About Superloop

Established in 2014, Superloop is quickly becoming one of the leading independent providers of interconnection services in the Asia Pacific Region.

The Company owns and operates fibre networks in Australia and Singapore spanning over 300km and connecting over 48 of the regions' key data centres. The network is continually expanding with further extensions currently underway to connect the Singapore Exchange, iO and NTT data centres in Singapore.

In Hong Kong, Superloop is establishing a 110 km fibre optic network connecting 25 data centres as well as the Hong Kong Stock Exchange, and is on track to commence operations in December 2016. Additionally, the Company is also constructing TKO Express, the first submarine cable to connect the traditional carrier hotels located in Chai Wan on Hong Kong Island and the data centre campus located at Hong Kong Science and Technology Park's Tseung Kwan O Industrial Estate, providing much needed physical diversity and a lowest latency path between Hong Kong's major finance and technology hubs.

The group also operates acquired businesses, APEXN and CINENET in Australia.
