volumes of sales and the ability to procure tenants;
- the perception of prospective tenants and customers regarding attractiveness and convenience of properties and the intensity of competition with other participants in the real estate industry;
- the location and quality of properties;
- operating, maintenance and refurbishment expenses, as well as unforeseen capital expenditure;
- supply of developable land, new properties and alternative investment properties;
- the financial position, performance and condition of tenants, in particular anchor tenants;
- investor demand/liquidity in investments;
- the capitalisation rates, which may change in response to market conditions; and
- the availability and cost of debt funding to potential purchasers of investment property.

The Cromwell Property Group employs an active management strategy in relation to all assets owned and managed. This involves constantly reviewing individual asset management strategies and portfolio strategy to maximise value for investors. The Cromwell Property Group operates an internalised model where all assets are managed in house, including leasing strategy and implementation, thus providing the Cromwell Property Group with a greater level of knowledge of the underlying assets and consequently being quicker to react.

Revaluations

In accordance with Australian Accounting Standards, the Cromwell Property Group's properties are required to be carried at fair value, with any increase or decrease in the value of those properties recorded in the income statement in the period during which the revaluation occurs. As a result, the Cromwell Property Group can have significant non-cash revenue gains and losses depending on the change in fair market values of its property portfolio from period to period, whether or not such properties are sold.

If a substantial decrease occurs in the fair market value of its properties, the Cromwell Property Group's financial position could be adversely affected and, as a result, it may have difficulty in maintaining its desired leverage ratio, which could in turn impact its ability to comply with the terms of relevant financing arrangements.

The Cromwell Property Group actively monitors the value of its assets, which may increase or decrease as a result of prevailing market conditions. The Cromwell Property Group revalues its assets on a 6 monthly basis, performing both internal and external independent valuations. The Cromwell Property Group also has an active approach to capital management, continuously reviewing and reporting the financing arrangements to monthly Board meetings.

Property damage

There is a risk that one or more of the Cromwell Property Group's properties may be damaged or destroyed by natural events such as earthquakes, fires or floods, or be subject to terrorism activity. The Cromwell Property Group carries material damage, business interruption and liability insurance on its properties with policy specifications and insured limits that it believes to be customary in the industry.

Unforeseen capital expenditure

There is a risk that the Cromwell Property Group's properties will require unforeseen capital expenditure in order to maintain them in a condition appropriate for the purposes intended, and that such capital expenditure is not fully reflected in the financial forecasts. There is a risk of an unforeseen event triggering the need for additional capital expenditure which would impact on the business, its operational performance and financial results. Such an event could include, for example, changes to safety or other building regulations.

The Cromwell Property Group's internal management approach provides it with greater knowledge of the underlying capital requirements for each building which are reviewed on a regular basis as part of each asset's management plan. Gazetted changes to regulations are factored into annual reviews, with unanticipated changes considered as they arise. The

Cromwell Property Group includes a level of contingency within its assets management strategies in order to take into account a level of unforeseen capital expenditure.

Property market

The Cromwell Property Group will be subject to the prevailing property market conditions in the sectors in which it operates.

Adverse changes in market sentiment or market conditions may impact the Cromwell Property Group's ability to acquire, manage or develop assets, as well as the value of the Cromwell Property Group's properties and other assets. These impacts could lead to a reduction in earnings and the carrying value of assets.

Building regulations

As a property owner, the Cromwell Property Group will need to be compliant with the appropriate building regulations under various federal, state and local laws that cover aspects such as safety and compliance with legislation for persons with disabilities. There may be unforeseen expenditure associated with maintaining compliance. Compliance with applicable building regulations may also limit implementation of the Cromwell Property Group's development strategies or may increase the cost of the development strategies.

The Cromwell Property Group is actively involved in public forums reviewing and debating gazetted new building regulations which acts to provide knowledge and insight into potential future capital expenditure and other costs which may be required as a result of future change. The Cromwell Property Group's active management approach factors any potential changes into future capital expenditure plans on a regular basis to ensure funding and works necessary are implemented in time to meet any change in regulation or necessary change in asset strategy.

Future fund raising for acquisitions and developments

The property investment and development industry tends to be highly capital intensive. The ability of the Cromwell Property Group to raise funds on favourable terms for future development and acquisitions depends on a number of factors including general economic, political, capital and credit market conditions. These factors could increase the cost of funding, or reduce the availability of funding, for new projects or increase the refinancing risk of maturing debt facilities. The inability of the Cromwell Property Group to raise funds on favourable terms for future acquisitions and developments could adversely affect its ability to acquire or develop new properties or refinance its debt.

Refinancing requirements

The Cromwell Property Group is exposed to risks relating to the refinancing of existing debt facilities. In the future the Cromwell Property Group may experience some difficulty in refinancing some or all of its debt facilities. If that is the case some of its assets may need to be sold and, possibly, at less than current valuations. The terms on which they are refinanced may also be less favourable than at present.

Debt covenants

The Cromwell Property Group has various covenants in relation to its debt facilities, including interest cover and loan to value ratio requirements. Factors such as falls in asset values or property income could lead to a breach of debt covenants. In this case, the Cromwell Property Group's lenders may require their loans to be repaid immediately or additional interest and further borrowing costs may be payable.

Leasing and tenant defaults

Tenants may default on their rent or other contractual obligations, leading to a reduction in income from, or capital losses to the value of, the Cromwell Property Group's assets.

Additionally, it may not be possible to negotiate lease renewals or maintain existing lease terms, which may also adversely impact the Cromwell Property Group's income and asset values. This is particularly the case for a number of properties owned by the Cromwell Property Group as the majority of the income earned by those properties is derived from one or more anchor tenants in the relevant property(s).

The ability to lease or re-lease tenancies upon expiry of the current lease, and the rents achievable, will depend upon the prevailing market conditions at the relevant time and these may be affected by economic, competitive or other factors.

The Cromwell Property Group employs an active management strategy in relation to all assets owned and managed. This involves constantly reviewing individual asset management strategies and portfolio strategy to maximise value for investors. The Cromwell Property Group operates an internalised model where all assets are managed in house, including leasing strategy and implementation, thus providing The Cromwell Property Group with a greater level of knowledge of the underlying assets and consequently being quicker to react.

The Cromwell Property Group's in-house leasing team are in constant contact with tenants across all assets of the portfolio, anticipating needs of existing tenants and considering options and strategies for upcoming vacancy well in advance of the existing tenant vacating. The Cromwell Property Group also performs in depth due diligence in relation to any new or renewed tenant to determine their ability to satisfy the terms of the lease and if necessary will require tenants to provide additional financial security.

Investment in funds and joint ventures

The Cromwell Property Group expects to hold interests in, and provide loans to, funds managed by the Cromwell Property Group from time to time. The net asset value of these investments and loans may decrease if the value of the assets in those funds were to decline. The Cromwell Property Group also derives income from providing property and funds management services to certain of its managed funds. Those funds may be subject to many of the same types of risks as the Cromwell Property Group and fees payable to the Cromwell Property Group may be reduced in some circumstances.

The Cromwell Property Group employs an active management strategy in relation to all assets owned and managed. This involves constantly reviewing individual asset management strategies and portfolio strategy to maximise value for investors. The Cromwell Property

Group operates an internalised model where all assets are managed in house, including leasing strategy and implementation, thus providing the Cromwell Property Group with a greater level of knowledge of the underlying assets and consequently being quicker to react.

Development

The Cromwell Property Group is involved in the development and refurbishment of property from time to time. Generally, property development has a number of risks including:

- the risk that planning consents and regulatory approvals are not obtained or, if obtained, are received later than expected, or are adverse to the Cromwell Property Group's interests, or are not properly adhered to;
- the escalation of development costs beyond those originally expected;
- funding not being available at prices originally forecast during the feasibility analysis of the development;
- unexpected project delays, including due to industrial disputes;
- anticipated sales prices or timing on anticipated sales are not achieved;
- the default of pre-sales on projects, which are not guaranteed;
- non performance or breach of contract by a contractor or sub-contractor; and
- competing development projects adversely affecting the overall return achieved.

A sustained downturn in property markets caused by any deterioration in the economic climate could result in reduced development profits through reduced selling prices or delays in achieving sales.

Increases in supply or falls in demand in any of the sectors of the property market in which the Cromwell Property Group operates or invests could influence the acquisition of sites, the timing and value of sales and carrying value of projects.

A number of factors affect the earnings, cashflows and valuations of commercial property developments, including construction costs, scheduled completion dates, estimated rental income and occupancy levels and the ability of tenants to meet rental and other contractual obligations.

The Cromwell Property Group undertakes thorough due diligence in relation to any potential development opportunity, including selecting development partners with sound reputations and financial standing. The Cromwell Property Group typically ensures that it does not take speculative development risk and, in all projects, aims to pre agree leasing commitments, construction costs, timing and funding. In all cases, the Cromwell Property Group is actively involved in any development. Development does not form a major portion of the Cromwell Property Group's activities and is largely limited to the refurbishment or repositioning of existing assets or the development of new, pre-committed assets to hold for the long term.

Realisation of assets

Property assets are by their nature illiquid investments. This may make it difficult to realise assets in the short term in response to changes in economic or other conditions.

The Cromwell Property Group actively manages assets within its portfolio, which are predominantly tenanted by Government and listed tenants, providing long term rental income with a WALE of c. 5.9 years as at June 2014. Although not an accumulator of assets, the Cromwell Property Group will look to extract maximum value consistent with its regularly reviewed asset management strategies, maintaining a conservative capital management strategy, with debt provided by a diverse range of providers.

Interest rates and financial instruments

Adverse fluctuations in interest rates, to the extent that they are not hedged, may impact the Cromwell Property Group's earnings. Where interest rates are hedged by way of financial instruments, the value of those instruments can vary substantially which can impact both earnings and net assets.

The Cromwell Property Group's treasury team employs a dynamic capital management strategy continuously reviewing the debt portfolio across the assets owned and management by the Cromwell Property Group. A Board approved hedging policy is in place which looks manage the risk of interest rate fluctuations on income, with approximately 95.1% of the debt portfolio interest rates hedged with a weighted average hedge term of 4.5 years.

Fixed nature of significant costs

Significant expenditures associated with property investment and the operations of the Cromwell Property Group, such as interest payments, maintenance costs, employee costs and statutory charges are generally not reduced significantly when circumstances cause a reduction in income from property. The value of an asset owned by the Cromwell Property Group may be adversely affected if the income from the asset declines and other property related expenses remain unchanged.

General business risks

Changes in accounting policy

The Cromwell Property Group must report and prepare financial statements in accordance with prevailing accounting standards and policies. There may be changes in these accounting standards and policies in the future which may have an adverse impact on the Cromwell Property Group.

General economic conditions

The Cromwell Property Group's operating and financial performance is influenced by a variety of general economic and business conditions, including the level of inflation, interest rates, ability to access funding, oversupply and demand conditions and government fiscal, monetary and regulatory policies. Prolonged deterioration in these conditions, including an increase in interest rates or an increase in the cost of capital, could have a material adverse impact on the Cromwell Property Group's operating and financial performance.

Regulatory issues, changes in law and Australian Accounting Standards

The Cromwell Property Group is subject to the usual business risk that there may be changes in laws or regulations that impact rental income or operational expenditure, for example the ability to recover certain property expenses from tenants, changes to regulatory requirements around disability access, or changes to operating practices as a result of, for example, climate change legislation. In addition, the Cromwell Property Group's ability to take advantage of future acquisition opportunities in Australia may be limited by regulatory intervention on competition grounds.

The Cromwell Property Group is also subject to the usual risk around changes in Accounting Standards that may change the basis upon which the Cromwell Property Group reports its financial results. There can be no assurance that such changes will not have a material adverse effect on the Cromwell Property Group's business, operational performance or financial results.

Taxation changes

Significant recent reforms and current proposals for further reforms to Australia's taxation laws give rise to uncertainty. The precise scope of proposed changes to the taxation treatment of managed investment trusts including listed property trusts (commonly known as REITS) is not yet known. Any change to the current rate of company income tax may impact returns and the ability of the Cromwell Property Group to meet obligations under financing arrangements.

In addition, future changes in Australian taxation law, including changes in interpretation or application of the law by the courts or taxation authorities in Australia, may affect taxation treatment of an investment in Stapled Securities, or the holding and disposal of those Stapled Securities. Further, changes in tax law, or changes in the way tax law is expected to be interpreted in the various jurisdictions in which the Cromwell Property Group operates may impact the future tax liabilities of the Cromwell Property Group.

Tax consequences for holders of Stapled Securities will be specific to their individual circumstances.

Holders of Stapled Securities and prospective investors should consult with their tax and/or other professional advisers in respect of the particular tax consequences of purchasing, owning or disposing of Stapled Securities in light of their particular situation.

Environmental matters

The Cromwell Property Group is exposed to a range of environmental risks which may result in additional expenditure on properties and/or project delays. The Cromwell Property Group may be required to undertake remedial works and potentially be exposed to third party liability claims, fines and penalties, or other liabilities generally and as a result of the various federal, state and local government environmental laws. For example, it may become liable for the cost of removal or remediation of hazardous or toxic substances from a property owned by the Cromwell Property Group. In common with other property owners, there remains a risk that environmental laws and regulators may become more stringent in the future.

Inflation

Higher than expected inflation rates could be expected to increase operating costs, interest and development costs and potentially reduce the value of investment properties and other assets. These cost increases may be offset by increased selling prices or rentals.

Force majeure event

Force majeure is the term generally used to refer to an event beyond the control of a party claiming that the event has occurred, including “acts of God”, fire, flood, earthquakes, war, acts of terrorism and labour strikes. Some force majeure risks are uninsurable or are unable to be insured economically. A force majeure event may adversely affect the Cromwell Property Group’s ability to perform its obligations until it is able to remedy the force majeure event. Similarly a force majeure event may adversely affect a tenant’s ability to perform its obligations under a particular lease. Should such events occur in respect of the Cromwell Property Group’s portfolio, they may adversely impact the Cromwell Property Group’s business, operational performance and financial results.

Insurance

The Cromwell Property Group generally enters into contracts of insurance that provide a degree of protection over assets, liabilities and people. While such policies typically cover against material damage to assets, contract works, business interruption, general and professional liability and workers compensation, there are certain risks that cannot be mitigated by insurance, either wholly or in part, such as nuclear, chemical or biological incidents or risks where the insurance coverage is reduced or unavailable, such as cyclones, floods or earthquakes. Also, insurers may not be able to meet indemnity obligations if and when they fall due, which could have an adverse effect on earnings.

Further, the nature and cost of insurance cover taken is based upon the best estimate of likely circumstances for the Cromwell Property Group in the relevant period. Unforeseen factors may result in the insurance cover being inadequate or the cost of the insurance premiums being in excess of that forecast. This may have a negative impact on the Cromwell Property Group’s net income and/or the value of its assets.

Market price

The market price of Stapled Securities will fluctuate due to various factors including general movements in interest rates, the Australian and international investment markets, economic conditions, global geo-political events and hostilities, investor perceptions and other factors. The market price of Stapled Securities could trade on ASX at a price below their issue price.

Counterparty/credit

Counterparty credit risk is the risk of a loss being sustained by the Cromwell Property Group as a result of payment default or non-performance by the counterparty with whom the Cromwell Property Group has contracted. For example, purchasers may default on the settlement of purchase agreements and the resale of those properties may be at a lesser amount and the failure of a significant portion of purchasers to settle on their purchases in

major development projects, could affect the timing and amount of future earnings. Further, the Cromwell Property Group manages interest rate and currency risks associated with borrowing by entering into interest rate and currency exchange hedging arrangements, such as interest rate and currency exchange swaps. Such arrangements involve risk, such as the risk that the counterparty to such arrangement may fail to honour their obligations under such arrangement, thereby exposing the Cromwell Property Group to the full effect of the movement in interest rates or currency exchange. To the extent that the Cromwell Property Group does not hedge or hedge effectively against movements in interest rates or currency exchange, such interest rate or currency exchange movements may adversely affect the Cromwell Property Group's results or operations or its ability to comply with financing arrangements.

Forward looking statements and financial forecasts

There can be no guarantee that the assumptions and contingencies contained within forward looking statements, opinions or estimates (including projections, guidance on future earnings and estimates) will ultimately prove to be valid or accurate. The forward looking statements, opinions and estimates depend on various factors, many of which are outside the control of the Cromwell Property Group.

Employees

The Cromwell Property Group is reliant on retaining and attracting quality senior executives and other employees. The loss of the services of any senior management or key personnel, or the inability to attract new qualified personnel, could adversely affect the Cromwell Property Group's operations.

Litigation and disputes

Legal and other disputes (including industrial disputes) may arise from time to time in the ordinary course of operations. Any such dispute may impact earnings or affect the value of the Cromwell Property Group's assets or securities.

Occupational, health and safety ("OH&S")

If the Cromwell Property Group fails to comply with necessary OH&S legislative requirements across the jurisdictions in which the Cromwell Property Group operates, it could result in fines, penalties and compensation for damages as well as reputational damage to the Cromwell Property Group.

THE CROMWELL PROPERTY GROUP

Overview of the Cromwell Property Group

*Business overview*⁵

The Cromwell Property Group is an internally managed Australian Real Estate Investment Trust comprising the Company and the Trust. The Cromwell Property Group is one of Australia's leading property investment and funds management groups. The Cromwell Property Group is part of the S&P/ASX 200, with over \$3.5 billion in assets under management (including unlisted funds), and manages 33, predominantly office, properties.

In 2014, the Cromwell Property Group had total revenues of \$333.1 million and profit of \$182.5 million. Profit from operations was \$146.7 million, approximately 95% of which was derived from its property portfolio, with the balance from its funds management activities.

Profit from operations is considered by the Directors to reflect the underlying earnings of the Cromwell Property Group. It is a key assets metric taken into account in determining distributions for the Cromwell Property Group but is a measure which is not calculated in accordance with International Financial Reporting Standards and has not been audited or reviewed by the Cromwell Property Group's auditor.

The property portfolio is underpinned by a very strong tenant profile with Government tenants contributing 50.8% of rental income and listed companies or their subsidiaries a further 29.8% of rental income. The portfolio has a WALE of 5.9 years and vacancy of 2.4%, which compares favourably with the national CBD office average of 12.2%.

Strategy overview

The Cromwell Property Group's objective is to provide returns to its investors that consistently exceed the ASX200 and IPD benchmarks over the course of each market cycle.

The Cromwell Property Group aims to achieve this by:

- (a) *maintaining a quality property portfolio*, which is invested mostly in defensive assets in CBD and core suburban markets of state capital cities and provides a balance between defensive investments and assets that can be improved with active asset management, good capital management, prudent risk management and mitigation; and
- (b) *leveraging the existing management platform and expanding the funds management business*, which is focused on investing in property and property securities for retail and wholesale clients.

To the extent any change in investment strategy would require the constitution of the Trust to be changed, the relevant procedure is described at pages 50 and 51.

⁵ Information as at 30 June 2014 adjusted for sale of 321 Exhibition Street

Quality property portfolio

As detailed above, the Cromwell Property Group owns a property portfolio across Australia, largely occupied by Government and blue chip tenants. In maintaining this portfolio, the Cromwell Property Group implements a sector agnostic active asset management strategy, where each asset strategy is reviewed on a regular basis to ensure the asset is best placed to generate income both now and in the future, with a heavy focus on the underlying cash flow security and tenant covenant.

The Cromwell Property Group looks to manage assets through the cycles and does not operate an accumulation strategy. Capital is employed as efficiently as possible to maintain future optionality and balance the relative risk versus reward of all opportunities.

As noted below, the Cromwell Property Group's integrated property management focus also allows it to prudently control both asset income and costs to maximise portfolio returns.

Funds management operations

The Cromwell Property Group's funds management business is a key future growth platform for the business and has historically been focused on retail investors and strategic partnerships, with current external assets under management of \$1.3 billion.

Over time, either organically or through acquisition, the Cromwell Property Group intends to continue to grow the funds management business, targeting an earnings contribution from funds management operations of approximately 20% of overall group earnings.

Future acquisitions

The Cromwell Property Group actively looks for asset opportunities for both its investment portfolio and its funds management business. Each opportunity is closely reviewed against a set of investment criteria developed specifically for the direct portfolio or for the funds management product being constructed/managed.

Any acquisition or other transaction opportunity, is conditional on a number of items, including due diligence, negotiation of transaction documents and Cromwell Property Group Board approval.

The investment strategy, in so far as it applies to the Trust, is in accordance with its constitution and with the authorisations granted to the Responsible Entity by virtue of its Australian Financial Services Licence (No 238052).

The constitution of the Trust provides that the Responsible Entity has all the powers and responsibilities of a natural person and a body corporate, including the power to invest and to borrow or raise money for the purpose of the Trust and on security of the assets of the Trust. The Responsible Entity has determined that the Offer and the transactions contemplated by the Offer are for the purpose of the Trust.

The constitution of the Trust also provides that the principal investment policy of the Responsible Entity in relation to the Trust is investment in real property in Australia, other than residential property, and the making of such other investments with the assets of the

Trust which in the Responsible Entity's opinion are from time to time required for the purpose.

This clause in the constitution of the Trust may be changed by a special resolution of members of the Trust passed at a meeting of members of the Trust held in accordance with the Corporations Act.

From time to time, the Responsible Entity may determine, and may publish public statements or give other information to members of the Trust about, the investment strategy of the Trust. The Responsible Entity may change such investment strategy at will, provided that the investment strategy is consistent with the Responsible Entity's powers under the constitution of the Trust. Any material change to the investment strategy of the Trust would (where materially price sensitive) be notified by an announcement on the ASX.

History

The Company has been listed on the ASX since 1971, with two key events shaping the history of the Cromwell Property Group and the current structure of the business.

First, the involvement of the existing management team began in 1998. At that time the Company was operating as a property fund manager and developer but did not have any significant recurring earnings and did not own any investment properties.

The second key event occurred in 2006, when the Company proposed a merger of 6 unlisted property funds and a stapling of the merged funds to the Company. This transaction was approved by investors forming the Cromwell Property Group as it is currently structured.

Since 2007, the Cromwell Property Group has continued improving its property portfolio, giving particular attention to tenant quality and increasing the weighted average lease term. In recent years this has also involved the Cromwell Property Group using its internal property and project management capability to undertake significant property refurbishments, allowing long-term, blue chip tenants to be retained and/or secured.

In late 2009, the Cromwell Property Group introduced a partner onto its register, Redefine, through an initial placement to a UK based group company. Following a number of additional acquisitions and capital raising transactions, supported by Redefine Properties Group. Its total holding has increased to approximately 24.8% as at November 2014.

Integrated property management

The Cromwell Property Group's property focus enables it to provide the group and its managed funds with a full suite of property related services including transaction sourcing, due diligence, property management, leasing, asset enhancement and realisation.

The Cromwell Property Group actively manages all the property assets of the Cromwell Property Group and its managed funds in-house, creating a link between investors, the assets and their tenants. This integrated property management model is one of the Cromwell Property Group's key competitive advantages.

The asset management team oversees the strategic management of each property, aiming to ensure that tenants are content, space is leased, buildings are operating efficiently and projects are delivered on time and on budget. By keeping these functions in-house, the Cromwell Property Group helps to ensure that assets are managed in accordance with the interests of investors and to the expectations of tenants.

Funds management activities

The Cromwell Property Group, through wholly owned subsidiaries, the Responsible Entity and Cromwell Funds Management Limited, is licensed to manage direct property, mortgage and equities funds. Since the involvement of current management in 1998, the Cromwell Property Group has managed unlisted direct property funds, raising over \$1 billion and acquiring property assets valued in excess of \$1.9 billion.

Additionally, the Cromwell Property Group manages over \$300 million in listed property securities through its 45% ownership in Phoenix Portfolios Pty Ltd, an investment manager specialising in managing property securities for wholesale investors.

The current funds management activities of the Cromwell Property Group are summarised as follows:

Corporate activity

Investment portfolio

The Cromwell Property Group continually seeks to realign its portfolio to maximise value and recently undertook a number of major acquisitions as well as the sale of some non-core properties.

In June 2013, the Cromwell Property Group purchased a \$405 million portfolio of seven office assets from the NSW State Government with an attractive initial portfolio yield of 9%. Nearly 70% of the portfolio is leased to the Government with an overall WALE of 9.4 years, increasing Cromwell's overall portfolio WALE and its exposure to Government tenants.

The portfolio includes three Sydney CBD assets, providing the Cromwell Property Group's portfolio with additional weighting to the Sydney office market. There are also four regional NSW assets leased to the NSW State Government for approximately 14 years.

The Cromwell Property Group undertook a \$250 million equity raising to partly fund the acquisition. Shortly before, the Cromwell Property Group also bought two Brisbane CBD buildings leased to the Queensland State Government. The acquisitions and equity raising increased both operating earnings per security and distributions per security guidance for the 2014 financial year.

In December 2013, the Cromwell Property Group acquired (together with Redefine) North Sydney office building Northpoint Tower for \$278 million. Northpoint Tower is one of North Sydney's most recognisable office towers, holding a prime corner position in an area that the Cromwell Property Group believes has significant potential in the coming years.

In late 2013, the Cromwell Property Group took the opportunity to sell six non-core properties with a combined value of more than \$250 million.

Post 2014 year end, in August 2014, the Cromwell Property Group sold its investment property located at 321 Exhibition Street, Melbourne for \$208 million, a 10% premium to its most recent valuation. Proceeds from the sale reduced gearing and provided the Cromwell Property Group with the capital and flexibility to acquire larger, higher potential assets like Northpoint Tower.

Funds management

The Cromwell Property Group has continued to raise capital through its fund management operations as illustrated earlier through raising seven retail funds since 2009. In addition, in 2011, the Cromwell Property Group established CREP to enable institutional investors to co-invest with the Cromwell Property Group into property in Australia. Northpoint Tower in North Sydney, an asset that was rundown and in need of repositioning, was acquired at a price of A\$278 million by CREP as trustee of the Cromwell Partners Trust (established in 2013). 50% of the units in Cromwell Partners Trust are held by Redefine. There are no other co-investments in CREP or Cromwell Partners Trust.

In addition to the organic growth of the funds management business, the Cromwell Property Group has made several acquisitions in order to supplement organic growth and supplement existing offerings to the market.

In 2009, the Cromwell Property Group bought a 50% interest in Phoenix Portfolios (now reduced to 45%), a property securities investment manager. Through the provision of some initial financial support and guidance on funds strategy, Phoenix Portfolios has managed the Cromwell Phoenix Property Securities Fund to outperform its peers and win accolades from across the industry.

In 2014, the Cromwell Property Group acquired a 50% stake in the New Zealand fund manager Oyster Property Group. Oyster Property Group has total assets under management of NZ\$693 million as at 31 December 2014 through a combination of retail funds management, via property syndicates and an institutional property management business. The Cromwell Property Group will look to grow the Oyster Property Group business through selected loans to assist the business to warehouse assets before raising capital, and through advice on how to improve distribution. There is also potential to distribute the Cromwell Property Group products into New Zealand.

Asset Revaluations

Properties of the Cromwell Property Group are generally independently valued at least once in every financial year, although exceptions are made from time to time.

Valuations are undertaken by a registered valuer with not less than five years relevant experience and based on the price at which the property might reasonably expected to be sold at the date of the valuation.

In addition, the Cromwell Property Group will not instruct a registered valuer to prepare an independent valuation for more than two consecutive years on the same property. Valuers are instructed to undertake their valuation in accordance with industry standards and to outline their valuation methodology within the valuation report.

At the end of each six monthly financial reporting period, the valuation of each property of the Cromwell Property Group is reviewed by the directors of the Cromwell Property Group and updated if necessary.

The valuation procedure of the Trust and the methodology for valuing assets is further described in the Cromwell Property Group's 2014 Annual Report.

Capital Management

Capital management process

The capital management activities of the Cromwell Property Group are overseen by the Group Treasurer in line with policies approved by the Board of the Cromwell Property Group. The Group Treasurer reports to the CEO.

The Group Treasurer's responsibilities include the implementation of the Cromwell Property Group's debt and hedging policies. The Cromwell Property Group's business plan includes debt and hedging strategies, which conform to these policies.

Debt management

Borrowings or gearing enhance the potential of capital gain for investors if property assets increase in value but may also increase any capital loss in the event that the value of the property falls relative to an un-gearred property investment.

The objective of the Cromwell Property Group's debt strategy, within its overall funding strategy, is to provide:

- (a) diversity;
- (b) cost effectiveness; and
- (c) flexibility.

When establishing new facilities or renegotiating existing facilities the Cromwell Property Group seeks to:

- (a) set a specific maximum level of gearing;
- (b) set a specific minimum level of interest cover; and
- (c) actively manage the interest rate risk associated with the borrowings by using hedging instruments such that the exposure of the Cromwell Property Group to adverse movements in interest rates is minimised where it is cost effective to do so.

The Cromwell Property Group seeks to keep the market fully informed of the activities of the business and its funding activities.

The level of gearing, interest cover, interest rates and hedging strategies is monitored by the Group Treasurer and reported to the CEO and the Board of the Cromwell Property Group monthly or as and when required.

Managing gearing appropriately is a key capital management initiative of the Cromwell Property Group whereby:

- (a) gearing is reduced before peak of property cycle via valuation increases and asset sales; and
- (b) gearing is increased at bottom of property valuation cycle through selective acquisitions.

Gearing is currently being reduced consistent with previous public statements.

The Cromwell Property Group has a stated strategy of maintaining a gearing range of 35%-55% (total debt to total assets) and a minimum average debt term of 2 years.

As at 30 June 2014 the Cromwell Property Group's gearing was 42% and its weighted average debt maturity was 3.9 years.

Post the acquisition, the Cromwell Property Group's gearing is projected to be 45.4% and its weighted average debt maturity to be 3.8 years.

Debt Facilities

The Trust obtains leverage by way of borrowings from the relevant lenders.

In May 2014, a new syndicated finance facility was established. The syndicated finance facility is secured by first registered mortgages over a pool of the investment properties held by the Trust and is split into two tranches, one of \$422,000,000 which expires in May 2018 and one of \$597,000,000 which expires in May 2019. Interest is payable monthly in arrears at variable rates based on the 30 day BBSY rate which was 2.66% at balance date plus a loan margin. The facility was fully drawn and the proceeds used to repay all debt facilities other than the existing Tuggeranong debt facility.

The Tuggeranong debt facility is a limited recourse facility secured against a single asset located at Athllon Drive, Tuggeranong ACT. The principal loan balance as at 30 June 2014 was \$90.5 million. The facility is due to mature in June 2015 and preliminary discussions with the existing lender have commenced regarding a new facility. Alternatively the loan balance may be refinanced into the abovementioned syndicated finance facility.

Interest Rate and Currency Hedging

The Cromwell Property Group seeks to actively manage the interest rate risk associated with loans using simple hedging instruments such that the exposure of the Cromwell Property Group to adverse movements in interest rates is minimised.

Where appropriate the Cromwell Property Group seeks a known interest cost environment that provides certainty in relation to the cost of debt financing and does so by actively managing the interest rate risk management of its debt facilities and maintains a level of hedging across the total portfolio.

Leverage obtained through the use of derivatives and other non-fully funded instruments is embedded in the instrument and as such could be said to be granted by the issuer of the instrument or the counterparty to the derivative contract.

Management actively monitors the interest rate market and makes decisions as to hedging strategies in line with the cashflow needs of the Cromwell Property Group and prudent requirements.

The Cromwell Property Group's hedging policy is under constant review to make allowances for changing market conditions.

As a general guide, and subject to the prevailing market conditions at the time, it is anticipated that interest rates on at least 75% of the Cromwell Property Group's total debt facilities may be fixed or otherwise hedged for a period of 2-5 years.

The Cromwell Property Group reserves the right to alter the above should the Cromwell Property Group consider that it is not in the best interests of holders of Stapled Securities to enter into hedging arrangements on this basis.

Interest rate risk management for the Cromwell Property Group's debt facilities is considered on a case by case basis taking into account the following:

- (a) the weighted average hedge term of the portfolio;
- (b) length of particular debt facility;
- (c) income stream of the property that is the subject of the debt facility;
- (d) the term of lease(s) of the property that is the subject of the debt facility;
- (e) prevailing interest rate market conditions;
- (f) prevailing economic conditions; and
- (g) anticipated ownership horizon of the property that is the subject of the debt facility.

Management reviews the Cromwell Property Group's hedging strategy on a constant basis and reports to the Board of the Cromwell Property Group monthly in relation to:

- (a) any new hedging agreements entered into; and
- (b) current hedging arrangements for the Cromwell Property Group's portfolio.

As at 30 June 2014, 94% of the Cromwell Property Group's debt was hedged for a weighted average duration of 2 years.

Post the Valad Acquisition, 95% of the Cromwell Property Group's debt will be hedged for a weighted average duration of 4.5 years.

Distribution policy

The Cromwell Property Group pays distributions quarterly in arrears. These distributions are sourced from operating earnings and the Cromwell Property Group aims to pay out 90-95% of operating earnings as distributions.

The Cromwell Property Group maintains a dividend reinvestment plan where holders of Stapled Securities can elect to participate and have their distributions reinvested for additional Stapled Securities. The dividend reinvestment price under the plan is the market price, which is the average of the daily volume weighted average price of Stapled Securities traded on the ASX during the 10 trading days immediately prior to the relevant plan record date to which the distribution relates, less any discount. Details of any discount are announced at the time of each distribution announcement.

Fees and expenses

The Responsible Entity is entitled to certain fees for managing the Trust and to recover expenses incurred in managing the Trust, performing its obligations and exercising its powers under the constitution of the Trust. However, as these fees are charged by the Responsible Entity or another company owned by the Cromwell Property Group, they represent an internal charge which is eliminated when preparing the financial reports of the Cromwell Property Group. Disclosure obligations require these fees to be set out in a prescribed form and further information in relation to these fees is available in Annexure 1 on page 166.

Labour, social, ethical and environmental disclosure

All of the Cromwell Property Group's investment decisions are made on a solely economic basis. Labour standards, environmental, social or ethical considerations were not taken into account by the Cromwell Property Group when decisions were made in relation to the Offer or the Valad Acquisition.

RIGHTS AND LIABILITIES OF THE STAPLED SECURITIES

Issued capital

As at the date of this Cleansing Notice, the Cromwell Property Group have 1,735,299,783 Stapled Securities on issue. Neither Australian law nor the constitutions of the Company or the Trust (collectively, the "**Constitutions**") imposes a limit on the maximum number of Shares or Units, respectively, that each entity is authorised to issue.

The Trust is a registered scheme under the Corporations Act. The Corporations Act requires that the constitution of a registered scheme must be contained in a document that is legally enforceable as between the unitholders of the Trust and the responsible entity. A copy of the constitution of the Trust (as amended) has been lodged with ASIC.

The constitution of the Trust provides that the constitution of the Trust is binding on the Responsible Entity and each unitholder of the Trust and all persons claiming through them as if they were parties to the constitution of the Trust. Generally, each applicant, by signing the application for new Units, agrees and acknowledges that the applicant is bound by the provisions of the constitution of the Trust.

The constitution of the Trust sets out the rights and benefits attaching to the Units, and the respective rights and obligations of the Responsible Entity and unitholder of the Trust. Some of the key provisions of the constitution of the Trust are set out on page 74 of the Cleansing Notice.

The constitution of the Trust may only be modified in accordance with the requirements of the Corporations Act and the constitution of the Trust. Section 601GC(1) of the Corporations Act provides that:

'The constitution of a registered scheme may be modified, or repealed and replaced with a new constitution:

- (a) by special resolution of the members of the scheme; or
- (b) by the responsible entity if the responsible entity reasonably considers the change will not adversely affect members' rights.'

This constitution of the Trust is governed by and is to be construed in accordance with the laws of the State of Queensland. The Responsible Entity, the unitholders of the Trust and applicants irrevocably and unconditionally submit to the non-exclusive jurisdiction of the courts of Queensland and courts entitled to hear appeals from those courts.

A final and conclusive judgment of the House of Lords, the Supreme Court of England and Wales, the Court of Session and the County Courts (in respect of the Bonds), would be enforced by the courts of the Relevant Jurisdiction without examination of the merits of the case if the following requirements of the Foreign Judgments Act 1991 (Cth) are met:

- (a) application for registration under the Foreign Judgments Act (Cth) is made within 6 years of the judgment, or within 6 years of the disposition of any appeal from the judgment;
- (b) the judgment is a money judgment, being a judgment for a definite sum of money other than in respect of taxes or other charges of a like nature or a fine or other penalty;
- (c) the judgment is valid;
- (d) the judgment is enforceable by execution in England and has not yet been wholly satisfied;
- (e) the judgment is not obtained by fraud;
- (f) the enforcement of the judgment would not be contrary to public policy in the Relevant Jurisdiction;
- (g) the proceedings in the English court did not involve a denial of the principles of natural justice recognised by the courts of the Relevant Jurisdiction;
- (h) the judgment is obtained in proceedings of which a defendant received sufficient notice to enable it to appear, or in which a defendant appeared;
- (i) the matter in dispute was not the subject of a final and conclusive judgment by another court having jurisdiction in the matter given before the judgment was given in the English court;

Such a judgment may be registered under the Foreign Judgments Act 1991 (Cth) in the Supreme Court of the Relevant Jurisdiction and would be enforceable by action in the courts of the Relevant Jurisdiction without a re-examination of the merits of the issues determined by the proceedings in the English court.

In respect of any judgment of the House of Lords, the Supreme Court of England and Wales, the Court of Session and the County Courts (in respect of the Bonds), an application may also be made to the Supreme Court of the Relevant Jurisdiction to allow the judgment to be enforced in the Relevant Jurisdiction without examination of the merits, on common law principles, including:

- (a) the foreign court must have recognised a jurisdiction over the judgment debtor, or, if the proceedings are in rem, a jurisdiction over the subject property, which the Australian courts will recognise the foreign judgment must be final and conclusive;
- (b) the parties to the foreign judgment and the enforcement proceedings must be identical and in the same interest;
- (c) the judgment must be for a fixed sum;
- (d) the judgment must not be obtained by fraud;
- (e) the enforcement of the judgment must not be contrary to public policy in the Relevant Jurisdiction; and

- (f) the proceedings in the relevant court must not have involved a denial of the principles of natural justice recognised by the courts of the Relevant Jurisdiction.

A court of the Relevant Jurisdiction will generally give effect to an express agreement made in good faith as to choice of law in respect of the Bonds and the submission to jurisdiction contained in them, providing that to do so would not be contrary to public policy or overriding mandatory legislation. However, in the event that a non-money judgment is handed down by the English court, it will be necessary to rely on equitable principles, of which there are very few examples of actual application, and which examples have to date been confined to recognition of the appointment of personal representatives or receivers.

In this paragraph, "Relevant Jurisdiction" means the State of Queensland and a reference to "laws of the Relevant Jurisdiction" includes a reference to Queensland law and applicable laws of the Commonwealth of Australia in force in the Relevant Jurisdiction.

Rights and liabilities attached to Stapled Securities

The rights and liabilities attaching to Stapled Securities are set out in the Constitutions, the stapling deed in respect of the Cromwell Property Group dated 7 December 2006 ("**Stapling Deed**") as well as the Corporations Act, exemptions and declarations given by ASIC, the ASX Listing Rules (subject to waivers) and the general law.

The Constitutions and the Stapling Deed ensure that, for as long as the two entities remain jointly quoted on ASX, the number of quoted Units and the number of quoted Shares shall be equal and that unitholders and shareholders will be identical.

A summary of the rights attaching to Stapled Securities is set out below. This summary is not exhaustive and reference should be made to the materials referred to in the foregoing paragraph. Full details of the rights attaching to the Stapled Securities are set out in the Constitutions, copies of which can be inspected at the registered office of the Cromwell Property Group at Level 19, 200 Mary Street, Brisbane Queensland, Australia 4000 during normal business hours.

The duties of the Responsible Entity are set out under the general law, the Corporations Act and the constituent documents of the Trust. These duties include the following:

- (a) to comply with its duties under the Corporations Act, as modified by any applicable instrument of relief or declaration provided or issued by ASIC, and the duties applicable to it under the general law. Under the Corporations Act, the Responsible Entity must (among other things);
 - (i) act honestly;
 - (ii) exercise the degree of care and diligence that a reasonable person would exercise if they were in the Responsible Entity's position;
 - (iii) act in the best interests of the unitholders of the Trust and, if there is a conflict between the unitholder's interests and its own interests, give priority to the unitholder's interests;

- (iv) treat the unitholders of the Trust who hold interests of the same class equally and unitholders of the Trust who hold interests of different classes fairly;
- (v) not make use of information acquired through being the responsible entity in order to:
 - (A) gain an improper advantage for itself or another person; or
 - (B) cause detriment to the unitholders of the Trust;
- (vi) ensure that scheme property is:
 - (A) clearly identified as scheme property; and
 - (B) held separately from property of the Responsible Entity and property of any other scheme;
- (vii) ensure that the scheme property is valued at regular intervals appropriate to the nature of the property;
- (viii) ensure that all payments out of the scheme property are made in accordance with the constitution of the Trust and the Corporations Act; and
- (ix) report to ASIC any breach of the Corporations Act that:
 - (A) relates to the Trust; and
 - (B) has had, or is likely to have, a materially adverse effect on the interests of unitholders of the Trust,

as soon as practicable after it becomes aware of the breach;
- (j) to carry out or comply with any other duty, not inconsistent with the Corporations Act, conferred on it under the constitution of the Trust;
- (k) to comply with any representations, promises or covenants given by it or to which it is bound by law in disclosure documentation or marketing material given to or accessible by investors;
- (l) to comply with its duties under the compliance plan of the Trust;
- (m) to comply with the conditions of its Australian financial services licence;

 - **(Shareholder disclosure)** Where a shareholder of the Company enters into an arrangement restricting the transfer or other disposal of Shares and it is an arrangement which the Company is required to disclose under the ASX Listing Rules, the shareholder of the Company must provide the required information to the Company.

 - not offer, allot or issue Units unless, at the same time, Shares are also offered, allotted or issued (as applicable) to the same person, to form a Stapled Security.
- **(Powers of the Responsible Entity)** The Responsible Entity has all powers and responsibilities of a natural person and a body corporate including the power to invest, borrow, raise money, enter into any financial arrangement and appoint an agent.
- **(Valuation)** Subject to an applicable law, the value of an asset will be the current market value of that asset determined having regard to an applicable law, the nature and characteristics of the asset and the market for that asset at the time of valuation and the basis of that determination.

- **(Transfer)** The Units may be transferred in the approved form. The Responsible Entity may refuse to register a transfer subject to the ASX Listing Rules and the constitution of the Trust. The Responsible Entity must refuse to register any transfer of Units where they are required to do so by the ASX Listing Rules and the constitution of the Trust.
- **(Application)** The Responsible Entity may reject an application in whole or in part without giving reasons for the rejection. The Responsible Entity may set a maximum or minimum application amount and a maximum or minimum holding for the Trust.
- **(Issue price)** Unless the Corporations Act (including as modified by ASIC relief) or the constitution of the Trust provides otherwise, the issue price for the issue of new Units is the average of the daily volume weighted average price for all Stapled Securities sales (including sales that are special crossings) on the ASX during the previous 10 trading days immediately preceding that day divided by the average paid up proportion of Stapled Securities less the issue price of a Share or such other amount determined by the Responsible Entity.
- **(Redemption)** The holders of Units do not have a right to redeem Units. However, under the ASX Listing Rules, the Responsible Entity must not be under an obligation to allow a unitholder of the Trust to withdraw from the Trust. As such, while the Trust is listed on the ASX, a unitholder of the Trust is not entitled to redeem their Units. Rather, to exit their investment in the Trust, a unitholder of the Trust must transfer their Units, which is ordinarily done via a sale on the market operated by the ASX.
- **(Unitholder meetings)** A unitholder meeting may be called and arranged by the Responsible Entity. Unitholders of the Trust with at least 5% of votes that may be cast on the resolution or at least 100 unitholders of the Trust who are entitled to vote on the resolution, may request a unitholder meeting be held or put resolutions to meetings of unitholders of the Trust. Each unitholder of the Trust is entitled to receive a notice of meeting.
- **(Votes of members)** Every unitholder of the Trust has one vote on a show of hands and one vote for each dollar of the value of the total units they have in the Trust on a poll. Each unitholder of the Trust is entitled to receive notice of general meetings and attend and unless not eligible, vote at unitholder meetings.
- **(Distributions)** The Responsible Entity may determine at any time to distribute capital or income to the unitholders of the Trust for a distribution period being either a calendar quarter or such period nominated by the Responsible Entity. The amount of the distribution is determined by the Responsible Entity or if no determination is made for a period ending the 30 June of any year, the distribution amount is the net income of the Trust for that period. The Responsible Entity may withhold from distributions an amount which the Responsible Entity considers is necessary to minimise variability in distribution amounts over distribution periods. Unitholders of the Trust may reinvest the distribution where the right is offered under a disclosure document issued

by the Responsible Entity or by notice in writing to all unitholders of the Trust, by giving notice to the Responsible Entity to request it.

- **(Responsible Entity)** The Responsible Entity and its associates may hold Units in any capacity. The Responsible Entity in a capacity other than as responsible entity of the Trust, may contract with unitholders of the Trust, the Trust or any authorised investments or property proposed to be acquired as an asset of the Trust if the transaction is not in breach of any covenant contained in the constitution of the Trust and the Responsible Entity acts with good faith to the unitholders of the Trust. If the Responsible Entity acts in good faith and without gross neglect, fraud, deceit or a material breach of covenant, it is not liable to account to nor to indemnify the Trust or unitholders of the Trust or persons claiming under or on behalf of a unitholder of the Trust. The liability of the Responsible Entity to the unitholders of the Trust is limited to the extent the assets of the Trust are vested in the Responsible Entity or received and/or held by it in accordance with the constitution of the Trust. The Responsible Entity is entitled to be indemnified out of the assets of the Trust for any liability incurred by it in properly performing its functions and duties or exercising its powers under the constitution of the Trust or at law except where the liability is incurred or payable in respect of or as a result of gross neglect, deceit or a material breach of covenant of the Responsible Entity.
- **(Termination)** Upon termination, assets or proceeds remaining after application to current, contingent or prospective expenses and liabilities will be distributed to unitholders of the Trust pro-rata to their holdings of units in the Trust.

VALAD ACQUISITION AND THE IMPACT ON THE CROMWELL PROPERTY GROUP

Valad Europe overview

Valad Europe is a pan European property funds management business with assets under management (including investment capacity) at 31 December 2014 of approximately €5.3 billion across 24 investment mandates and funds and 13 geographies.

Valad Europe was originally part of the Australian listed Valad Property Group until Valad Property Group was acquired by Blackstone Real Estate Partners VI in 2011. Subsequently, Blackstone and the Valad Europe management team separated the Valad Europe business from the rest of the group and rebranded as Valad Europe.

Since the acquisition, Valad Europe has gone on to stabilise its management platform independently of both the remainder of the Valad Property Group and Blackstone and has developed strong relationships with its 37 wholesale investors, 50% of which are invested in more than one Valad Europe fund.

The Cromwell Property Group's proposed acquisition of Valad Europe

Through a United Kingdom domiciled subsidiary, the Cromwell Property Group has entered into a conditional sale and purchase agreement to acquire Valad Europe for €145 million, including co-investment stakes of approximately €23 million.

The acquisition is intended to be funded through the issue of Bonds the subject of this Cleansing Notice.

The acquisition will significantly increase the Cromwell Property Group's earnings contribution from funds management to approximately 14%¹⁰ from approximately 4.6%, consistent with the Cromwell Property Group's stated strategy, and will be earnings neutral in FY15 and greater than 5% earnings accretive in FY16.

The Cromwell Property Group's pro forma operating earnings split by source of income¹⁰

¹⁰ Based on FY15 pro forma post tax, post convertible bond interest as though Valad Europe was acquired on 1 July 2014

The Cromwell Property Group's pro forma operating earnings split by geography¹¹

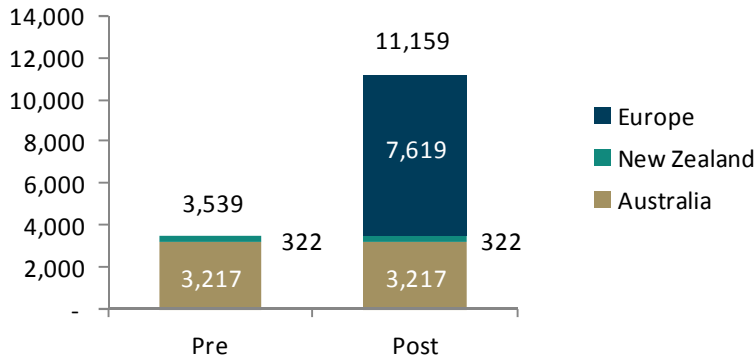

Pro forma AUM by type¹²

Pro forma AUM by geography¹²

¹¹ Based on FY15 pro forma post tax, post convertible bond interest as though Valad Europe was acquired on 1 July 2014

¹² Assets under management based on June 2014 Cromwell Property Group AUM (adjusted for sale of 321 Exhibition Street, Melbourne) including 45% of Phoenix Portfolios AUM, 50% of Oyster Property Group AUM (at 31 December 2014), assumes completion of property currently under construction in Cromwell Property Group managed funds and adjusted for Valad Europe AUM (including investment capacity) at 31 December 2014

Please refer to Presentation for further details.

Summary of the terms of the Sale and Purchase Agreement in relation to the Valad Acquisition

The Sale and Purchase Agreement is between Valad Capital Limited, Valad Nominee Limited, 10 Valad Europe management holders, BX Aus-V Holdings LLP and Valad Commercial Management Limited (collectively the "**Sellers**") and Cromwell European Holdings Limited and Cromwell Corporation Limited (collectively the "**Purchasers**").

The Purchasers are acquiring shares in Valad (Europe) Limited as well as partnership and co-investment interests in a number of Valad Europe investments.

The Sale and Purchase Agreement is conditional on the two relevant regulators, the UK Financial Conduct Authority and the Guernsey Financial Services Commission being given notice of, and not objecting to, the change in control of the relevant Valad Europe group entity within 65 days after the date of the Sale and Purchase Agreement. There are no other conditions precedent.

The aggregate purchase price is €145 million, subject to post-completion balance sheet adjustment, calculated by reference to the positive or negative variance at completion of the value attributable to the net assets identified in the provisional balance sheet set out in the Sale and Purchase Agreement.

Between signing and completion the Sellers must conduct the business in accordance with usual market practice covenants. The Sellers have provided certain warranties including as to title, due authority and compliance with laws. The warranties, given as at signing and again as at completion, are limited by disclosure and specific limitations (for example as to quantum) set out in the Sale and Purchase Agreement. If any warranties cease to be true the Purchasers must be notified.

USE OF PROCEEDS

The estimated net proceeds of the issue of the Bonds will be, after deduction of commissions, professional fees and other administrative expenses and assuming that the option to issue further Bonds is not exercised, approximately A\$209.262 million.

The net proceeds will be used by the Issuer to provide financial accommodation to the Cromwell Property Group for the following purposes:

- (a) to fund (subject to completion of the Valad Acquisition) the acquisition by a subsidiary of the Cromwell Property Group of Valad Europe and pay fees and transaction costs associated with the Valad Acquisition and issue of the Bonds; and
- (b) any further amount raised and/or not applied as per (a) above will be used by the Cromwell Property Group for general corporate purposes.

For further details on the Valad Acquisition see page 78 of this Cleansing Notice and the Presentation.

The following table sets forth the Reviewed Statement of Financial Position adjusted for events subsequent to 30 June 2014 as indicated below. This table should be read in conjunction with the consolidated audited financial statements and related notes and the Presentation incorporated by reference in this Cleansing Notice.

The table does not take into account or adjust for the acquisition of Valad Europe. Please refer to the Presentation for a Pro Forma Balance Sheet in relation to the Valad Acquisition.

The following adjustments and assumptions have been made in the preparation of the table above:

- (a) the table has not been audited and has been prepared using Australian equivalents to International Financial Reporting Standards and reflects the accounting policies of the Cromwell Property Group;
- (b) the adjustments for the issuance of the Bonds reflect provisional accounting adjustments. Actual results may change between the date of this Cleansing Notice and the completion of the proposed transaction; and
- (c) the option to issue further Bonds of €50 million has not been exercised.

Pro forma transactions

- (a) the adjustments in respect of the Sale of Exhibition Street property have been made in accordance with data published to the market in August 2014;
- (b) the pro forma adjustments reflect the issue of the Bonds with a combined face value of EUR150 million, less estimated costs of the offer of AUD\$4.2 million. The exchange rate is assumed to be at AUD\$1.0000 to EUR0.7027, resulting in a combined face value of AUD\$213.462 million and estimated costs of AUD\$4.2 million;
- (c) for accounting purposes the Bonds are allocated between debt and a financial liability (derivative) at issue. The debt will be accounted for at amortised cost and the derivative component at fair value through profit or loss;
- (d) the derivative component of AUD\$17.481 million has been calculated using a theoretical option pricing model. Transaction costs of AUD\$0.344 million allocated to the derivative component are immediately expensed to profit or loss and have been determined on a pro-rata basis; and
- (e) the debt component is calculated as the Bond amount less the derivative liability less transaction costs of AUD\$3.856 million. Transaction costs allocated to the debt component are capitalised and deducted from the carrying value of the debt.

The Issuer will cause a register (the “**Register**”) to be kept at the specified office of the Registrar outside the United Kingdom on which will be entered the names and addresses of the holders of the Bonds and the particulars of the Bonds held by them and of all transfers, redemptions and conversions of Bonds.

(b) Transfer

Bonds may, subject to the terms of the Agency Agreement and to Conditions 4(c) and 4(d), be transferred in whole or in part in an authorised denomination by lodging the relevant Bond (with the form of application for transfer in respect thereof duly executed and duly stamped where applicable) at the specified office of the Registrar or any Transfer Agent.

No transfer of a Bond will be valid unless and until entered on the Register. A Bond may be registered only in the name of, and transferred only to, a named person (or persons, not exceeding four in number).

The Registrar will (and the Issuer will procure the Registrar to) within ten business days, in the place of the specified office of the Registrar, of any duly made application for the transfer of a Bond, register the relevant transfer and deliver a new Bond to the transferee (and, in the case of a transfer of part only of a Bond, deliver a Bond for the untransferred balance to the transferor) at the specified office of the Registrar or (at the risk and, if mailed at the request of the transferee or, as the case may be, the transferor otherwise than by ordinary mail, at the expense of the transferee or,

as the case may be, the transferor) mail the Bond by uninsured mail to such address as the transferee or, as the case may be, the transferor may request in writing.

(c) *Formalities Free of Charge*

Such transfer will be effected without charge subject to (i) the person making such application for transfer paying or procuring the payment of any taxes, duties and other governmental charges in connection therewith, (ii) the Registrar being satisfied with the documents of title and/or identity of the person making the application and (iii) such regulations as the Issuer may from time to time agree with the Registrar and the Trustee (the initial regulations being as initially set out in the Agency Agreement).

(d) *Closed Periods*

Neither the Issuer nor the Registrar will be required to register the transfer of any Bond (or part thereof) (i) during the period of 15 days ending on and including the day immediately prior to the Final Maturity Date or any earlier date fixed for redemption of the Bonds pursuant to Condition 7(b) or Condition 7(c); (ii) in respect of which a Conversion Notice has been delivered in accordance with Condition 6(h); (iii) in respect of which a holder shall have exercised its option to require the Issuer to redeem pursuant to Condition 7(e) or (iv) during the period of 15 days ending on (and including) any Record Date in respect of any payment of interest on the Bonds.

(e) *Restrictions on transfer*

Bonds may only be transferred if the offer or invitation giving rise to the transfer:

- (i) does not constitute an offer or invitation for which disclosure is required to be made to investors under Part 6D.2 and Chapter 7 of the Corporations Act;
- (ii) is not made to a person who is a “retail client” within the meaning of Section 761G of the Corporations Act; and
- (iii) complies with any applicable law or directive of the jurisdiction where transfer takes place.

5 Interest

(a) *Interest Rate*

The Bonds bear interest from and including the Closing Date at the rate (the “**Interest Rate**”) of 2.000 per cent. per annum calculated by reference to the principal amount thereof and payable semi-annually in equal instalments in arrear on 4 February and 4 August in each year (each an “**Interest Payment Date**”), commencing with the Interest Payment Date falling on 4 August 2015.

The amount of interest payable in respect of any period which is shorter than an Interest Period shall be calculated on the basis of the number of days in the relevant period from (and including) the first day of such period to (but excluding) the last day of such period divided by the product of the number of days from (and including) the immediately preceding Interest Payment Date (or, if none, the Closing Date) to (but excluding) the next Interest Payment Date and the number of Interest Periods normally ending in any year.

“**Interest Period**” means the payment period beginning on (and including) the Closing Date and ending on (but excluding) the first Interest Payment Date and each successive period beginning on (and including) an Interest Payment Date and ending on (but excluding) the next succeeding Interest Payment Date.

(b) *Accrual of Interest*

Each Bond will cease to bear interest (i) where the Conversion Right shall have been exercised by a Bondholder, from the Interest Payment Date immediately preceding the relevant Conversion Date or, if none, the Closing Date (subject in any such case as provided in Condition 6(j)) or (ii) where such Bond is redeemed or repaid pursuant to Condition 7 or Condition 10, from the due date for redemption or repayment thereof unless, upon due presentation thereof, payment of principal is improperly withheld or refused, in which event interest will continue to accrue at 5 per cent. per annum (both before and after judgment) until whichever is the earlier of (a) the day on which all sums due in respect of such Bond up to that day are received by or on behalf of the relevant holder and (b) the day seven days after the Trustee or the Principal Paying, Transfer and Conversion Agent has notified Bondholders of receipt of all sums due in respect of all the Bonds up to that seventh day (except to the extent that there is failure in the subsequent payment to the relevant holders under these Conditions).

6 Conversion of Bonds

(a) *Conversion Right and Conversion Price*

Subject to the right of the Issuer to make a Cash Alternative Election pursuant to Condition 6(n) and otherwise as provided below, each Bond shall entitle the holder to convert such Bond into new Stapled Securities, credited as fully paid, subject to and as provided in these Conditions (a “**Conversion Right**”).

The number of Stapled Securities to be issued on exercise of a Conversion Right shall (subject as aforesaid) be determined by dividing the aggregate principal amount of all the Bonds (translated into Australian dollars at the Fixed Rate of Exchange) to be converted by such converting Bondholders by the conversion price (the “**Conversion Price**”) in effect on the relevant Conversion Date.

The initial Conversion Price is A\$1.1503 per Stapled Security. The Conversion Price is subject to adjustment in the circumstances described in Condition 6(b).

A Bondholder may exercise the Conversion Right in respect of a Bond by delivering the certificate evidencing such Bond together with a duly completed Conversion Notice to the specified office of any Conversion Agent in accordance with Condition 6(h) whereupon the Issuer shall (subject as provided in these Conditions) procure the issue to or as directed by the relevant Bondholder of Stapled Securities credited as paid up in full as provided in this Condition 6.

Subject to and as provided in these Conditions, the Conversion Right in respect of a Bond may be exercised, at the option of the holder thereof, subject to any applicable fiscal or other laws or regulations and as hereinafter provided, at any time on or after 17 March 2015 (the “**Conversion Period Commencement Date**”), provided that the relevant Conversion Date shall not fall later than on the date falling seven business days (in the place where the relevant Bond is delivered for Conversion) prior to the Final Maturity Date or, if such Bond is to be redeemed pursuant to Condition 7(b) or Condition 7(c) prior to the Final Maturity Date (both days inclusive), not later than the seventh business day (in the place aforesaid) before the date fixed for redemption thereof pursuant to Condition 7(b) or Condition 7(c), unless there shall be default in making payment in respect of such Bond on such date fixed for redemption, in which event the Conversion Right may be exercised up to and including the date on which the full amount of such payment becomes available for payment and notice of such availability has been duly given in accordance with Condition 17 or, if earlier, the date falling seven business days (in the place aforesaid) prior to the Final Maturity Date; provided that, in each case, if such final date for the exercise of Conversion

Rights is not a business day at the place aforesaid, then the period for exercise of Conversion Rights by Bondholders shall end on the immediately preceding business day at the place aforesaid.

Notwithstanding the foregoing, if a Change of Control occurs, the Conversion Right may be exercised prior to the Conversion Period Commencement Date, in which case Bondholders exercising the Conversion Right prior to the Conversion Period Commencement Date shall, as a pre-condition to receiving Stapled Securities, be required to certify in the Conversion Notice, among other things, that it or, if it is a broker-dealer acting on behalf of a customer, such customer:

- (i) will, on conversion, become the beneficial owner of the Stapled Securities; and
- (ii) is located outside the United States (within the meaning of Regulation S under the U.S. Securities Act of 1933, as amended).

Conversion Rights may not be exercised (i) following the giving of notice by the Trustee pursuant to Condition 10 or (ii) in respect of a Bond in respect of which the relevant Bondholder has exercised its right to require the Issuer to redeem that Bond pursuant to Condition 7(e).

Save in the circumstances described in Condition 6(k) in respect of any notice given by the Issuer pursuant to Condition 7(b) or Condition 7(c), Conversion Rights may not be exercised by a Bondholder in circumstances where the relevant Conversion Date would fall during the period commencing on the Record Date in respect of any payment of interest on the Bonds and ending on the relevant Interest Payment Date (both days inclusive).

The period during which Conversion Rights may (subject as provided below) be exercised by a Bondholder is referred to as the “**Conversion Period**”.

Conversion Rights may only be exercised in respect of an authorised denomination. Where Conversion Rights are exercised in respect of part only of a Bond, the old certificate in respect of that Bond shall be cancelled and a new certificate for the balance thereof shall be issued in lieu thereof without charge but upon payment by the holder of any taxes, duties and other governmental charges payable in connection therewith and the Registrar will within ten business days, in the place of the specified office of the Registrar, following the relevant Conversion Date deliver such new certificate to the Bondholder at the specified office of the Registrar or (at the risk and, if mailed at the request of the Bondholder otherwise than by ordinary mail, at the expense of the Bondholder) mail the new certificate by uninsured mail to such address as the Bondholder may request.

Fractions of Stapled Securities will not be issued on exercise of Conversion Rights or pursuant to Condition 6(c) and no cash payment or other adjustment will be made in lieu thereof. However, if the Conversion Right in respect of more than one Bond is exercised at any one time such that the Stapled Securities to be issued on conversion or pursuant to Condition 6(c) are to be registered in the same name, the number of such Stapled Securities to be issued in respect thereof shall be calculated on the basis of the aggregate principal amount of such Bonds being so converted and rounded down to the nearest whole number of Stapled Securities.

The Issuer will procure that the Stapled Securities to be issued on conversion will be issued to the Bondholders completing the relevant Conversion Notice or their nominee. Such Stapled Securities will be deemed to be issued as of the relevant Conversion Date. Any Additional Stapled Securities to be issued pursuant to Condition 6(c) will be deemed to be issued as of the date the relevant Retroactive Adjustment takes effect or as at the date of issue of Stapled Securities if the adjustment results from the issue of Stapled Securities (each such date, the “**Reference Date**”).

(b) *Adjustment of Conversion Price*

Upon the happening of any of the events described below, the Conversion Price shall be adjusted as follows:

- (i) **Consolidation, reclassification, redesignation or subdivision:** If and whenever there shall be a consolidation, reclassification, redesignation or subdivision in relation to the Stapled Securities which alters the number of Stapled Securities in issue, the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately prior to such consolidation, reclassification, redesignation or subdivision by the following fraction:

$$\frac{A}{B}$$

where:

A is the aggregate number of Stapled Securities in issue immediately before such consolidation, reclassification, redesignation or subdivision, as the case may be; and

B is the aggregate number of Stapled Securities in issue immediately after, and as a result of, such consolidation, reclassification, redesignation or subdivision, as the case may be.

Such adjustment shall become effective on the date the consolidation, reclassification, redesignation or subdivision, as the case may be, takes effect.

- (ii) **Capitalisation of profits or reserves:** If and whenever the Stapled Entities shall issue any Stapled Securities credited as fully paid to the Stapled Securityholders by way of capitalisation of profits or reserves (including any share premium account or capital redemption reserve) other than where it is determined to constitute a Cash Distribution pursuant to paragraph (a) of the definition of "Distribution", the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately prior to such issue by the following fraction:

$$\frac{A}{B}$$

where:

A is the aggregate number of Stapled Securities in issue immediately before such issue; and

B is the aggregate number of Stapled Securities in issue immediately after such issue.

Such adjustment shall become effective on the date of issue of such Stapled Securities.

- (iii) **Capital Distribution:**

(A) If and whenever the Stapled Entities shall declare, announce, make or pay any Capital Distribution (except to the extent the Conversion Price falls to be adjusted under Condition 6(b)(ii)) to the Stapled Securityholders, the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately prior to the Effective Date by the following fraction:

$$\frac{A - B}{A}$$

where:

- A is the Current Market Price of one Stapled Security on the Effective Date; and
- B is the portion of the Fair Market Value of the aggregate Capital Distribution attributable to one Stapled Security, with such portion being determined by dividing the Fair Market Value of the aggregate Capital Distribution by the number of Stapled Securities entitled to receive the relevant Capital Distribution (or, in the case of a purchase, redemption or buy back of Stapled Securities or any depositary or other receipts or certificates representing Stapled Securities by or on behalf of the Stapled Entities or any Subsidiary of the Stapled Entities, by the number of Stapled Securities in issue immediately following such purchase, redemption or buy back, and treating as not being in issue any Stapled Securities, or any Stapled Securities represented by depositary or other receipts or certificates, purchased, redeemed or bought back).

Such adjustment shall become effective on the Effective Date or, if later, the first date upon which the Fair Market Value of the relevant Capital Distribution is capable of being determined as provided herein.

“**Effective Date**” means, in respect of this Condition 6(b)(iii)(A), the first date on which the Stapled Securities are traded ex- the relevant Distribution on the Relevant Stock Exchange or, in the case of a purchase, redemption or buy back of Stapled Securities or any depositary or other receipts or certificates representing Stapled Securities, the date on which such purchase, redemption or buy back is made or in the case of a Spin-Off, the first date on which the Stapled Securities are traded ex- the relevant Spin-Off on the Relevant Stock Exchange.

“**Capital Distribution**” means any Non-Cash Distribution.

“**Non-Cash Distribution**” means any Distribution which is not a Cash Distribution, and shall include a Spin-Off.

- (B) If and whenever the Stapled Entities shall declare, announce, make or pay any Extraordinary Distributions to the Stapled Securityholders, the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately prior to the Effective Date by the following fraction:

$$\frac{A - B}{A - C}$$

where:

- A is the Current Market Price of one Stapled Security on the Effective Date;
- B is the portion of the Fair Market Value of the aggregate Extraordinary Distribution attributable to one Stapled Security, with such portion being determined by dividing the Fair Market Value of the aggregate Extraordinary Distribution by the number of Stapled Securities entitled to receive the Relevant Distribution; and
- C is the amount (if any) by which the Threshold Amount in respect of the Relevant Fiscal Year exceeds an amount equal to the aggregate of the Fair Market Values of any previous Cash Distributions per Stapled Security declared, announced, made or paid in respect of such Relevant Fiscal Year (where C shall be zero if such previous Cash Distributions per Stapled

Security are equal to, or exceed, the Threshold Amount in respect of such Relevant Fiscal Year). For the avoidance of doubt “C” shall equal the Threshold Amount in respect of the Relevant Fiscal Year where no previous Cash Distributions per Stapled Security have been declared, announced, made or paid in respect of such Relevant Fiscal Year.

Such adjustment shall become effective on the Effective Date or, if later, the first date upon which the Fair Market Value of the relevant Extraordinary Distribution can be determined.

“**Effective Date**” means, in respect of this Condition 6(b)(iii)(B), the first date on which the Stapled Securities are traded ex-the Relevant Distribution on the Relevant Stock Exchange.

“**Extraordinary Distribution**” means any Cash Distribution (the “**Relevant Distribution**”) declared, announced, made or paid in respect of a fiscal year of the Stapled Entities (the “**Relevant Fiscal Year**”), if (a) the Fair Market Value of the Relevant Distribution per Stapled Security or (b) the sum of (i) the Fair Market Value of the Relevant Distribution per Stapled Security and (ii) an amount equal to the aggregate of the Fair Market Value or Fair Market Values of any other Cash Distribution or Cash Distributions per Stapled Security declared, announced, paid or made in respect of the Relevant Fiscal Year, exceeds the Threshold Amount in respect of such Relevant Fiscal Year, and in that case the Extraordinary Distribution shall be the Relevant Distribution. For the avoidance of doubt, any Cash Distribution declared or announced in one Relevant Fiscal Year but made and/or paid in another Relevant Fiscal Year shall, for the purposes of this Condition 6(b)(iii)(B), be deemed to be a Cash Distribution declared, announced, made and paid in the first such Relevant Fiscal Year only.

“**Threshold Amount**” means in respect of any Relevant Fiscal Year, the amount per Stapled Security corresponding to the fiscal year set out below (adjusted pro rata for any adjustments to the Conversion Price made pursuant to the provisions of this Condition 6(b), including this Condition 6(b)(iii)).

	Threshold Amount
	(A\$)
In respect of the fiscal year ending:	
30 June 2015.....	0.0786
30 June 2016.....	0.0810
30 June 2017.....	0.0834
30 June 2018.....	0.0859
30 June 2019.....	0.0885
30 June 2020.....	0.0911

On any adjustment to the Threshold Amount, the resultant Threshold Amount in respect of any fiscal year, if not an integral multiple of A\$0.005, shall be rounded down to the nearest whole multiple of A\$0.005. No adjustment shall be made to the Threshold Amount in respect of any fiscal year where such adjustment (rounded

down if applicable) would be less than one per cent. of the Threshold Amount then in effect in respect of such fiscal year. Any adjustment not required to be made and/or any amount by which the Threshold Amount in respect of any fiscal year has been rounded down, shall be carried forward and taken into account in any subsequent adjustment, and such subsequent adjustment shall be made on the basis that the adjustment not required to be made had been made at the relevant time and/or, as the case may be, that the relevant rounding down had not been made.

Notice of any adjustments to the Threshold Amount shall be given by the Stapled Entities to Bondholders in accordance with Condition 17 and to the Trustee in writing promptly after the determination thereof.

“**Cash Distribution**” means (i) any Distribution which is to be paid or made in cash (in whatever currency), but other than falling within paragraph (b) of the definition of “**Spin-Off**” and (ii) any Distribution determined to be a Cash Distribution pursuant to paragraph (a) of the definition of “**Distribution**”, and for the avoidance of doubt, a Distribution falling within paragraphs (c) or (d) of the definition of “**Distribution**” shall be treated as being a Non-Cash Distribution.

- (C) For the purposes of the above, Fair Market Value shall (subject as provided in paragraph (a) of the definition of “Distribution” and in the definition of “Fair Market Value”) be determined as at the Effective Date.
- (D) In making any calculations for the purposes of this Condition 6(b)(iii), such adjustments (if any) shall be made as a Financial Adviser may determine in good faith to be appropriate to reflect (i) any consolidation or sub-division of any Stapled Securities or the issue of Stapled Securities by way of capitalisation of profits or reserves (or any like or similar event) or any increase in the number of Stapled Securities in issue in relation to the fiscal year of the Stapled Entities in question, or (ii) any change in the fiscal year of the Stapled Entities, or (iii) any adjustment to the Conversion Price made in the fiscal year of the Stapled Entities in question.

- (iv) **Rights Issues of Stapled Securities or options over Stapled Securities:** If and whenever the Stapled Entities or any Subsidiary of the Stapled Entities or (at the direction or request or pursuant to any arrangements with the Stapled Entities or any Subsidiary of the Stapled Entities) any other company, person or entity shall issue Stapled Securities to all or substantially all Stapled Securityholders as a class by way of rights, or issue or grant to all or substantially all Stapled Securityholders as a class by way of rights, options, warrants or other rights to subscribe for or purchase or otherwise acquire any Stapled Securities or any Securities which by their terms of issue carry (directly or indirectly) rights of conversion into, or exchange or subscription for, or the right to otherwise acquire, any Stapled Securities (or shall grant any such rights in respect of existing Securities so issued), in each case at a price per Stapled Securities which is less than 95 per cent. of the Current Market Price on the Effective Date of the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately prior to such issue or grant by the following fraction:

$$\frac{A + B}{A + C}$$

where:

- A is the number of Stapled Securities in issue on the Effective Date;

- B is the number of Stapled Securities which the aggregate consideration (if any) receivable for the Stapled Securities issued by way of rights, or for the Securities issued by way of rights and upon exercise of rights of conversion into, or exchange or subscription for, or the right to otherwise acquire, Stapled Securities, or for the options or warrants or other rights issued by way of rights and for the total number of Stapled Securities deliverable on the exercise thereof, would purchase at such Current Market Price per Stapled Security on the Effective Date; and
- C is the number of Stapled Securities issued or, as the case may be, the maximum number of Stapled Securities which may be issued upon exercise of such options, warrants or rights calculated as at the date of issue of such options, warrants or rights or upon conversion or exchange or exercise of rights of subscription or purchase or other rights of acquisition in respect thereof at the initial conversion, exchange, subscription, purchase or acquisition price or rate;

provided that if at the first date on which the Stapled Securities are traded ex-rights, ex-options or ex-warrants on the Relevant Stock Exchange (as used in this Condition 6(b)(iv), the “**Specified Date**”) such number of Stapled Securities is to be determined by reference to the application of a formula or other variable feature or the occurrence of any event at some subsequent time, then for the purposes of this Condition 6(b)(iv), “C” shall be determined by the application of such formula or variable feature or as if the relevant event occurs or had occurred as at the Specified Date and as if such conversion, exchange, subscription, purchase or acquisition had taken place on the Specified Date.

Such adjustment shall become effective on the Effective Date or, if later, the dealing day following the record date or other due date for establishment of the entitlement of Stapled Securityholders to participate in the relevant issue or grant.

“**Effective Date**” means, in respect of this Condition 6(b)(iv), the first date on which the Stapled Securities are traded ex-rights, ex-options or ex-warrants on the Relevant Stock Exchange.

- (v) **Rights issues of other Securities:** If and whenever the Stapled Entities or any Subsidiary of the Stapled Entities or (at the direction or request or pursuant to any arrangements with the Stapled Entities or any Subsidiary of the Stapled Entities) any other company, person or entity shall issue any Securities (other than Stapled Securities or options, warrants or other rights to subscribe for or purchase or otherwise acquire Stapled Securities or Securities which by their terms carry (directly or indirectly) rights of conversion into, or exchange or subscription for, or rights to otherwise acquire, Stapled Securities) to all or substantially all Stapled Securityholders as a class by way of rights or grant to all or substantially all Stapled Securityholders as a class by way of rights any options, warrants or other rights to subscribe for or purchase or otherwise acquire any Securities (other than Stapled Securities or options, warrants or other rights to subscribe for or purchase or otherwise acquire Stapled Securities or Securities which by their term carry (directly or indirectly) rights of conversion into, or exchange or subscription for, or rights to otherwise acquire, Stapled Securities), the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately prior to the Effective Date by the following fraction:

$$\frac{A - B}{A}$$

where:

- A is the Current Market Price per Stapled Security on the Effective Date; and

B is the Fair Market Value on the Effective Date of the portion of the rights attributable to one Stapled Security.

Such adjustment shall become effective on the Effective Date or, if later, the dealing day following the record date or other due date for establishment of the entitlement of Stapled Securityholders to participate in the relevant issue or grant.

“**Effective Date**” means, in respect of this Condition 6(b)(v), the first date on which the Stapled Securities are traded ex- the relevant Securities or ex-rights, ex-option or ex-warrants on the Relevant Stock Exchange.

- (vi) **Issues at less than the Current Market Price:** If and whenever the Stapled Entities shall issue (otherwise than as mentioned in Condition 6(b)(iv) above) wholly for cash or for no consideration any Stapled Securities (other than Stapled Securities issued on conversion of the Bonds (which term shall for this purpose include any Optional Bonds and any Further Bonds) or on the exercise of any rights of conversion into, or exchange or subscription for or purchase of, or rights to otherwise acquire Stapled Securities and other than where it is determined to constitute a Cash Distribution pursuant to paragraph (a) of the definition of “Distribution”) or if and whenever the Stapled Entities or any Subsidiary of the Stapled Entities or (at the direction or request or pursuant to any arrangements with the Stapled Entities or any Subsidiary of the Stapled Entities) any other company, person or entity shall issue or grant (otherwise than as mentioned in Condition 6(b)(iv) above) wholly for cash or for no consideration any options, warrants or other rights to subscribe for or purchase or otherwise acquire Stapled Securities (other than the Bonds, which term shall for this purpose include any Optional Bonds and any Further Bonds), in each case at a price per Stapled Security which is less than 95 per cent. of the Current Market Price on the date of the first public announcement of the terms of such issue or grant, the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately prior to such issue or grant by the following fraction:

$$\frac{A + B}{A + C}$$

where:

- A is the number of Stapled Securities in issue immediately before the issue of such Stapled Securities or the grant of such options, warrants or rights;
- B is the number of Stapled Securities which the aggregate consideration (if any) receivable for the issue of such Stapled Securities or, as the case may be, for the Stapled Securities to be issued or otherwise made available upon the exercise of any such options, warrants or rights, would purchase at such Current Market Price on the date of such first public announcement; and
- C is the number of Stapled Securities to be issued pursuant to such issue of such Stapled Securities or, as the case may be, the maximum number of Stapled Securities which may be issued upon exercise of such options, warrants or rights calculated as at the date of issue of such options, warrants or rights;

provided that if at the time of issue of such Stapled Securities or date of issue or grant of such options, warrants or rights (as used in this Condition 6(b)(vi), the “**Specified Date**”) such number of Stapled Securities is to be determined by reference to the application of a formula or other variable feature or the occurrence of any event at some subsequent time, then for the purposes of this Condition 6(b)(vi), “C” shall be determined by the application

of such formula or variable feature or as if the relevant event occurs or had occurred as at the Specified Date and as if such conversion, exchange, subscription, purchase, or acquisition had taken place on the Specified Date.

Such adjustment shall become effective on the date of issue of such Stapled Securities or, as the case may be, the issue or grant of such options, warrants or rights.

- (vii) **Other issues at less than the Current Market Price:** If and whenever the Stapled Entities or any of their respective Subsidiaries or (at the direction or request of or pursuant to any arrangements with the Stapled Entities or any of their respective Subsidiaries) any other company, person or entity shall (otherwise than as mentioned in Conditions 6(b)(iv), 6(b)(v) or 6(b)(vi) above) issue wholly for cash or for no consideration any Securities (other than the Bonds which term shall for this purpose include any Optional Bonds and exclude any Further Bonds), which by their terms of issue carry (directly or indirectly) rights of conversion into, or exchange or subscription for, purchase of, or rights to otherwise acquire, Stapled Securities (or shall grant any such rights in respect of existing Securities so issued) or Securities which by their terms might be reclassified or redesignated as Stapled Securities and the consideration per Stapled Security receivable upon conversion, exchange, subscription, purchase, acquisition, reclassification or redesignation is less than 95 per cent. of the Current Market Price on the date of the first public announcement of the terms of issue of such Securities (or the terms of such grant), the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately prior to such issue or grant by the following fraction:

$$\frac{A + B}{A + C}$$

where:

- A is the number of Stapled Securities in issue immediately before such issue or grant (but where the relevant Securities carry rights of conversion into or rights of exchange or subscription for Stapled Securities which have been issued, purchased or acquired by the Stapled Entities or any Subsidiary of the Stapled Entities (or at the direction or request or pursuant to any arrangements with the Stapled Entities or any Subsidiary of the Stapled Entities) for the purposes of or in connection with such issue, less the number of such Stapled Securities so issued, purchased or acquired);
- B is the number of Stapled Securities which the aggregate consideration (if any) receivable for the Stapled Securities to be issued or otherwise made available upon conversion or exchange or upon exercise of the right of subscription, purchase or acquisition attached to such Securities or, as the case may be, for the Stapled Securities to be issued or to arise from any such reclassification or redesignation would purchase at such Current Market Price per Stapled Security on the date of such first public announcement; and
- C is the maximum number of Stapled Securities to be issued or otherwise made available upon conversion or exchange of such Securities or upon the exercise of such right of subscription, purchase or acquisition attached thereto at the initial conversion, exchange, subscription, purchase or acquisition price or rate or, as the case may be, the maximum number of Stapled Securities which may be issued or arise from any such reclassification or redesignation;

provided that if at the time of issue of the relevant Securities or date of grant of such rights (as used in this Condition 6(b)(vii) the “**Specified Date**”) such number of Stapled Securities

is to be determined by reference to the application of a formula or other variable feature or the occurrence of any event at some subsequent time (which may be when such Securities are converted or exchanged or rights of subscription, purchase or acquisition are exercised or, as the case may be, such Securities are reclassified or redesignated or at such other time as may be provided) then for the purposes of this Condition 6(b)(vii), “C” shall be determined by the application of such formula or variable feature or as if the relevant event occurs or had occurred as at the Specified Date and as if such conversion, exchange, subscription, purchase, acquisition, reclassification or, as the case may be, redesignation had taken place on the Specified Date.

Such adjustment shall become effective on the date of issue of such Securities or, as the case may be, the grant of such rights.

- (viii) **Modification of rights of Conversion:** If and whenever there shall be any modification of the rights of conversion, exchange, subscription, purchase or acquisition attaching to any Securities (other than the Bonds, which term shall for this purpose include any Optional Bonds and Further Bonds) which by their terms of issue carry (directly or indirectly) rights of conversion into, or exchange or subscription for, or the right to otherwise acquire, any Stapled Securities (other than in accordance with the terms (including terms as to adjustment) applicable to such Securities upon issue) so that following such modification the consideration per Stapled Security receivable has been reduced and is less than 95 per cent. of the Current Market Price on the date of the first public announcement of the proposals for such modification, the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately prior to such modification by the following fraction:

$$\frac{A + B}{A + C}$$

where:

- A is the number of Stapled Securities in issue on the dealing day immediately before such modification (but where the relevant Securities carry rights of conversion into or rights of exchange or subscription for, or purchase or acquisition of, Stapled Securities which have been issued, purchased or acquired by, or on behalf of, the Stapled Entities or any of their respective Subsidiaries (or at the direction or request or pursuant to any arrangements with the Stapled Entities or any their respective Subsidiaries) for the purposes of or in connection with such Securities, less the number of such Stapled Securities so issued, purchased or acquired);
- B is the number of Stapled Securities which the aggregate consideration (if any) receivable for the Stapled Securities to be issued or otherwise made available upon conversion or exchange or upon exercise of the right of subscription, purchase or acquisition attached to the Securities so modified would purchase at such Current Market Price per Stapled Security on the date of such first public announcement or, if lower, the existing conversion, exchange, subscription purchase or acquisition price or rate of such Securities; and
- C is the maximum number of Stapled Securities which may be issued or otherwise made available upon conversion or exchange of such Securities or upon the exercise of such rights of subscription, purchase or acquisition attached thereto at the modified conversion, exchange, subscription, purchase or acquisition price or rate but giving credit in such manner as a Financial Adviser shall consider appropriate for any previous adjustment under this Condition 6(b)(viii) or Condition 6(b)(vii) above;

provided that if at the time of such modification (as used in this Condition 6(b)(viii) the “**Specified Date**”) such number of Stapled Securities is to be determined by reference to the application of a formula or other variable feature or the occurrence of any event at some subsequent time (which may be when such Securities are converted or exchanged or rights of subscription, purchase or acquisition are exercised or at such other time as may be provided) then for the purposes of this Condition 6(b)(viii), “C” shall be determined by the application of such formula or variable feature or as if the relevant event occurs or had occurred as at the Specified Date and as if such conversion, exchange, subscription, purchase or acquisition had taken place on the Specified Date.

Such adjustment shall become effective on the date of modification of the rights of conversion, exchange, subscription, purchase or acquisition attaching to such Securities.

- (ix) **Other offers to Stapled Securityholders:** If and whenever the Stapled Entities or any of their respective Subsidiaries or (at the direction or request of or pursuant to any arrangements with the Stapled Entities or any of their respective Subsidiaries) any other company, person or entity shall offer any Stapled Securities or Securities in connection with which Stapled Securityholders as a class are entitled to participate in arrangements whereby such Stapled Securities or Securities may be acquired by them (except where the Conversion Price falls to be adjusted under Conditions 6(b)(ii), 6(b)(iii), 6(b)(iv), 6(b)(v), 6(b)(vi) or 6(b)(vii) above or Condition 6(b)(x) below (or, where applicable, would fall to be so adjusted if the relevant issue or grant was at less than 95 per cent. of the Current Market Price per Stapled Security on the relevant dealing day)) the Conversion Price shall be adjusted by multiplying the Conversion Price in force immediately before the making of such offer by the following fraction:

$$\frac{A - B}{A}$$

where:

- A is the Current Market Price of one Stapled Security on the date on which the terms of such offer are first publicly announced; and
- B is the Fair Market Value on the date of such announcement (or, if that is not a dealing day, the immediately preceding dealing day) of the portion of the relevant offer attributable to one Stapled Security.

Such adjustment shall become effective on the first date on which the Stapled Securities are traded ex-rights on the Relevant Stock Exchange.

- (x) **Change of Control:** If:
- (i) an offer is made to all (or as nearly as may be practicable all) Stapled Securityholders (or all (or as nearly as may be practicable all) Stapled Securityholders other than the offeror and/or any associate (as defined in section 12 of the Corporations Act) of the offeror) to acquire the whole or any part of the issued Stapled Securities (an “**Offer**”); or
- (ii) any person proposes a Scheme of Arrangement (including an informal scheme or similar arrangement involving the Issuer or each Guarantor) with regard to such acquisition (other than an Exempt Newco Scheme) (a “**Scheme**”),
- and such offer or Scheme of Arrangement (including an informal scheme or similar arrangement involving the Issuer or each Guarantor) having become or been declared

unconditional in all respects, and the offeror has acquired at any time during the relevant offer period a relevant interest in more than 50 per cent. of the Stapled Securities in issue, or the Scheme of Arrangement if approved and implemented will result in a person acquiring a relevant interest in more than 50 per cent. of the Stapled Securities that will be in issue after the Scheme of Arrangement is implemented, or an event occurs which has a like or similar effect; or

- (iii) an event occurs which has a like or similar effect, including if the Stapled Entities, the Issuer or the RE consolidates with or merges into or sells or transfers all or substantially all of the Stapled Entities', the Issuer's or, as the case may be, the RE's assets to any other person, unless the consolidation, merger, sale or transfer will not result in any person or persons, acting together, acquiring control over the Stapled Entities, the Issuer, the RE or any of their respective successor entities,

(each such event a "**Change of Control**"), then upon any exercise of Conversion Rights where the Conversion Date falls during the period (the "**Change of Control Period**") commencing on the occurrence of the Change of Control and ending 30 calendar days following the Change of Control or, if later, 30 calendar days following the date on which a Change of Control Notice as required by Condition 6(g) is given, the Conversion Price (the "**Change of Control Conversion Price**") shall be as determined pursuant to the following formula:

$$\text{COCCP} = \text{OCP} / (1 + (\text{CP} \times c/t))$$

where:

COCCP = means the Change of Control Conversion Price

OCP = means the Conversion Price in effect on the relevant Conversion Date

CP = means 7.500 per cent. (expressed as a fraction)

c = means the number of days from and including the date the Change of Control occurs to but excluding the Final Maturity Date

t = means the number of days from and including the Closing Date to but excluding the Final Maturity Date

For the avoidance of doubt, the appointment of a new trustee or responsible entity will not constitute a Change of Control if the new trustee or responsible entity is (1) a member of the Group and (2) has entered into an agreement with the Trustee to perform all of the obligations of the RE under the Trust Deed and the Bonds which are not novated to it pursuant to the operation of Division 3 of Part 5C.2 of the Corporations Act.

- (xi) **Other Events:** If the Issuer (after consultation with the Trustee) determines that an adjustment should be made to the Conversion Price as a result of one or more circumstances not referred to above in this Condition 6(b) (even if the relevant circumstance is specifically excluded from the operation of Conditions 6(b)(i) to 6(b)(x) (both inclusive) above), the Issuer shall, at its own expense and acting reasonably, request a Financial Adviser to determine as soon as practicable what adjustment (if any) to the Conversion Price is fair and reasonable to take account thereof and the date on which such adjustment should take effect and upon such determination such adjustment (if any) shall be made and shall take effect in accordance with such determination, provided that an adjustment shall only be made pursuant to this Condition 6(b)(xi) if such Financial Adviser is so requested to make such a

determination not more than 21 days after the date on which the relevant circumstance arises and if the adjustment would result in a reduction to the Conversion Price.

Notwithstanding the foregoing provisions:

- (a) where the events or circumstances giving rise to any adjustment pursuant to this Condition 6(b) have already resulted or will result in an adjustment to the Conversion Price or where the events or circumstances giving rise to any adjustment arise by virtue of any other events or circumstances which have already given or will give rise to an adjustment to the Conversion Price or where more than one event which gives rise to an adjustment to the Conversion Price occurs within such a short period of time that, in the opinion of the Issuer, a modification to the operation of the adjustment provisions is required to give the intended result, such modification shall be made to the operation of the adjustment provisions as may be advised by a Financial Adviser to be in its opinion appropriate to give the intended result and provided further that, for the avoidance of doubt, the issue of Stapled Securities pursuant to the exercise of Conversion Rights shall not result in an adjustment to the Conversion Price.
- (b) such modification shall be made to the operation of these Conditions as may be advised by a Financial Adviser to be in its opinion appropriate (i) to ensure that an adjustment to the Conversion Price or the economic effect thereof shall not be taken into account more than once and (ii) to ensure that the economic effect of a Distribution is not taken into account more than once; and
- (c) other than pursuant to Condition 6(b)(i), no adjustment shall be made that would result in an increase to the Conversion Price.

For the purpose of any calculation of the consideration receivable or price pursuant to Conditions 6(b)(iv), 6(b)(vi), 6(b)(vii) and 6(b)(viii), the following provisions shall apply:

- (A) the aggregate consideration receivable or price for Stapled Securities issued for cash shall be the amount of such cash;
- (B) (x) the aggregate consideration receivable or price for Stapled Securities to be issued or otherwise made available upon the conversion or exchange of any Securities shall be deemed to be the consideration or price received or receivable for any such Securities and (y) the aggregate consideration receivable or price for Stapled Securities to be issued or otherwise made available upon the exercise of rights of subscription attached to any Securities or upon the exercise of any options, warrants or rights shall be deemed to be that part (which may be the whole) of the consideration or price received or receivable for such Securities or, as the case may be, for such options, warrants or rights which are attributed by the Issuer to such rights of subscription or, as the case may be, such options, warrants or rights or, if no part of such consideration or price is so attributed, the Fair Market Value of such rights of subscription or, as the case may be, such options, warrants or rights as at the relevant date of the first public announcement as referred to in Conditions 6(b)(vi), 6(b)(vii) or 6(b)(viii), as the case may be, plus in the case of each of (x) and (y) above, the additional minimum consideration receivable or price (if any) upon the conversion or exchange of such Securities, or upon the exercise of such rights of subscription attached thereto or, as the case may be, upon exercise of such options, warrants or rights and (z) the consideration receivable or price per Stapled Security upon the conversion or exchange of, or upon the exercise of such rights of subscription attached to, such Securities or, as the case may be, upon the exercise of such options, warrants or rights shall be the aggregate consideration or price referred to in (x) or (y) above (as the case may be) divided by the number of Stapled

Securities to be issued upon such conversion or exchange or exercise at the initial conversion, exchange or subscription price or rate;

- (C) if the consideration or price determined pursuant to (A) or (B) above (or any component thereof) shall be expressed in a currency other than the Relevant Currency it shall be converted into the Relevant Currency at the Prevailing Rate on the date of the relevant Effective Date (in the case of (A) above) or the relevant date of the first public announcement (in the case of (B) above);
- (D) in determining consideration or price pursuant to the above, no deduction shall be made for any commissions or fees (howsoever described) or any expenses paid or incurred for any underwriting, placing or management of the issue of the relevant Stapled Securities or Securities or options, warrants or rights, or otherwise in connection therewith;
- (E) the consideration or price shall be determined as provided above on the basis of the consideration or price received, receivable, paid or payable, regardless of whether all or part thereof is received, receivable, paid or payable by or to a Stapled Entity or another entity; and
- (F) references in these Conditions to “cash” shall be construed as cash consideration within the meaning of Section 583(3) of the Companies Act 2006 (Chapter 46) of the United Kingdom.

Notwithstanding any other provision of these Conditions, the rights of the Bondholders will be changed to the extent necessary to comply with the ASX Listing Rules. For the avoidance of doubt, if there are any inconsistencies between the ASX Listing Rules and the adjustment mechanisms provided for in this Condition 6, the ASX Listing Rules will apply.

(c) *Retroactive Adjustments*

Subject as provided in Condition 6(n), if the Conversion Date in relation to the conversion of any Bond shall be after the record date in respect of any consolidation, reclassification, redesignation or sub-division as is mentioned in Condition 6(b)(i), or after the record date or other due date for the establishment of entitlement for any such issue, distribution, grant or offer (as the case may be) as is mentioned in Conditions 6(b)(ii), 6(b)(iii), 6(b)(iv), 6(b)(v) or 6(b)(ix), or after the date of the first public announcement of the terms of any such issue or grant as is mentioned in Conditions 6(b)(vi) and 6(b)(vii), or of the terms of any such modification as mentioned in Condition 6(b)(viii), in any case in circumstances where the relevant Conversion Date falls before the relevant adjustment to the Conversion Price becomes effective under Condition 6(b) (such adjustment, a “**Retroactive Adjustment**”), then the Issuer shall (conditional upon the relevant adjustment becoming effective) procure that there shall be issued to the converting Bondholder, in accordance with the instructions contained in the Conversion Notice, such additional number of Stapled Securities (if any) (the “**Additional Stapled Securities**”) as, together with the Stapled Securities issued on conversion of the relevant Bond (together with any fraction of a Stapled Security not so issued), is equal to the number of Stapled Securities which would have been required to be issued on conversion of such Bond as if the relevant adjustment to the Conversion Price had in fact been made and become effective immediately prior to the relevant Conversion Date, all as determined by a Financial Adviser, provided that if in the case of Conditions 6(b)(ii), 6(b)(iii), 6(b)(iv), 6(b)(v) or 6(b)(ix) the relevant Bondholder shall be entitled to receive the relevant Stapled Securities, Distributions or Securities in respect of the Stapled Securities to be issued or delivered to it, then no such Retroactive Adjustment shall be made in relation to the relevant event and the relevant Bondholder shall not be entitled to receive Additional Stapled Securities in relation thereto.

(d) *Decision of a Financial Adviser*

If any doubt shall arise as to whether an adjustment falls to be made to the Conversion Price or the Threshold Amount or as to the appropriate adjustment to the Conversion Price or Threshold Amount or as to the occurrence of a Change of Control, the Issuer and each Guarantor shall consult a Financial Adviser and the written opinion of such Financial Adviser in respect of such adjustment to the Conversion Price or Threshold Amount shall be conclusive and binding on Bondholders and all parties, save in the case of manifest error.

(e) *Employees' Security Schemes*

No adjustment will be made to the Conversion Price where Stapled Securities or other Securities (including rights, warrants and options) are issued, transferred, offered, exercised, allotted, purchased, appropriated, modified or granted to, or for the benefit of, employees or contractors or former employees or contractors (including Directors holding or formerly holding executive office or the personal service company of any such person) or their spouses or relatives, in each case, of the Stapled Entities or any of their Subsidiaries or any associated company or to trustees to be held for the benefit of any such person, in any such case pursuant to any employees' security or option scheme.

(f) *Rounding Down and Notice of Adjustment to the Conversion Price*

On any adjustment, the resultant Conversion Price, if not an integral multiple of A\$0.001, shall be rounded down to the nearest whole multiple of A\$0.001. No adjustment shall be made to the Conversion Price where such adjustment (rounded down if applicable) would be less than one per cent. of the Conversion Price then in effect. Any adjustment not required to be made and/or any amount by which the Conversion Price has been rounded down, shall be carried forward and taken into account in any subsequent adjustment, and such subsequent adjustment shall be made on the basis that the adjustment not required to be made had been made at the relevant time and/or, as the case may be, that the relevant rounding down had not been made.

Notice of any adjustments to the Conversion Price and the Threshold Amount shall be given by the Issuer and each Guarantor to Bondholders in accordance with Condition 17 and to the Trustee in writing promptly after the determination thereof.

The Issuer and each Guarantor undertakes that it shall not take any action and shall procure that no action is taken, that would otherwise result in the inability to issue Stapled Securities on conversion as fully paid.

(g) *Change of Control*

Within 14 calendar days following the occurrence of a Change of Control, the Issuer shall give notice thereof to the Trustee in writing and to the Bondholders in accordance with Condition 17 (a "**Change of Control Notice**"). Such notice shall contain a statement informing Bondholders of their entitlement to exercise their Conversion Rights as provided in these Conditions and their entitlement to require the Issuer to redeem their Bonds as provided in Condition 7(e)(i).

The Change of Control Notice shall also specify:

- (i) the nature of the Change of Control;
- (ii) the Conversion Price immediately prior to the occurrence of the Change of Control and the Change of Control Conversion Price (on the basis of such Conversion Price) applicable pursuant to Condition 6(b)(x) during the Change of Control Period on the basis of the Conversion Price in effect immediately prior to the occurrence of the Change of Control;

- (iii) the closing price of the Stapled Securities as derived from the Relevant Stock Exchange as at the latest practicable date prior to the publication of such notice;
- (iv) the Change of Control Put Date and the last day of the Change of Control Period;
- (v) details of the right of the Issuer to redeem any Bonds which shall not previously have been converted or redeemed pursuant to Condition 7(e)(i); and
- (vi) such other information relating to the Change of Control as the Trustee may reasonably require.

Neither the Trustee nor any Agent shall be required to monitor or take any steps to ascertain whether a Change of Control or any event which could lead to a Change of Control has occurred or may occur and none of them will be responsible or liable to Bondholders or any other person for any loss arising from any failure by it to do so.

(h) Procedure for exercise of Conversion Rights

Conversion Rights may be exercised by a Bondholder during the Conversion Period by delivering the relevant certificate evidencing the Bond to the specified office of any Conversion Agent, no later than 3:00 p.m. (London time), accompanied by a duly completed and signed notice of conversion (a “**Conversion Notice**”) in the form (for the time being current) obtainable from any Conversion Agent. Conversion Rights shall be exercised subject in each case to any applicable fiscal or other laws or regulations applicable in the jurisdiction in which the specified office of the Conversion Agent to whom the relevant Conversion Notice is delivered is located.

If such delivery is made after 3:00 p.m. (London time) or on a day which is not a business day in the place of the specified office of the relevant Conversion Agent, such delivery shall be deemed for all purposes of these Conditions to have been made on the next following such business day.

Any determination as to whether any Conversion Notice has been duly completed and properly delivered shall be made by the relevant Conversion Agent and shall, save in the case of manifest error, be conclusive and binding on the Issuer, the Trustee, the Conversion Agents and the relevant Bondholder.

Conversion Rights may only be exercised in respect of an authorised denomination. Where Conversion Rights are exercised in respect of part only of a Bond, the old certificate in respect of that Bond shall be cancelled and a new certificate for the balance thereof shall be issued in lieu thereof without charge but upon payment by the holder of any taxes, duties and other governmental charges payable in connection therewith and the Registrar will within ten business days, in the place of the specified office of the Registrar, following the relevant Conversion Date deliver such new certificate to the Bondholder at the specified office of the Registrar or (at the risk and, if mailed at the request of the Bondholder otherwise than by ordinary mail, at the expense of the Bondholder) mail the new certificate by uninsured mail to such address as the Bondholder may in writing request.

A Conversion Notice, once delivered, shall be irrevocable.

The conversion date in respect of a Bond (the “**Conversion Date**”) shall be the second Sydney business day following the date of the delivery of the relevant Bond and the Conversion Notice (as provided in this Condition 6(h)).

A Bondholder exercising a Conversion Right must pay directly to the relevant authorities any taxes and capital, stamp, issue and registration and transfer taxes and duties arising on conversion (other than any taxes and capital, stamp, issue and registration and transfer taxes and duties payable in Australia (or any state or territory thereof) or in any other jurisdiction in which the Issuer or the

Guarantors may be domiciled or resident or to whose taxing jurisdiction it may be generally subject, in respect of the issue or transfer and delivery of any Stapled Securities in respect of the issue and transfer of any Stapled Securities on such conversion or in respect of the delivery of any Stapled Securities on such conversion (including any Additional Stapled Securities), which shall be paid by the Issuer (failing which, the Guarantors)) and such Bondholder shall be responsible for paying all, if any, taxes arising by reference to any disposal or deemed disposal of a Bond or interest therein in connection with such conversion. If the Issuer or the Guarantors shall fail to pay any taxes and capital, stamp, issue and registration and transfer taxes and duties payable for which they are responsible as provided above, the relevant Bondholder shall be entitled to tender and pay the same and each of the Issuer and the Guarantors as a separate and independent stipulation, covenants to reimburse and indemnify each Bondholder in respect of any payment thereof and any penalties payable in respect thereof.

For the avoidance of doubt, none of the Agents or the Trustee shall be responsible for determining whether such taxes or capital, stamp, issue and registration and transfer taxes and duties are payable by any person in any jurisdiction or the amount thereof and none of them shall be responsible or liable for requiring that such amounts are paid or for any failure by any Bondholder, the Issuer or the Guarantors to pay such taxes or capital, stamp, issue and registration and transfer taxes and duties in any jurisdiction.

Each Bondholder exercising a Conversion Right must provide to the Principal Paying, Transfer and Conversion Agent a certificate confirming (i) its compliance with applicable fiscal or other laws or regulations; and (ii) that all relevant taxes and capital, stamp, issue and registration and transfer taxes and duties (if any) have been paid, and the Principal Paying, Transfer and Conversion Agent and the Trustee shall be entitled to rely conclusively on such certificate.

Stapled Securities to be issued on exercise of Conversion Rights (including any Additional Stapled Securities) will be issued, at the option of the Bondholder exercising its Conversion Right as specified in the Conversion Notice in uncertificated form through the securities trading system known as the Clearing House Electronic Sub-register System operated by ASX Settlement and Transfer Corporation Pty Ltd (“CHESS”) (or any successor licensed clearance and settlement facility applicable to the Stapled Securities) and the Stapled Securities will be credited to the CHESS account specified in the Conversion Notice, or if a Bondholder does not specify a valid CHESS account in the Conversion Notice, a certificate for the Stapled Securities will be mailed to the relevant Bondholder (at the risk of such Bondholder) to the address specified in the Register, in each case by a date which is not later than five Sydney business days (in the case of Stapled Securities to be issued through CHESS or in certificated form) after the relevant Conversion Date.

Statements of holdings for Stapled Securities issued on exercise of Conversion Rights through CHESS will be dispatched by the Issuer by mail free of charge as soon as practicable but in any event within 10 Sydney business days after the relevant Conversion Date.

(i) *Revival and/or survival after Default:*

Notwithstanding the provisions of Condition 6(a), if (a) the Issuer (or, as the case may be, any Guarantor) shall default in making payment in full in respect of any Bond which shall have been called for redemption on the date fixed for redemption thereof, (b) any Bond has become due and payable prior to the Maturity Date by reason of the occurrence of any of the events under Condition 10, or (c) any Bond is not redeemed on the Maturity Date in accordance with Condition 7(a), the Conversion Right attaching to such Bond will revive and/or will continue to be exercisable up to, and including, the close of business (at the place where the certificate evidencing such Bond is deposited for conversion) on the date upon which the full amount of the moneys payable in respect of such Bond has been duly received by the Conversion Agent or the Trustee and notice of such

receipt has been duly given to the Bondholders and notwithstanding the provisions of Condition 6(a), any Bond in respect of which the certificate and Conversion Notice are deposited for conversion prior to such date shall be converted on the relevant Conversion Date (as defined above in Condition 6(h) below) notwithstanding that the full amount of the moneys payable in respect of such Bond shall have been received by the Paying, Transfer and Conversion Agent or the Trustee before such Conversion Date or that the Conversion Period may have expired before such Conversion Date.

Notwithstanding any other provisions of these Conditions, a Bondholder exercising its Conversion Right following a Change of Control Conversion Right Amendment as described in Condition 11(b)(vi) will be deemed, for the purposes of these Conditions, to have received the Stapled Securities to be issued arising on conversion of its Bonds in the manner provided in these Conditions, and have exchanged such Stapled Securities for the consideration that it would have received therefor if it had exercised its Conversion Right in respect such Bonds at the time of the occurrence of the relevant Change of Control.

(j) *Stapled Securities*

- (i) Stapled Securities (including any Additional Stapled Securities) issued upon conversion of the Bonds will be fully paid and will in all respects rank *pari passu* with the fully paid Stapled Securities in issue on the relevant Conversion Date or, in the case of Additional Stapled Securities, on the relevant Reference Date, except in any such case for any right excluded by mandatory provisions of applicable law and except that such Stapled Securities or, as the case may be, Additional Stapled Securities will not rank for (or, as the case may be, the relevant holder shall not be entitled to receive) any rights, distributions or payments the record date or other due date for the establishment of entitlement for which falls prior to the relevant Conversion Date or, as the case may be, the relevant Reference Date.
- (ii) Save as provided in Condition 6(k), no payment or adjustment shall be made on conversion for any interest which otherwise would have accrued on the relevant Bonds since the last Interest Payment Date preceding the Conversion Date relating to such Bonds (or, if such Conversion Date falls before the first Interest Payment Date, since the Closing Date).

(k) *Interest on Conversion*

If any notice requiring the redemption of any Bonds is given pursuant to Condition 7(b) or Condition 7(c) on or after the fifteenth calendar day prior to a record date which has occurred since the last Interest Payment Date (or in the case of the first Interest Period, since the Closing Date) in respect of any Distribution payable in respect of the Stapled Securities where such notice specifies a date for redemption falling on or prior to the date which is 14 days after the Interest Payment Date next following such record date, interest shall accrue at the applicable Interest Rate on Bonds in respect of which Conversion Rights shall have been exercised and in respect of which the Conversion Date falls after such record date and on or prior to the Interest Payment Date next following such record date in respect of such Distribution, in each case from and including the preceding Interest Payment Date (or, if such Conversion Date falls before the first Interest Payment Date, from the Closing Date) to but excluding such Conversion Date. The Issuer shall pay any such interest by not later than 14 days after the relevant Conversion Date by transfer to a Euro account with a bank in a city in which banks have access to the TARGET System in accordance with instructions given by the relevant Bondholder in the relevant Conversion Notice.

(l) *Purchase or Redemption of Stapled Securities*

The Stapled Entities or any Subsidiary of the Stapled Entities may exercise such rights as it may from time to time enjoy to purchase or redeem or buy back Stapled Securities or any depositary or other receipts or certificates representing the same without the consent of the Bondholders.

(m) *No duty to Monitor*

None of the Trustee or the Agents shall be under any duty to monitor whether any event or circumstance has happened or exists which may require an adjustment to be made to the Conversion Price and none of them will be responsible or liable to the Bondholders or any other person for any loss arising from any failure by it to do so, nor shall the Trustee or any Agent be responsible or liable to the Bondholders or any other person for any determination of whether or not an adjustment to the Conversion Price is required or should be made nor as to the determination or calculation of any such adjustment.

(n) *Cash Alternative Election*

- (i) Upon exercise of Conversion Rights by a Bondholder, the Issuer may make an election (a “**Cash Alternative Election**”) by giving notice (a “**Cash Alternative Election Notice**”) to the relevant Bondholder by not later than the date (the “**Cash Election Date**”) falling three Sydney business days following the relevant Conversion Date to the address (or, if a fax number or email address is provided in the relevant Conversion Notice, that fax number or email address) specified for that purpose in the relevant Conversion Notice (with a copy to the Trustee and the Principal Paying and Conversion Agent) to satisfy the exercise of the Conversion Right in respect of the relevant Bonds by making payment, or procuring that payment is made, to the relevant Bondholder of the Cash Alternative Amount in respect of the number of Stapled Securities specified as being the Cash Settled Securities in respect of such exercise as specified in the relevant Cash Election Notice, and, where the number of Cash Settled Securities is less than the number of Reference Securities in respect of the relevant exercise of Conversion Rights, by issuing or transferring and delivering a number of Stapled Securities equal to the Reference Securities minus the Cash Settled Securities, together in any such case with any other amount payable by the Issuer to such Bondholder pursuant to these Conditions in respect of or relating to the relevant exercise of Conversion Rights, including any interest payable pursuant to Condition 6(k).

A Cash Alternative Election shall be irrevocable and shall specify the Cash Settled Securities, the Reference Securities and if relevant, the number of Stapled Securities to be issued or transferred and delivered to the relevant Bondholder in respect of the relevant exercise of Conversion Rights.

The Issuer will pay the relevant Cash Alternative Amount, together with any other amount as aforesaid, by not later than 5 TARGET Business Days following the last day of the Cash Alternative Calculation Period by transfer to a euro account with a bank in a city in which banks have access to the TARGET System in accordance with instructions contained in the relevant Conversion Notice.

- (ii) If there is a Retroactive Adjustment to the Conversion Price following the exercise of Conversion Rights by a Bondholder, in circumstances where a Cash Alternative Election is made in respect of such exercise, the Issuer shall pay to the relevant Bondholder an additional amount (the “**Additional Cash Alternative Amount**”) equal to the Market Price of such number of Stapled Securities as is equal to the number of Additional Stapled Securities that would have been required to be issued or transferred and delivered

to the relevant Bondholder had a Cash Alternative Election not been made or been in effect in respect of the relevant exercise of Conversion Rights.

The Issuer will pay the Additional Cash Alternative Amount not later than 5 TARGET Business Days following the relevant Reference Date by transfer to a euro account with a bank in a city in which banks have access to the TARGET System in accordance with instructions contained in the relevant Conversion Notice.

For the purposes of these Conditions: “**Additional Cash Alternative Amount**” has the meaning provided in Condition 6(n).

“**Cash Alternative Amount**” means an amount calculated in accordance with the following formula and which shall be payable to a Bondholder upon an exercise of a Conversion Right if a Cash Alternative Election is applicable to such exercise:

$$CAA = \sum_{n=1}^N \frac{1}{N} \times S \times P_n$$

where:

- CAA = the Cash Alternative Amount;
- S = the number of Stapled Securities equal to the Cash Settled Securities;
- P_n = the Volume Weighted Average Price of a Stapled Security on the nth dealing day of the Cash Alternative Calculation Period, translated into Euros at the Prevailing Rate on such dealing day; and
- N = 20, being the number of dealing days in the Cash Alternative Calculation Period,

provided that if any Distribution or other entitlement in respect of the Stapled Securities is announced, whether on or prior to or after the relevant Conversion Date, in circumstances where the record date or other due date for the establishment of entitlement in respect of such Distribution or other entitlement shall be on or after the relevant Conversion Date and if on any dealing day in the Cash Alternative Calculation Period the price determined as provided above is based on a price ex- Distribution or ex- any other entitlement, then the Volume Weighted Average Price on such dealing day shall be increased by an amount equal to the Fair Market Value of any such Distribution or other entitlement per Stapled Security as at the date of the first public announcement of such Distribution or entitlement (or, if that is not a dealing day, the immediately preceding dealing day), determined on a gross basis and disregarding any withholding or deduction required to be made on account of tax, and disregarding any associated tax credit.

“**Cash Alternative Calculation Period**” means the period of 20 consecutive dealing days commencing on the third dealing day following the Cash Election Date,

“**Cash Alternative Election**” has the meaning provided in Condition 6(n).

“**Cash Election Date**” has the meaning provided in Condition 6(n).

“**Cash Settled Securities**” means, in respect of an exercise of Conversion Rights by a Bondholder, such number of Stapled Securities (which shall not exceed the number of Reference Securities in respect of such exercise) as determined by the Issuer and notified to the relevant Bondholder in the relevant Cash Alternative Election Notice in accordance with Condition 6(n).

“**Market Price**” means the Volume Weighted Average Price of a Stapled Security on the relevant Reference Date, translated into Euros at the Prevailing Rate on the Reference Date, provided that if any Distribution or other entitlement in respect of the Stapled Security is announced whether on or prior to or after the relevant

Conversion Date in circumstances where the record date or other due date for the establishment of entitlement in respect of such Distribution or other entitlement shall be on or after the Conversion Date and if, on the relevant Reference Date, the Volume Weighted Average Price of an Stapled Security is based on a price ex- Distribution or ex- any other entitlement, then such price shall be increased by an amount equal to the Fair Market Value of such Distribution or entitlement per Stapled Security as at the date of first public announcement of such Distribution or entitlement (or if that is not a dealing day, the immediately preceding dealing day, determined on a gross basis and disregarding any withholding or deduction required to be made for or on account of tax, and disregarding any associated tax credit).

“**Reference Securities**” means, in respect of the exercise of Conversion Rights by a Bondholder, the number of Stapled Securities (rounded down, if necessary, to the nearest whole number) determined by dividing the principal amount of the Bonds the subject of the relevant exercise of Conversion Rights by the Conversion Price in effect on the relevant Conversion Date.

None of the Trustee or the Agents shall be responsible or liable to the Bondholders or any other person for the calculation or verification of any Cash Alternative Amount or Additional Cash Alternative Amount or any other amount to be paid or calculation or determination to be made under this Condition 6(n).

7 Redemption and Purchase

(a) *Final Redemption*

Unless previously purchased and cancelled, redeemed or converted as herein provided, the Bonds will be redeemed at their principal amount on the Final Maturity Date. The Bonds may only be redeemed at the option of the Issuer prior to the Final Maturity Date in accordance with Condition 7(b) or Condition 7(c).

(b) *Redemption at the Option of the Issuer*

Subject as provided in Condition 7(d) on giving not less than 30 nor more than 60 days' notice (an “**Optional Redemption Notice**”) to the Trustee in writing and to the Bondholders (which notice shall be irrevocable) in accordance with Condition 17, the Issuer may redeem all but not some only of the Bonds on the date (the “**Optional Redemption Date**”) specified in the Optional Redemption Notice at their principal amount, together with accrued but unpaid interest to but excluding such date:

(c) *Redemption for Taxation Reasons*

Subject as provided in Condition 7(d) at any time the Issuer may, having given not less than 30 nor more than 60 days' notice (a “**Tax Redemption Notice**”) to the Bondholders (which notice shall be

Prior to the publication of any notice of redemption pursuant to this Condition 7(c), the Issuer shall deliver to the Trustee (a) a certificate signed by two directors of the Issuer or, as the case may be, the relevant Guarantor stating that the obligation referred to in (i) above of this Condition 7(c) cannot be avoided by the Issuer or, as the case may be, the relevant Guarantor taking reasonable measures available to it and (b) an opinion of independent legal or tax advisers of recognised international standing to the effect that such change or amendment has occurred and that the Issuer or, as the case may be, the relevant Guarantor has or will be obliged to pay such additional amounts as a result thereof (irrespective of whether such amendment or change is then effective) and the Trustee shall accept without any liability for so doing such certificate and opinion as sufficient evidence of the matters set out in (i) and (ii) above of this Condition 7(c) which shall be conclusive and binding on the Bondholders.

Upon the expiry of a Tax Redemption Notice, the Issuer shall (subject to the next following paragraph of this Condition 7(c)) redeem the Bonds at their principal amount, together with accrued interest to such date.

If the Issuer gives a Tax Redemption Notice, each Bondholder will have the right to elect that his Bond(s) shall not be redeemed and that the provisions of Condition 9 shall not apply in respect of any payment of interest to be made on such Bond(s) which falls due after the relevant Tax Redemption Date whereupon no additional amounts shall be payable in respect thereof pursuant to Condition 9 and payment of all amounts of interest on such Bonds shall be made subject to the deduction or withholding of the taxation required to be withheld or deducted by the Commonwealth of Australia or any political subdivision or any authority thereof or therein having power to tax. To exercise such right, the holder of the relevant Bond must complete, sign and deposit at the specified office of any Paying Agent a duly completed and signed notice of election, in the form for the time being current, obtainable from the specified office of any Paying Agent together with the relevant Bonds on or before the day falling 10 days prior to the Tax Redemption Date.

“**Offer Period**” has the meaning given to it in the Corporations Act and, in addition, also includes (i) any period commencing on the date of first public announcement of an offer or tender (howsoever described) by any person or persons in respect of all or a majority of the issued and outstanding Stapled Securities and ending on the date that offer ceases to be open for acceptance or, if earlier, on which that offer lapses, terminates or (ii) any period commencing on the date of first public announcement of a Scheme of Arrangement relating to the acquisition of all or a majority of the issued and outstanding Stapled Securities and ending on the date such Scheme of Arrangement is or becomes effective or, if earlier, the date such Scheme of Arrangement is cancelled or terminated.

The “**Change of Control Put Date**” shall be the 14th TARGET Business Day after the expiry of the Change of Control Period.

Within 14 calendar days following the occurrence of a Delisting, the Issuer shall give notice thereof to the Trustee in writing and to the Bondholders in accordance with Condition 17 (a “**Delisting Notice**”). Such notice shall contain a statement informing Bondholders of their entitlement to exercise their Delisting Put Right as provided in these Conditions and their entitlement to require the Issuer to redeem their Bonds as provided in this Condition 7(e)(ii).

- (V) such other information relating to the Delisting as the Trustee may require.

The Trustee shall not be required to take any steps to ascertain whether a Delisting or any event which could lead to a Delisting has occurred or may occur and will not be responsible to Bondholders or any other person for any loss arising from any failure by it to do so.

To exercise such right, the holder of the relevant Bond must, at any time in the period (the “**Delisting Period**”) commencing on the occurrence of the Delisting and ending 30 calendar days following the Delisting or, if later, 30 calendar days following the date on which a Delisting Notice is given, deliver a duly completed and signed notice of exercise, in the form for the time being current, obtainable from the specified office of any Paying Agent (a “**Delisting Put Exercise Notice**”) to the specified office of any Paying Agent. The “**Delisting Put Date**” shall be the 14th TARGET Business Day after the expiry of the Delisting Period.

Payment in respect of any such Bond shall be made by transfer to a Euro account with a bank in a city in which banks have access to the TARGET System as specified by the relevant Bondholder in the Delisting Put Exercise Notice.

In the event that any such withholding or deduction is required to be made, the Issuer or, as the case may be, the relevant Guarantor will make any such withholding or deduction required (including any deduction or withholding required from any additional amount payable under this Condition 9), remit the amount deducted or withheld to the relevant authorities and will pay such additional amounts as will result in the receipt by the Bondholders of the amounts which would otherwise have been receivable had no such withholding or deduction been required, except that no such additional amount shall be payable in respect of any Bond:

- (a) to a holder (or to a third party on behalf of a holder) who is subject to such taxes, duties, assessments or governmental charges in respect of such Bond by reason of his having some connection with the Commonwealth of Australia otherwise than merely by holding the Bond or by receiving amounts in respect of the Bond; or
- (b) if the deduction is required as a result of taxes which would not be required to be deducted by the Issuer (or the person making a payment on its behalf) if the relevant beneficial owner of the Bond complied with a request of the Issuer, its agent or any tax authority to provide their name, address, registration number or similar details or any relevant tax exemption or similar details or to ensure that any third party complied with any other statutory requirements (such as making a declaration of non-residence or similar claim) for any relevant tax exemption; or
- (c) (in the case of a payment on redemption) if the Bond is surrendered more than 30 days after the Relevant Date, or in any case if the relevant Bondholder does not provide the necessary account details for payment in accordance with these Conditions within 24 days after the Relevant Date, except to the extent that the holder would have been entitled to such additional amount had the Issuer or the relevant Guarantor been obliged, following the surrender of the Bond (in the case of payment on redemption) and provision of the necessary account details for payment in accordance with these Conditions, to make the payment on the last day of the period of 30 days following the Relevant Date; or

- (d) where such withholding or deduction is imposed on a payment to an individual and is required to be made pursuant to European Council Directive 2003/48/EC on the taxation of savings income, or any other Directive implementing the conclusions of the ECOFIN Council meeting of 26-27 November 2000 on the taxation of savings income or any law implementing or complying with, or introduced in order to conform to, such Directive; or

 - (vi) by the issue of fully paid Stapled Securities to Stapled Securityholders in accordance with the DRP; or
 - (vii) by the issue of Stapled Securities or any equity capital to, or for the benefit of, any employee or contractor or former employee or contractor (including Directors or the personal service company of any such person) or their spouses or relatives, in each case, of the Stapled Entities or any of their Subsidiaries or any associated company or to trustees to be held for the benefit of any such person, in any such case pursuant to an employees' security or option scheme whether for all employees, directors, or executives or any one or more of them,

unless, in any such case, the same constitutes a Distribution or otherwise falls to be taken into account for a determination as to whether an adjustment is to be made to the Conversion Price pursuant to Condition 6(b), regardless of whether in fact an adjustment falls to be made in respect of the relevant capitalisation, gives rise (or would, but for the provisions of Condition 6(f) relating to roundings and minimum adjustments or the carry forward of adjustments, give rise) to an adjustment to the Conversion Price. For the avoidance of doubt, this Condition 11(a) shall not prevent or restrict the Stapled Entities from issuing or paying up any Stapled Securities in any manner that does not involve the capitalisation of profits or reserves; or

- (b) not modify the rights attaching to the Stapled Securities with respect to voting, distribution or liquidation nor issue any other class of equity capital carrying any rights which are more favourable than the rights attaching to the Stapled Securities but so that nothing in this Condition 11(b) shall prevent:
 - (i) any consolidation, reclassification, redesignation or subdivision of the Stapled Securities; or

- (ii) any modification of such rights which is not, in the opinion of a Financial Adviser, materially prejudicial to the interests of the holders of the Bonds; or
 - (iii) any issue of equity capital where the issue of such equity capital results, or would, but for the provisions of Condition 6(f) relating to the roundings or carry forward of adjustments or, where comprising Stapled Securities, the fact that the consideration per Stapled Security receivable therefor is at least 95 per cent. of the Current Market Price per Stapled Security at the relevant time for determination thereof pursuant to the relevant provisions of Condition 6(b), otherwise result, in an adjustment to the Conversion Price; or
 - (iv) any issue of equity capital or modification of rights attaching to the Stapled Securities, where prior thereto the Issuer and any Guarantor shall have instructed a Financial Adviser to determine what (if any) adjustments should be made to the Conversion Price as being fair and reasonable to take account thereof and such Financial Adviser shall have determined either that no adjustment is required or that an adjustment resulting in a decrease in the Conversion Price is required and, if so, the new Conversion Price as a result thereof and the basis upon which such adjustment is to be made and, in any such case, the date on which the adjustment shall take effect (and so that the adjustment shall be made and shall take effect accordingly);
 - (v) any alteration to the constitutional documentation of the Stapled Entities made in connection with the matters described in this Condition 11 or which is supplemental or incidental to any of the foregoing (including any amendment made to enable or facilitate procedures relating to such matters and any amendment dealing with the rights and obligations of holders of Securities, including Stapled Securities, dealt with under such procedures); or
 - (vi) any amendment of the constitutional documents of the Stapled Entities following or in connection with a Change of Control to ensure that any Bondholder exercising Conversion Rights where the Conversion Date falls on or after the occurrence of a Change of Control will receive, in whatever manner, the same consideration for the Stapled Securities arising on such exercise as it would have received in respect of such Stapled Securities had such Stapled Securities been entitled to participate in the relevant Scheme of Arrangement or to have been submitted into, and accepted pursuant to, the relevant offer (a **“Change of Control Conversion Right Amendment”**);
- (c) procure that no Securities (whether issued by the Issuer, any Guarantor or any of their respective Subsidiaries or procured by the Issuer, any Guarantor or any of their respective Subsidiaries to be issued or issued by any other person pursuant to any arrangement with the Issuer, any Guarantor or any of their respective Subsidiaries) issued without rights to convert into, or exchange or subscribe for, Stapled Securities shall subsequently be granted such rights exercisable at a consideration per Stapled Security which is less than 95 per cent. of the Current Market Price per Stapled Security at the relevant time for determination thereof pursuant to the relevant provisions of Condition 6(b) unless the same gives rise (or would, but for the provisions of Condition 6(f) relating to roundings and minimum adjustments or the carry forward of adjustments, give rise) to an adjustment to the Conversion Price and that at no time shall there be in issue Stapled Securities of differing nominal values, save where such Stapled Securities have the same economic rights;
- (d) not make any issue, grant or distribution or to take or omit to take any other action taken if the effect thereof would be that, on the exercise of Conversion Rights, Stapled Securities could not, under any applicable law then in effect, be legally issued as fully paid;
- (e) not reduce its issued capital, or any uncalled liability in respect thereof, or any non-distributable reserves, except:

- (i) pursuant to the terms of issue of the relevant issued capital; or
- (ii) by means of a purchase or redemption of issued capital of the Stapled Entities to the extent permitted by applicable law; or
- (iii) where the reduction does not involve any distribution of assets to Stapled Securityholders; or
- (iv) solely in relation to a change in the currency in which the nominal value of the Stapled Securities is expressed; or
- (v) to create distributable reserves; or
- (vi) pursuant to a Scheme of Arrangement involving a reduction and cancellation of Stapled Securities and the issue to Stapled Securityholders of an equal number of Stapled Securities by way of capitalisation of profits or reserves; or
- (vii) pursuant to a Newco Scheme; or
- (viii) by way of transfer to reserves as permitted under applicable law; or
- (ix) where the reduction is permitted by applicable law and the Trustee is advised by a Financial Adviser, acting as an expert, that the interests of the Bondholders will not be materially prejudiced by such reduction; or
- (x) where the reduction is permitted by applicable law and results in (or would, but for the provisions of Condition 6(f) relating to roundings or the carry forward of adjustments, result in) an adjustment to the Conversion Price or is otherwise taken into account for the purposes of determining whether such an adjustment should be made,

provided that, without prejudice to the other provisions of these Conditions, the Stapled Entities may exercise such rights as it may from time to time be entitled pursuant to applicable law to purchase, redeem or buy back its Stapled Securities and any depositary or other receipts or certificates representing Stapled Securities without the consent of Bondholders;

- (f) if any offer is made to all (or as nearly as may be practicable all) Stapled Securityholders (or all (or as nearly as may be practicable all) Stapled Securityholders other than the offeror and/or any associate (as defined in Section 11 of the Corporations Act)) to acquire the whole or any part of the issued Stapled Securities, or if any person proposes a scheme with regard to such acquisition (other than a Newco Scheme), give notice of such offer or scheme to the Trustee and the Bondholders at the same time as any notice thereof is sent to the Stapled Securityholders (or as soon as practicable thereafter) that details concerning such offer or scheme may be obtained from the specified offices of the Conversion Agents and, where such an offer or scheme has been recommended by the boards of directors of the Stapled Entities, or where such an offer has become or been declared unconditional in all respects or each scheme has become effective, use all reasonable endeavours to procure that a Change of Control Conversion Right Amendment shall be made or such other arrangements are made for the Bondholders and the holders of any Stapled Securities issued during the period of the offer or scheme arising out of the exercise of the Conversion Rights by the Bondholders which entitle Bondholders to receive the same type and amount of consideration they would have received had they held the number of Stapled Securities to which such Bondholders would be entitled assuming Bondholders were to exercise his Conversion Rights in the relevant Change of Control Period;
- (g) in the event of a Newco Scheme, take (or shall procure that there is taken) all necessary action to ensure that immediately after completion of the Scheme of Arrangement, at its option, either (a) Newco is substituted under the Bonds and the Trust Deed as principal obligor in place of the Issuer (with the Issuer providing a guarantee) subject to and as provided in the Trust Deed; or (b) Newco

becomes a guarantor under the Bonds and the Trust Deed and, in either case, that (i) such amendments are made to these Conditions and the Trust Deed as are necessary, in the opinion of the Trustee, to ensure that the Bonds may be converted into or exchanged for ordinary shares or units or the equivalent in Newco *mutatis mutandis* in accordance with and subject to these Conditions and the Trust Deed and (ii) the ordinary shares or units or the equivalent of Newco are:

- (A) admitted to the Relevant Exchange; or
 - (B) admitted to listing on another regulated, regularly operating, recognised stock exchange or securities market.
- (h) use its best endeavours to ensure that the Stapled Securities issued upon exercise of Conversion Rights will, as soon as is practicable, be admitted to listing and to trading on the Relevant Stock Exchange and will be listed, quoted or dealt in, as soon as is practicable, on any other stock exchange or securities market on which the Stapled Securities may then be listed or quoted or dealt in (but so that this undertaking shall be considered as not being breached as a result of a Change of Control (whether or not recommended or approved by the Board of Directors of the Stapled Entities) that causes or gives rise to, whether following the operation of any applicable compulsory acquisition provision or otherwise, (including at the request of the person or persons controlling the Stapled Entities as a result of the Change of Control) a de-listing of the Stapled Securities);
- (i) for so long as any Bond remains outstanding, use all reasonable endeavours to ensure that its issued and outstanding Stapled Securities shall be admitted to listing on the Relevant Stock Exchange (but so that this undertaking shall be considered as not being breached as a result of a Change of Control (whether or not recommended or approved by the Board of Directors of the Stapled Entities) that causes or gives rise to, whether following the operation of any applicable compulsory acquisition provision or otherwise, (including at the request of the person or persons controlling the Stapled Entities as a result of the Change of Control) a de-listing of the Stapled Securities); and
- (j) not change the jurisdiction in which it is domiciled or resident or to whose taxing authority it is subject generally unless it would not thereafter be required pursuant to then current laws and regulations to withhold or deduct for or on account of any present or future taxes, duties, assessments or governmental charges of whatever nature imposed or levied by or on behalf of such jurisdiction or any political subdivision thereof or therein having power to tax in respect of any payment on or in respect of the Bonds;
- (k) if there is a change in the Relevant Stock Exchange, notify the Trustee in writing and the Bondholders in accordance with Condition 17 by not later than seven days prior to the change in the Relevant Stock Exchange.

Each of the Stapled Entities has undertaken in the Trust Deed to deliver to the Trustee annually a certificate of each of the Stapled Entities, as to there not having occurred an Event of Default or Potential Event of Default since the date of the last such certificate or if such event has occurred as to the details of such event. The Trustee will be entitled to rely on such certificate and shall not be obliged to independently monitor compliance by the Stapled Entities with the undertakings set forth in this Condition 11, nor be liable to any person for not so doing.

12 Prescription

Claims against the Issuer for payment in respect of the Bonds shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of such payment.

Claims in respect of any other amounts payable in respect of the Bonds shall be prescribed and become void unless made within 10 years following the due date for payment thereof.

13 Replacement of Bonds

If any Bond is lost, stolen, mutilated, defaced or destroyed, it may be replaced at the specified office of any Paying, Transfer and Conversion Agent subject to all applicable laws and stock exchange requirements, upon payment by the claimant of the expenses incurred in connection with such replacement and on such terms as to evidence and indemnity as the Issuer may require. Mutilated or defaced Bonds must be surrendered before replacements will be issued.

14 Meetings of Bondholders, Modification and Waiver, Substitution

(a) Meetings of Bondholders

The Trust Deed contains provisions for convening meetings of Bondholders to consider matters affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of these Conditions or any provisions of the Trust Deed. Such a meeting may be convened by the Issuer or the Trustee and shall be convened by the Trustee if requested in writing by Bondholders holding not less than 10 per cent. in principal amount of the Bonds for the time being outstanding and subject to it being indemnified and/or secured and/or prefunded to its satisfaction against all costs and expenses. The quorum for any meeting convened to consider an Extraordinary Resolution will be one or more persons holding or representing more than 50 per cent. in principal amount of the Bonds for the time being outstanding, or at any adjourned meeting one or more persons being or representing Bondholders whatever the principal amount of the Bonds so held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, (i) to change the Final Maturity Date or the dates on which interest is payable in respect of the Bonds, (ii) to modify the circumstances in which the Issuer or Bondholders are entitled to redeem the Bonds pursuant to Conditions 7(b), 7(c) or 7(e) (other than removing the right of the Issuer to redeem the Bonds pursuant to Conditions 7(b) or 7(c)), (iii) to reduce or cancel the principal amount of, or interest on, the Bonds or to reduce the amount payable on redemption of the Bonds, (iv) to modify the basis for calculating the interest payable in respect of the Bonds, (v) to modify the provisions relating to, or cancel, the Conversion Rights (other than pursuant to or as a result of any amendments to these Conditions and the Trust Deed made pursuant to and in accordance with the provisions of Condition 11(g) (“**Newco Scheme Modification**”), and other than a reduction to the Conversion Price), (vi) to increase the Conversion Price (other than in accordance with these Conditions or pursuant to a Newco Scheme Modification), (vii) to change the currency of the denomination of the Bonds or of any payment in respect of the Bonds, (viii) to change the governing law of the Bonds, the Trust Deed or the Agency Agreement (other than in the case of a substitution of the Issuer (or any previous substitute or substitutes) under Condition 14(c)), or (ix) to modify the provisions concerning the quorum required at any meeting of Bondholders or the majority required to pass an Extraordinary Resolution, in which case the necessary quorum will be one or more persons holding or representing not less than 66 per cent., or at any adjourned meeting not less than 33 per cent., in principal amount of the Bonds for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on Bondholders (whether or not they were present at the meeting at which such resolution was passed). An Extraordinary Resolution is a resolution in respect of which not less than 75 per cent. of the votes cast shall have been in favour at a meeting of Bondholders duly convened and held in accordance with the Trust Deed.

The Trust Deed provides that (i) a resolution in writing signed by or on behalf of the holders of not less than 75 per cent. of the aggregate principal amount of Bonds for the time being outstanding (which may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Bondholders) or (ii) consents given by way of electronic consent through the relevant clearing system(s) (in a form satisfactory to the Trustee) by or on behalf of the

holders of not less than 75 per cent. of the aggregate principal amount of the Bonds for the time being outstanding, shall, in any such case, be effective as an Extraordinary Resolution passed at a meeting of Bondholders duly convened and held.

No consent or approval of Bondholders shall be required in connection with any Newco Scheme Modification.

(b) *Modification and Waiver*

The Trustee may (but shall not be obliged to) agree, without the consent of the Bondholders, to (i) any modification of any of the provisions of the Trust Deed, any trust deed supplemental to the Trust Deed, the Agency Agreement, any agreement supplemental to the Agency Agreement, the Bonds or these Conditions which in the Trustee's opinion is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of law and (ii) any other modification to the Trust Deed, any trust deed supplemental to the Trust Deed, the Agency Agreement, any agreement supplemental to the Agency Agreement, the Bonds or these Conditions (except as mentioned in the Trust Deed) and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Trust Deed, any trust deed supplemental to the Trust Deed, the Agency Agreement, any agreement supplemental to the Agency Agreement, the Bond or these Conditions which is, in the opinion of the Trustee, not materially prejudicial to the interests of the Bondholders. The Trustee may (but shall not be obliged to), without the consent of the Bondholders, determine any Event of Default or a Potential Event of Default should not be treated as such, provided that in the opinion of the Trustee, the interests of Bondholders will not be materially prejudiced thereby. Any such modification, authorisation or waiver shall be binding on the Bondholders and, unless the Trustee otherwise agrees, such modification shall be notified by the Issuer to the Bondholders promptly in accordance with Condition 17.

(c) *Substitution*

The Trustee may (but shall not be obliged to), without the consent of the Bondholders, agree with the Issuer and each Guarantor to the substitution in place of the Issuer (or any previous substitute or substitutes under this Condition 14(c)) as the principal debtor under the Bonds and the Trust Deed of any Subsidiary of the Issuer subject to (i) the Bonds being unconditionally and irrevocably guaranteed by each Guarantor and (ii) the Bonds continuing to be convertible or exchangeable into Stapled Securities as provided in these Conditions *mutatis mutandis* as provided in these Conditions, with such amendments as the Trustee shall consider appropriate, provided that in any such case, (x) the Trustee is satisfied that the interests of the Bondholders will not be materially prejudiced by the substitution and (y) certain other conditions set out in the Trust Deed are complied with. Any such substitution shall be binding on the Bondholders and shall be notified promptly to the Bondholders.

(d) *Entitlement of the Trustee*

In connection with the exercise of its functions, rights, powers and discretions (including but not limited to those referred to in this Condition 14) the Trustee shall have regard to the interests of the Bondholders as a class but shall not have regard to any interests arising from circumstances particular to individual Bondholders (whatever their number) and, in particular but without limitation, shall not have regard to the consequences of the exercise of its trusts, powers or discretions for individual Bondholders resulting from their being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory and the Trustee shall not be entitled to require, nor shall any Bondholder be entitled to claim, from the Issuer, the Trustee or any other person any indemnification or payment in respect of any tax consequence of any such exercise upon individual Bondholders.

15 Enforcement

The Trustee may at any time, at its discretion and without notice, take such proceedings against the Issuer and/or any Guarantor as it may think fit to enforce the provisions of the Trust Deed and the Bonds, but it shall not be bound to take any such proceedings or any other action in relation to the Trust Deed or the Bonds unless (i) it shall have been so directed by an Extraordinary Resolution of the Bondholders or so requested in writing by the holders of at least 25 per cent. in principal amount of the Bonds then outstanding and (ii) it shall have been indemnified and/or secured and/or prefunded to its satisfaction. No Bondholder shall be entitled to proceed directly against the Issuer and/or any Guarantor unless the Trustee, having become bound so to proceed, fails so to do within a reasonable period and the failure shall be continuing.

16 The Trustee

The Trust Deed contains provisions for the indemnification of the Trustee and for its relief from responsibility, including relieving it from taking any action or proceedings unless indemnified and/or secured and/or prefunded to its satisfaction. The Trustee is entitled to enter into business transactions with the Issuer and/or any Guarantor and/or any entity related to the Issuer or any Guarantor without accounting for any profit. The Trustee may rely without liability to Bondholders on any report, confirmation, information or certificate from or any advice or opinion of any accountants (including the Auditors), financial advisers, investment bank or other experts or advisers, whether or not addressed to it and whether their liability in relation thereto is limited (by its terms or by any engagement letter relating thereto entered into by the Trustee or any other person or in any other manner) by reference to a monetary cap, methodology or otherwise. The Trustee may accept and be entitled to rely on any such report, confirmation, information, certificate, advice or opinion, in which event such report, confirmation, information, certificate, advice or opinion shall be binding on the Issuer, each Guarantor and the Bondholders in the absence of manifest error.

17 Notices

All notices regarding the Bonds will be valid if published in a leading daily newspaper having circulation in Asia (which is expected to be the *Asian Wall Street Journal*) or, if this is not possible, in one other leading English language newspaper with general circulation in Asia. The Issuer shall also ensure that all notices are duly published in a manner which complies with the rules and regulations of any stock exchange or other relevant authority on which the Bonds are for the time being listed. Any such notice shall be deemed to have been given on the date of such publication or, if required to be published in more than one newspaper or in more than one manner, on the date of the first such publication in all the required newspapers or in each required manner. If publication as provided above is not practicable, notice will be given in such other manner, and shall be deemed to have been given on such date, as the Trustee may approve.

So long as the Bonds are represented by a Global Certificate and such Global Certificate is held on behalf of a clearing system, notices to Bondholders may be given by delivery of the relevant notice to such clearing system for communication by them to their respective accountholders instead of in accordance with Condition 17.

18 Further Issues

The Issuer may from time to time without the consent of the Bondholders create and issue further notes, bonds or debentures either having the same terms and conditions in all respects as the outstanding notes, bonds or debentures of any series (including the Bonds) or in all respects except for the first payment of interest on them and the first date on which Conversion Rights may be exercised and so that such further issue shall be consolidated and form a single series with the outstanding notes, bonds or debentures of any series (including the Bonds) or upon such terms as to interest, conversion, premium, redemption and otherwise as the Issuer may determine at the time of their issue. Any Further Bonds consolidated and forming a single series with the outstanding notes, bonds or debentures of any series (including the Bonds) constituted by the Trust Deed or any

deed supplemental to it shall, and any other notes, bonds or debentures may, with the consent of the Trustee, be constituted by a deed supplemental to the Trust Deed. The Trust Deed contains provisions for convening a single meeting of the Bondholders and the holders of notes, bonds or debentures of other series in certain circumstances where the Trustee so decides.

19 Contracts (Rights of Third Parties) Act 1999

No person shall have any right to enforce any term or condition of the Bonds under the Contracts (Rights of Third Parties) Act 1999 (United Kingdom).

20 Governing Law and Jurisdiction

(a) Governing Law

The Trust Deed, the Agency Agreement, the Bonds and any non-contractual obligations arising out of or in connection with the Trust Deed, the Agency Agreement and the Bonds are governed by, and shall be construed in accordance with, English law.

(b) Jurisdiction

The courts of England are to have jurisdiction to settle any disputes which may arise out of or in connection with the Trust Deed or the Bonds (including a dispute relating to any non-contractual obligations arising out of or in connection with the Trust Deed or the Bonds) and accordingly any legal action or proceedings arising out of or in connection with the Trust Deed or the Bonds (including any action or proceedings relating to any non-contractual obligations arising out of or in connection with the Trust Deed or the Bonds) (“**Proceedings**”) may be brought in such courts. Each of the Issuer and each Guarantor has in the Trust Deed irrevocably submitted to the jurisdiction of such courts and has waived any objection to Proceedings in such courts whether on the ground of venue or on the ground that the Proceedings have been brought in an inconvenient forum. This submission is made for the benefit of the Trustee and each of the Bondholders and shall not limit the right of any of them to take Proceedings in any other court of competent jurisdiction nor shall the taking of Proceedings in one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not).

(c) Agent for Service of Process

Each of the Issuer and each Guarantor has irrevocably appointed Minter Ellison at its registered office for the time being, currently at 10 Dominion Street, London EC2M 2EE as its agent in England to receive service of process in any Proceedings in England. Nothing herein or in the Trust Deed shall affect the right to serve process in any other manner permitted by law.

21 Limitation of liability

- (a)* The RE has entered into the Transaction Documents in its capacity as the responsible entity for CDPT and in no other capacity, and the parties (other than the RE) acknowledge that any obligations the RE incurs under the Transaction Documents are incurred by it solely in that capacity.
- (b)* The RE will not be liable to pay or satisfy any obligations under the Transaction Documents, and the parties (other than the RE) will not be entitled to enforce their rights against the RE except to the extent to which it is indemnified out of the assets of CDPT in respect of any liability incurred by it.

- (c) This limitation of liability applies despite any other provision of the Transaction Documents and extends to all liabilities and obligations of the RE in any way connected with any representation, warranty, conduct, omission, agreement or transaction related to the Transaction Documents.
- (d) The parties (other than the RE) must not sue the RE in any capacity other than as the responsible entity of CDPT, including seeking the appointment of a receiver (except in relation to property of CDPT), a liquidator, an administrator or any similar person to the entity or prove in any liquidation, administration or arrangement of or affecting the RE (except in relation to property of CDPT).
- (e) The provisions of this Condition 21 will not apply to any obligation or liability of the RE to the extent that it is not satisfied because the RE's right of indemnification from the responsible entity of the CDPT or the assets of the CDPT has been reduced or lost as a result of the RE's fraud, negligence or breach of trust.
- (f) The RE is not obliged to do or refrain from doing anything under this document (including incur any liability) unless its liability is limited in the same manner as set out in this Condition 21.

PROVISIONS RELATING TO THE BONDS REPRESENTED BY THE GLOBAL CERTIFICATE

This section summarises the provisions relating to the Bonds while represented by the Global Certificate.

Initial issue of Bonds

Upon the initial registration of the Bonds in the name of a nominee of, and delivery of the Global Certificate to, a common depository for Euroclear and Clearstream, Luxembourg (the "**Common Depository**"), Euroclear or Clearstream, Luxembourg will credit each subscriber with a nominal amount of Bonds equal to the nominal amount thereof for which it has subscribed and paid.

Relationship of accountholders with clearing systems

For so long as any of the Bonds are represented by the Global Certificate and such Global Certificate is held on behalf of Euroclear and/or Clearstream, Luxembourg, each person who is for the time being shown in the records of Euroclear and Clearstream, Luxembourg as the holder of a particular principal amount of such Bonds (each an "**Accountholder**") shall be treated as the holder of such principal amount of such Bonds for all purposes (including for the purposes of any quorum requirements of, or in the right to demand a poll at, meetings of the Bondholders) other than with respect to payment of principal and other amounts due on such Bonds and in respect of all rights relating to conversion of the Bonds, the rights to which shall be vested, as against the Issuer and the Trustee, solely in the holder of the Global Certificate in accordance with and subject to its terms and the terms of the Trust Deed. Each Accountholder must look solely to Euroclear or Clearstream, Luxembourg, as the case may be, for its share of each payment made to the holder of the Global Certificate.

Exchange

The Global Certificate will be exchangeable in whole but not in part (free of charge to the holder of the Global Certificate and the Bondholders) for definitive Bonds following the occurrence of an Exchange Event. An Exchange Event shall have occurred if Euroclear or Clearstream, Luxembourg (or any alternative successor clearing system on behalf of which the Global Certificate may be held) is closed for business for a continuous period of 14 days or more (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so and no alternative clearing system satisfactory to the Trustee is available.

In the circumstances set out above, any individual Certificates issued in exchange for beneficial interests in the Global Certificate will, by not later than the Global Exchange Date, be issued to and, subject to the provision of the instruction referred to below, delivered to such persons and registered in such name or names, as the case may be, as the holder of the Global Certificate shall instruct the Registrar.

“Global Exchange Date” means a day falling not later than 30 days after that on which the notice requiring exchange is given and on which banks are open for business in the city in which the specified office of the Registrar is located.

Conversion rights

Subject to the requirements of Euroclear and Clearstream, Luxembourg, (or any Alternative Clearing System (as defined in the Trust Deed)), the Conversion Rights attaching to the Bonds represented by the Global Certificate may only be exercised by the presentation of one or more Conversion Notices (as defined in the Conditions) duly completed by or on behalf of the accountholders with Euroclear and/or Clearstream, Luxembourg to whose accounts with those clearing systems such Bonds are credited together with the Global Certificate to any Conversion Agent (as defined in the Trust Deed) (or such other Conversion Agent as shall have been notified to the holder of the Global Certificate for such purpose) for annotation and the principal amount of the Bonds will be reduced in the Register (as defined in the Conditions) accordingly. A Conversion Notice may not specify Euroclear or Clearstream, Luxembourg, or the common depository who holds the Bonds on their behalf, as the person to whom Stapled Securities are to be issued, pursuant to such Conversion Notice.

Redemption at the option of the Issuer

The options of the Issuer provided for in Condition 7(b) of the Conditions shall be exercised by the Issuer giving notice to the Trustee in writing and the Bondholders within the time limits set out in that Condition.

Redemption for taxation reasons

The option of the Issuer provided for in Condition 7(c) of the Conditions may be exercised by the Issuer giving notice to the Bondholders within the time limits set out in Condition 7(c) of the Conditions.

The option of the Bondholders to elect for their Bonds not to be redeemed for taxation reasons (and instead for tax to be deducted from their payments) provided for in Condition 7(c) may be exercised by Bondholders giving notice to any other Paying Agent (as defined in the Trust Deed) within the time limits relating to the redemption of Bonds in Condition 7(c). Such notice of election shall be obtainable from the specified office of any Agent and shall state the number of Bonds in respect of which the option is exercised.

Redemption at the option of the Bondholders – Change of Control

The option of the Bondholders provided for in Condition 7(e)(i) of the Conditions may be exercised by the Bondholders by giving a written notice of exercise to any Paying Agent within the time limits relating to the redemption of Bonds in Condition 7(e)(i).

Redemption at the option of the Bondholders – Delisting or suspension of Stapled Securities

The option of the Bondholders provided for in Condition 7(e)(ii) of the Conditions shall be exercised by the Bondholder giving a written notice of exercise to any Paying Agent within the time limits set out in that Condition.

Trustee's powers

In considering the interests of Bondholders while the Global Certificate is held on behalf of Euroclear and Clearstream, Luxembourg (or any Alternative Clearing System) the Trustee

may, to the extent it considers it appropriate to do so, but shall not be obliged to, have regard to any information provided to it by such clearing system or its operator or a participant in such system as to the identity (either individually or by category) of its Accountholders with entitlements to the Global Certificate (or an interest in respect thereof) and may consider such interests as if such accountholders were the holder of the Global Certificate.

Enforcement

For the purposes of enforcement of the provisions of the Trust Deed against the Trustee, the persons named in a certificate of the holder of the Bonds represented by the Global Certificate shall be recognised as the beneficiaries of the trusts set out in the Trust Deed to the extent of the principal amount of their interest in the Bonds set out in the certificate of the holder as if they were themselves the holders of Bonds in such principal amounts.

Payments

Payments of principal, interest and premium (if any) in respect of Bonds represented by the Global Certificate will be made against presentation and endorsement and, if no further payment falls to be made in respect of the Bonds, surrender of the Global Certificate to, or to the order of, the Registrar or the Principal Paying, Transfer and Conversion Agent or such other Paying Agent as shall have been notified to the holder of the Global Certificate for such purpose. A record of each payment will be endorsed on the appropriate schedule to the Global Certificate. Such endorsement will be conclusive evidence that such payment has been made in respect of the Bonds.

Each payment will be made to, or to the order of, the person whose name is entered in the Register at the close of business on the Clearing System Business Day immediately prior to the date for payment (such day to be deemed to be, for the purpose of the Conditions, the Interest Record Date), where “**Clearing System Business Day**” means Monday to Friday inclusive except 25 December and 1 January.

Notices

So long as Bonds are represented by the Global Certificate and the Global Certificate is held on behalf of Euroclear, Clearstream, Luxembourg or an Alternative Clearing System, notices to the holders of such Bonds represented by the Global Certificate may be given by delivery of the relevant notice to the relevant clearing system for communication by it to entitled accountholders, in substitution for notification, as required by the Conditions and such notice will be deemed to have been given on the day after delivery thereof except that so long as the Bonds are listed on the SGX-ST and the rules of the SGX-ST so require, notices shall also be published in a leading daily newspaper having general circulation in Singapore (and, in the event that the Bonds are listed on any other stock exchange, notices shall be published in accordance with the rules of such stock exchange).

Prescription

Claims in respect of principal, interest and other sums payable in respect of the Bonds will become prescribed unless made within 10 years (in the case of principal) and five years (in the case of interest and other sums) from the date upon which such payments become due. None of the Trustee or any Agent shall have any responsibility, obligation or liability with respect to any Bondholder for any amounts so prescribed.

Redemption or Purchase and Cancellation

Cancellation of any Bond required by the Conditions following its redemption, purchase and cancellation or the exercise of Conversion Rights will be effected by reduction in the principal amount of the Bonds in the Register and endorsement by or on behalf of the Registrar or the Transfer Agent on the Global Certificate of the reduction in the principal amount of the Global Certificate. Such endorsement shall be conclusive evidence of such cancellation.

Meetings

At any meeting of Bondholders, the holder of the Global Certificate will be treated as being two persons for the purposes of any quorum requirements of, or the right to demand a poll at, a meeting of Bondholders and, at any such meeting, as having one vote in respect of each €100,000 in principal amount of Bonds.

The Trustee may allow to attend and speak (but not to vote) at any meeting of Bondholders any accountholder (or the representative of any such person) of a clearing system with an interest in the Bonds represented by the Global Certificate on confirmation of entitlement and proof of his identity.

Transfers

Transfers of interests in the Bonds will be effected through the records of Euroclear and Clearstream, Luxembourg (or any Alternative Clearing System) and their respective participants in accordance with the rules and procedures of Euroclear and Clearstream, Luxembourg (or any Alternative Clearing System) and their respective direct and indirect participants.

TAXATION IMPLICATIONS

The following is a general summary of the material Australian income tax and capital gains tax ("CGT") consequences arising under the Income Tax Assessment Act 1936 and the Income Tax Assessment Act 1997 (together, the "Tax Act") and any relevant regulations, rulings, or judicial or administrative interpretations as at the date of this Cleansing Notice in relation to an investment in the Bonds by a Bondholder.

This general summary is not intended to be nor should it be construed to be legal or tax advice to any particular investor. Prospective investors are urged to contact their tax advisers for specific advice relating to their particular circumstances, in particular in relation to local taxes in their home jurisdictions.

While the Issuer has sought legal advice on the Australian taxation implications of the Bonds, it has not sought, and does not intend to seek, a ruling from the Australian Taxation Office or any other revenue authority in relation to this matter.

Payments under the Bonds

The Bonds should be characterised as debt interests in the Issuer for Australian tax purposes on the basis that the Issuer is under an effectively non-contingent obligation to pay the Bondholders (in the form of interest and the redemption price) an amount at least equal to the amount paid by Bondholders for the Bonds.

Payments made under the Bonds will constitute interest or amounts in the nature of interest in the hands of the Bondholders.

Non-Australian Bondholders

Australian Withholding Tax

This section applies to Bondholders that are non-residents of Australia for tax purposes that do not hold their Bonds in the course of carrying on a business at or through a permanent establishment in Australia, and Australian tax residents that hold their Bonds in the course of carrying on a business outside of Australia at or through a permanent establishment outside Australia.

Payments of interest or amounts in the nature of interest to a Bondholder will be subject to 10 per cent. withholding tax unless either the exemption provided by section 128F of the Tax Act applies or another exemption is available (e.g. under a double taxation treaty). If section 128F of the Tax Act does apply, there will be no Australian withholding tax on payments of interest or amounts in the nature of interest on the Bonds other than payments to certain offshore associates (refer below).

The Issuer intends to issue the Bonds in a manner which will satisfy the public offer test and which otherwise meets all relevant requirements of section 128F of the Tax Act. On this basis and based on the current legislation and administration policy of the Australian Taxation Office, the exemption should be available.

The exemption in section 128F of the Tax Act is not available where interest is paid to an offshore 'associate', as defined in section 128F of the Tax Act, of the Issuer (other than in the capacity of a

clearing house, custodian, funds manager or responsible entity of a registered scheme in relation to the payment of the interest).

Profits or Gains on Disposal of the Bonds

For income tax purposes, an amount may be included in the assessable income of a non resident Bondholder on disposal of the Bonds if such gain has an Australian source (as described under “Australian Source” below) and subject to the terms of any applicable double taxation treaties.

If a gain in respect of the Bonds does not have an Australian source, such a Bondholder may nonetheless make a capital gain that is subject to Australian tax if the Bonds constitute Taxable Australian Property (“TAP”) of the Bondholder.

Australian Source

Whether a gain on disposal of the Bonds has an Australian source is a question of fact that will be determined based on the circumstances existing at the time of the disposal.

In general, a gain should not have an Australian source provided that the Bonds are:

- (a) acquired and held outside Australia;
- (b) held in connection with a business conducted exclusively outside Australia; and
- (c) are disposed of to a non resident directly or to a non-resident through a non-resident agent.

However, this is not an exhaustive list of the factors that can determine source, nor would the absence of one of these elements, of itself, mean that there is an Australian source, as source will depend on all the relevant circumstances.

Double Taxation Treaties

If the gain on disposal of a Bond has an Australian source, a non-resident Bondholder may be eligible for relief from Australian tax on such gain under a double taxation treaty between Australia and the Bondholder’s country of residence. Prospective Bondholders should consult their tax advisers regarding their entitlement to benefits under a tax treaty.

Capital Gains Tax

Disposal of Bonds by a non resident Bondholder should not give rise to any capital gains or capital losses on disposal unless the Bonds constitute TAP. Broadly, Bonds should not be considered TAP unless:

- (a) the Bondholder used the Bonds in the course of carrying on a business in Australia at or through a permanent establishment in Australia; or
- (b) as a consequence of holding the Bonds, the Bondholder (together with its associates) owns or has owned throughout a twelve month period in the two years before disposal, shares or units or rights to acquire shares or units that represent at least 10 per cent. of the total paid up capital of the Stapled Entities and the market value of assets of the relevant Stapled Entity is wholly or predominantly attributable to Australian real property.

Conversion of Bonds into Stapled Securities

The conversion of Bonds to Stapled Securities is a taxable event. Any profit or gain realised by a non resident Bondholder on conversion (i.e. the excess of the market value of the securities issued over the issue price) will be taxable if the profit or gain has an Australian source (as described under "Australian Source" above) and a double taxation treaty does not provide relief (refer "Double Taxation Treaties" above). Whilst not free from doubt, where the decision to convert is made offshore any subsequent profit or gain from conversion may not have an Australian source.

Nonetheless, if a gain on conversion does not have an Australian source a non resident Bondholder may make a capital gain that is subject to Australian tax if the rights under the Bonds constitute TAP of the Bondholder (refer to the discussion immediately above), subject to the availability of a roll over.

On conversion of the Bonds into Stapled Securities a non-resident holder of a Stapled Security (formerly a non-resident Bondholder) will be required to separately recognise each component of the Stapled Security for Australian tax purposes. That is, a non-resident holder of a Stapled Security will recognise each Stapled Security as a Share and a Unit.

Distributions in respect of the Shares

A non-resident holder of a Stapled Security will not include any dividends paid by the Company in their assessable income other than a dividend received by a non resident carrying on business in Australia through a permanent establishment (where the dividend is sufficiently connected with the permanent establishment). However, such dividends may be subject to Australian withholding tax, depending upon the extent to which the dividend is franked or sourced from foreign dividends and whether or not the holder would otherwise be exempt from Australian income tax. Withholding tax is a final tax.

A dividend will be treated as "franked" where the dividend is paid out of profits of the Company that have already been subject to tax and the company declares the dividend to be franked.

Fully franked dividends will not be subject to Australian income tax or withholding tax.

Generally, unfranked dividends paid to non resident shareholders will be subject to withholding tax at a rate of 15 per cent. where a double taxation treaty is in existence between the holder's country of residence and Australia, though this may be reduced where the shareholder holds an associate inclusive interest in the Company of more than ten. Where a double taxation treaty is not in force (or the benefits of a treaty do not apply), withholding tax at a rate of 30 per cent. will generally apply to unfranked dividends paid to non resident shareholders.

It should generally be possible for foreign dividends to be paid to non resident holders free of Australian withholding tax, even where the dividends are not franked, provided that the Company can legally pay a dividend.

Distributions in respect of the Units

Non-resident holders of Stapled Securities will generally be assessable on their proportionate share of the Trusts' Australian sourced taxable income. The rate of tax will depend upon the nature of the distribution received and the country of residence of the holder.

On the basis that the Trust is a managed investment trust ("**MIT**") for the purposes of the Tax Act in the relevant year of income, any net income paid to holders that is classified as a *fund payment* for the purposes of the MIT rules (broadly any payments other than dividends, interest, royalties and other payments already subject to withholding tax) should be subject to Australian MIT withholding tax ("**MIT WHT**"). MIT WHT is a final tax and no further Australian tax should arise in respect of the fund payment portion of a distribution from the Trust to a non resident holder.

The rate of MIT WHT on distributions to a non resident of amounts which represent fund payments is 15 per cent. or 30 per cent., depending on the non-resident's country of residence. Residents of countries with which Australia has an Exchange of Information Agreement ("**EOI Countries**") are liable to MIT WHT at 15 per cent. whereas residents of non-EOI Countries are liable to MIT WHT at 30 per cent. in respect of distributions. If the Trust is not a MIT in the relevant year of income, the Responsible Entity will pay tax in respect of such income at rates up to 47 per cent. (which is not a final tax). In these circumstances non-resident holders of Stapled Securities will include in their assessable income their share of net income which is attributable to sources in Australia and claim credit for the tax paid by the Responsible Entity against their Australian tax liability.

Whether or not the Trust is a MIT, distribution of amounts which represent interest derived by the Trust to a non resident should be subject to 10 per cent. withholding tax which is a final tax.

Where a cash distribution from the Trust exceeds the taxable component of that distribution, the "tax deferred" component should reduce the CGT cost base of the Units. Once the cost base is exhausted, any tax deferred distribution will, if the Units constitute TAP (refer to "Capital Gains Tax" above), give rise to a capital gain.

Where the Units are held on revenue account, tax deferred distributions may be assessable. However, this is currently the subject of review by the Government and initial indications are that the provisions will be amended to treat the tax deferred distributions as non assessable when derived (with the amount reducing the revenue cost of the Units).

Disposal of the Stapled Securities

A subsequent disposal of the Stapled Securities by a non-resident holder should not give rise to any capital gains or capital losses on disposal unless either of the securities which make up the Stapled Securities constitute TAP. These securities should not be considered to be TAP unless the conditions described under "Capital Gains Tax" above apply.

Where Stapled Securities constitute TAP, holders of Stapled Securities will need to do a separate CGT calculation for each of the Shares and Units which are TAP. Bondholders will need to allocate, on a reasonable basis, their acquisition costs and capital proceeds between the Shares and the Units. For Stapled Securities acquired upon conversion of the Bonds the acquisition costs should be equal to the market value of the Bonds at conversion (assuming no roll over on the conversion is available). Where a rollover is available, the costs base will be equal to the cost base of the bonds plus any incidental costs of conversion and any amounts paid as conversion. For each calculation, a capital gain will arise where the capital proceeds received in respect of the disposal of each instrument exceed the cost base of that instrument. A capital loss will arise where the reduced cost base of that instrument exceeds the capital proceeds reasonably allocated to that instrument.

Australian Bondholders

Interest

Interest income paid under the Bonds will be included in a Bondholder's assessable income where the Bondholder is:

- (a) a resident of Australia for tax purposes that does not hold the Bonds in the course of carrying on a business outside of Australia at or through a permanent establishment outside Australia; or
- (b) a non resident of Australia for tax purposes that holds the Bonds in the course of carrying on a business at or through a permanent establishment in Australia.

Profits or gains on disposal of the Bonds

Any profit or gain made on disposal of the Bonds by an Australian resident will be included in a Bondholder's assessable income.

Conversion of Bonds into Stapled Securities

The conversion of Bonds to Stapled Securities is a taxable event. Any profit or gain realised on conversion (i.e. the excess of the market value of the securities issued over the issue price) will be taxable in the hands of the Australian resident Bondholder (subject to the availability of a roll over). Where a rollover is available, the costs base will be equal to the cost base of the bonds plus any incidental costs of conversion and any amounts paid as conversion.

On conversion of the Bonds into Stapled Securities a resident holder of a Stapled Security (formerly a resident Bondholder) will be required to separately recognise each component of the Stapled Security for Australian tax purposes. That is, a resident holder of a Stapled Security will recognise each Stapled Security as a Share in the Issuer and a Unit in the Trust.

Distributions in respect of the Shares

Individuals and complying superannuation entities

Dividends paid to Australian resident holders of the Stapled Securities that are individuals and complying superannuation entities should be included in the holder's assessable income in the year the dividend is paid.

If the dividend is franked then the amount of the associated franking credit should (subject to satisfying applicable imputation integrity rules) also be included in the holder's assessable income. Generally, the holder will be entitled to a tax offset equal to the franking credits that have been included in their assessable income.

Bondholders will generally be entitled to a refund to the extent, broadly, that the franking credits attached to the dividends exceed their tax liability as assessed for the income year.

Corporate

Subject to satisfying applicable imputation integrity rules, corporate holders of Stapled Securities are required to include both the dividend and, where the dividend is franked, the associated franking credit in their assessable income. A tax offset may be available to a corporate holder up to the amount of the franking credit on the dividend, but the corporate will not be entitled to a refund of any excess credits (though any such excess credits may be converted into tax losses of the corporate holder).

Distributions in respect of the Units

Australian resident holders of Stapled Securities will generally be assessable on their proportionate share of the Trusts' taxable income. The rate of tax will depend upon the nature of the distribution received and the particular tax profile of the holder.

Unitholders will generally be subject to tax in respect of the year in which they are presently entitled to the distributable income of the Trust, even if it is not distributed to them until after that year.

Where a cash distribution from the Trust exceeds the taxable component of that distribution, the "tax deferred" component should reduce the CGT cost base of the Units. Once the cost base is exhausted, any tax deferred distribution will give rise to a capital gain to the holder. Such a capital gain may be reduced for holders that are individuals, complying superannuation entities or trustees if the Units have been held for at least 12 months (refer to further comments immediately below).

Where the Units are held on revenue account, tax deferred distributions may be assessable. However, this is currently the subject of review by the Government and initial indications are that the provisions will be amended to treat the tax deferred distributions as non assessable when derived (with the amount reducing the revenue cost of the Units).

Disposal of the Stapled Securities

Australian resident holders of Stapled Securities will need to do two separate CGT calculations, one for the Shares and one for the Units. Bondholders will need to allocate, on a reasonable basis, their acquisition costs and capital proceeds between the Shares and the Units. For Stapled Securities acquired upon conversion of the Bonds (and which are not rolled over) the acquisition costs should be equal to the market value of the Bonds at conversion. For each calculation, a capital gain will arise where the capital proceeds received in respect of the disposal of each instrument exceed the cost base of that instrument. A capital loss will arise where the reduced cost base of that instrument exceeds the capital proceeds reasonably allocated to that instrument.

A capital gain may be eligible to be a discount capital gain if the holder of a Stapled Security is an individual, trust or a complying superannuation entity and the Stapled Securities are disposed of at least 12 months after the holder acquired them. Capital gains made by companies and other taxpayers are not discounted. Capital gains are only discounted after a holder's other capital losses and carried forward net capital losses have been applied against the gross capital gain.

If a capital gain is eligible to be discounted, then only 50 per cent. of the amount of the capital gain is included in the assessable income of a holder who is an individual or a trust, and 66.7 per cent. for a holder that is a complying superannuation entity.

Taxation of financial arrangements regime ("TOFA").

The TOFA regime is a regime for the taxation of financial arrangements which applies on a mandatory basis for qualifying taxpayers and financial arrangements from 1 July 2010. Where it applies, the TOFA regime may impact upon the tax character and tax timing of gains and losses arising from those financial arrangements.

The TOFA regime does not contain any measures that would override the exemption from Australian withholding tax on payments of interest or amounts in the nature of interest available under section 128F of the Tax Act.

Tax Reform

The Government is currently reviewing the taxation of managed investment trusts, and a new regime for the taxation of managed investment trusts is due to commence with effect from 1 July 2015. It is intended that the new regime will reduce complexity, increase certainty and minimise compliance costs for managed investment trusts. As at the date of this Notice, exposure draft legislation in respect of the new regime is yet to be released for public consultation. Accordingly, the impact of the regime on a trust which qualifies as a MIT (if any) cannot yet to be determined with certainty. However, it is expected that the impact will be revenue neutral.

Payments made under the guarantee

Under the terms of the Bonds, the Guarantors will unconditionally and irrevocably guarantee the due and punctual payment of all amounts at any time becoming due and payable in respect of the Bonds.

Where a Guarantor makes a payment under the guarantee instead of the Issuer, the Australian Taxation Office's view, as reflected in Taxation Determination TD 1999/26, is that the payment is treated as interest for the purposes of Australian withholding tax. However, that Determination also states that where section 128F applies, the exemption under section 128F will apply to the payment of an amount under the guarantee if the requirements of that section are satisfied.

Australian resident Bondholders should include such payments in their assessable income as the payment is in lieu of ordinary income.

TFN and ABN withholding

Section 12-140 of Schedule 1 to the Taxation Administration Act 1953 of Australia (**Taxation Administration Act**) imposes a type of withholding tax at the rate of 47% on the payment of interest on certain registered securities unless the relevant payee has quoted an Australian tax file number (**TFN**), (in certain circumstances) an Australian Business Number (**ABN**) or proof of some other exception (as appropriate).

Assuming the requirements of section 128F are satisfied with respect to the Bonds, then withholding tax will not apply to payments to a holder of Bonds who is a non resident of Australia and who does not hold those Bonds in the course of carrying on business at or through a permanent establishment in Australia.

Payments to other classes of holders of Bonds (including resident holders) may be subject to withholding where the holder of those Bonds does not quote a TFN, ABN or provide proof of an appropriate exemption (as appropriate).

Garnishee directions

The Commissioner may give a direction requiring the Issuer to deduct from any payment to a Bondholder any amount in respect of Australian tax payable by the Bondholder. If the Issuer is served with such a direction, then the Issuer will comply with that direction and make any deduction required by that direction.

Goods and services tax ("GST")

GST should not be payable by the Bondholders (resident and non-resident) in respect of the issue of Bonds by the Issuer or the conversion of Bonds into Stapled Securities.

GST should also not be payable by the holders (resident and non-resident) of Stapled Securities in relation to their holding or disposal of Stapled Securities.

Stamp duty

As the Bonds are not shares or units (albeit they may be converted into the ASX quoted Stapled Securities), and will be debt interests (within the meaning of Division 974 of the Income Tax Assessment Act 1997 (Cth)), the issue or transfer of the Bonds will not be subject to stamp duty in any Australian State or Territory. However, in Victoria the issue or transfer of the Bonds will be subject to stamp duty if the Bonds would entitle a person (on an associated person and/or associated transaction inclusive basis) to convert the Bonds into Stapled Securities which would result in the person acquiring or commencing to hold an interest of 90 per cent. or more in the Stapled Entities.

The conversion of the Bonds into ASX quoted Stapled Securities, or the transfer of the ASX quoted Stapled Securities after conversion, will not be subject to stamp duty in any Australian State or Territory, provided that no person acquires or commences to hold an interest of 90 per cent. or more in the Stapled Entities on an aggregated basis as a result of such conversion or transfer. For this purpose, the stamp duty rules aggregate interests of associated persons and interests acquired under associated transactions, as defined for stamp duty purposes.

Death duties

Australia does not impose death, estate or succession duties on any Bonds held at the time of death.

EU Directive on the Taxation of Savings Income

Under the Directive on the taxation of savings income (the "**Savings Directive**"), Member States are required to provide to the tax authorities of another Member State details of payments of interest (or similar income) paid by a person within its jurisdiction to an individual resident in that other Member State or to certain limited types of entities established in that other Member State. However, for a transitional period, Luxembourg and Austria are instead required (unless during that period they elect otherwise) to operate a withholding system in relation to such payments (the ending of such transitional period being dependent upon the conclusion of certain other agreements relating to information exchange with certain other countries).

The Council of the European Union has adopted an amending Directive (the "**Amending Directive**") which will, when implemented, amend and broaden the scope of the requirements described above. The Amending Directive will expand the range of payments covered by the Savings Directive, in particular to include additional types of income payable on securities, and the circumstances in which payments must be reported or paid subject to withholding. For example, payments made to (or for the benefit of) (i) an entity or legal arrangement effectively managed in a Member State that is not subject to effective taxation, or (ii) a person, entity or legal arrangement established or effectively managed outside of the EU (and outside any third country or territory that has adopted similar measures to the Savings Directive) which indirectly benefit an individual resident in a Member State, may fall within the scope of the Savings Directive, as amended. The Amending Directive requires Member States to adopt national legislation necessary to comply with it by 1 January 2016, which legislation must apply from 1 January 2017.

SUBSCRIPTION AND SALE

This section summarises the Subscription Agreement entered into by the Issuer, the Cromwell Property Group and the Sole Lead Manager. It also sets out the restrictions on the Offer in various jurisdictions.

SUBSCRIPTION AGREEMENT

Pursuant to a Subscription Agreement dated 27 January 2015 between the Issuer, the Guarantors and the Sole Lead Manager, the Issuer agreed to issue and the Sole Lead Manager agreed to subscribe for €150 million 2.000 per cent. Guaranteed Convertible Bonds at 100 per cent. of their principal amount and the Issuer has granted the Sole Lead Manager an option to subscription for up to an additional €50 million 2.000 per cent. Guaranteed Convertible Bonds at 100 per cent. of their principal amount ("**Optional Bonds**").

Each of the Issuer and the Guarantors has agreed to indemnify the Sole Lead Manager in respect of certain matters pursuant to the Subscription Agreement and to reimburse the Sole Lead Manager for certain expenses the Sole Lead Manager properly incurred in connection with certain matters. The Subscription Agreement contains provisions entitling the Sole Lead Manager to terminate the Subscription Agreement in certain circumstances prior to payment to the Issuer in respect of the Bonds or the Optional Bonds.

The Issuer and the Stapled Entities have agreed in the Subscription Agreement with the Sole Lead Manager that they will not, and will procure that no persons acting on their behalf will, (a) issue, offer, sell, contract to sell, pledge, encumber or otherwise dispose of or grant options, issue warrants or offer rights entitling persons to subscribe or purchase any interest in any Stapled Securities or securities of the same class as the Bonds or the Stapled Securities or any securities convertible into, exchangeable for or which carry rights to subscribe or purchase the Bonds, the Stapled Securities or securities of the same class as the Bonds, the Stapled Securities or other instruments representing interests in the Bonds, the Stapled Securities or other securities of the same class as them, (b) enter into any swap or other agreement that transfers, in whole or in part, any of the economic consequences of the ownership of the Stapled Securities, (c) enter into any transaction with the same economic effect as, or which is designed to, or which may reasonably be expected to result in, or agree to do, any of the foregoing, whether any such transaction of the kind described in (a), (b) or (c) is to be settled by delivery of Stapled Securities or other securities, in cash or otherwise or (d) announce or otherwise make public an intention to do any of the foregoing, in any such case without the prior written consent of the Sole Lead Manager between the date of the Subscription Agreement and the date which is 90 days after the closing date or if the option in respect of the Optional Bonds is exercised, the option closing date (both dates inclusive). The foregoing sentence shall not apply to: (a) the issue of the Bonds and any new Stapled Securities issued on conversion of the Bonds or (b) the issuance of Stapled Securities or any other securities under its publicly disclosed distribution reinvestment plan, employee option plan or employee security plan.

The distribution of this Cleansing Notice or any offering material and the offering, sale or delivery of the Bonds is restricted by law in certain jurisdictions. ADDITIONAL INFORMATION

OWNERSHIP RESTRICTIONS

Foreign Acquisitions and Takeovers Act

The acquisition of interests in the Cromwell Property Group is regulated by the Australian *Foreign Acquisitions and Takeovers Act 1975* (Cth) ("**FATA**").

FATA generally prohibits (with the sanction of penalties) the acquisition by a "foreign person" of certain interests in the Cromwell Property Group (including Stapled Securities and Bonds) and gives the Treasurer of the Commonwealth of Australia power to make an order prohibiting such an acquisition where it is proposed or to make a divestment order where such an acquisition has occurred, if:

- (p) a single foreign person (alone or together with its associates) would have an interest in 15% or more of the Stapled Securities, votes or potential votes (including through interests in Stapled Securities such as Bonds and options) of the Cromwell Property Group, or
- (q) a number of foreign persons (alone or together with their respective associates) would have in aggregate an interest in 40% or more of the Stapled Securities, votes or potential votes (including through interests in the Stapled Securities such as Bonds and options) of the Cromwell Property Group,

in each case, unless prior notice of the acquisition has been given to the Treasurer and the Treasurer has either stated that there is no objection to the acquisition or a statutory period has expired without the Treasurer objecting. The restrictions under FATA apply equally to acquisitions of interests through issue or transfer.

The Bonds will confer an interest in the Stapled Securities for the purposes of 'potential voting power' as described in FATA. As the Conversion Price will be subject to adjustment in certain circumstances described in Condition 6(b) of the Conditions including upon the making of a Capital Distribution or Extraordinary Distribution (as defined in the Conditions) by the Cromwell Property Group and upon the occurrence of a Change of Control (as defined in the Conditions), the percentage interests held in the Stapled Securities and the levels of voting power and potential voting power conferred, cannot be determined precisely until the time the Bonds are converted. In these circumstances, FATA provides that the Bonds (being rights over Stapled Securities) will be treated as having been exercised at a particular point in time (for example, at the time the Bonds are acquired) to determine whether a person will acquire a controlling interest that requires the approval of the Treasurer.

Interest in Australian urban land

FATA also prohibits (with sanction of penalties) the acquisition by a "foreign person" of an interest in Australian urban land unless prior notice of the acquisition has been given to the Treasurer and the Treasurer has either stated that there is no objection to the acquisition or a statutory period has expired without the Treasurer objecting. The Treasurer also has the power to make an order prohibiting such an acquisition where it is proposed or to make a divestment order where such an acquisition has occurred.

The Foreign Acquisition and Takeovers Regulations 1989 (the "**Regulations**") exempts the application of FATA in certain circumstances, including where the acquisition is of Shares or

Units (as applicable) as a consequence of which the foreign person holds less than a substantial interest in Cromwell Property Group (based on the current asset mix held by the Cromwell Property Group).

If the asset mix held by either of the Company or the Responsible Entity at the time of conversion of the Bonds is not within the exemptions provided for in the Regulations, or if the acquisition will give the foreign person a substantial interest in the Cromwell Property Group, in order for the investors to legally acquire Stapled Securities (if any) issued on conversion of the Bonds (assuming FATA and the Regulations are not relevantly amended by the relevant time):

- (a) investors will need to have given notification to the Treasurer and the Treasurer must have either stated that there is no objection to the acquisition or a statutory period must have expired without the Treasurer objecting; or
- (b) there must be another exemption in the Regulations applicable to the circumstances at the relevant time.

On 1 August 2013, the Government announced a review of one of the applicable exemptions in the Regulations discussed above. As at the date of this Cleansing Notice, that review has yet to be finalised.

The above summary does not purport to be a definitive statement of FATA and investors requiring further information as to whether notification under FATA to the Treasurer (through the Foreign Investment and Review Board) is required in respect of a proposed investment or further investment in the Cromwell Property Group should consult their professional advisers.

Takeover Restrictions

The acquisition of interests in the Cromwell Property Group are also regulated by the takeover provisions in Chapter 6 of the Corporations Act. These provisions prohibit (with the sanction of penalties) the acquisition of relevant interests in the Stapled Securities, if as a result of the acquisition the acquirer's (or another party's) "voting power" in the Cromwell Property Group would increase to above 20%, or would increase from a starting point that is above 20% and below 90%. That prohibition is subject to a number of exceptions, including for acquisitions pursuant to a regulated takeover bid. Chapter 6C of the Corporations Act also contains provisions requiring market disclosure of relevant interests (and changes in relevant interests) in the Stapled Securities by persons holding "voting power" in the Cromwell Property Group of 5% or more.

Investors requiring further information relating to takeover restrictions should consult their professional advisers as these matters may be applicable to the conversion of the Bonds.

ASIC RELIEF

The Issuer and the Cromwell Property Group has obtained relief from ASIC under section 741(1) and 1020F(1) of the Corporations Act to modify sections 708A and such 1012DA of the Corporations Act as notionally modified by CO 10/322 to allow the Stapled Securities to be issued on conversion of any Bonds to be offered for sale without disclosure to investors under Chapter 6D and Part 7.9 of the Corporations Act.

ASX Listing Rules

The ASX Listing Rules prohibit the issue of equity or convertible securities if those securities, when aggregated with any other securities of the same class issued during the previous 12 months, exceeds 15% of the same class of security on issue at the commencement of that period of 12 months except, *inter alia*, with prior securityholder approval, to ordinary securityholders pro rata, pursuant to an off-market takeover bid or scheme of arrangement, to finance a takeover or scheme of arrangement, or an exercise by the directors of a declared right to dispose of the shortfall remaining after a pro rata equity offering.

Investors requiring further information relating to takeover restrictions, disclosure requirements or restrictions under the ASX Listing Rules should consult their professional advisers as these matters may be applicable to the conversion of the Bonds.

ASX CONFIRMATIONS

ASX has confirmed the following to the Cromwell Property Group:

- the terms of the Bonds are appropriate and equitable for the purposes of ASX Listing Rule 6.1;
- ASX Listing Rule 6.12 does not apply to a redemption or conversion of the Bonds under their terms of issue;
- ASX Listing Rule 6.22 does not apply to the Bonds;
- under ASX Listing Rule 7.1B.1(c), ASX does not object to the Cromwell Property Group, for the purpose of issuing the Bonds without shareholder approval, notionally converting the Bonds into ordinary securities based on the initial conversion price at the time of the issue of the Bonds; and
- the Bonds will not be regarded as options for the purpose of ASX Listing Rule 6.22.

ANNEXURE 1 – FEES AND OTHER COSTS

Consumer advisory warning

The warning below is required by law.

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period

(for example, reduce it from \$100 000 to \$80 000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower administration fees. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the **Australian Securities and Investments Commission (ASIC)** website (www.moneysmart.gov.au) has a managed investment fee calculator to help you check out different fee options.

Summary of fees and other costs

This Annexure 1 shows fees and other costs that you (as a holder of Stapled Securities) may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the Trust as a whole.

Information regarding taxes are set out in other parts of this Cleansing Notice.

You should read all the information about fees and costs because it is important to understand their impact on your investment. You can also use this information to compare the fees and costs with those of other investment funds.

All fees and costs are inclusive of GST and net of any applicable reduced input tax credits.

	Base annual management fee of up to 0.65% pa of the gross asset value of the Trust (ie \$65 out of every \$10,000 of the gross asset value of the Trust).	Payable to the Responsible Entity from the Trust monthly in arrears.
	Bonus performance fee of up to 10% of the amount by which the internal rate of return of a real property asset exceeds 11.5%.	Payable upon the sale of any real property asset and paid upon settlement of that sale.
	Acquisition fee of up to 5% of the purchase price of real property assets acquired by the Trust.	Payable upon acquisition of any real property asset.

¹ These costs are based on current financial information and include amounts that the Responsible Entity can only estimate, including but not limited to expenses and performance fees.

Additional explanation of fees and costs

Management Costs

Base annual management fee

The constitution of the Trust allows the Responsible Entity to charge an ongoing annual base management fee of up to 0.65% of the average gross asset value of the Trust. However, the Responsible Entity is currently charging a reduced fee of 0.45% of the average gross asset value of the Trust and intends to continue to do so.

Annual administration costs

The Trust will incur administration costs such as the ASX listing fees, audit costs, custodial fees, compliance committee costs, accounting/tax/legal advice, bank charges, printing and stationery costs, postage and a registry fee. The Responsible Entity estimates these at 0.10% of the gross asset value of the Trust per annum.

Acquisition fee

The constitution of the Trust allows the Responsible Entity or its related entities to charge an acquisition fee of up to 5% of the acquisition price of real property assets acquired by the Trust. However the Responsible Entity has not charged a fee for any acquisition since December 2006 and does not intend to do so in the future.

Bonus performance fee

Upon the sale of any real property asset, the Responsible Entity is entitled to receive a bonus performance fee of up to 10% of the amount by which the internal rate of return on that asset exceeds 11.5%. However, the Responsible Entity has not charged a performance fee since December 2006 and does not intend to do so in the future.

Other fees and costs incurred in the normal course of the business of the Trust

Project management fees

The Responsible Entity has appointed Cromwell Property Services Pty Ltd ("**Cromwell Property**") a related company, to manage its real property assets. The Responsible Entity may retain a property manager other than Cromwell Property to perform some or all property management functions.

In circumstances where property management fees form part of the outgoings of real property assets, they may be recoverable, in full or in part, from tenants under the terms of their leases and there will be no net cost to the Trust.

Cromwell Property (and any other property manager, where applicable) is paid property management fees from the Trust at commercial market rates.

Leasing fees

Cromwell Property receives leasing fees if it secures new tenants or renews or extends leases with existing tenants for any of the real property assets. These fees are charged at commercial market rates, depending on the size of the area leased, the term of the lease and the conditions of the lease. Where an external agent is retained to introduce new tenants, the external agent will be paid by the Trust at commercial market rates. In such cases, Cromwell Property will limit its fee to the commercial rate for a coordinating agent.

Property management fees

The Responsible Entity has appointed Cromwell Project and Technical Solutions Pty Ltd ("**Cromwell Projects**") to manage the Trust's ongoing property improvement and capital expenditure programme. External project managers are also used from time to time. Project management services are charged at commercial market rates.

Selling fee

Cromwell Property may act as the selling agent of the Trust for a real property asset. Where it or any other related party of the Responsible Entity is appointed selling agent of a real property asset, Cromwell Property is able to charge a selling fee of up to 1% of the sale price upon completion of any such sale.

Cromwell Property does not currently charge a fee for these services and does not intend to do so in the future.

Accounting services fees

A related party of the Responsible Entity will keep and maintain the Trust's financial and accounting records and charges the Trust accounting services fees on a cost recovery basis for the provision of those services.

Other service fees

The Responsible Entity or a related party may also provide other services to the Trust or the investors in the future such as development, registry or administration services. Should that occur, the Responsible Entity will charge fees for those services at rates which do not exceed the then current market rates for the services provided.

Expenses

In addition to the fees noted above, the Responsible Entity is entitled under the constitution of the Trust to be reimbursed for all expenses and liabilities which it may incur in connection with the Trust or in performing its obligations or exercising its powers under the constitution of the Trust. These expenses include but are not limited to the following:

- (a) costs, charges and expenses incurred in connection with the acquisition or proposed acquisition of any assets of the Trust;
- (b) costs, charges and expenses of maintaining and improving any assets of the Trust;
- (c) costs of convening and holding any meeting of investors;
- (d) expenses incurred in connection with the keeping and maintaining of accounting and financial records and registers including the register of investors;
- (e) costs, charges and expense and disbursements paid or payable to the custodian of the Trust;
- (f) fees incurred in arranging finance or refinancing debt; and
- (g) the fees and expenses of the compliance committee of the Trust.

Costs of the Valad Acquisition

The Responsible Entity will incur costs in relation to the Valad Acquisition and is entitled to be reimbursed for those costs from the Trust. These are considered to be abnormal costs and are not incurred on an ongoing basis.

Example of annual fees and costs

This table gives an example of how the management costs for the Trust can affect your investment over a one year period. You should use this table to compare this product with other managed investment products.

EXAMPLE		BALANCE OF \$50 000 WITH A CONTRIBUTION OF \$5 000 DURING YEAR¹
Contribution fees	0%	For every additional \$5 000 you put in, you will be charged \$0.
PLUS management costs	1.45%	And , for every \$50 000 you have in the Trust you will be charged \$725 each year.
EQUALS Cost of the Trust	Nil	If you had an investment of \$50 000 at the beginning of the year and you put in an additional \$5 000 during that year, you would be charged fees of from: \$725 What it costs you will depend on the fees you negotiate with your financial adviser.

¹ The example assumes that the \$50,000 is invested for the entire year and that the \$5000 contribution occurs at the end of the first year, so that the management costs are calculated using the \$50,000 balance only. This example does not include performance fees or acquisition fees as it is not possible to give a true estimate of these fees.

Changes to fees and expenses
