1-Page Limited (ASX:1PG) ("1-Page"), the enterprise cloud-based talent acquisition platform revolutionizing the way companies hire talent, is pleased to advise during the month of June it re-signed a number of large enterprises to continue to leverage 1-Page's Assessment and Innovation Platforms.

The six clients that have signed 12-month contract renewals with 1-Page have in excess of 88,000 employees across industries including consumer, retail, hospitality and IT and engineering. These industries typically experience the largest amount of turnover and volume of applicants.

The clients mentioned above have completed full integration and deployment periods. Leveraging 1-Page's Assessment Platform for hiring new roles, these clients have shown a 368% increase in utilization, 303% increase of proposals delivered, and most importantly 4800% increase in users. The 1-Page team is continuing to build viral elements into the platforms, to capture new users as fast as "word of mouth" can travel within an organization.

"It's always exciting to see customers experience positive ROI as they embrace new ways to resolve the inherent challenges a business faces in scaling a workforce. Such a sharp increase in new users demonstrates the platform is operating efficiently. June was a pivotal month in the history of our customer relationships. We have welcomed several big name customers and successfully transitioned 100% of our pilots into long-term paying customers." said Jeremy Malander, Head of Customer Success at 1-Page.
