Negative operating cash flow for the quarter was impacted by up-front transition costs associated with the new Fund Services clients, the weak share market conditions (with no performance fees earned) and higher working capital associated with Fund Services.

Investing cash outflows included:

- Acquisition of Super Managers Australia Pty Ltd for \$3,508k.
- \$997k for internally generated intangible assets being the ongoing development of software and the transition costs associated with new Funds Services business.

Financing cash flows represent:

- \$12,211k proceeds of share issues being the placement of \$12,500k (net of capitalised placement costs) and funds from the exercise of directors share options.
- An external loan of \$3,500k was negotiated and drawn down in the quarter of which \$1,000k was repaid following the share placement above.
