Data services company SkyFii Limited (ASX: SKF) (SkyFii, the Company) is pleased to announce that it has commenced the roll-out of its services to major Brazilian shopping centre group, Iguatemi Empresa de Shopping Centers S.A. (Iguatemi).

SkyFii advises that its services are now "live" in two more of Iguatemi's premium shopping centres and in the process of rolling-out in an additional two of Iguatemi's retail properties, bringing the total number of deployed sites within the Iguatemi portfolio to 5 in the near future.

The roll-out across Iguatemi's Brazilian shopping centre portfolio comes after SkyFii was selected as Iguatemi's Preferred Partner for the provision of its Guest WiFi and data analytics services, following a competitive tender process, which included a number of international WiFi driven data services providers (ASX announcement, 28 April 2015).

As part of the Preferred Partner agreement, SkyFii's services are already installed and 'live' at Iguatemi's Market Place centre in São Paulo, under an initial 60-month contract.
