

29 April 2016

ZIPMONEY THIRD QUARTER FY2016 UPDATE

QUARTER HIGHLIGHTS

- Revenue growth of 104% on last quarter including merchant fee revenue growth of 128%
- Transaction volume growth of 67% on last quarter; more than \$23 million originated on platform to date
- Loan book ended the period at \$14.2 million with healthy repayment profile
- Strong positive trend in operating cash flows; cash receipts up 117% on last quarter
- Successful zipPay launch with 40 merchants already onboarded
- Strong traction with lighthouse brands; Thermomix joins the zipMoney platform

FINANCIAL AND OPERATIONAL PERFORMANCE

zipMoney Limited (ASX:ZML) (**zipMoney** or **Company**) is pleased to announce its third quarterly performance update since listing on the ASX on 21 September 2015.

For the quarter ending 31 March 2016, the Company grew its loan book to \$14.2 million, up 59% on the previous quarter on \$8.6 million in new loan originations. This generated revenue of approximately \$858,264, up 104% on the previous quarter.

The quarter also saw active customers across the platform increase to more than 15,000 with an average drawn balance of \$950. There was \$32 million in aggregate credit capacity with a 44% utilization rate and an average account limit of \$2,100 per customer.

* Based on unaudited financials and transaction volume

Managing Director and CEO Larry Diamond said “It was a pleasing result for the quarter. Our scalable technology platform is largely fixed cost so marginal revenue is increasingly profitable. We are beginning to see the early dividends of our continued investment in product and technology as well as our

salesforce. We have invested significantly in the pipeline and we expect more lighthouse brands like Thermomix to join the zipMoney platform in the next quarter.”

MERCHANT UPDATE

At the end of the quarter zipMoney had over 1,000 merchant locations throughout Australia both online and in-store. These range across retail including fashion & accessories, consumer electronics, home, sports and outdoors, auto, health services and online education markets.

A short highlight of those companies that joined the platform in the March quarter is provided below.

National Sales Manager Craig Dufficy said “We are pleased with the strong growth in merchants over the quarter. A strong brand, positive network effects, clear product-market fit and our emerging reputation as a customer-friendly provider are all driving rapid growth. We would like to welcome all new merchants to the zipMoney platform and look forward to adding more in the next quarter.”

ZIPPAY UPDATE

In the March quarter, zipMoney launched zipPay, its ‘no interest ever’ digital wallet product. zipPay is a safe, simple and convenient payment option that lets customers shop online and pay later for their purchases with no credit card and no interest ever. The product was specifically designed to target lower dollar average selling prices with a focus on the fashion, accessories and hospitality end-markets. Since its launch zipMoney has onboarded more than 40 merchants with initial results being very positive.

Managing Director and CEO Larry Diamond said, “We have seen a very strong response from our initial launch of zipPay. Some of the numbers have been very exciting, such as increases in basket size up to 60% and conversion rates of 25% versus other payment tenders. The pipeline is also very strong.”

A short highlight of those companies to offer zipPay in the March quarter is provided below.

LOAN BOOK UPDATE

As at 31 March 2016, the zipMoney loan book was approximately \$14.2 million, having grown ~60% over the previous quarter. The repayment profile continues to remain healthy at approximately 9-10% (of period end book) over the quarter.

The credit performance of the loan book continues to perform in line with internal management projections. The reported arrears rate was 1.78% and zipMoney wrote off \$72,710 for the quarter in bad debts.

Executive Director & COO Peter Gray said “The quality of our loan book and low reported arrears reflects continued investment in our robust fraud and credit decisioning technology. We are seeing significant growth in revenues as a result of the \$100 million Victory Park funding facility and strong performance of the loan book. We expect further growth as we take advantage of our scalable business model.”

CORPORATE

During the quarter, the Company received cash receipts of \$0.8 million, which was an increase of 117% over last quarter. Higher staff costs and working capital reflected the growth in our salesforce driving increased merchant acquisition. The Company continues to enjoy strong economies of scale from our team as a result of the ongoing investment in our 100%-owned proprietary technology. There was a strong improvement in operating cashflows for the quarter driven by higher cash receipts and borrower repayments. Cash at end of quarter was \$4.1 million, inclusive of \$1.6 million in restricted cash.

Notes

1. The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
2. The definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report except for any additional disclosure requirements requested by AASB 107 that are not already itemised in this report.
3. **Accounting Standards.** ASX will accept, for example, the use of International Financial Reporting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.

+ See chapter 19 for defined terms.
