QUARTERLY UPDATE AND CASH FLOW REPORT

Melbourne, Australia, 29 October 2015: Adherium Limited (ASX:ADR), a global leader in digital health technologies that address sub-optimal medication use in chronic disease, has today issued its first quarterly cash flow report since its ASX listing on 26 August and provides an update on its operations.

Business Highlights July-September 2015:

- Announcement of the “first-in-class” global Master Supply and Development Agreement with AstraZeneca;
- Heavily oversubscribed A\$35m IPO and commencement of trading on the ASX;
- New clinical data in children and teenagers with asthma which supports the positive impact of the Adherium Smartinhaler™ platform on adherence, lung function and quality of life, released at one of the world’s largest respiratory conferences, the European Respiratory Society International Congress. This data contributes to the substantial bank of clinical evidence that supports the Company’s international commercialisation activities; and,
- Addition of key full time staff in product development, regulatory affairs, clinical operations and finance to underpin the Company’s growth.

- Cash reserves of \$32.098m at the end of the quarter

Looking forward, the Company's focus is on executing the plan as outlined in its prospectus including working closely with industry partner AstraZeneca and building its commercial sales pipeline across key channels including additional industry partnerships, managed care, clinical trials and remote patient monitoring.
