We (the entity) give ASX the following information.

Part 1 - All issues

You must complete the relevant sections (attach sheets if there is not enough space).

- | | | |
|---|---|--|
| 1 | +Class of +securities issued or to be issued | Securities issued to certain lenders of the Company under the Company's Syndicated Facility Agreement (" Facility ") which may entitle those lenders to ordinary shares in the Company on the terms described in item 3 (" Warrants ") |
| 2 | Number of +securities issued or to be issued (if known) or maximum number which may be issued | Warrants for the issuance of up to an expected maximum of 21,987,678 ordinary shares which reflect the terms described in item 3. The maximum number of ordinary shares that may be issued under the Warrants has been calculated based on a notional maximum theoretical uplift in share price, and (A) the Company's current number of ordinary shares on issue; and (B) the spot AUD/GBP exchange rate of 0.523 AUD/GBP as at 29 April 2016. The expected maximum number of ordinary shares that may be issued under the Warrants represents approximately 6.24% of the Company's current ordinary shares on issue. |

3	Principal terms of the +securities (e.g. if options, exercise price and expiry date; if partly paid +securities, the amount outstanding and due dates for payment; if +convertible securities, the conversion price and dates for conversion)	<p>The Warrants provide for a placement of ordinary shares on the refinancing or maturity of the Facility by reference to any uplift in the market capitalisation of the Company from 29 April 2016 to the date of such refinancing or maturity. Accordingly, based on the lenders' current level of commitments, the maximum expected dilutive impact of ordinary shares issued to warrant holders is approximately 6.24% of the current issued ordinary shares in the Company.</p> <p>The actual number of ordinary shares issued under the Warrants will, in respect of those lenders who hold Warrants, depend on each lender's share of the total commitments provided to the Company at the date of issuance of the ordinary shares. (Commitments are denominated in either GBP and AUD, and uplift in market capitalisation will be calculated and denominated in AUD).</p>

Subtract “C” <i>Note: number must be same as shown in Step 3</i>	21,987,678
Total [“A” x 0.15] – “C”	30,869,012 <i>[Note: this is the remaining placement capacity under rule 7.1]</i>
