As Resolutions 3, 4, 5, 6 and 7 concern remuneration for key management personnel (being Messrs Eckhof, Shah, Gasson, Calderwood and Thomson), in accordance with section 250BD of the Corporations Act, a person appointed as a proxy must not vote, on the basis of that appointment, on these Resolutions if:

This Explanatory Statement should be read in conjunction with the accompanying Notice of Meeting.

2. RESOLUTIONS 1 and 2 – Ratification of Prior Securities Issues

Since the Company’s last Shareholders’ meeting (November 2015 annual general meeting), the Company has completed a number of securities issues within its 15% and 10% placement capacity. Resolutions 1 and 2 seek ratification of those prior securities issues so as to retain the flexibility to issue equity securities in the future up to the 15% annual placement capacity set out in ASX Listing Rule 7.1 and up to the 10% annual placement capacity set out in ASX Listing Rule 7.1A without the requirement to obtain prior Shareholder approval.

A voting exclusion statement is included in the Notice.

3. RESOLUTIONS 3 – 5 – Approval for the Issue of Performance Rights

General Information

Shareholder approval is being sought for the granting of Performance Rights (“PRs”) to Chairman, Mr Klaus Eckhof, Director & Company Secretary, Mr Susmit Shah and Exploration Manager, Mr Mark Gasson (collectively the “Key Management Personnel” or “KMPs”).

A Performance Right is a right to be issued a Share upon satisfaction of specified performance conditions and the expiry of a vesting period. For the purposes of the PRs proposed under resolutions 3, 4 and 5, there will be three tranches and each tranche will have different performance criteria in order for the PRs to vest.

A total of 67.5 million PRs (that may convert to up to 67.5 million Shares) are proposed as follows:

Proposed Holder	Tranche 1 Performance Criteria - ASX market price VWAP of \$0.03 (refer notes below)	Tranche 2 Performance Criteria - ASX market price VWAP of \$0.04 (refer notes below)	Tranche 3 Performance Criteria - ASX market price VWAP of \$0.05 (refer notes below)	Total
Klaus Eckhof	7,500,000	7,500,000	7,500,000	22,500,000
Susmit Shah	7,500,000	7,500,000	7,500,000	22,500,000
Mark Gasson	7,500,000	7,500,000	7,500,000	22,500,000
Total	22,500,000	22,500,000	22,500,000	67,500,000

A summary of the key terms for the PRs’ is as follows:

- Tranche 1 - the PRs will vest and convert into Shares in the event that the Company’s Shares trade at a daily volume weighted average price of at least \$0.03 for a consecutive period of at least 10 trading days;
- Tranche 2 – the PRs will vest and convert into Shares in the event that the Company’s Shares trade at a daily volume weighted average price of at least \$0.04 for a consecutive period of at least 10 trading days;
- Tranche 3 – the PRs will vest and convert into Shares in the event that the Company’s Shares trade at a daily volume weighted average price of at least \$0.05 for a consecutive period of at least 10 trading days;
- the PRs will expire on 31 December 2020; and
- the PRs will expire if the holder ceases to be an officer of and a service provider to the Company.

At this stage, the Company is not planning to adopt a Performance Rights Plan but rather seeks shareholder approval for the specific grant of PRs’ to the KMPs’. A formal plan may be adopted for implementation in the future.

The PRs are being granted to provide the KMPs with an incentive for future services and as a reward for past services, with Mr Eckhof having been involved with the Company in an executive capacity since early 2012, Mr Shah having been involved since the Company’s incorporation in 2005 as a director and company secretary, and Mr Gasson being in the role of Burey’s Exploration Manager since 2012.

Klaus Eckhof – CEO and Managing Director until August 2013, now Chairman. Mr Eckhof’s high level involvement particularly in the DRC given his history and contacts is essential in maintaining good relations with all local partners and Government authorities. Mr Eckhof’s involvement in capital raising, investor relations and company promotion is critical and ongoing.

Susmit Shah – Director and Company Secretary with responsibility for all company secretarial and Australian parent company legal and financial reporting obligations, as well as ongoing liaison with Mark Gasson and rest of the technical team. Treasury management at Group level.

Mark Gasson – Exploration Manager with responsibility across DRC and Guinea projects, coordination of all staff, contractors, planning, implementation and reporting of all exploration activities, liaison with local partners and Government authorities.

The issue of the PRs as part of the remuneration packages of senior executives is an established practice of public listed

companies and, in the case of the Company, has the benefit of conserving cash whilst providing a meaningful incentive to the KMPs'. The KMPs' will also have a vested interest in the affairs of the Company. The proposed grant of PRs to the KMPs' is appropriate in the circumstances and it is a practice that a large number of junior listed companies adopt. The current remuneration of the KMPs' (refer below) is considered modest in comparison to peers (over the past two years, in line with the difficult capital market conditions, both Mr Eckhof and Mr Shah have accepted significant reductions in their remuneration). In recognition of the Company's circumstances, the roles of the KMPs' in managing the affairs of the Company and where the Company is dependent on raising new equity capital from time to time to carry on its activities, the Board considers an award of PRs is justified.

ASX's Corporate Governance Principles and Recommendations suggest that non-executive directors generally should not receive options with performance hurdles attached or performance rights as part of their remuneration as it may lead to bias in their decision-making and compromise their objectivity. Mr Calderwood and Mr Thomson the directors with no personal interest in these resolutions take a different view and believe that proposed issue of the PRs (and the specific hurdles) aligns the interest of the proposed recipients with the interest of Shareholders generally. Any benefit that the proposed recipients realise in the future from the grant of the PRs will be contemporaneous with an increase in Shareholder value.

As noted above, Mr Eckhof was CEO and Managing Director until August 2014 and he's now Executive Chairman. Mr Shah is a director and company secretary and the proposed issue of the performance rights is primarily in relation to the company secretarial, accounting and finance responsibilities (refer above) that he handles. The proposed grant of PRs to Mr Eckhof, and Mr Shah is appropriate in the circumstances and it is a practice that a large number of junior listed companies adopt.

ASX Listing Rule 10.11

ASX Listing Rule 10.11 requires a company to obtain shareholder approval prior to the issue of securities to a related party, or a person whose relationship with the entity or a related party is, in ASX's opinion, such that approval should be obtained unless an exception in ASX Listing Rule 10.12 applies.

It is proposed that two of the existing Directors, Mr Eckhof and Mr Shah be granted PRs. Each of these persons is a related party within the terms of the ASX Listing Rules. Accordingly, the Company must obtain Shareholder approval pursuant to ASX Listing Rule 10.11 unless an exception applies. It is the view of the Directors that the exceptions set out in ASX Listing Rule 10.12 do not apply in the current circumstances.

Approval pursuant to ASX Listing Rule 7.1 is not required as approval is being obtained under ASX Listing Rule 10.11. Accordingly, the grant of PRs and any Shares issued to Mr Eckhof and Mr Shah on vesting of the PRs will not be included in the use of the Company's 15% annual placement capacity pursuant to ASX Listing Rule 7.1.

Chapter 2E of the Corporations Act – Related Party Transactions

For a public company, or an entity that the public company controls, to give a financial benefit to a related party of the public company, the public company or entity must:

- (i) obtain the approval of the public company's members in the manner set out in sections 217 to 227 of the Corporations Act; and
- (ii) give the benefit within 15 months following such approval,

unless the giving of the financial benefit falls within an exception set out in sections 210 to 216 of the Corporations Act.

The grant of PRs constitutes giving a financial benefit and Mr Eckhof and Mr Shah are related parties of the Company by virtue of being Directors.

It is the view of the Directors that the exceptions set out in sections 210 to 216 of the Corporations Act do not apply in the current circumstances. Accordingly, Shareholder approval is sought for the issue of PRs to Mr Eckhof and Mr Shah.

Directors' Recommendations

Mr Eckhof and Mr Shah have a vested interest in the proposed issue of the PRs' and therefore make no recommendation, however they note that the benefit, if any, from the grant of the PRs' will only flow upon satisfaction of the performance criteria noted above, which should be value accretive to Shareholders as a whole. Mr Eckhof and Mr Shah have no personal interest in Resolution 5, proposed issue of PRs' to Mr Gasson and recommend that Shareholders approve this resolution. Mr Calderwood and Mr Thomson have no personal interest in Resolutions 3, 4 and 5 and recommend that Shareholders approve these resolutions.

The Directors also consider the quantum of PRs' to be reasonable in the circumstances. In forming their recommendations,

each Director considered the experience of each other Director, the current market price of Shares and the current market practices when determining the number of PRs.

The Directors are not aware of any other information that would be reasonably required by Shareholders to allow them to make a decision whether it is in the best interests of the Company to pass the Resolutions.

Valuation of the Financial Benefit

The value of the PRs, based on the market price of the underlying Shares at the time of preparing this Notice would be as follows (refer to Appendix 2 for valuation methodology):

Proposed Holder	Total PRs	\$
Klaus Eckhof	22,500,000	537,000
Susmit Shah	22,500,000	537,000
Mark Gasson	22,500,000	537,000
Total	67,500,000	1,611,000

KMPs' Remuneration Packages

Other than the proposed PRs to be issued, a summary of KMPs' current remuneration is as follows:

Klaus Eckhof – \$130,000 per annum for Executive Chairman's role.

Susmit Shah – Mr Shah's director's fee is set at \$20,000 per annum plus statutory superannuation. Mr Shah's company secretarial services are provided via a related entity, Corporate Consultants Pty Ltd (CCPL). In addition to those company secretarial services, CCPL also provides all office administration, bookkeeping and accounting services to Burey's Perth based corporate office, presently for a monthly fee which is charged on a time basis but capped at \$15,000 per month.

Mark Gasson – \$180,000 per annum as Exploration Manager;

KMPs' Existing Securities Interests

The relevant interests of the KMPs' in existing Securities of the Company (excluding the PRs the subject of Resolutions 3, 4 and 5) are set out below:

	Shares (BYR)	Options (BYRO)	Performance Rights
Klaus Eckhof	-	-	3,500,000
Susmit Shah	2,100,000	1,050,000	5,500,000
Mark Gasson	200,000	100,000	8,000,000

Of the securities listed above, only the performance rights have been issued in the past as part of these KMPs' remuneration packages.

Potential Dilution and Other Information

Based on the 842.6 million Shares presently on issue, the Shares issuable upon exercise of the PRs proposed to be granted to the KMPs (including the two Directors, Messrs Eckhof and Shah) represent a potential dilution of 7% of the (current) issued Shares of the Company.

The Board does not consider that there are any significant opportunity costs to the Company or benefits foregone by the Company in issuing the PRs upon the proposed terms. No stamp duty or fringe benefit tax will be payable in respect of the grant of the PRs. No GST will be payable by the Company in respect of the grant of the PRs (or if it is then it will be recoverable as an input credit). Payroll tax at normal rates may be payable in the future by the Company, subject to the vesting of the PRs.

No funds will be raised from the issue of PRs as the PRs will be issued for nil consideration. Should the PRs convert to Shares on satisfaction of the specified performance hurdles, no consideration will be payable for the issue of the Shares;

The trading history of the Shares on ASX in the 12 months before the date of this Notice is set out below:

	Price	Date
Highest	3.4 cents	19 February 2015
Lowest	1.4 cents	23 December 2015
Last	2.5 cents	15 February 2016

The following information is provided in relation to the proposed issue of PRs to Mr Eckhof and Mr Shah for the purposes of Chapter 2E of the Corporations Act and ASX Listing Rule 10.13 and for the purposes of ASX Listing Rule 7.3 in the case of Mr Gasson:

- (a) The number of PRs (and hence the maximum number of Shares) to be issued to each of Mr Eckhof, Mr Shah and Mr Gasson is 22,500,000. The related parties are Mr Eckhof and Mr Shah, and they are related parties by virtue of being directors of the Company. The financial benefit to be provided to these related parties is the grant of PRs.
- (b) No consideration will be payable by Messrs Eckhof, Shah and Gasson at the time of issue of the PRs or upon vesting thereof into Shares (no loans will be made by the Company in connection with the issue of these PRs or their vesting, if any, into Shares).
- (c) The PRs will be issued, in one single allotment, to the recipients as soon as practicable after the Meeting but no later than one month after the date of the Meeting in the case of Messrs Eckhof and Shah and three months after the date of the Meeting in the case of Mr Gasson (or such later date as permitted by ASX by way of a waiver from the Listing Rules).
- (d) The PRs will have an expiry date of 31 December 2020 and, subject to satisfaction of vesting criteria (detailed elsewhere in this Explanatory Statement), conversion of PRs to Shares may occur in that period.
- (e) In addition to the vesting conditions outlined above, the other terms and conditions of the PRs are provided in Appendix 1 of the Explanatory Statement.
- (f) A voting exclusion statement in respect of Resolutions 3 to 5 is included in the Notice.

Mark Calderwood		2,500,000	2,500,000	5,000,000
Kevin Thomson		2,500,000	2,500,000	5,000,000

The Directors are cognisant of the ASX Corporate Governance Council’s Guideline that non-executive directors should not be awarded equity based incentives as part of their remuneration package. However, the proposed grant of Director Options to the non-executive Directors, Mr Calderwood and Mr Thomson is appropriate in the circumstances and it is a practice that a large number of junior listed companies adopt. The current directors remuneration of Mr Calderwood and Mr Thomson (refer below) is considered modest in comparison to peers. In recognition of the Company’s circumstances and the roles of Mr Calderwood and Mr Thomson, the non-associated Directors Mr Eckhof and Mr Shah consider an award of Options is justified. The purpose of the issue of the Directors Options is to provide Messrs Calderwood and Thomson an incentive for future services and as a reward for past services. The issue of the Directors Options is also intended to ensure that these directors remuneration package is not simply cash fees but rather includes an element that will deliver benefits to them only if shareholders as a whole benefit from an increase in the Company’s share price.

Please refer to Appendix 3 for the detailed terms and conditions of the Directors Options.

Mr Klaus Eckhof and Mr Susmit Shah have no personal interest in these Resolutions and recommend that Shareholders vote in favour of Resolutions 6 and 7 for the various reasons noted in this Explanatory Statement.

The ASX Listing Rules and the Corporations Act 2001 (in certain circumstances) require shareholder approval to be obtained for the issue of securities to directors. Accordingly, approval for the issue of the Directors Options under Resolutions 6 and 7 is sought in accordance with the provisions of Listing Rules 7.1 and 10.11 of the ASX Listing Rules and Part 2E of the Corporations Act 2001. If approval for the issue of the Directors Options is obtained under Listing Rule 10.11, approval is not required under Listing Rule 7.1.

Subject to shareholder approval, the Directors Options to be issued to Mr Mark Calderwood and Mr Kevin Thomson and referred to in Resolutions 6 to 7 will be issued free of charge and within one month after the date of this meeting.

(A) The proposed Resolutions 6 and 7, if passed, will issue securities to and confer financial benefits upon Messrs Calderwood and Thomson who are Directors of the Company and the Company seeks to obtain Shareholder approval in accordance with the requirements of Chapter 2E of the Corporations Act and ASX Listing Rule 10.11. Accordingly, information required under the Listing Rules and the Corporations Act, as well as information that will properly enable Shareholders to consider Resolutions 6 and 7, is presented below.

(B) Potential Benefits – Issue of Directors Options

If the Directors Options are issued pursuant to the Resolutions 6 and 7, the Company considers the following benefits arise:

- (i) Mr Mark Calderwood and Mr Kevin Thomson will have a vested interest in the affairs of the Company, as the holder of options and as a shareholder upon exercise of the options, particularly as the Options are not transferable.
- (ii) The issue of options to Mr Mark Calderwood and Mr Kevin Thomson is a non-cash form of remuneration, thus conserving the Company's cash reserves. The issue enables the Company to provide its directors with reward for services provided and an incentive for future services they will provide to the Company.
- (iii) The exercise of the options will provide working capital for the Company at no significant cost. If all of the options proposed to be issued to Mr Mark Calderwood and Mr Kevin Thomson are ultimately exercised, an amount of A\$450,000 would be raised.

(C) Potential Costs – Issue of Options

The options are to be granted for nil consideration and thus no funds will be raised by the Company in granting those options.

The potential cost to the Company of the issue of an aggregate of 5,000,000 options to Mr Mark Calderwood and 5,000,000 options to Mr Kevin Thomson is that there will be a dilution of the issued share capital of the Company if the options are eventually exercised.

Based on the shares presently on issue of 842.6 million, the issue of 10,000,000 Directors Options represents a potential dilution of 1.17%.

The price of the Company's shares quoted on the ASX over the past 12 months is noted on page 10 of this Explanatory Statement. The \$0.04 and \$0.05 exercise prices of the two tranches of the Directors Options represents a premium of around 60% and 100% respectively to the market price of the Shares at the time of preparation of this Explanatory Statement.

Accounting standard, AASB 2 "Share Based Payments" requires that these payments shall be measured at the more readily determinable fair value of the equity instrument. Under the accounting standard this amount will be expensed in the Income Statement – i.e. the value attributed to Mr Calderwood and Mr Thomson's options (See Section D below) will be expensed in the profit and loss account of the Company. Where the grant date and the vesting date are different the total expenditure calculated will be allocated between the two dates taking into account the terms and conditions attached to the instruments and the counterparties as well as management's assumptions about probabilities of payments and compliance with and attainment of the set out terms and conditions.

(D) Valuation of Options

The Company does not have any ASX-quoted options with identical or similar terms and conditions as the proposed options and as such there is no comparable market value. Each Directors Option grants the holder a right to be allotted one Share upon exercise of the option and payment of the exercise price of the option. Accordingly, the proposed options arguably have a value at the date of their grant. The Directors Options may acquire future value dependent upon the extent to which the market value of Shares exceeds the exercise price of the Directors Options during the term of the Directors Options.

As a general proposition, options to subscribe for ordinary fully paid shares in a company have value. Various factors impact upon the value of options including things such as:

- (i) the period outstanding before the expiry date of the options;
- (ii) the exercise price of the options relative to the underlying price or value of the securities into which they may be converted;
- (iii) the proportion of the issued capital as expanded consequent upon exercise represented by the shares issued upon exercise (ie whether or not the shares that might be acquired upon exercise of the options represent a controlling or other significant interest);
- (iv) the value of the shares into which the options may be converted; and
- (v) whether or not the options are listed (ie readily capable of being liquidated).

There are various formulae which can be applied to determining the theoretical value of options (including the formula known as the Black-Scholes Model option valuation formula).

The Company has estimated the value of the Directors Options using the Black-Scholes Model, which is the most widely used and recognised model for pricing options. The value of an option calculated by the Black-Scholes Model is a function of the relationship between a number of variables, being the share price, the exercise price, the time to expiry, the risk-free interest rate and the volatility of the Company's underlying share price.

Inherent in the application of the Black-Scholes Model are a number of inputs, some of which must be assumed. The data relied upon in applying the Black-Scholes Model in the present case was as follows:

- (i) an exercise price of the Directors Options of \$0.04 each for Tranche 1 and \$0.05 each for Tranche 2;
- (ii) length of period prior to conversion being approximately four years and nine months (up to 31 December 2020);
- (iii) the Company has not forecast any future dividend payments. For the purposes of the analysis, it was assumed that the Company's share price is "ex-dividend";
- (iv) the risk free rate used for the purposes of the analysis is the Reserve Bank of Australia cash rate as at 15 February 2016 being 2%;
- (v) a volatility measure of 95%; and
- (vi) the valuation of the Company's share price being \$0.025, being the closing price of the Shares on the ASX on 15 February 2016 at the time of completing this Explanatory Statement.

Using the Black-Scholes Model and the assumed data outlined above, the Directors Options are valued as follows as at 15 February 2016:

Director	Tranche 1 Directors Options (exercisable at \$0.04 each)		Tranche 2 Directors Options (exercisable at \$0.05 each)		Total Value of Options
	Number	Value (\$)	Number	Value (\$)	\$
Mr Mark Calderwood	2,500,000	40,515	2,500,000	38,244	78,759
Mr Kevin Thomson	2,500,000	40,515	2,500,000	38,244	78,759

(E) Identifying the Related Party

The related party to whom Resolution 6 would permit financial benefits to be given is Mr Mark Calderwood.

The related party to whom Resolution 7 would permit financial benefits to be given is Mr Kevin Thomson.

(F) Financial Benefit

The nature of the financial benefit is the grant of 5,000,000 Options to Mr Mark Calderwood and 5,000,000 Options to Mr Kevin Thomson for no consideration. In the event that Mr Calderwood and Mr Thomson choose to exercise the Directors Options, no loans will be provided by the Company to enable them exercise the Directors Options.

(G) Related Party's Existing Interest

Excluding the options the subject of Resolution 6 and 7, the current interests of Mr Mark Calderwood and Mr Kevin Thomson (and entities associated with them) in the Company's securities are as follows:

Director	Shares	Options (BYRO)
Mr Mark Calderwood	2,609,862	1,000,000
Mr Kevin Thomson	-	-

(H) Director's Emoluments

Other than the proposed Directors Options, the Directors' current remuneration is as follows:

Director	Position	Annual Remuneration
Mr Mark Calderwood	Non-executive Director	\$24,000
Mr Kevin Thomson	Non-executive Director	\$24,000

(I) Directors' Recommendation

Mr Calderwood and Thomson express no opinion and make no recommendation in respect of the resolutions that apply specifically to them. Otherwise, each of the other directors (Messrs Eckhof and Shah) recommend that shareholders approve Resolution 6 and 7 for the reasons set out in this Explanatory Statement, including:

- (i) Mr Calderwood and Thomson will have a vested interest in the affairs of the Company, as the holder of Options and as a Shareholder upon exercise of the Options, particularly as the Options are not transferable;
- (ii) With the difficulties being experienced in the resources sector at present, it is difficult to attract and retain Directors with the skills and experience of Messrs Calderwood and Thomson particularly with the low cash fees that the Company can offer;
- (iii) The quantum of Directors Options for which approval is sought is based on a number of factors, many of which are outlined in the paragraph above; and
- (iv) The issue of Directors Options to Mr Calderwood and Mr Thomson is a non-cash form of remuneration, thus conserving the Company's cash reserves. The issue enables the Company to provide its Directors with reward for services provided and provide an incentive with respect to future services they will provide to the Company to further progress the Company,

and on the basis that, in their opinion, the proposed issue of the Directors Options is fair and reasonable having regard to the terms of the Options.

(J) Other Information

No stamp duty will be payable in respect of the grant of the Directors Options. No GST will be payable by the Company in respect of the grant of the Directors Options (or if it is then it will be recoverable as an input credit). Payroll tax at normal rates may be payable in the future by the Company, subject to the exercise of the Directors Options.

Other than the information above and otherwise set out in this Explanatory Memorandum, the Directors believe that there is no other information known to the Company or its Directors that will be reasonably required by Shareholders to make a decision in relation to benefits contemplated by the proposed Resolution 6 and 7.

A voting exclusion statement is included in the Notice.

5. RESOLUTION 8 – Approval of Issue of Options to Corporate Advisor

Resolution 8 seeks Shareholder approval for the issue of 22,500,000 unlisted Options to Hartleys Limited at an issue price of \$0.00001 per Option to raise up to \$225 (Advisor Options). The Advisor Options will comprise three equal tranches of 7,500,000 with exercise prices of \$0.03 per Tranche 1 Advisor Option, \$0.04 per Tranche 2 Advisor Option, \$0.05 per Tranche 3 Advisor Option and an expiry date of 31 December 2020 for all Advisor Options.

The Company has engaged the services of Hartleys Limited as a corporate advisor to provide advice in relation to equity markets, strategic advice in terms of market positioning and corporate strategy. In consideration for its services, the Company will, subject to Shareholder approval, issue the Advisor Options to Hartleys Limited or its nominee.

The effect of Resolution 8 will be to allow the Company to issue the Advisor Options during the period of 3 months after

the Meeting (or a longer period, if allowed by ASX), without using the Company's 15% annual placement capacity.

Pursuant to and in accordance with ASX Listing Rule 7.3, the following information is provided in relation to Resolution 8:

- (a) the maximum number of Advisor Options to be issued is 22,500,000, in three equal tranches of 7,500,000;
- (b) the Advisor Options will be issued no later than 3 months after the date of the Meeting (or a later date to the extent permitted by any ASX waiver or modification of the ASX Listing Rules) and it is intended that issue of the Advisor Options will occur on the same date;
- (c) the issue price will be \$0.00001 per Advisor Option and the funds raised from the issue will be used for working capital;
- (d) the Advisor Options will be issued to Hartleys Limited or its nominees, none of these subscribers are related parties of the Company; and
- (e) the Advisor Options will be issued on the terms and conditions set out in Appendix 4.

A voting exclusion statement is included in the Notice.

6. RESOLUTION 9 – Approval to issue Shares

The Directors believe it desirable that the Company has the ability to issue up to a further 100,000,000 Shares in the Company to raise capital for continuing exploration at the Giro Gold project and general working capital.

Resolution 9 seeks Shareholder approval for the issue of up to 100,000,000 Shares at an issue price of not less than 80% of the volume weighted average price (VWAP) for Shares calculated over the last 5 days on which sales in the Shares are recorded immediately before the date of issue.

Pursuant to and in accordance with ASX Listing Rule 7.3, the following information is provided in relation to Resolution 9:

- (a) the maximum number of Shares that may be issued is 100,000,000;
- (b) the Shares will be issued no later than 3 months after the date of the Meeting (or such later date to the extent permitted by any ASX waiver or modification of the ASX Listing Rules) and it is intended that issue will occur progressively within that period;
- (c) the issue price will be no less than 80% of the VWAP for Shares calculated over the last 5 days on which sales in the Shares are recorded before the day or days on which the issue is made;
- (d) the Shares issued will be fully paid ordinary shares in the capital of the Company issued on the same terms and conditions as the Company's existing Shares;
- (e) The proposed allottees of the Shares will be investors identified by the Directors. The Company intends (but without limitation) to issue the Shares to sophisticated and professional investors who are exempt from the disclosure requirements of Chapter 6D of the Corporations Act so that any offer of Shares will not require a disclosure document. Related parties of the Company will not be permitted to participate in this issue of securities; and
- (f) the Company intends to use the funds raised for continuing exploration at the Giro Gold Project and for general corporate purposes.

A voting exclusion statement is included in the Notice.

From the time of preparing this material to the date of the Meeting, the Company's Share price may go up or down. The Company will continue to comply with its continuous disclosure obligations and make appropriate announcements to the ASX.

- (c) a selective buy-back or capital reduction is announced in respect of the Company which would result in a person who previously had Voting Power of less than 50% in the Company obtaining Voting Power of more than 50%; or
- (d) a person otherwise lawfully acquires a Voting Power in the Company of more than 50%.

APPENDIX 2 - PERFORMANCE RIGHTS VALUATION – RESOLUTIONS 3, 4 and 5

Resolution 3, 4 and 5 seeks Shareholder approval to issue 22,500,000 PRs to each of Mr Eckhof, Mr Shah and Mr Gasson.

For the purposes of the Explanatory Statement, the PRs have been valued on behalf of the Company using the barrier pricing model taking into account the historical price volatility of the Company and is based on the following assumptions:

- a) current share issue price of \$0.025;
- b) a nil conversion price;
- c) total period of approximately 4 years and 9 months (up to 31 December 2020) after the Meeting for the performance hurdles to be met. The performance hurdles being:
 - Tranche 1 Performance Rights - the Performance Rights will vest and convert into Shares in the event that the Company's Shares trade at a daily volume weighted average price of at least \$0.03 for a consecutive period of at least 10 trading days;
 - Tranche 2 Performance Rights – the Performance Rights will vest and convert into Shares in the event that the Company's Shares trade at a daily volume weighted average price of at least \$0.04 for a consecutive period of at least 10 trading days;
 - Tranche 3 Performance Rights – the Performance Rights will vest and convert into Shares in the event that the Company's Shares trade at a daily volume weighted average price of at least \$0.05 for a consecutive period of at least 10 trading days;
- d) an estimated volatility factor of 95%;
- e) a risk free rate of 2%; and
- f) a nil dividend yield.

Based on the above assumptions, it has been determined that the indicative fair value of each PR (as referred above) is \$0.0244 (Tranche 1), \$0.0239 (Tranche 2) and \$0.0233 (Tranche 3).

The total value of the PRs issued is \$1,611,000 and as attributed between the Directors is as follows (with the balance being attributed to Mr Gasson):

- (i) Klaus Eckhof: \$537,000;
- (ii) Susmit Shah: \$537,000.

Australian accounting standard, AASB 2 “Share Based Payments” requires that the issue of Performance rights shall be measured at the more readily determinable fair value of the equity instrument. Under the accounting standards this amount will be expensed in the Income Statement – ie the value attributed to these Rights as calculated above will be expensed in the profit and loss account of the Company. Where the grant date and the vesting date are different the total expenditure calculated will be allocated between the two dates taking into account the terms and conditions attached to the instruments and the counterparties as well as management's assumptions about probabilities of payments and compliance with and attainment of the set out terms and conditions.

APPENDIX 3

The Directors Options entitle the holder to subscribe for Shares on the following terms:

However, the Company will send a notice to each holder of Directors Options before the record date for any proposed pro-rata issue of capital as may be required under ASX Listing Rules. This will give optionholders the opportunity to exercise their Directors Options prior to the date for determining entitlements to participate in any such issue.
- 7) There is no right to a change in the exercise price of the Directors Options or to the number of Shares over which the Directors Options are exercisable in the event of a new issue of capital (other than a bonus issue) during the currency of the Directors Options.

- 3) The Advisor Options will lapse if Hartleys Limited ceases to provide services to the Company prior to the Expiry Date, subject to term 4 below where the cessation of service is in connection with a Takeover Offer or under a scheme of arrangement. Upon notice of cessation of services, Hartleys shall have a period of 30 days within which to exercise the Advisor Options before the lapse becomes effective.
- 4) The Advisor Options are not transferable except to an offeror under a Takeover Offer or under a scheme of arrangement proposed by the Company, or except with the consent of the Directors of the Company in circumstances where the proposed transfer is to an entity wholly owned and controlled by the optionholder.

This will give optionholders the opportunity to exercise their Advisor Options prior to the date for determining entitlements to participate in any such issue.
