## Catapult awarded Top Exporter by SmartCompany

Catapult Group International Limited (ASX:CAT) is pleased to announce it has been awarded Top Exporter at the SmartCompany WFI Smart50 Awards for 2015.

According to SmartCompany, the Top Exporter award recognises innovation and excellence in international business, with entrants requiring solid growth in export markets, exceptional supply chain management and creative measures to find new markets and innovative solutions to export challenges.

Catapult was also ranked 21<sup>st</sup> on the WFI Smart50 list of Fastest Growing Companies.

Shaun Holthouse, Chief Executive Officer, said "this award recognises the tremendous achievement of our team who over the past few years have transformed Catapult from a domestic offering to what is now a truly global business. We now have over 35 permanent staff located in key markets offshore delivering over 85% of Catapult's total revenue from offshore regions including the US, UK, Europe and Asia."

### About SmartCompany WFI Smart50 Awards

The SmartCompany WFI Smart50 Awards recognise and celebrate Australia's fastest growing SMEs in 2014-15 and were announced during a live ceremony in Melbourne last night, 29 October 2015. The awards were decided by a panel of expert judges who review the innovation of each company's product or service.

### About Catapult

Catapult is a leading global sports analytics company that provides elite sporting organisations and athletes with detailed, real time data and analytics to monitor and measure athlete:

- ❑ Fitness and skill levels
- ❑ Response to specific training techniques
- ❑ Tactical performance
- ❑ Risk of injury, and safety and to assist with rehabilitation.

Since its formation in 2006, Catapult has been at the forefront of pioneering new technology combining "wearable" hardware and sophisticated analytical software. This has revolutionised the way the performance of professional and elite athletes is monitored and analysed.
