## SEALINK SECURES 5 YEAR FERRY CONTRACT TO STADBROKE ISLAND

SeaLink Travel Group (ASX: SLK) (**SeaLink**) today announced it has signed a 5 year contract with Sibelco Australia to service the carrying of mineral sands from Stradbroke Island. The contract expires 30 December 2020.

Jeff Ellison, Managing Director and CEO of SeaLink said, 'the new contract further strengthens our medium term operations to Stradbroke Island and adds to our passenger and motor vehicle services'.

'SeaLink will be investing in a new tug and barge for the contract which will create new jobs within SeaLink.' Mr Ellison said.

The contract is in line with assumptions made when acquiring the business.

The Palaszczuk Government have included they wish to end sand mining on Stradbroke Island in 2019. Should this occur the contract will allow for mining clean up.
