## **1-PAGE RECEIVES \$9.63M FROM TWO STRATEGIC PARTIES**

1-Page Limited (ASX:1PG) ("1-Page"), the enterprise cloud-based talent acquisition platform, is pleased to announce that it has raised \$9.63m through the issue of 9,000,000 shares at \$1.07 per share to two strategic long-term parties.

The issue price of \$1.07 represents a 4% premium to the 30-day volume weighted average price. The issue was completed under the Company's existing 15% capacity.

The two parties approached 1-Page with a proposal to acquire a strategic interest given their deep understanding of the applicability of cloud-based software platforms to the recruitment sector globally. They are committed long-term shareholders and see strong potential in the future revenue growth of the 1-Page enterprise cloud-based platforms.

The identity of the strategic parties is confidential for commercial and competitive reasons.

Funds will be used for the growth capital needed for the implementation of recent contract wins for 1-Page. The growth capital is also required to manage the pipeline of prospective future contracts.

The 1-Page Sourcing and Referral Engine using the BranchOut database of more than 820 million professionals is expected to be in operation from the beginning of March 2015. This will assist in significantly scaling customer revenues and further capitalization will be driven from the pipeline of potential customers.
