Eclix Group

ASX ANNOUNCEMENT

Eclix Group, FleetPartners Appointed to NSW Government Lessor Panel

Sydney, 4 March, 2016 – Eclix Group, an established leader in vehicle fleet leasing, fleet management and vehicle telematics to corporates and governments in Australia and New Zealand is pleased to announce that the NSW Government has appointed its wholly owned subsidiary, FleetPartners Australia to its panel of vehicle leasing providers to agencies across the NSW Government.

The NSW State Fleet Suppliers Panel is a new initiative by the NSW Government that will have responsibility for providing the Government with fleet leasing for its more than 22,000 vehicle fleet.

Doc Klotz, Chief Executive of Eclix, said: "We are delighted to be partnering with the NSW Government on this innovative scheme to remove the burden of vehicle ownership from the NSW Government and we are well placed to provide innovative financing and vehicle solutions to reduce costs for NSW taxpayers."

"This is another government sector win for Eclix following our announcement last year that we were partnering with the Federal Government owned Clean Energy Finance Corporation to provide financing incentives to corporates and government agencies to choose lower CO² emission vehicles."

"During the past 12 months Eclix has made significant inroads into providing innovative financing and value added vehicle telematics solutions to an increasing number of government bodies across Australia and has a track record of reducing government fleet costs." Doc Klotz added.

Eclix has over \$1.8 billion of fleet assets under management or financed across Australia and New Zealand. Eclix, which listed on the ASX in April 2015, is now one of Australia's largest independent fleet leasing companies.
