

1stAvailable doubles national footprint in the first 8 months of FY16

Highlights

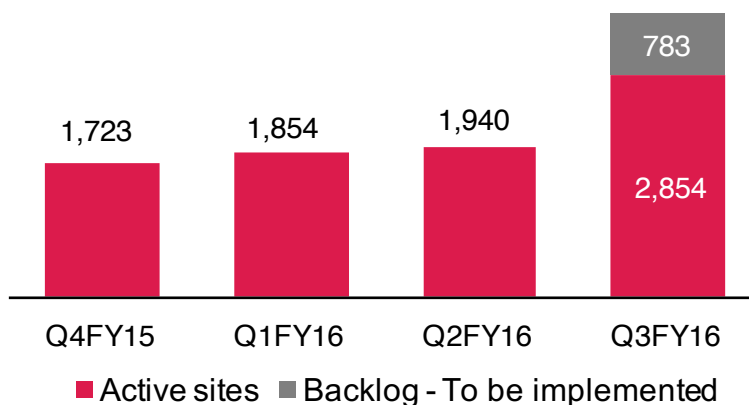

- 1stAvailable doubles total installed locations since listing in June 2015 to 3,637 sites; solidifying a leading market position across Australia in the online healthcare and corporate appointment booking services market
- Practice Management Software (PMS) integrations have increased over 25% to a total of 29 integrations completed
- The new distribution partnerships and integrations provide access to over 55,000 providers in over 15,000 sites/locations
- The agreements and growth in installed locations further validates 1stAvailable’s uniquely differentiated product and value proposition

1stAvailable Limited (ASX: **1ST**) (‘The **Company**’, ‘**1stAvailable**’, or ‘**1ST**’), vision is to build Australia’s leading online health services community through a platform that simplifies and facilitates interaction between all health services stakeholders, enhancing consumer choice, access and outcomes. 1ST is pleased to provide an update on progress achieved in the last 8 months since its IPO listing on the ASX in June 2015.

1ST has established itself as an innovative technology company, with a growing product and services range led by its online healthcare appointment booking capability. So far in FY16 the Company has continued to demonstrate strong demand and market opportunity for its online healthcare appointment booking platform, securing a number of new enterprise customers across both its Private Practice and Corporate & Government divisions, including Primary Health Care’s dental group.

Since listing, 1stAvailable has more than doubled the number of locations (installed sites). Total number of installed sites has increased 211%, from 1723 to 3637 sites today (including the backlog currently being onboarded during March.)

In addition, the Company has signed several new distribution partnership's including with Practice Management Software vendors (PMS), providing access to over 55,000 potential providers and an additional 15,000 sites. The Company has completed 7 new PMS integrations in FY16, bringing the total number of integrations for the Company to 29. These include:

- **EasyVet** [Vet market]
- **CHS** [Vet market]
- **Cliniko** [Allied market]
- **Stat Health** [GP market]
- **Medilink** [GP market]
- **Coreplus** [Allied market]

1stAvailable's solutions continue to be adopted by the market due to its demonstrated ability to realise cost savings, deliver efficiencies and provide improved patient service experience and care.

Managing Director, Klaus Bartosch, commented "The focus for 2016 is very much on accelerated client acquisitions, increasing the Company's market share and penetration within the online healthcare appointment booking sector and then engaging more deeply with our customers and consumers by delivering a range of additional products and services. The strong growth we have seen in the installed base significantly increases our national footprint adding considerable content to our 1stAvailable portal which should drive increased consumer traffic. Our focus on additional and innovative content will continue to drive an improved consumer experience on the 1stAvailable.com.au website portal and further growth in our Corporate & Government SaaS solutions."
