BSA Awarded Five Year nbn™ Network Telecommunications Infrastructure Contract

Sydney, 14th July 2016: BSA Limited (ASX:BSA) and nbn co limited (**nbn**) today announced the signing of a significant five year telecommunications infrastructure contract.

During the first year, revenue is expected to reach \$50 million, complementing the significant nbn Operations and Maintenance contract awarded to BSA in December 2015.

BSA will deliver HFC Deployment Services in Brisbane and Melbourne, under the Multi-technology Integrated Master Agreement (MIMA), commencing in August 2016. The MIMA covers the architecture solutions required to deploy nbn's fixed line broadband network including Fibre to the Premise (FTTP), Fibre to the Node (FTTN), Fibre to the Basement (FTTB), Copper Works and Hybrid Fibre Coax (HFC).

Nicholas Yates, Managing Director and Chief Executive Officer welcomed the additional contract with nbn.

"BSA's experienced and capable telecommunications team is moving from strength to strength. We are committed to building on the relationship with nbn and reinforcing BSA's position as a premier provider in this market. We look forward to continuing to work together with nbn and exploring new opportunities to support Australia's transition to a digital future." said Mr Yates.
