AERIS ENTERS INTO STRATEGIC ROLLOUT PLAN WITH THE SPOTLIGHT RETAIL GROUP FOR SMARTENERGY EFFICIENCY SOLUTIONS

- **Following the successful installation of SmartENERGY in the Spotlight Retail Group (SRG) initial building in Townsville in January 2015, measurements continue to exceed its targeted asset level energy reduction of 22.6%.**
- **SRG and AEI are now planning for the next phase rollout of SmartENERGY efficiency solution across its portfolio of Spotlight and Anaconda buildings around Australia.**
- **SRG installation will be implemented on the basis of validated reporting of energy efficiency.**
- **Spotlight targeting material improvements in indoor air quality, system efficiency, improved asset life and validated carbon reduction.**

Aeris Environmental Ltd (ASX:AEI) is pleased to announce that following the successful installation of SmartENERGY on an initial building for Spotlight Retail Group in January 2015, the parties are now planning a strategic rollout plan targeting the implementation of SmartENERGY across the relevant SRG assets.

Following the data from the Townsville project, including ongoing real time Measurement & Verification, reporting and monitoring, Aeris has now visited and undertaken detailed site feasibility on a number of buildings across Australia, and is now working with SRG to implement the next phase of the broad SmartENERGY rollout on a test and acceptance basis.

Spotlight Retail Group is a diversified and growing business that encompasses two of Australia's favourite retail operations and primarily consists of Spotlight, Australasia's largest craft, fabric and home interior superstore and Anaconda, Australia's largest outdoor adventure, and sporting superstore. SRG also owns and operates over 150 stores, across four countries, occupying over 4.2 million square feet of retail space and employing over 7,000 staff.

Aeris continues to work closely with a range of customers across Australia the Asia Pacific region, targeting, multiple building roll-out opportunities across high profile shopping centre groups, retail, property, hospitality, healthcare and Government opportunities and each SmartENERGY demonstration to date has met or exceeded Aeris' projected energy and system efficiency benchmarks.

Peter Bush

Chief Executive Officer

About Aeris:

Aeris Environmental Ltd is focussed on the global megatrends of energy efficiency, healthier air, food safety, water quality, and long term materials protection with core guiding principles of 'clean, green, protect'.

SmartENERGY is a proprietary system that provides dramatic and with proven energy savings in the range of 19-33% alongside documented improvement in system efficiency (54-289% improvement in airflow and up to 40% in coil efficiency) and independently validated indoor air quality across all air-conditioning and refrigeration systems with, proven immediate cash flow savings.

Smart Coatings provide long term prevention of mold, bacteria growth, corrosion and improved hygiene with OEM, consumer and technical applications.
