

ASX RELEASE

29 September 2015

RECLASSIFICATION OF STATISTICAL REPORTING DATA

BOQ today advised that it had reclassified certain data previously provided as part of its regulatory reporting obligations.

Following the consolidation of the BOQ Specialist ADI licence on 31 May 2015, BOQ conducted a review of the processes used to classify loans for regulatory reporting purposes in the BOQ Specialist business and identified a number of differences when compared to BOQ's own classification processes.

As such, a number of loans that were previously classified as "Loans to non-financial corporations" and "Loans to households: Other" have been reclassified as "Loans to households: Housing: Owner-occupied" or "Loans to households: Housing: Investment" under BOQ's regulatory reporting methodology.

These loans have been restated in BOQ's June 2015 and July 2015 regulatory reporting. The reclassification will be carried forward in regulatory reporting from August 2015 onwards.

A summary of the changes are provided below:

	June 2015 original data	June 2015 resubmitted	July 2015 original data	July 2015 resubmitted
Loans to non-financial corporations	8,750.8	8,440.8	8,914.8	8,455.7
Loans to households: Housing: Owner-occupied	13,709.0	14,282.5	13,690.7	14,359.2
Loans to households: Housing: Investment	10,826.4	10,966.3	10,832.6	11,004.4
Loans to households: Other	547.8	144.4	520.4	139.2
