**DICKER DATA GRANTED ACCESS TO ARUBA – A HEWLETT PACKARD ENTERPRISE COMPANY  
Appointment Comes Alongside Successfully Tendering to Retain HPE Distribution in Australia**

The Board of Directors of Dicker Data Limited (ASX: DDR) are pleased to announce our appointment as a distributor for Aruba – a Hewlett Packard Enterprise Company in Australia. The new appointment will allow Dicker Data to access the full range of networking products.

The result was delivered following Dicker Data's successful response to the Australian Hewlett Packard Enterprise (HPE) distribution tender which took place in January 2016. This outcome will see DDR retain full access to the HPE product suite in Australia, which includes the server, storage and networking products in addition to the new Aruba range.

Chairman & CEO, David Dicker, said "We're very pleased with this outcome and believe HPE have made the right decision. The rationalisation to the distribution line-up went beyond our expectations and has reaffirmed the strength of our continued partnership."

In addition to the announcements regarding DDR's distribution rights, HPE also announced other significant changes to their distribution partner line-up in the Australian market. As a result of the tender process, two of the other current competitors have had their access to distribute the HPE product range revoked. All of the new arrangements will become effective on 01/05/2016.

For and on behalf of the Board,

David Dicker  
Chairman & CEO
