CLASS LIMITED (CL1) ASX ANNOUNCEMENT

Class signs wealth accounting group, FINDEX

Class and Findex have signed the largest single contract for cloud-based SMSF software services. The groundbreaking deal is expected to see over 8,000 SMSFs loaded onto Class over the next couple of years.

After an extensive evaluation of available solutions, Findex identified Class Super as the cloud solution best positioned to meet the needs of the organisation by providing innovative online and mobile access for their clients and roll-out of cost efficient processes across the group. This will allow them to accelerate growth plans and extend their position as one of the largest SMSF administration providers in Australia.

Findex CEO, Spiro Paule said: "We are committed to FinTech – it is in Findex's DNA to harness technology to provide better and timelier services for our clients. The contract with Class will enable us to streamline the financial services experience for our clients and extend their access to high quality services."

Class CEO, Kevin Bungard added: "Class is thrilled to be able to provide software to such an innovative industry leader. Findex have impressive growth plans and we're confident that the Class Super technology along with the group's extensive adviser network, and track record will enable them to deliver on those ambitions."
